FORWARD-LOOKING INFORMATION

This Quarterly Report on Form 10-Q of NuZee, Inc. contains “forward-looking statements” that may state our management’s plans, future events, objectives, current expectations, estimates, forecasts, assumptions or projections about the company and its business. Any statement in this report that is not a statement of historical fact is a forward-looking statement, and in some cases, words such as “believes,” “estimates,” “projects,” “expects,” “intends,” “may,” “anticipates,” “plans,” “seeks,” and similar expressions identify forward-looking statements. Forward-looking statements involve risks and uncertainties that could cause actual outcomes and results to differ materially from the anticipated outcomes or results. These statements are not guarantees of future performance, and undue reliance should not be placed on these statements. It is important to note that our actual results could differ materially from what is expressed in our forward-looking statements due to the risk factors described in the section of our Form 10-K filed on February 12, 2015 entitled “Risk Factors.”

We undertake no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise.

Nuzee, Inc.
NOTES TO FINANCIAL STATEMENTS
(Unaudited)
June 30, 2015

1. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying unaudited interim financial statements of Nuzee, Inc. have been prepared in accordance with accounting principles generally accepted in the United States of America and rules of the Securities and Exchange Commission, and should be read in conjunction with the audited financial statements and notes thereto contained in the Company's annual report on Form 10-K for the initial period ended September 30, 2014 as filed with the SEC. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the consolidated financial statements which would substantially duplicate the disclosure contained in the audited financial statements as reported in the annual report on Form 10-K have been omitted.

Going Concern

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, which contemplates continuation of the Company as a going concern. The Company has had recurring losses, large accumulated deficits, is dependent on the shareholder to provide additional funding for operating expenses and has no recurring revenues. These items raise substantial doubt about the Company's ability to continue as a going concern.

Stock based payments

The Company accounts for equity instruments issued to employees in accordance with ASC 718 "Stock Compensation". Under this guidance, stock compensation expense is measured at the grant date, based on the fair value of the award, and is recognized as an expense over the estimated service period (generally the vesting period) on the straight-line attribute method.

2. RELATED PARTY TRANSACTIONS

During February 2015, the Company issued a secured convertible promissory note in the sum of \$600,000 to Masateru Higashida, the Company's major shareholder. Interest calculated at the annual rate of zero percent (0%) for the period until April 2016. If the outstanding principle and all accrued and unpaid interest on the debt hereof (the "Debt") is not repaid by the Company in full by the Repayment Date, the Debt or any portion thereof may be converted at the option of the Holder, upon written notice to the Company at any time after the Repayment Date, into that number of shares of the Company's Common Stock equal to the Debt or that portion thereof that the Holder elects to convert, divided by price per share of \$0.51. This note shall be cancelled on the date of conversion of the entirety of the Debt.

During the third quarter of current year, there were no transactions with a related party.

3. COMMON STOCK

During November 2014, the Company resold 130,000 shares of treasury stock at \$0.30 per share, for an aggregate purchase price of \$39,000.

During December 2014, the Company resold 450,000 shares of treasury stock at \$0.30 per share, for an aggregate purchase price of \$135,000.

During December 2014, the Company sold 20,000 shares of common stock at \$0.66 per share, for an aggregate purchase price of \$13,200.

During January 2015, the Company cancelled 1,160,000 shares of common stock.

During January 2015, the Company resold 140,000 shares of treasury stock at \$0.30 per share, for an aggregate purchase price of \$42,000.

During March 2015, the Company sold 20,000 shares of common stock at \$0.70 per share, for an aggregate purchase price of \$14,000.

During April 2015, the Company sold 473,803 shares of common stock at \$0.30 per share, for an aggregate purchase price of \$331,662.

During May 2015, the Company sold 20,000 shares of common stock at \$0.70 per share, for an aggregate purchase price of \$14,000.

During June 2015, the Company sold 81,429 shares of common stock at \$0.70 per share, for an aggregate purchase price of \$57,000.

During June 2015, the Company cancelled 380,000 shares of common stock.

4. STOCK OPTIONS

During October 2013 the Company granted 3,471,665 options to employee. The right to exercise these options shall vest and become 25% exercisable on the first anniversary of when granted, with the exception that 100% of options issued to one employee vested immediately. The remaining options shall vest and become exercisable ratably over the next 36 months, with the exception that options issued to 2 employees shall vest and become exercisable over 18 months and option issued to one employee shall vest and become exercisable as of the effective date of the Option Agreement. The exercise price is \$0.48 per share and will expire ten years from the grant date, unless terminated earlier as provided by the Option Agreements.

During February 2015 the Company granted 45,000 options to employee. The right to exercise these options shall vest and become exercisable on the last day of business of December 31, 2015. The exercise price is \$0.30 per share.

During February 2015 the Company granted 100,000 options to consultants for services. The right to exercise these options shall vest and become exercisable following September 30, 2015. The exercise price is \$0.30 per share.

The fair value of each option award was estimated on the date of grant using the Black-Scholes option valuation model using the assumptions noted as follows: expected volatility was based on historical trading in the company's stock. The expected term of options granted was determined using the simplified method under SAB 107 and represents one-half the exercise period. The risk-free rate is calculated using the U.S. Treasury yield curve, and is based on the expected term of the option. The Company has estimated there will be no forfeitures.

The Black-Scholes option pricing model was used with the following weighted average assumptions for options granted during the nine months ended June 30, 2015:

Risk-free interest rate 1% - 2%

Expected option life 5 – 6 years

Expected volatility 300%

Expected dividend yield 0.0%

During the nine months ended June 30, 2015, 151,041 options are exercisable and the Company recognized \$32,038 of stock options expenses. Unamortized option expense as of June 30, 2015 for all options outstanding amounted to approximately \$24,620.

5. STOCK WARRANTS

During April 2014, the Company granted 100,000 warrants to advisors for services. The right to exercise these warrants shall vest in equal eight quarterly installments over the twenty-four (24) months following the date their vesting begins, subject to their continued engagement as a service provider through each such date. The exercise price equal to the current fair market value per share on the date of grant and will expire ten years from the grant date, unless terminated earlier as provided by the Warrant Agreements.

The Black-Scholes warrant pricing model was used with the following weighted average assumptions for options granted during the nine months ended June 30th, 2015:

Risk-free interest rate 2.53%

Expected life 10 years

Expected volatility 300%

Expected dividend yield 0.0%

During nine months ended June 30, 2015, the company had \$20,527 warrant expenses.

During nine months ended June 30, 2015, the company cancelled all warrants.

6. SUBSEQUENT EVENTS

During July 2015, the Company sold 100,000 new shares of common stock at \$0.70 per share, for an aggregate purchase price of \$70,000.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

The following plan of operation provides information which management believes is relevant to an assessment and understanding of our results of operations and financial condition. The discussion should be read along with our financial statements and notes thereto. This section includes a number of forward-looking statements that reflect our current views with respect to future events and financial performance. Forward-looking statements are often identified by words like believe, expect, estimate, anticipate, intend, project and similar expressions, or words which, by their nature, refer to future events. You should not place undue certainty on these forward-looking statements. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from our predictions.

Plan of Operations

Short Term Goals (12 Months)

Over the next 3 months, the Company’s growth plans include continuing efforts to:

- Build a targeted distribution network for our Coffee Blenders functional beverages by signing the retailers that serve the K-cup and Coffee replenishment channels;
- Increase awareness for Coffee Blenders through communications and sampling programs;
- Establish the NuZee brands top 3 in their product categories consistent with our mission of providing natural products that work.

We have retained and plan to expend our sales and marketing team who can immediately contribute to our network of US and international channels as such seeding our product becomes a near term priority. We have already started developing working relationships with key online and national distributors who serve the coffee and single-serve pod consumers. We plan to accelerate our traction by using manufacturer representatives with food and beverage experience.

In order to build distribution the Company is first determining the total distribution launch cost among the potential channels as each has their own upfront and recurring cost structure. Under investigation are the following company directed channels:

- direct – coffeeblenders.com shopping via search and digital marketing
- e-commerce affiliates (such as Amazon)
- select health and wellness retailers
- key mass/grocery retailers
- Club/Other

Each of the above is compared using a host of costing parameters not limited to the following: product slotting fees, overall margin requirements, market development fees, return allowances, broadcast advertising and promotional marketing plans, in-store and channel detailing, product sampling and customer demoing as well as transportation and logistics cost, cross dock fees, shelf-life expiration swaps, and initial and recurring inventory loading levels.

In conjunction with the above channel assessment, the Company is also exploring custom and private labeling whereby the company licenses the product formulation, trademarks, and other assets in two ways:

1. Multi-Level Marketing (MLM) Firms – for example manufacturer on behalf of “Amway” for product extensions of their Great Value and Equate private brands.
2. Product Brands – for example license to “Maxwell House” the Coffee Blender product as a new product line extension to expand their single-serve business.

The Company plans going forward include the following milestones:

Milestone	Timing	Est. Cost/Funding Source
1. Finalize Products & Pricing - New Product Functions and Versions	December – February (Phase I)	\$25,000 (Phase I)
	March-May (Phase II)	\$20,000 (Phase II)
2. Staff (retain and expand)	February - June	Previous Sale of Equities \$20,000-30,000/Mo. Recurring
3. Launch Market and Promotion Plan - PR - Sampling - Advertising	January – Ongoing	\$500,000-\$750,000 Annual
		Previous and Future Sale of Equities + Product Contribution
4. Explore OEM/Private Label Opportunities	March – Ongoing	n/a

If we are unable to receive funding our plans will be dramatically and negatively impacted such that we will prioritize go to market strategies based on reduced operations and available capital.

Long Term Goals (Five Years)

The Company believes that there will be significant expansion opportunities in existing markets through new products as well as in new regions outside of the United States in a combination of market development and product licensing.

The Company believes that our limited resources may pose a challenge to our expansion goals and therefore anticipates that it may require additional capital in future years to fund expansion. There can be no assurance that our expansion strategy will be accretive to our earnings within a reasonable period of time. However, the Company believes that it can improve its operational efficiencies and reduce the need for new capital by carefully managing the business based on the following economic fundamentals within accretive margin and cost contribution modeling.

Results of Operations

From inception on November 9, 2011 through June 30, 2015, we have accumulated losses of \$ 5,590,634 . This loss was attributed to \$4,903,649 of operating expenses.

We are presently in the development phase of our new product platform for functional beverages and we can provide no assurance that we will be able to attain profitability.

For the three Month ended June 30th, 2015, we earned revenues of \$29,811 from sales of our products and incurred operating expenses in the amount of \$369,957. For the nine months ended June 30, 2015, we earned revenues of \$86,412 from sales of our products and incurred operating expenses in the amount of 1,093,286. These operating expenses included the research and the preparation of our business plan in addition to general and administrative expenses. We anticipate our operating expenses will increase as we further undertake our plan of operations. The increase will be attributed to costs associated with production, storage and delivery of our products as well as research and development of new products.

We expect sales in 2015 from our new products through a combination of direct to consumer through our website portal, product awareness as well as through affiliate online stores and retailers.

Liquidity and Capital Resources

As of June 30th , 2015 we had a cash balance of \$202,325 and \$238,160 at September 30th, 2014. Total assets increased by 82% from \$396,713 at September 2014 to \$721,653 at June 30, 2015.

As of June 30th, 2015 we had current liabilities of \$749,945 and \$51,564 at September 30, 2014, mainly due to the \$600,000 convertible promissory note. Accounts Payable increased by approximately 245 % to \$149,556 as of June 30, 2014 from \$43,384 at September 30, 2014. Other Current Liabilities decreased by approximately 95% to \$389 as of June 30, 2015 from \$8,180 at September 30, 2014.

Our current ratio decreased from 705% in September 30, 2014 to 81% as of June 30, 2015.

Our auditor has indicated that there is substantial doubt about our ability to continue as a going concern as a result of our lack of significant revenues, and if we are unable to generate significant revenue or secure financing, we may be required to cease or curtail our operations. Our financial statements do not include adjustments that might result from the outcome of this uncertainty.

Our current cash balance as of June 30th , 2015 is not sufficient to fund our operations for the next twelve months. Therefore, the Company intends to engage in additional financing through the sale of equity securities.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.

Item 4. Controls and Procedures

As of the end of the period covered by this Report, the Company's President, and principal financial officer (the "Certifying Officer"), evaluated the effectiveness of the Company's "disclosure controls and procedures," as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934. Based on that evaluation, the officer concluded that, as of the date of the evaluation, the Company's disclosure controls and procedures were not effective to provide reasonable assurance that the information required to be disclosed in the Company's periodic filings under the Securities Exchange Act of 1934 is accumulated and communicated to management to allow timely decisions regarding required disclosure.

The Certifying Officer has also indicated that there were no changes in internal controls over financial reporting during the Company's last fiscal quarter, and no significant changes in our internal controls or other factors that could significantly affect such controls subsequent to the date of their evaluation and there were no corrective actions with regard to significant deficiencies and material weaknesses.

Our management, including the Certifying Officer, does not expect that our disclosure controls or our internal controls will prevent all errors and fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. In addition, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people or by management override of the control. The design of any systems of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Because of these inherent limitations in a cost-effective control system, misstatements Due to error or fraud may occur and not be detected.

Item 1. Legal Proceedings None.

Item 1A. Risk Factors

PART II.

There have been no changes to our risk factors from those disclosed in our Form 10-K filed on February 12, 2015.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

There were no unregistered Sales of Equity Securities during the quarter ending March 31, 2015.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.

SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Masateru Higashida, certify that:

1. I have reviewed this report on Form 10-Q of NuZee, Inc.;
 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
 4. I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under my supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report my conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting;
 5. I have disclosed, based on my most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
-

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**WRITTEN STATEMENT
PURSUANT TO
18 U.S.C. SECTION 1350**

In connection with the Quarterly Report of NuZee, Inc. and its subsidiaries (the "Company") on Form 10-Q for the period ended June 30, 2015 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), the Company's Chief Executive Officer, Masateru Higashida, certifies, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

- (1) The Report fully complies with the requirements of Section 13a-14(b) or 15d-14(b) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
