Supplemental Disclosure of Cash Flow Information

1. NATURE AND CONTINUANCE OF OPERATIONS

Simba Energy Inc. (the "Company" or "Simba") was incorporated under the laws of the Province of British Columbia. Its principal business activity includes the acquisition and exploration of resource properties. The Company's registered office is at Suite 210, 905 West Pender Street, Vancouver, British Columbia, V6C 3L6.

The Company is in the process of exploring its resource properties and has not yet determined whether the properties contain reserves that are economically recoverable. The recoverability of the amounts shown for resource properties is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of those reserves and upon profitable production.

These condensed interim consolidated financial statements have been prepared assuming the Company will continue on a going-concern basis. This assumes that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of operations. Management is actively targeting sources of additional financing through alliances with financial, exploration and evaluation entities, or other business and financial transactions which would assure continuation of the Company's operation and exploration programs. In order for the Company to meet its liabilities as they come due and to continue its operations, the Company is solely dependent upon its ability to generate such financing.

The Company has incurred losses since inception and the ability of the Company to continue as a going-concern depends upon its ability to develop profitable operation and to continue to raise adequate financing. There can be no assurance that the Company will be able to continue to raise funds, in which case the Company may be unable to meet its obligations. Should the Company be unable to realize its assets and discharge its liabilities in the normal course of business, the net realizable value of its assets may be materially less than the amounts recorded on the statements of financial position. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amount and classification of liabilities that might be necessary should the Company be unable to continue in existence.

	March 31, 2015	June 30 2014
Deficit	$ (23,702,637)	$ (22,535,006)
Working capital (deficiency)	(839,654)	(1,315,726)

2. COMPLIANCE AND SIGNIFICANT ACCOUNTING POLICIES

The condensed interim consolidated financial statements are prepared in accordance with IAS 34 "Interim Financial Reporting of the International Financial Reporting Standards ("IFRS"). The condensed interim consolidated financial statements were approved by the board of directors on May 28, 2015.

The condensed interim consolidated financial statements are presented in Canadian dollars unless otherwise noted. The financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant intercompany balances and transactions were eliminated upon consolidation.

The company's subsidiary companies included in this consolidation are as follows:

	Country of Incorporation	Percentage of ownership as of March 31 2015	Percentage of ownership as of March 31 2014
Simba Energy Liberia Inc.	Liberia	90%	90%
Simba Energy Fze.	Dubai	100%	100%
Simba Africa Rift Energy Ltd.	Kenya	100%	100%
Simba Energy (UK) Ltd.	U.K.	100%	100%

These condensed interim financial statements do not include all the notes required for full annual financial statements.

The significant accounting policies for the periods are consistent with those disclosed in the audited annual financial statements of the Company for the year ended June 30, 2014. The accompanying unaudited condensed interim consolidated financial statements should be read in conjunction with the Company's audited annual financial statements for the year ended June 30, 2014.

A number of new standards and amendments to standards and interpretations are not yet effective for the period ended March 31, 2015 and have not been applied in preparing these financial statements. Additionally, there were a number of new standards and amendments to standards and interpretations that came into effect subsequent to the annual statements. However, none of these new accounting pronouncements had any impact on the preparation of these financial statements.

(a) Kenya

In August 2011, the Company was awarded a Production Sharing Contract ("PSC") by the Government of Kenya covering Block 2A, which overlies the southern tip of the Mandera Basin in the northern part of the country.

Work programs were undertaken in the last quarter of fiscal 2013 and during the year ended June 30, 2014, the Company entered into an agreement with Bell Geospace to conduct a comprehensive airborne FTG (Full-Tensor Gradiometry) survey on Block 2A. The program was completed in May 2014. There are work commitments (Note 8) required to keep the PSC in good standing. During the year ended June 30, 2014, a $200,000 bond that was previously deposited with the Ministry of Energy and Petroleum (Kenya) was returned to the Company.

(b) Guinea

In July 2011, the Company signed an agreement to acquire a 60% interest in an issued PSC for Blocks 1 & 2 onshore in the Republic of Guinea's Bove basin. The Company will undertake 100% of the program costs for the first year and 60% of the program costs from the second year and thereafter. On May 24, 2012, the Company received final approval for its 60% owned PSC for Blocks 1 & 2. The Company has fulfilled its work obligations to date and is in current negotiations with the Government regarding 100% ownership of the PSC and revising the work program going forward. Approval of this increase is expected within calendar 2015.

The Company's work program has been delayed pending a reduction in the outbreak of a contagious disease.

(c) Chad

On October 18, 2012, the Company formally executed a "Protocole d'Accord" with the Republic of Chad which granted the Company a 100% interest in PSCs on 3 prospective oil and gas concessions. The concession was finalized in October, 2012 and it calls for an exploration phase of 5 years and a second exploration phase of 3 years. On June 25, 2013, the Company was advised by the Government of Chad that the PSCs were formally ratified. The Company has not yet completed payment of a signature bonus to the Government of Chad and, accordingly, is in default under the terms of the PSC. The Company is currently in negotiations with the Government in regards to the signature bonus payable under the terms of the PSC and expects to have the issue ratified in calendar 2015.

There are 3 PSC's involved in Chad, covering the Doba, Doseo and the Erdis basins. The Doba and Doseo basins are in the south of Chad while the Erdis basin is in northern Chad near the Libya border.

(d) Liberia

The Company, through its 90% owned subsidiary, Simba Energy Liberia Inc., acquired a Hydrocarbon Reconnaissance License covering an onshore area in Liberia. The Hydrocarbon Reconnaissance License expired in February 2011 and the Company has made application for a Production Sharing Contract ("PSC") in Liberia, and until the PSC is granted, there is no exploration commitment. The Company has fulfilled its obligations and is awaiting a final meeting and final approval from the National Oil Company of Liberia's Board of Directors.

4. PLANT AND EQUIPMENT

	March 31, 2015			June 30, 2014

	$ 237,849	$ 74,854	$ 162,995	$ 205,054

5. ACCOUNTS PAYBLE AND ACCRUED LIABILITIES

	March 31 2015	June 30 2014
Accounts payable	$ 639,074	$1,245,682
Accrued liabilties	130,000	140,000
	$ 769,074	$1,387,696

6. SHORT TERM LOANS

Short terms loans are on demand. Subsquent to the period end, ½ of the loans have been repaid.

7. TAXES PAYABLE AND FLOW THROUGH SHARES ISSUED

Pursuant to a flow-through share issuance completed in May 2008 consisting of 3,075,000 flow-through units at $0.20 per unit, there was an obligation to spend $615,000 on qualified flow-through expenditures on or before February 5, 2010. With the Company's focus in Africa, expenditures were not incurred as planned, creating a shortfall of $542,556. The Part XII.6 tax payable arising as a result was paid during the 2013 fiscal year.

Under the subscription agreement, the Company has an obligation to indemnify the subscriber for the tax reassessment that may arise and the Company has accrued a flow-through shareholder tax liability of $125,127 (June 30, 2014 and March 31, 2014 - $125,127).

8. SHARE CAPITAL

(a) The authorized capital of the Company consists of an unlimited number of common shares without par value

During the nine months ended March 31, 2015, the Company completed the following share transactions:

On February 11, 2015, the Company completed a non-brokered private placement by issuing 15,000,000 share units at $0.03 each for gross proceeds of $450,000. Each unit consists of one common share and one-half of a non-transferable common share purchase warrant, with each full warrant exercisable for a period of two years at a price of $0.05 per share. No finders' fees were paid in connection with this issuance and no value was attributed to the warrants as a component of the share units.

On July 30, 2014, the Company completed its second tranche of a non-brokered private placement by issuing 32,129,809 share units with each unit consisting of one common share and one share purchase warrant. Each warrant is exercisable for a period of four years and can be exercised into one additional common share at a price of $0.10 during the first two year period and at a price of $0.15 for the next two year period. The Company paid finders'fees of $49,500. Of the total gross proceeds of $1,927,789, the Company settled debt of $507,075 by issuing 11,927,693 share units to various creditors. No value was attributed to the warrants issued as a component of the share units.

When added to the first tranche (completed June 30, 2014 and described below) the share units issued total 54,118,009 and the total gross proceeds are $3,247,081.

300,000 share units were later cancelled for non-payment.

During the year ended June 30, 2014, the Company completed the following share transactions:

On June 30, 2014, the Company completed the first tranche in a private placement share offering whereby the Company issued 21,988,200 share units at a price of $0.06 per unit, with each unit consisting of one common share and one share purchase warrant. Each warrant is exercisable for a period of four years and can be exercised into one additional common share at a price of $0.10 during the first two year period and at a price of $0.15 for the next two year period. The Company paid finders' fees of $14,200. Of the total gross proceeds of $1,319,292, the Company settled debt of $715,662 by issuing 11,927,693 share units to various creditors. No value was attributed to the warrants issued as a component of the share units.

On February 14, 2014, the Company completed shares for debt transaction whereby it issued 1,181,243 shares at a price of $0.06 thereby extinguishing $70,874 in debt.

(b) Stock options

The Company has adopted an incentive stock option plan (the "Plan"). The essential elements of the Plan provide that the aggregate number of shares of the Company's capital stock issuable pursuant to options granted under the Plan may not exceed 10% of the Company's issued and outstanding shares at the date of grant of options. Options granted under the Plan may have a maximum term of five (5) years. The exercise price of options granted under the Plan will not be less than the market price of the shares (defined as the last closing market price of the Company's shares immediately preceding the issuance of a news release announcing the granting of the options) or such other price as may be agreed to by the Company and accepted by TSX Venture Exchange. Options granted to persons acting in investor relations vest at the rate of 25% on date of grant and 25% every three months thereafter. All other options vest on grant.

A summary of the status of the Company's outstanding stock options as at March 31, 2015 is as follows:

Options	Number exerciseable	Number outstanding	Weighted average remaining contractual life (in yrs)
As At March 31, 2015			
$0.06	11,800,000	11,800,000	4.90
$0.10	350,000	350,000	1.67
$0.12	500,000	500,000	2.15
$0.13	3,850,000	3,850,000	2.28
$0.15	200,000	200,000	0.14
	16,700,000	16,700,000	4.09

The following is a summary of stock option transactions during the nine months ended March 31, 2014 and the year ended June 30, 2014:

	For the 9 months ended Dec 31, 2014	Weighted average exercise price	For the year ended June 30, 2014	Weighted average exercise price
Balance, beginning of period	4,900,000	$ 0.13	17,255,000	$ 0.14
Granted	11,800,000	0.06	-	-
Expired	-	-	(9,535,000)	0.15
Cancelled	-	-	(2,820,000)	0.15
Balance, end of period	16,700,000	$ 0.08	4,900,000	$ 0.13

(c) Share-based compensation

For stock options granted to employees, officers, directors and consultants, the Company recognizes as an expense the estimated fair value of the stock options granted. The fair value of each stock option granted is estimated on the date of grant using the Black Scholes option pricing model.

During the nine month period ended March 31, 2015, share-based compensation of $171,456 was recognized and included in reserves. There was no share-based compensation during the year ended June 30, 2014.

The Black-Scholes valuation model was developed for use in estimating the fair value of traded options which are fully transferable and freely traded. In addition, option valuation models require the input of highly

subjective assumptions including the expected stock price volatility. Because the Company's stock options have characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the existing models do not necessarily provide a reliable single measure of the fair value of its stock options. The following assumptions were used in determining the share-based compensation recognized in the nine month period ended March 31, 2015:

Risk-free interest rate	1.1%
Expected life of options	5 years
Annualized volatility	123.28%
Dividend rate	0%

(d) Warrants

The changes in warrants during the nine months ended March 31, 2015 and the year ended June 30, 2014 were as follows:

	For the 9 months ended Mar 31, 2015	Weighted average exercise price	For the year ended June 30, 2014	Weighted average exercise pric
Balance, beginning of year	21,988,200	$ 0.10	54,816,750	$ 0.16
Warrants sold with shares	39,629,809	0.09	21,988,200	0.10
Warrants cancelled	(300,000)	0.10	-	-
Warrants expired	-	-	(54,816,750)	0.16
Balance, end of year	61,318,009	$ 0.09	21,988,200	$ 0.10

61,318,009	$ 0.09	

9. COMMITMENTS AND CONTINGENCIES

The Company has the following future commitments:

(a) Office lease

The Company has entered into an agreement to lease office space effective July 1, 2012 until June 30, 2017. The monthly net requirements under the lease are as follows:

	Minimum lease Required	Sub Lease	Net monthly Obligation
For the year ended June 30, 2015	$8,103	$3,810	$4,293
2016	$8,103	$3,810	$4,293
2017	$8,103	$3,810	$4,293

(b) Work commitments

The terms of certain of the Company's PSCs require the Company to make payments and undertake exploration expenditures in order for the contracts to remain in good standing. In Kenya (Note 5), the contract stipulates that US $700,000 and US $8,900,000 must be spent in the first and second year of its term. The Company has met the requirement for the first year work commitment, and is currently in negotiations with the Kenyan authorities on extending the term for completion of the second year exploration requirements, which have not been met as at March 31, 2015. The contract stipulates additional exploration expenditure requirements under a first and second additional exploration period, but these amounts are also under renegotiation.

In Chad (Note 3), there is a signature bonus payment required under the terms of the contract. The amount has not been paid as at March 31, 2015, and the Company is currently in default of the contract. The details of the signature bonus are currently being negotiated with the Government of Chad.

(c) Lawsuit

The Company was served with a letter from the counsel of a creditor demanding the payment of $37,500 allegedly outstanding with respect to payment for services rendered. The Company will defend this claim and considers this claim without merit. No amount has been accrued as at March 31, 2015 or June 30, 2014 and there has been no activity since June 30, 2012.

10. RELATED PARTY TRANSACTIONS

The amounts below represent related party transactions occurring during the nine months ended March 31, 2015 and 2014.

The remuneration of the Company's key management personnel for nine months ended March 31, 2015 and 2014.

Nine months ended March 31	Note		2015		2014
