**Item 8.01 Other Events**

On Tuesday June 16, 2015, Loan Crowdfunding was launched by our wholly owned subsidiary, Symbid Holding B.V. The launch of this new peer-to-business lending service is intended to complement our existing Equity Crowdfunding service and support the development of our online funding platform for start-ups and small businesses, The Funding Network. Based on our existing crowdfunding technology, Loan Crowdfunding by Symbid will enable established businesses with at least 3 years of activity and positive cash flows to borrow money from a large group of investors, the “crowd”.

This new service will operate through a transaction-based model similar to our current Equity Crowdfunding service. There is a fixed 1% success fee upon the successful funding of a loan crowdfunding campaign, paid by the business, plus 1% per year of the loan immediately payable upon successful closing of the campaign. In addition, investors will be charged a flat 1% administration fee.

As of May 29, 2015, Symbid is fully regulated by the Dutch Financial Markets Authority. Symbid obtained an exemption for mediation in redeemable funds from the Financial Markets Authority to offer this new loan crowdfunding product to the market.

The service will make use of our monitoring technology to provide investors ongoing insights into the performance of the business to which they have lent money. All businesses funded via Loan Crowdfunding will therefore be required to register for Monitoring by Symbid for one full year via a monthly-based subscription model.

Loan Crowdfunding by Symbid will use an independent risk scoring model, INRISC, developed by risk and treasury management firm Catena Investments, a subsidiary of Zanders. Symbid Holding B.V. has therefore entered into an agreement with Catena Investments to provide its automated credit risk scoring and pricing service. INRISC will assess the credit risk of Loan Crowdfunding investment opportunities using data provided by Monitoring by Symbid. This data is, in turn, streamed via accountant reporting systems.
