

GNCC CAPITAL, INC.

SUPPLEMENTAL INFORMATION FILING

REDUCTION IN INTEREST CHARGES FOR THE PERIOD AUGUST 1, 2015 TO JANUARY 31, 2016

AUGUST 8, 2015

BACKGROUND:

The Company currently has interest bearing liabilities in the form of Convertible Loan Notes, Loan Accounts and various Classes of Shares of Convertible Preferred Stock. The interest rates payable on these various instruments range from 3% to 16% per annum.

AMENDMENTS TO INTEREST RATE CHARGES:

The Company has secured undertakings from the holders of all of these instruments that for a 6 (Six) month period, commencing on August 1, 2015 and terminating on January 31, 2016, that the interest rate charged in respect of these various liabilities from time to time, and for that period, will be reduced to 3% (Three percent) per annum and on all of the Company's interest bearing liabilities.

This interest rate reduction obviously excludes any other potential interest bearing liabilities that the Company may incur in that six month period.

RATIONALE FOR THIS REDUCTION:

The Company is at present, finalizing a re-organization of its Mining Exploration interests and is actively seeking acquisitions in unrelated sectors as previously stated. A reduction in interest charges for this six month period substantially reduces the company's losses and the corresponding increase in the company's long term liabilities; this being considered as extremely unfavorable during this transient period.

EFFECT UPON FINANCIAL STATEMENTS:

The Third Quarter ending June 30, 2015 will be unaffected. In the Fourth Quarter ending September 30, 2015, the First Quarter ending December 31, 2015 and in the Second Quarter ending March 31, 2016, the interest charges will be materially reduced.

DATED: AUGUST 8, 2015

RONALD YADIN LOWENTHAL
