Executive Overview

After the change in control, our business model is focused to provide the financial community with highly advanced, proprietary, neural trading models. Our state-of-the-art, trainable, algorithms emulate aspects of the human brain, providing our algorithms with a self-training ability to formalize unclassified information and thus develop an enhanced ability to make forecasts based on the historical information and other data available at their disposal. Our Neural networks do not make forecasts. Instead, they analyze price data and uncover opportunities. Using our proprietary neural network, trade decisions are made based on thoroughly analyzed data (which is not generally possible when using traditional technical analysis methods). NAHD offers a series of "Next-Generation" tools that can detect subtle non-linear interdependencies and patterns that other methods of technical analysis are unable to uncover. NAHD offers trading software solutions to clients on the basis of a "Software as a Service (SaaS)" licensing and delivery models with licensed users availing themselves of a service-based contractual arrangements. In addition, NAHD utilizes its in-house proprietary neural trading models to trade its own funds, thus providing added value to its shareholders. The NAHD team's proprietary trading models are developed by professional engineers in communications, electronic circuitry design and financial engineering. This diverse team is the key factor of our successful development of non-traditional and innovative trading models. Our systems, which bring a proven, rigorously tested, track-record, are designed to take intelligent positions as the market moves/changes. Our proprietary algorithmic trading systems generate superior, risk adjustable, returns for our clients.

Results of Operations

We had no revenue for the three months ended March 31, 2015, or for the same period ended March 31, 2014.

Operating expenses were \$27,773 for the three month period ended March 31, 2015, and consisted primarily of general and administrative expenses, professional fees. This compares with operating expenses for the three month period ended March 31, 2014 of \$17,836, which also primarily consisted of professional fees and , general and administrative expenses, but also included consulting fees. The material increase in such expense in the first quarter of 2015 were related to increased legal and accounting fees in connection with our change in control.

As a result of the foregoing, we had a net loss of \$27,773 for the three month period ended March 31, 2015. This compares with a net loss for the three month period ended March 31, 2014 of \$17,834.

After the change in control, the Company is focused on a new business model, as described above. We expect that we will need to raise additional funds to support the expansion of our new business model, including the acquisition of proprietary technologies, working capital to support the implementation of new projects , or for the acquisition of complementary businesses or technologies, or if we must respond to unanticipated events that require us to make additional investments. We cannot assure that additional financing will be available when needed on favorable terms, or at all.

We expect to undertake some near-term acquisitions that would result in the generation of revenues, however, notwithstanding these developments we expect to incur operating losses through the balance of this year because we will be incurring expenses and not generating sufficient revenues. We cannot guarantee that we will be successful in generating sufficient revenues or other funds in the future to cover these operating costs. We expect to cover such shortfall in operating margins through advances from our principal shareholder and other fund-raising measures that the Company deems appropriate.

Liquidity and Capital Resources.

As of March 31, 2015 we had cash of \$1,772, compared to no cash or cash equivalents at December 31, 2014.

We had net cash provided by operating activities for \$1,772 for the three month period ended March 31, 2015, \$9,965 of net cash used for operating activities for the three month period ended March 31, 2014. The change resulted from our increased net loss during the period .

We had no cash flows from financing activities or Investing activities during the three month periods ended March 31, 2015 and 2014.

Off-Balance Sheet Arrangements

We have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to stockholders.

Future Financings

We will continue to rely on advances from our principal shareholder as well as from other sources of financing, including private placements of our common shares in order to continue to fund our business operations. Issuances of additional shares will result in dilution to existing stockholders. There is no assurance that we will achieve any additional sales of the equity securities or arrange for debt or other financing to fund our operations and other activities.

Critical Accounting Policies

Our financial statements and accompanying notes have been prepared in accordance with United States generally accepted accounting principles applied on a consistent basis. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

We regularly evaluate the accounting policies and estimates that we use to prepare our financial statements. A complete summary of these policies is included in the notes to our financial statements. In general, management's estimates are based on historical experience, on information from third party professionals, and on various other assumptions that are believed to be reasonable under the facts and circumstances. Actual results could differ from those estimates made by management.

Recently Issued Accounting Pronouncements

The Company has implemented all new accounting pronouncements that are in effect. These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.
