

Notice of Late Filing

Name of Company: Yippy, Inc.

Type of Report: Quarterly Report for Period Ended 11/30/2017

Filing Status: Late

Reason for Late Filing: Yippy, Inc. (the “Company”) was not able to complete and timely file its Quarterly Report for the period ended November 30, 2017, because certain accounting and documentation work required for the completion of the review of the Company’s financial statements could not, without unreasonable effort or expense, be prepared and provided to the Company’s independent accountants early enough to allow for the completion of the legal review of the financials statements prior to the prescribed due date. Thus, the company requires additional time as requested by our accounting and management team to properly complete and file its Quarterly report for the period ended November 30, 2017.

Anticipated Date of Filing: February 2, 2018
