

OTC Link Business Continuity Plan Statement

OTC Link LLC, a wholly owned subsidiary of OTC Markets Group Inc., is committed to providing our subscribers with a reliable and secure system to access the OTC market. OTC Link LLC has developed a contingency plan that will permit it to continue to operate in the event there is a significant business disruption affecting its systems. The plan is designed to help ensure our subscribers will continue to have access to our interdealer quotation system.

Contacting OTC Link – After a significant business disruption, you can contact us at (800) 547-8682. If you are unable to reach us via telephone you can contact us via email at Link@otcmarkets.com

OTC Link's Business Continuity Plan addresses the recovery of technology systems. A significant disruption in our primary data center will result in a transition to systems at an alternate data center.

Although we have taken steps to develop and implement sound business recovery practices, after a significant business disruption clients may experience service interruptions, reduced services or reduced access as the firm recovers.

For additional information about our business continuity planning, you can contact us at OTCLinkcompliance@otcmarkets.com or you can obtain a current version of this statement by writing to us at OTC Link LLC, Compliance Department, 304 Hudson Street, 2nd Floor, New York, NY 10013
