

## OTC Markets RSS Feed

### XML Document Structure & User Guide

Version 1.2

February 2014

#### RSS Tag Definitions

RSS Tag	Definition
<item> </item>	New Record indicator
<title></title>	Record Title – Format is Company Name, Symbol, Tier and record detail (e.g. report type)
<link></link>	Link to financial report, news release or corporate action page
<description> </description>	Descriptive text regarding the record
<pubDate> </pubDate>	Publish Date
<guid> </guid>	Unique Identifier for the record – the id at the end of the url string will be unique for financial reports and new releases. The index+symbol+actiondate will be unique for corporate actions.
<author></author>	Record Author – this will always be 'OTC Markets Group'
<category></category>	Company Name
<pink:symbol></pink:symbol>	Symbol associated with Company
<pink:type></pink:type>	Notes the record type. Possible values are filing, news, action, and video. Filing = Financial Reports News = News Releases Action = Corporate Actions Video = Videos
<pink:tier></pink:tier>	OTC Market tier associated with Symbol
<pink:source></pink:source>	Notes the source application of the news release. Possible values include: PRNS: PR Newswire OTCM: OTC Markets – OTCM Distribution Only IQ-PRNS: OTC Markets - Also Distributed on PR Newswire  Tag is only sent for 'news' record type
<pink:periodDate></pink:periodDate>	Period End Date for financial report.  Tag is only sent for the 'filing' record type.
<pink:filingType></pink:filingType>	Financial report type. Id value in tag notes the type code – e.g. id = QR for Quarterly Report.  Tag is only sent for the 'filing' record type.
