TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File No. 333-176684

NUZEE, INC.

(exact name of registrant as specified in its charter)

NEVADA

(State or other jurisdiction of incorporation or
organization)

38-3849791

(I.R.S. Employer Identification
Number)

**2865 Scott Street
Suite 101
Vista, CA 92081**

(Address of principal executive offices) (zip code)

Registrant's telephone number, including area code -- **(858) 385-9090 or toll-free 855-936-8933**

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Note – Checking the box above will not relieve any registrant required to file reports pursuant to Section 13 or 15(d) of the Exchange Act from their obligations under those Sections.

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§ 229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input checked="" type="checkbox"/>

(Do not check if smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of January 8th, 2015 NuZee, Inc. had 30,404,962 shares of common stock outstanding.

SPECIAL NOTE REGARDING FORWARD LOOKING STATEMENTS

This document contains forward-looking statements which reflect the views of NuZee, Inc. (formerly, Havana Furnishings, Inc.) (hereinafter "NuZee" or the "Company") and with respect to future events and financial performance. These forward-looking statements are subject to certain uncertainties and other factors that could cause actual results to differ materially from such statements. From time to time, our management or persons acting on our behalf may make forward-looking statements to inform existing and potential security holders about our Company. All statements other than statements of historical facts included in this report regarding our financial position, business strategy, plans and objectives of management for future operations, industry conditions, and indebtedness covenant compliance are forward-looking statements. When used in this report, forward-looking statements are generally accompanied by terms or phrases such as "estimate," "expects", "project," "predict," "believe," "expect," "anticipate," "target," "plan," "intend," "seek," "goal," "will," "should," "may," "targets" or other words and similar expressions that convey the uncertainty of future events or outcomes. Items contemplating or making assumptions about, actual or potential future sales, market size, collaborations, and trends or operating results also constitute such forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

Forward-looking statements involve inherent risks and uncertainties, and important factors (many of which are beyond our control) that could cause actual results to differ materially from those set forth in the forward-looking statements, including the following: general economic or industry conditions, nationally and/or in the communities in which we conduct business, changes in the interest rate environment, legislation or regulatory requirements, conditions of the securities markets, our ability to raise capital, changes in accounting principles, policies or guidelines, financial or political instability, acts of war or terrorism, other economic, competitive, governmental, regulatory and technical factors affecting our operations, products, services, and prices.

We have based these forward-looking statements on our current expectations and assumptions about future events. While our management considers these expectations and assumptions to be reasonable, they are inherently subject to significant business, economic, competitive, regulatory and other risks, contingencies and uncertainties, most of which are difficult to predict and many of which are beyond our control. Accordingly, results actually achieved may differ materially from expected results in these statements. Forward-looking statements speak only as of the date they are made. You should consider carefully the statements in the section below entitled "Risk Factors" and other sections of this report, which describe factors that could cause our actual results to differ from those set forth in the forward-looking statements. We do not undertake, and specifically disclaims, any obligation to update any forward-looking statements to reflect events or circumstances occurring after the date of such statements.

Readers are urged not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. We assume no obligation to update any forward-looking statements in order to reflect any event or circumstance that may arise after the date of this report, other than as may be required by applicable law or regulation. Readers are urged to carefully review and consider the various disclosures made by us in our reports filed with the Securities and Exchange Commission which attempt to advise interested parties of the risks and factors that may affect our business, financial condition, results of operation and cash flows. If one or more of these risks or uncertainties materialize, or if the underlying assumptions prove incorrect, our actual results may vary materially from those expected or projected.

REFERENCES

As used in this annual report: (i) the terms “we”, “us”, “our”, “NuZee” and the “Company” mean NuZee, Inc.; (ii) “SEC” refers to the Securities and Exchange Commission; (iii) “Securities Act” refers to the United States *Securities Act of 1933*, as amended; (iv) “Exchange Act” refers to the United States *Securities Exchange Act of 1934*, as amended; and (v) all dollar amounts refer to United States dollars unless otherwise indicated.

PART I

ITEM 1. BUSINESS.

Overview

NuZee Inc. is the operating company that manages a portfolio of branded consumer packaged goods. The Company was incorporated in July 2011 as Havana Furnishings, Inc. (“Havana”) under the laws of the State of Nevada. From the date of incorporation through April 2013, the Company was a development stage company engaged in the business of selling public restaurant and bar furnishings and accessories from Asia to retailer customers at wholesale prices on the internet. In April 2013, the Company's sole officer decided that it was not economically feasible to continue with the Company's business plan and began to seek other companies for potential merger.

On April 19, 2013, the Company completed a merger with NuZee Co., Ltd. a California corporation (“NuZee-CA”) wherein NuZee Co., Ltd. became a wholly owned subsidiary of Havana. Pursuant to the Share Exchange Agreement, each of the 33,733,333 outstanding shares of NuZee-CA common stock was converted into one share of the Company's common stock. In addition, upon the closing of the Merger, the Company amended its Articles of Incorporation to change its name from Havana Furnishings, Inc. to NuZee, Inc. NuZee-CA was established in 2011 as an importer and distributor of natural spring water and skincare products as well as energy drinks.

Up until September 30, 2013, our primary business was the distribution of natural and organic products produced by 3rd parties. These legacy product lines which included New Zealand bottled spring water, natural and organic skincare from New Zealand as well as the Torque TM energy drinks were phased out and/or discontinued in 2014 as the Company believed its best near and long term success was to focus resources on our own product line of functional beverages which will enable the Company to control, develop, manufacture and promote its brands from the United States.

During the 2013 fiscal year we began researching and investigating the viability of a new product platform for functional beverages, and started producing our first family of functional beverages in early 2014. These products are considered healthy alternatives, with all natural ingredients and provide an added wellness benefit when compared to the traditional non-fortified version of the same beverage.

As a result, NuZee mission is to be a good-for-you company focused on building beverage brands that offer functional and nutritional benefits.

Our operational approach has and will remain to develop and manufacture our products under strict guidelines for good manufacturing and food safety practices before releasing our products to the market. We own our formulas and work with experts in beverage, nutrition and flavoring sciences to ensure our products not only taste delicious but are also good-for-you using quality and natural ingredients with proven clinical research to support the functional efficacy. We are using multiple manufacturing partners, known in the industry as co-packers, to scale our manufacturing capabilities.

We sell our products directly to consumers through our website portal (in final development) as well as through affiliate online stores and retailers.

Market Opportunity

As an emerging company in the functional beverage sector we are participating in a large growing market with historical sales of more than \$16 billion with anticipated growth of 3% per year through 2016 according to research by Datamonitor. NuZee’s products fall within the nutraceutical drink portion of the functional beverage market which accounts for approximately 6% or \$1 billion in the United States annually.

Principal Products

After careful study and research conducted in 2014 the Company determined its first functional beverage will be a line of single-serve gourmet coffees. Our decision was based on numerous factors including the market for coffee and its continued growth, the ability to serve a cup of coffee quickly and conveniently as well as the ability for precise dosage of our active ingredients in pre-portioned packs. Our knowhow is tied to our formula, process and use of natural flavoring to mask the undesired off-notes produced by the added functional ingredient(s) such that the original beverage is preserved and there are no deficiencies in the taste and aroma profile. We also started our Lotus Cup line, which is a gourmet pour-over coffee. The name changed from Lotus Cup to Drip Cup in 2015, with our first cup being the Nude Cup Gourmet pour-Over. We have now extended the Drip Cup line to also include the functional varieties: Lean, Think and Relax Cup.

<p>Think Drip Cup for Cognitive Performance</p>	
	

The Company made Coffee Blenders™ available in the first quarter of 2014. We believe Coffee Blenders to be the first line of gourmet specialty grade coffee offered in convenient K-Cups using only natural ingredients with clinically supported branded nutraceuticals. In 2015, the Drip Cup emerged and quickly gained popularity within the coffee industry.

Each Coffee Blenders K-cup and Drip Cup will include a total of 11 grams of coffee plus natural ingredients and come in retail packaging of 10 K-Cup packs and/or Drip Cup pouches per box.

The single serve cups are compatible with Keurig K-Cup brewers and systems. Keurig is owned by Green Mountain Coffee Roasters (NASDAQ: GMCR). A key consideration in launching Coffee Blenders in K-Cup formats was due to the patent protection surrounding the K-Cups expiring in late 2012. This enables 3rd party companies to produce K-Cup compatible packs for an existing installed base of brewers totaling more than 16 million units according to GMCR company filings and reports.

We initially launched three functional varieties called Lean (for weight loss), Think (for cognitive performance) and Relax (for stress reduction). We have now launched four more products, growing our Coffee Blenders product family to a total of seven products. The current family of products all utilize GRAS (Generally Recognized As Safe) ingredients that are also supported by clinical studies using the exact strength and dosage recommended by our ingredient partner's claims and research. Based on market feedback we anticipate introducing another set of functions in the second half of 2016.

Our Strategy

Our objective is to be a profitable, leading provider of functional beverages and gourmet pour-over coffees. Elements of our business strategy for 2016 include:

- Secure additional working capital to support growth and development of NuZee, Inc. sales and support operations
- Build onto our existing product and brand awareness through marketing and communication programs
- Build an enthusiast and loyal base of consumers for Coffee Blenders
- Expand family of functional coffees to include new functions and flavors
- Expand distribution across retail, online and affiliate channels
- Contract with multiple manufacturing partners to scale production as required
- Work alongside with other roasters, nation wide, and co-pack their roasts into our Drip Cups
- Build portfolio of formulas for functional beverages
- Explore new beverage platforms beyond coffee, we are looking at a tea line specifically

Customers

Our customers range from B2B multi-store retail chains to wholesale distributors that deliver to both chain and independent stores regionally. We also sell to office and home delivery services that deliver coffee and water to homes and businesses locally. Another portion of our business is online sales through our own B2C site through organic as well as paid marketing campaigns through our affiliate network along with sales stemming from online retail accounts like Amazon.com

Sales

In 2015 Coffee Blenders secured a vendor number with Safeway Eastern and also signed a contract with Club Marketing, which deals with some of the nations largest retail chains. In addition, our product SKU's were approved and setup by KeHE and we have also emerged into the Korean market for our Drip Cup line.

As an emerging consumer brand that has been on the market for over a year we believe that a significant amount of capital will be required to generate additional sales and help support the current accounts that we currently have. Our sales approach will be implemented in 4 stages:

1. Build Awareness and Consideration
2. Generate Trial
3. Drive Initial Sales
4. Drive Repeat Sales

We anticipate the need to spend more than one million in brand marketing, sampling and test advertising (stages #1 and #2) in 2016. We will use what we learn from our advertising campaigns to determine the optimal cost of acquisition in order to scale the business appropriately. Our main focus for 2016 will be reaching out to key accounts through national and regional trade shows to acquire new B2B commercial business. We also plan to implement an inside sales force to incubate and curate new accounts. We plan to expand our affiliate network and online advertising as well as cross promoting via social media to drive our B2C sales through our www.coffeeblenders.com domain.

At this time most of the products sold will be under the "Coffee Blenders" and "NuZee" trademarks. We are currently working to expand our production capabilities at our headquarters facility in Vista, CA to attract other companies that are interested in producing similar products to produce at our facility. Our co-packing service is intended to increase market awareness and to help position our company as the leader in the U.S. for the pour over drip pouch coffee market.

Manufacturing

We have a primary manufacturing facility in Vista, California located at 2865 Scott St Suite 101 used for the production of our Drip Cup line.

We also partner with three third party manufacturers to manufacture finished products. We have agreements in place with suppliers and partners for all components required to deliver a finished Coffee Blenders product. Currently, the Company has not made any long-term commitments to any suppliers or production partners that will burden or impair the Company's ability to operate.

We currently purchase our nutraceuticals, Svetol (green coffee bean extract) and Cereboost (American Ginseng extract), from Naturex, Inc. ("Naturex") Pursuant to license agreements with Naturex, in order to maintain our license, we are required to purchase an annual minimum amount of product.

We purchase coffee from Intazza located in Murietta, California on a purchase order basis.

All of the raw products (ground coffee and nutraceuticals) are sent to Global Health Trax ("GHT") for mixing into our proprietary blends. We do not have a written agreement with GHT. Rather, all services performed by GHT are on a purchase order basis. After GHT mixes our coffees, the final product is shipped to our co-packer Intelligent Blends, or our other co-packer Cafejo, for packaging into single-serving containers commonly known as "K cups" and boxed for retail sales.

GHT also ships the blended coffee to our location for packing into our new proprietary single serve consumer product: Drip Cup.

Purchasing of packaging material is well diversified among three separate suppliers: Fleetwood Fibre, Landsberg and Peak Packaging. We conduct business with these vendors on a purchase order basis.

Machinery for production at our Vista location comes from some of the most respected vendors in the industry: Air compression equipment comes from Kaeser Compressor, manufactured in Germany with a local sales and support office in Los Angeles. Nitrogen generation equipment is manufactured by On-Site Gas Systems, and our Drip Cup production happens on the leading Japanese manufacturer of package in package machines from NASA Corporation. Nitrogen and air compression machinery is capable of handling expansion as the company expands as well to minimize any ongoing capital expenditures for machinery.

Research and Development

We focus our research and development efforts on developing innovative functional beverages that not only taste delicious but also include a health-wellness benefit.

Over the course of the last fiscal year NuZee has maintained a modest R&D budget. With the advent of the functional beverage focus the Company plans to invest more to secure unique flavor and formula profiles but anticipates the out of pocket expense will not be significant as the Company has agreements with flavor and formula design partners to waive development fees in exchange for purchasing the flavorings and ingredients. The Company has contracted products from Blue California and Naturex (Paris Stock Exchange: NRX) both global natural specialty ingredient suppliers who are providing assistance in ingredient identification, testing, marketing support, and clinical studies to accelerate our development efforts.

In 2013, our product development initiatives included:

\$15,000 developing a raw ingredient selection, blending and flavoring for Coffee Blenders;

For 2014, our research and development initiatives were concentrated on the following projects:

- Continued development of our Coffee Blenders series with new functions and ingredients.
- Research of instant coffee with micro-grounds for stick packs.
- Development of functional beverages beyond coffee such as teas or hot chocolate

For 2015, our research and development initiatives include:

1. Functional coffee beverages
2. Drip Cup coffees

For 2016, our research and development initiatives will be concentrated on the following :

1. Drip Cup coffee on sales and marketing extension
2. Other functional beverages within the K-Cup industry

Intellectual Property

In 2013 and 2014, NuZee filed for trademark registrations in the United States on several marks it intends to use in the beverage industry and is in the process of submitting additional related trademark applications. To date, the trademark, “Coffee Blenders,” has been registered. The Company intends to continue growing its trademark portfolio in the United States with other related slogans and brands as those products come closer to launch. The Company further intends to expand its brand protections outside of the United States in line with its prospective international growth.

NuZee intends to aggressively protect, police and assert its intellectual property rights, including product designs, proprietary product research and concepts as well as its trademark portfolio. Although asserting NuZee’s rights may result in a substantial cost to the Company, NuZee’s management strongly believes that the protection of our intellectual property rights is a key component of our operating strategy. As a result of our company’s continuing R&D efforts, the Company may decide to seek additional protection, if applicable, relating to its formulas, process know-how and proprietary flavors.

In exiting the Torque energy supplement product businesses NuZee plans to cease using and may abandon its registered TORQ and TORQ WRENCH trademarks acquired from the HydroPouch Corporation. The Company also plans to not pursue or contest the use of NuZee as a product brand in association with water and skincare product as we exit those businesses.

Competition

The beverage industry in general and the coffee sector in particular is extremely competitive. The principal areas of competition include pricing, packaging, development of new products and flavors, and marketing campaigns. Our Coffee Blenders product is competing directly with Green Mountain brands and licensed brands as well as 3rd party coffees in K-Cups®. While there are more than 200 varieties of K-Cup coffees to choose from there are few, if any functional coffees dedicated to weight-loss, stress reduction or cognitive performance. Green Mountain brands have enjoyed broad, well-established national distribution through well-funded advertising, and product awareness. In addition, companies and brands manufacturing these products generally have far greater financial, marketing, and distribution resources than we do.

Important factors that will affect our ability to compete successfully include taste and functional delivery of our product, trade and consumer promotions, the development of new, unique functions in new and various packaging formats, attractive and unique promotions, branded product advertising, pricing, and the success of our distribution network.

We will also be competing to secure distributors who will agree to market our product over those of our competitors, provide stable and reliable distribution, and secure adequate shelf space in retail outlets and search placement in online stores.

Our Coffee Blender product will compete generally with all hot liquid refreshments, including specialty coffees and teas as well as nutraceutical beverages such as BulletProof Coffee, Green Mountain Wellness Coffee, Organo Gold Herbal Coffee, Nuvia Trim Coffee, South Beach Java, Javita, and NatureGift Instant Coffee as well as the natural ingredients found in pills and powders.

As a result, we continue to look for significant niche markets where our close attention to customer requirements and superior performance are valued.

Employees

As of September 30, 2015, we had a total of 3 full-time employees. All employees are located in San Diego.

At September 30, 2015, we had a total of two consultants, one performing management support and financial/accounting support.

Our operations are overseen directly by management that engages our employees to carry on our business. Our management oversees all responsibilities in the areas of corporate administration, product development, marketing, and research. We intend to expand our current management to retain other skilled directors, officers, and employees with experience relevant to our business focus. Our management's relationships will provide the foundation through which we expect to grow our business in the future. We believe that the skill-set of our core management team will be a primary asset in the development of our brands and trademarks.

We have never had a work stoppage, and none of our employees are represented by a labor organization or under any collective bargaining arrangements. We believe our relationships with our employees are good.

Governmental Regulation

Our Coffee Blenders products are marketed and sold as conventional food or beverages for regulatory purposes, similar to coffee. Such products are regulated by the U.S. Food and Drug Administration ("FDA"). Ingredients in such products must be approved food additives or "Generally Regarded as Safe" ("GRAS"); we have been careful to utilize ingredients that are approved food additives or GRAS. We also intend to work with ingredient suppliers, manufacturers, and other trade partners that are compliant with the laws and regulation enforced by the FDA. We have not received, nor are we aware of, any inquiries or other regulatory action from the FDA or any other governmental agency regarding our products. We believe we are in full compliance with all FDA regulations.

The advertising, distribution, labeling, production, safety, sale, and transportation in the United States of our products are subject to the Federal Food, Drug, and Cosmetic Act; the Federal Trade Commission Act; the Lanham Act; state consumer protection laws; competition laws; federal, state and local workplace health and safety laws; various federal, state and local environmental protection laws; and various other federal, state and local statutes and regulations. It will be our policy to comply with any and all legal requirements.

Available Information

Our annual and quarterly reports, along with all other reports and amendments filed with or furnished to the SEC, are publicly available free of charge on the Investor Relations section of our website at www.MYNUZEE.com as soon as reasonably practicable after these materials are filed with or furnished to the SEC. Our corporate governance policies, ethics code and board of directors' committee charters are also posted within this section of the website. The information on our website is not part of this or any other report we file with, or furnish to, the SEC. The SEC also maintains an Internet site that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC. The address of that site is www.sec.gov.

ITEM 1A. RISK FACTORS.

In addition to the other information set forth in this report, you should carefully consider the following factors, which could materially affect our business, financial condition or results of operations in future periods. The risks described below are not the only risks facing our company. Additional risks not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition or results of operations in future periods.

If we cannot sustain profitable operations, we will need to raise additional capital to continue our operations, which may not be available on commercially reasonable terms, or at all, and which may dilute your investment.

We generated a net loss of \$1,469,353 for the year ended September 30, 2015 and therefore we cannot guarantee that we will be successful in building a functional beverage business in future periods, which raise substantial doubts about the Company's ability to continue as a going concern.

If we are unable to generate sufficient revenues to pay our expenses and our existing sources of cash and cash flows are otherwise insufficient to fund our activities, we will need to raise additional funds to continue our operations. We do not have any arrangements in place to provide additional funds. If needed, those funds may not be available on favorable terms, or at all. Furthermore, if we issue equity or debt securities to raise additional funds, our existing stockholders may experience dilution, and the new equity or debt securities may have rights, preferences and privileges senior to those of our existing stockholders. If we are unsuccessful in sustaining profitability and reducing our accumulated deficit, and we cannot obtain additional funds on commercially reasonable terms or at all, we may be required to curtail significantly or cease our operations.

Because we have a limited operating history, our ability to fully and successfully develop our business is unknown.

NuZee Co, Ltd. was incorporated in California in 2011 prior to the merger with Havana Furnishings as a result we have only recently begun developing and producing our functional products, and do not have a significant operating history with which investors can evaluate our business. Our ability to successfully develop our products, and to realize consistent, meaningful revenues and profit has not been established and cannot be assured. For us to achieve success, our products must receive broad market acceptance by consumers. Without this market acceptance, we will not be able to generate sufficient revenue to continue our business operation. If our products are not widely accepted by the market, our business may fail.

Our ability to achieve and maintain profitability and positive cash flow is dependent upon our ability to generate revenues, manage development costs and expenses, and compete successfully with our direct and indirect competitors

Based upon current plans, we expect to incur operating losses in future periods. This will happen because there are expenses associated with the development, production, marketing, and sales of our product. As a result, we may not generate significant revenues in the future. Failure to generate significant revenues in near future may cause us to suspend or cease activities.

We will need additional funds to produce, market, and distribute our product.

We will have to spend additional funds to produce, market and distribute our product. If we cannot raise sufficient capital, we may have to cease operations and you could lose your investment.

There is no guarantee that sufficient sale levels will be achieved.

There is no guarantee that the expenditure of money on distribution and marketing efforts will translate into sales or sufficient sales to cover our expenses and result in profits. Consequently, there is a risk that you may lose all of your investment.

Our development, marketing, and sales activities are limited by our size.

Because we are small and do not have significant capital reserves, we must limit our product development, marketing, and sales activities. As such we may not be able to scale our production and business development activities to the level required. If this becomes a reality, we may not ever generate revenues and you will lose your investment.

Changes in the nutritional beverage business environment and retail landscape could adversely impact our financial results.

The nutritional and functional beverage business environment is rapidly evolving as a result of, among other things, changes in consumer preferences, including changes based on health and nutrition considerations and obesity concerns; shifting consumer tastes and needs; changes in consumer lifestyles; and competitive product and pricing pressures. In addition, the nutritional beverage retail landscape is very dynamic and constantly evolving, not only in emerging and developing markets, where modern trade is growing at a faster pace than traditional trade outlets, but also in developed markets, where discounters and value stores, as well as the volume of transactions through e-commerce, are growing at a rapid pace. If we are unable to successfully adapt to the rapidly changing environment and retail landscape, our share of sales, volume growth and overall financial results could be negatively affected.

Intense competition and increasing competition in the commercial beverage market could hurt our business.

The commercial retail beverage industry, and in particular the functional beverage segment is still nascent and viewed as highly competitive. Market participants are of various sizes, with various market shares and geographical reach, some of whom have access to substantially more sources of capital.

We will compete generally with many liquid refreshments, including numerous specialty beverages, such as hot and cold coffee and teas.

We will compete indirectly with major international beverage companies including but not limited to: Green Mountain Coffee Roasters, the Coca-Cola Company; PepsiCo, Inc.; Nestlé; Kraft Foods Group, Inc.; and Starbucks. These companies have established market presence in the United States, and offer a variety of beverages that are substitutes to our product. We face potential direct competition from such companies, because they have the financial resources, and access to manufacturing and distribution channels to rapidly enter the health food and beverage market.

We will compete directly with other consumer products participants in the emerging functional beverage sector including BulletProof Coffee, Green Mountain Wellness Coffee, Organo Gold Herbal Coffee, Nuvia Trim Coffee, South Beach Java, Javita, and NatureGift Instant Coffee. These companies could bolster their position in the sector through additional expenditure and promotion.

As a result of both direct and indirect competition, our ability to successfully distribute, market and sell our product, and to gain sufficient market share in the United States and internationally to realize profits may be limited, greatly diminished, or totally diminished, which may lead to partial or total loss of your investments in our company.

Our growth and profitability depends on the performance of third-parties and our relationship with them.

A significant portion of our distribution network and its success depend on the performance of third parties. Any non-performance or deficient performance by such parties may undermine our operations, profitability, and result in total loss to your investment. To distribute our product, we will use a broker-distributor-retailer network whereby brokers represent our products to distributors and retailers who will in turn sell our product to consumers. The success of this network will depend on the performance of the brokers, distributors and retailers of this network. There is a risk that a broker, distributor, or retailer may refuse to or cease to market or carry our product. There is a risk that the mentioned entities may not adequately perform their functions within the network by, without limitation, failing to distribute to sufficient retailers or positioning our product in localities that may not be receptive to our product. Furthermore, such third-parties' financial position or market share may deteriorate, which could adversely affect our distribution, marketing and sale activities. We also need to maintain good commercial relationships with third-party brokers, distributors and retailers so that they will promote and carry our product. Any adverse consequences resulting from the performance of third-parties or our relationship with them could undermine our operations, profitability and may result in total loss of your investment.

We depend on third party manufacturers and ingredients providers to produce all of our products.

Our reliance on third party manufacturers and providers exposes us to a number of risks that are beyond our control, including:

- Unexpected increases in production costs;
- Unexpected scheduling delays;
- Unexpected shortage of ingredients;
- Loss of priority assignment of any and all supplies and materials;
- The failure from any of our partners to deliver components or finished goods.

Health benefits of the functional ingredients are not guaranteed.

Although we use ingredient backed by clinical studies that support our claims such health benefits to individuals are not guaranteed. Consequently, negative studies and publicity surrounding any of our ingredients may result in loss of market share or potential market share and hence loss of your investment.

Significant additional labeling or warning requirements or limitations on the availability of our product may inhibit sales of affected products.

Various jurisdictions may seek to adopt significant additional product labeling or warning requirements or limitations on the availability of our product relating to the content or perceived adverse health consequences of our product. If these types of requirements become applicable to our product under current or future environmental or health laws or regulations, they may inhibit sales of our product.

Unfavorable general economic conditions in the United States or elsewhere could negatively impact our financial performance.

Unfavorable general economic conditions, such as a recession or economic slowdown, in the United States could negatively affect the affordability of, and consumer demand for, our product in the United States. Under difficult economic conditions, consumers may seek to reduce discretionary spending by forgoing purchases of our products or by shifting away from our beverages to lower-priced products offered by other companies. Lower consumer demand for our product in the United States could reduce our profitability.

We will rely primarily on the United States and Keurig brewer households to generate adoption and use in our products.

The consumer acceptance for Keurig brewers could decline and negatively impact the market size and growth potential. We are attempting to develop other geographic markets and single-serve brewer platforms for our products, in Asia and other markets. We are looking for opportunities to generate additional significant customers to reduce our risk associated with customer concentration. We can make no assurance, however, that we will succeed in diversifying our customer base, developing other geographic markets or in becoming less reliant on a small number of significant customers.

If we do not compete effectively in the functional beverage market, our revenues and market share will decline.

The markets for Coffee Blenders are highly competitive. We face competition from larger and better capitalized competitors such as Green Mountain Coffee Roasters, Inc. and many nutraceutical beverage firms which have significantly greater penetration in key markets than we do. Economies of scale allow these competitors to offer product pricing and related incentives that we may be unable to match. We also face competition from a number of smaller competitors. These competitors may be able to:

- develop better and more variety of products
- develop less expensive products
- develop broader channels
- as well as the ability to respond more rapidly to changing market conditions

If we are not successful in enhancing our products, maintaining customer relationships and managing our cost structure so that we can provide competitive prices, we may experience reduced sales and our potential market share may decline.

Our competitive position could be seriously damaged and we may incur substantial expenses if we become party to lawsuits alleging that our products infringe the intellectual property rights of others.

The technology around K-CUP®, K-Cup Brewers and related Keurig know-how and processes may impact our ability and/or our partner's ability to deliver finished goods.

If we are forced to take any of the foregoing legal actions to defend our products, we could face substantial costs and shipment delays and our business could be seriously harmed. Although we carry general liability insurance, our insurance may not cover potential claims of this type or be adequate to indemnify us for all liability that may be imposed.

In addition, it is possible that our distribution partners or manufacturing partners may seek indemnity from us in the event that our products are found or alleged to infringe upon the intellectual property rights of others. Any such claim for indemnity could result in substantial expenses to us that could harm our operating results.

Our international sales and operations subject us to various risks associated with, among other things, foreign laws, policies, economies, and exchange rate fluctuations.

All of our international sales and operations are subject to inherent risks, which could have a material adverse effect on our financial condition or results of operations. Each country has their own regulations regarding food safety and ingredient panel disclosures. Our ability to meet those requirements may prevent us from launching products or force us to reverse orders and business.

Adverse weather conditions could reduce the supply or demand for our products.

The sales of our products are influenced to some extent by weather conditions in the markets in which we operate. Also the supply of our raw ingredients could be impacted by adverse weather that increase cost or reduce availability.

Because the majority of our sales are denominated in United States dollars, changes in foreign currency exchange rates affect the market price for our products in countries in which they are sold. If the currency of a particular country weakens against the United States dollar, the cost of our products in that country may increase.

If we are unable to attract and retain key personnel necessary to operate our business, our ability to develop and market our products successfully could be harmed.

We have a small employee base and depend substantially on our current executive officers and key sales, and operational employees. The loss of key employees or the inability to attract or retain qualified personnel, could delay product development and harm our ability to sell our products. Our success depends on our ability to identify, attract and retain qualified management, sales, and marketing personnel.

A substantial portion of our sales are completed on a purchase order basis. Although these purchase orders are generally not cancelable, customers may decide to delay or cancel orders, which could negatively impact our revenues.

Orders covered by firm purchase orders are generally not cancelable; however, customers may decide to delay or cancel orders. In the event that we experience any delays or cancellations, we may have difficulty enforcing the provisions of the purchase order and our revenues could decline substantially. Any such decline could result in us incurring net losses, increasing our accumulated deficit and needing to raise additional capital to fund our operations. —

Changes in, or failure to comply with, the laws and regulations applicable to our products or our business operations could increase our costs or reduce our net operating revenues.

The advertising, distribution, labeling, production, safety, sale, and transportation in the United States of our company's product will be subject to: the Federal Food, Drug, and Cosmetic Act; the Federal Trade Commission Act; the Lanham Act; state consumer protection laws; competition laws; federal, state, and local workplace health and safety laws, such as the Occupational Safety and Health Act; various federal, state and local environmental protection laws; and various other federal, state, and local statutes and regulations. Legal requirements also apply in many jurisdictions in the United States requiring that deposits or certain eco taxes or fees be charged for the sale, marketing, and use of certain non-refillable beverage containers. The precise requirements imposed by these measures vary. Other types of statutes and regulations relating to beverage container deposits, recycling, eco taxes and/or product stewardship also apply in various jurisdictions in the United States. We anticipate that additional, similar legal requirements may be proposed or enacted in the future at the local, state and federal levels in the United States. Changes to such laws and regulations could increase our costs or reduce or net operating revenues.

Risk Related to Our Stock

Because NuZee ownership is concentrated with the Chairman controlling a large percentage of our common stock, he has the ability to influence matters affecting our stockholders.

As a result, he has the ability to influence matters affecting our stockholders, including the election of our directors, the acquisition or disposition of our assets, and the future issuance of our shares of common stock. Because he controls such shares, investors may find it difficult to replace our management if they disagree with the way our business is being operated. Because their interest could result in management making decisions that are in their best interest and not in the best interest of the general investor base, you may lose some or all of the value of your investment in our common stock.

Because we can issue additional shares of common stock, our stockholders may experience dilution in the future.

We are authorized to issue up to 100,000,000 shares of common stock and 100,000,000 shares of preferred stock, of which 30,124,951 shares of common stock and no share of preferred stock are issued and outstanding as of the date hereof. Our board of directors has the authority to cause us to issue additional shares of common stock, and to determine the rights, preferences and privileges of such shares, without consent of any of our stockholders. Consequently, the stockholders may experience more dilution in their ownership of our stock in the future.

Our common stock is quoted on the OTC Markets, which may be detrimental to investors.

Our common stock is currently quoted on the OTC Markets. Stocks quoted on the OTC Markets generally have limited trading volume and exhibit a wider spread between the bid and ask quotations as compared to stocks traded on national exchanges. Accordingly, you may not be able to sell your shares quickly or at the market price if trading in our stock is not active. _

Trading on the OTC Markets and Bulletin Board exchanges may be volatile and sporadic, which could depress the market price of our common stock and make it difficult for our stockholders to resell their shares.

Our common stock is quoted on the OTC Markets and Bulletin Board. Trading in stock quoted on the OTC Markets is often thin and characterized by wide fluctuations in trading prices, due to many factors that may have little to do with our operations or business prospects. This volatility could depress the market price of our common stock for reasons unrelated to operating performance. Moreover, the OTC Markets is not a stock exchange, and trading of securities on the OTC Markets is often more sporadic than the trading of securities listed on a quotation system like NASDAQ a stock exchange like the NYSE. Accordingly, stockholders may have difficulty reselling any of the shares.

A decline in the price of our common stock could affect our ability to raise further working capital, it may adversely impact our ability to continue operations and we may go out of business.

A prolonged decline in the price of our common stock could result in a reduction in the liquidity of our common stock and a reduction in our ability to raise capital. Because we may attempt to acquire a significant portion of the funds we need in order to conduct our planned operations through the sale of equity securities, a decline in the price of our common stock could be detrimental to our liquidity and our operations because the decline may cause investors not to choose to invest in our stock. If we are unable to raise the funds we require for all our planned operations, we may be forced to reallocate funds from other planned uses and may suffer a significant negative effect on our business plan and operations, including our ability to develop new products and continue our current operations. As a result, our business may suffer, and not be successful and we may go out of business. We also might not be able to meet our financial obligations if we cannot raise enough funds through the sale of our common stock and we may be forced to go out of business.

Because we do not intend to pay any cash dividends on our shares of common stock in the near future, our stockholders will not be able to receive a return on their shares unless they sell them.

We intend to retain any future earnings to finance the development and expansion of our business. We do not anticipate paying any cash dividends on our common stock in the near future. The declaration, payment and amount of any future dividends will be made at the discretion of the board of directors, and will depend upon, among other things, the results of operations, cash flows and financial condition, operating and capital requirements, and other factors as the board of directors considers relevant. There is no assurance that future dividends will be paid, and if dividends are paid, there is no assurance with respect to the amount of any such dividend. Unless we pay dividends, our stockholders will not be able to receive a return on their shares unless they sell them.

Our stock is a penny stock. Trading of our stock may be restricted by the SEC's penny stock regulations which may limit a stockholder's ability to buy and sell our stock.

Our stock is a penny stock. The Securities and Exchange Commission ("SEC") has adopted Rule 15c-9 which generally defines "penny stock" to be any equity security that has a market price (as defined) less than \$5.00 per share or an exercise price of less than \$5.00 per share, subject to certain exceptions. Our securities are covered by the penny stock rules, which impose additional sales practice requirements on broker-dealers who sell to persons other than established customers and "accredited investors". The term "accredited investor" refers generally to institutions with assets in excess of \$5,000,000 or individuals with a net worth in excess of \$1,000,000 or annual income exceeding \$200,000 or \$300,000 jointly with their spouse. The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document in a form prepared by the SEC which provides information about penny stocks and the nature and level of risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction and monthly account statements showing the market value of each penny stock held in the customer's account. The bid and offer quotations, and the broker-dealer and salesperson compensation information, must be given to the customer orally or in writing prior to effecting the transaction and must be given to the customer in writing before or with the customer's confirmation. In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from these rules; the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These disclosure requirements may have the effect of reducing the level of trading activity in the secondary market for the stock that is subject to these penny stock rules. Consequently, these penny stock rules may affect the ability of broker-dealers to trade our securities. We believe that the penny stock rules discourage investor interest in and limit the marketability of our common stock.

FINRA sales practice requirements may also limit a stockholder's ability to buy and sell our stock.

In addition to the "penny stock" rules promulgated by the SEC, the Financial Industry Regulatory Authority ("FINRA") has adopted rules that require that in recommending an investment to a customer, a broker-dealer must have reasonable grounds for believing that the investment is suitable for that customer. Prior to recommending speculative low priced securities to their non-institutional customers, broker-dealers must make reasonable efforts to obtain information about the customer's financial status, tax status, investment objectives and other information. Under interpretations of these rules, the FINRA believes that there is a high probability that speculative low priced securities will not be suitable for at least some customers. The FINRA requirements make it more difficult for broker-dealers to recommend that their customers buy our common stock, which may limit your ability to buy and sell our stock.

ITEM 2. PROPERTIES.

Our principal executive office is located at 2865 Scott Street, Suite 101&102, Vista, CA 92081. We lease these facilities on an annual basis at a cost of \$3,793 per month. We believe these facilities are suitable for our current needs.

ITEM 3. LEGAL PROCEEDINGS.

None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF THE SECURITY HOLDERS.

None.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

Market Information.

Since October 2012, our shares of common stock have been listed for quotation on OTC Markets, under the stock symbol "HVFI." Our symbol changed to "NUZE" during May 2013 in connection with our reverse merger. The following table shows the reported high and low closing bid prices per share for our common stock based on information provided by OTC Markets. The over-the-counter market quotations set forth for our common stock reflect inter-dealer prices, without retail mark-up, mark-down or commission and may not necessarily represent actual transactions.

<u>Quarters Ended</u>	<u>BID PRICE PER SHARE</u>

December 31, 2012	0	0

Number of Shareholders.

As of September 30, 2015 the stockholders list for our common stock showed 165 registered stockholders and 30,124,951 shares of common stock issued and outstanding. The transfer agent of our common stock is QuickSilver Stock Transfer, One Summerlin, 1980 Festival Plaza Drive, Suite 530, Las Vegas, Nevada, 89135.

Dividends.

We have never declared or paid cash dividends on our capital stock. We currently intend to retain any future earnings to finance the growth and development of our business. Payment of future dividends, if any, will be at the discretion of our board of directors and will depend on our financial condition, results of operations, capital requirements and such other factors as the board of directors deems relevant.

Sales of Unregistered Securities.

During November through December 2014, the Company resold 580,000 shares of our treasury stock, par value \$0.00001, at \$0.3 per share, for an aggregate purchase price of \$174,000.

During December 2014, the Company sold 20,000 shares of our common stock, par value \$0.00001, at \$0.66 per share, for an aggregate purchase price of \$13,200.

During January 2015, the Company resold 140,000 shares of our treasury stock, par value \$0.00001, at \$0.30 per share, for an aggregate purchase price of \$42,000.

During January 2015, the Company cancelled 1,160,000 shares of common stock.

During March 2015, the Company sold 20,000 shares of our common stock, par value \$0.00001, at \$0.70 per share, for an aggregate purchase price of \$14,000.

During April through June 2015, the Company sold 575,232 shares of our common stock, par value \$0.00001, at an average cost of \$0.7 per share, for an aggregate purchase price of \$402,661.

During June 2015, the Company cancelled 380,000 shares of common stock.

During July through September 2015, the Company sold 440,000 shares of our common stock, par value \$0.00001, at \$0.70 per share, for an aggregate purchase price of \$308,000.

During July through September 2015, the Company issued 10,000 shares of our common stock to employee as compensation, par value \$0.00001, at \$0.60 per share, for an aggregate purchase price of \$6,000.

The above-mentioned sales of our securities were made to non-U.S. persons (as the term is defined in Regulation S of the Securities Act of 1933, as amended) in offshore transactions in which we relied on the registration exemption provide for in Regulation S and/or Section 4(2) of the Securities Act of 1933, as amended.

Equity Compensation Plans Information

During February 2015, the Company committed to issue 45,000 options to employee and 100,000 options to consultants for services the next time the board approves for issuance. During September 2015, the Company committed to issue 22,500 options to an employee as compensation for services the next time the board approves for issuance. The board has not yet approved the issuances.

ITEM 6. SELECTED FINANCIAL DATA.

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.

ITEM 7. MANAGEMENT'S DISCUSSION OF AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

The following plan of operation provides information which management believes is relevant to an assessment and understanding of our results of operations and financial condition. The discussion should be read along with our financial statements and notes thereto. This section includes a number of forward-looking statements that reflect our current views with respect to future events and financial performance. Forward-looking statements are often identified by words like believe, expect, estimate, anticipate, intend, project and similar expressions, or words which, by their nature, refer to future events. You should not place undue certainty on these forward-looking statements. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from our predictions.

Plan of Operations

Short Term Goals (12 Months)

Over the next 12 months, the Company's growth plans include continuing efforts to:

- Build a targeted distribution network for our Coffee Blenders functional beverages by signing the retailers that serve the K-cup and Coffee replenishment channels;
- Increase awareness for Coffee Blenders through communications and sampling programs;
- Establish the NuZee brands top 3 in their product categories consistent with our mission of providing natural products that work.

We have retained and plan to expend our sales and marketing team who can immediately contribute to our network of US and international channels as such seeding our product becomes a near term priority. We have already started developing working relationships with key online and national distributors who serve the coffee and single-serve pod consumers. We plan to accelerate our traction by using manufacturer representatives with food and beverage experience.

In order to build distribution the Company is first determining the total distribution launch cost among the potential channels as each has their own upfront and recurring cost structure. Under investigation are the following company directed channels:

- direct – coffeeblenders.com shopping via search and digital marketing
- e-commerce affiliates (such as Amazon)
- select health and wellness retailers
- key mass/grocery retailers
- Club/Other

Each of the above is compared using a host of costing parameters not limited to the following: product slotting fees, overall margin requirements, market development fees, return allowances, broadcast advertising and promotional marketing plans, in-store and channel detailing, product sampling and customer demoing as well as transportation and logistics cost, cross dock fees, shelf-life expiration swaps, and initial and recurring inventory loading levels.

In conjunction with the above channel assessment, the Company is also exploring custom and private labeling whereby the company licenses the product formulation, trademarks, and other assets in two ways:

1. Multi-Level Marketing (MLM) Firms – for example manufacturer on behalf of “Amway” for product extensions of their Great Value and Equate private brands.
2. Product Brands – for example license to “Maxwell House” the Coffee Blender product as a new product line extension to expand their single-serve business.

The Company plans going forward include the following milestones:

Milestone	Timing	Est. Cost/Funding Source
1. Finalize Products & Pricing - New Product	October (Phase 3) - Ongoing	\$25,000 (Phase 3)
2. Staff (retain and expand)	January-June	\$10,000-20,000/Mo. Recurring Previous Sale of Equities
3. Launch Market and Promotion Plan - PR - Sampling - Advertising	Ongoing	\$500,000-\$750,000 Annual Previous and Future Sale of Equities + Product Contribution
4. Explore OEM/Private Label Opportunities	Ongoing	n/a

If we are unable to receive funding our plans will be dramatically and negatively impacted such that we will prioritize go to market strategies based on reduced operations and available capital.

Long Term Goals (Five Years)

The Company believes that there will be significant expansion opportunities in existing markets through new products as well as in new regions outside of the United States in a combination of market development and product licensing.

The Company believes that our limited resources may pose a challenge to our expansion goals and therefore anticipates that it may require additional capital in future years to fund expansion. There can be no assurance that our expansion strategy will be accretive to our earnings within a reasonable period of time. However, the Company believes that it can improve its operational efficiencies and reduce the need for new capital by carefully managing the business based on the following economic fundamentals within accretive margin and cost contribution modeling.

Results of Operations

For the year ended September 30, 2015, we generated net losses of \$1,469,353. This loss was attributed to \$1,510,810 of operating expenses. Compared with fiscal year end September 30, 2014, the net loss decreased by \$1,666,375 and operating expense reduced by \$1,665,378. These operating expenses included costs associated with production, storage and delivery of our products as well as research and development of new products.

We are presently in the development phase of our new product platform for functional beverages and we can provide no assurance that we will be able to attain profitability.

From October 1, 2014 to September 30, 2015, we earned revenues of \$115,022 from sales of our products. The revenues earned during 2014 fiscal year was \$71,762. There has been more than a 60% increase in earned revenue after one year operation.

We expect sales in 2016 from our new products through a combination of direct to consumer through our website portal, product awareness as well as through affiliate online stores and retailers.

Liquidity and Capital Resources

During November through December 2014, the Company resold 580,000 shares of our treasury stock, par value \$0.00001, at \$0.3 per share, for an aggregate purchase price of \$174,000.

During December 2014, the Company sold 20,000 shares of our common stock, par value \$0.00001, at \$0.66 per share, for an aggregate purchase price of \$13,200.

During January 2015, the Company resold 140,000 shares of our treasury stock, par value \$0.00001, at \$0.30 per share, for an aggregate purchase price of \$42,000.

During January 2015, the Company cancelled 1,160,000 shares of common stock.

During March 2015, the Company sold 20,000 shares of our common stock, par value \$0.00001, at \$0.70 per share, for an aggregate purchase price of \$14,000

During April through June 2015, the Company sold 575,232 shares of our common stock, par value \$0.00001, at an average cost of \$0.7 per share, for an aggregate purchase price of \$402,661.

During June 2015, the Company cancelled 380,000 shares of common stock.

During July through September 2015, the Company sold 440,000 shares of our common stock, par value \$0.00001, at \$0.70 per share, for an aggregate purchase price of \$308,000.

During July through September 2015, the Company issued 10,000 shares of our common stock to employee as compensation, par value \$0.00001, at \$0.60 per share, for an aggregate purchase price of \$6,000

During period from October 1, 2014 to September 30, 2015, the company spent \$222,956 to purchase inventory for future production and sales.

During September 30, 2015, the company purchased a new equipment with amount of \$106,860 for future production.

The above-mentioned sales of our securities were made to non-U.S. persons (as the term is defined in Regulation S of the Securities Act of 1933, as amended) in offshore transactions in which we relied on the registration exemption provide for in Regulation S and/or Section 4(2) of the Securities Act of 1933, as amended.

As of September 30, 2015 we had cash (operating capital) of \$107,678 and we have a short term debt in the sum of \$600,000 from Masateru Higashida, the Company's major shareholder. We have not attained profitable operations since inception. We expect to spend between \$2 million - \$4 million in expenses over the next 12 months. Our current cash balance as of September 30, 2015 is not sufficient to fund our operations for the next twelve months and may raise substantial doubts about the Company's ability to continue as a going concern. The Company will engage in additional financing through the sale of equity securities.

Critical Accounting Policies and Estimates

Our discussion and analysis of our financial condition and results of operations are based upon our financial statements that have been prepared in accordance with generally accepted accounting principles in the United States of America ("US GAAP"). This preparation requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities. US GAAP provides the framework from which to make these estimates, assumption and disclosures. We choose accounting policies within US GAAP that management believes are appropriate to accurately and fairly report our operating results and financial position in a consistent manner. Management regularly assesses these policies in light of current and forecasted economic conditions. While there are a number of significant accounting policies affecting our financial statements, we believe the following critical accounting policies involve the most complex, difficult and subjective estimates and judgments:

Revenue Recognition

Revenue is recognized in accordance with Staff Accounting Bulletin ("SAB") No. 101, Revenue Recognition in Financial Statements, as revised by SAB No. 104. We recognize revenue when persuasive evidence of an arrangement exists, delivery has occurred, the sales price is fixed or determinable and collectability is reasonably assured. Ownership and title of our products pass to customers upon delivery of the products to customers.

Cost of Sales

The Company records external shipping and handling expenses in cost of sales.

Inventories

Inventories are stated at the lower of cost or market. Cost is being measured using weighted average. We regularly review whether the realizable value of our inventory is lower than its book value. If our valuation shows that the realizable value is lower than book value, we take a charge to expense and directly reduce the value of the inventory.

The Company estimates its reserves for inventory obsolescence by examining its inventories on a quarterly basis to determine if there are indicators that the carrying values exceed net realizable value. Indicators that could result in additional inventory write downs include age of inventory, damaged inventory, slow moving products and products at the end of their life cycles. While management believes that the reserve for obsolete inventory is adequate, significant judgment is involved in determining the adequacy of this reserve.

Recent Accounting Pronouncements

There have been no recently issued accounting pronouncements that impact us.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

The Index to our Financial Statements and the Report of Independent Registered Public Accounting Firm appears in Part III of this Form 10-K.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

There have been no disagreements with our Independent Registered Public Accounting Firm on any matter of accounting principles or financial disclosures.

ITEM 9A(I). CONTROLS AND PROCEDURES

(a) Evaluation on Disclosure Controls and Procedures

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed by our Company is recorded, processed, summarized and reported, within the time periods specified in the rules and forms of the SEC. Our Chief Executive Officer and Chief Financial Officer are responsible for establishing and maintaining disclosure controls and procedures for our Company.

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, carried out an evaluation of the effectiveness of our "disclosure controls and procedures" (as defined in the Securities Exchange Act of 1934 (the "Exchange Act") Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this annual report on Form 10-K (the "Evaluation Date"). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of the Evaluation Date, our disclosure controls and procedures are not effective, at the reasonable assurance level, to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act (i) is recorded, processed, summarized and reported, within the time periods specified in the SEC rules and forms and (ii) is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

(b) Management's report on internal control over financial reporting

Our Chief Executive Officer as well as our Chief Financial Officer, Masateru Higashida, is responsible for establishing and maintaining adequate internal control over financial reporting. Mr. Higashida has assessed the effectiveness of the Company's internal control over financial reporting as of the end of the period covered by this annual report on Form 10-K based on the criteria for effective internal control described Internal Control-Integrated Framework issued by the Committee of Sponsoring Organization of the Treadway Commission. Based on this assessment, Mr. Higashida has concluded the Company's internal controls over the financial reporting is not effective based on the following material weaknesses, which existed as of September 30, 2015:

- Financial Reporting Systems: We did not maintain a fully integrated financial reporting system throughout the period and as a result, extensive manual analysis, reconciliation and adjustments were required in order to produce financial statements for external reporting purposes.
- Segregation of Duties: We do not currently have a sufficient complement of technical accounting and external reporting personnel commensurate to support standalone external financial reporting under public company or SEC requirements. Specifically, the Company did not effectively segregate certain accounting duties due to the small size of its accounting staff, and maintain a sufficient number of adequately trained personnel necessary to anticipate and identify risks critical to financial reporting and the closing process. In addition, there were inadequate reviews and approvals by the Company's personnel of certain reconciliations and other processes in day-to-day operations due to the lack of a full complement of accounting staff.

We believe that our weaknesses in internal control over financial reporting and our disclosure controls relate in part to the fact that we are an emerging business with limited personnel. Management and the Board of Directors believe that the Company must allocate additional human and financial resources to address these matters. Throughout the year, the Company has been continuously improving its monitoring of current reporting systems and its personnel. The Company intends to continue to make improvements in its internal controls over financial reporting and disclosure controls until its material weaknesses are remediated.

REMEDIATION OF MATERIAL WEAKNESS

As our current financial condition allows, we are in the process of analyzing and developing our processes for the establishment of formal policies and procedures with necessary segregation of duties, which will establish mitigating controls to compensate for the risk due to lack of segregation of duties.

DISCLOSURE CONTROLS AND PROCEDURES

Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls and procedures or our internal controls will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected, at this time.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There was no change in the Company's internal control over financial reporting that occurred during the fiscal quarter ended September 30, 2015, that has materially affected, or is reasonably likely to materially affect, its internal control over financial reporting. The Company is not an "accelerated filer" for the fiscal year ended September 30, 2015 because it is qualified as a "small business issuer". Hence, under current law, the internal controls certification and attestation requirements of Section 404 of the Sarbanes-Oxley act will not apply to the Company. This Annual report on Form 10-K does not include an attestation report of our registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by our registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit us to provide only management's report in this Annual Report on Form 10-K.

ITEM 9B. OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE.

The following table sets forth the name, age and position of each of our directors, executive officers and significant employees for the fiscal year ended September 30, 2015. Except as noted below each director will hold office until the next annual meeting of our stockholders or until his or her successor has been elected and qualified. Our executive officers are appointed by, and serve at the discretion of, the Board of Directors.

NAME	AGE	POSITION(S) AND OFFICE(S) HELD
Masa Higashida	43	President, Chief Executive Officer, Secretary, Treasurer, Chief Operations Officer, Chief Financial Officer, Director (Chairman)

Set forth below is a brief description of the background and business experience of each of our current executive officers and directors.

Masa Higashida, Director and Chairman of the Board

Masa Higashida is a successful business executive who has started numerous companies in the financial and consumer product industries. Mr. Higashida started his career in the financial industry in Nagoya Japan and quickly saw an opportunity to expand operations and moved to Seoul, Korea where he established Won Cashing in 2002. He served as their CEO and grew Won Cashing became the number three consumer loan company in Korea. He successfully sold the company to a major financial institution in October of 2010. Following Won Cashing exit, Mr. Higashida established FROM EAST PTE LTD., in Singapore as an investment company where he is the Managing Director. Mr. Higashida then moved to New Zealand and established iSpring LTD. to help provide quality drinking water in Japan following the Tsunami of 2011. From iSpring Mr. Higashida helped establish NuZee to market and distribute quality products in the United States.

Term of Office

Our directors are appointed for a one-year term to hold office until the next annual general meeting of our shareholders or until removed from office in accordance with our bylaws. Our officers are appointed by our board of directors and hold office until removed by the board.

Significant Employees

We have no significant employees other than the officers described above.

Family Relationships

There are no family relationships among our directors or officers.

Involvement In Certain Legal Proceedings

Our directors, executive officers and control persons have not been involved in any of the following events during the past five years:

1. any bankruptcy petition filed by or against any business of which such person was a general partner or executive officer either at the time of the bankruptcy or within two years prior to that time;
2. any conviction in a criminal proceeding or being subject to a pending criminal proceeding (excluding traffic violations and other minor offenses);
3. being subject to any order, judgment, or decree, not subsequently reversed, suspended or vacated, of any court of competent jurisdiction, permanently or temporarily enjoining, barring, suspending or otherwise limiting his involvement in any type of business, securities or banking activities; or
4. being found by a court of competent jurisdiction (in a civil action), the Securities and Exchange Commission or the Commodity Futures Trading Commission to have violated a federal or state securities or commodities law, and the judgment has not been reversed, suspended, or vacated.

Committees of the Board of Directors

Audit Committee

The functions of the Audit Committee are to recommend to the Board of Directors the appointment of independent auditors for the Company and to analyze the reports and recommendations of such auditors. The committee also monitors the adequacy and effectiveness of the Company's financial controls and reporting procedures. The Company established an Audit Committee in December 2013, after the end of our Fiscal 2013 year-end. The Audit Committee does not meet on a regular basis, but only as circumstances require. The Company has not designated any member of its Audit Committee as a Financial Expert.

Limitation of Liability of Directors and Officers

Pursuant to Nevada Law, our Articles of Incorporation exclude personal liability for our Directors and Officers for monetary damages based upon any violation of their fiduciary duties as Directors, except as to liability for any breach of the duty of loyalty, acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, or any transaction from which a Director or Officer receives an improper personal benefit. This exclusion of liability does not limit any right which a Director or Officer may have to be indemnified and does not affect any Director's or Officer's liability under federal or applicable state securities laws. We have agreed to indemnify our directors and officers against expenses, judgments, and amounts paid in settlement in connection with any claim against a Director or officer if he or she acted in good faith and in a manner he believed to be in our best interests.

ITEM 11. EXECUTIVE COMPENSATION.

The following table sets forth the compensation paid by us for the last three fiscal years. This information includes the dollar value of base salaries, bonus awards and number of stock options granted, and certain other compensation, if any. The compensation discussed addresses all compensation awarded to, earned by, or paid or named executive officers.

SUMMARY COMPENSATION TABLE

Name and principal position (a)	Year (b)	Salary (US\$) (c)	Bonus (US\$) (d)	Stock Awards (US\$) (e)	Option Awards (US\$) (f)	Non-Equity Incentive Plan Compensation (US\$) (g)	Nonqualified Deferred Compensation Earnings (US\$) (h)	All Other Compensation (US\$) (i)	Total (US\$) (j)
Masateru Higashida President, CEO, CFO, COO, Secretary, Treasurer (1)	2015	0	0	0	0	0	0	0	0
	2014	0	0	0	0	0	0	0	0
Craig Hagopian, President, CEO(2)	2015	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a
	2014	\$135,493	0	0(1)	0	0	0	0	\$135,493
Satoru Yukie CFO, COO, Secretary, Treasurer(3)	2015	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a
	2014	\$133,558	0	0(2)	0	0	0	0	\$133,558

(1) Masateru Higashida was appointed as the Company’s President, Chief Executive Officer, Chief Financial Officer, Treasurer, Secretary, and COO on August 19, 2014.

(2) Craig Hagopian served as our President and Chief Executive Officer from April 19, 2013 through August 19, 2014. On September 14, 2014, the Company entered into a Separation and Stock Repurchase agreement which provided for cancellation of all stock options granted to Mr. Hagopian in October 2013.

(3) Satoru Yukie served as our Chief Financial Officer, Treasurer, Secretary, Chief Operations Officer from April 19, 2013 through August 19, 2014. On September 14, 2014, the Company entered into a Separation and Stock Repurchase agreement which provided for cancellation of all stock options granted to Mr. Yukie in October 2013.

The compensation discussed herein addresses all compensation awarded to, earned by, or paid to our named executive officers.

Narrative Disclosure to the Summary Compensation Table

There are no arrangements or plans in which we provide pension, retirement or similar benefits for directors or executive officers. Our directors and executive officers may receive stock options at the discretion of our board of directors in the future. We do not have any material bonus or profit sharing plans pursuant to which cash or non-cash compensation is or may be paid to our directors or executive officers, except that stock options may be granted at the discretion of our board of directors from time to time. We have no plans or arrangements in respect of remuneration received or that may be received by our executive officers to compensate such officers in the event of termination of employment (as a result of resignation, retirement, change of control) or a change of responsibilities following a change of control.

Outstanding Equity Awards At Fiscal Year-End

No named executive officer or director holds exercisable or unexercisable options, as of the years ended September 30 2015 and 2014

COMPENSATION OF DIRECTORS

No director received or accrued any compensation for his or her services as a director since our inception. We have no formal plan for compensating our directors for their services in their capacity as directors. Our directors are entitled to reimbursement for reasonable travel and other out-of-pocket expenses incurred in connection with attendance at meetings of our board of directors. Our board of directors may award special remuneration to any director undertaking any special services on our behalf other than services ordinarily required of a director.

Long-Term Incentive Plan Awards

We do not have any long-term incentive plans that provide compensation intended to serve as incentive for performance.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS.

The following table sets forth, as of December 15th, 2015, the beneficial ownership of our common stock by each executive officer and director, by each person known by us to beneficially own more than 5% of the our common stock and by the executive officers and directors as a group. Except as otherwise indicated, all shares are owned directly and the percentage shown is based on 30,124,951 shares of common stock issued and outstanding on January 8, 2015.

Title of Class	Name and Address of Beneficial Owner	Amount of Beneficial Ownership	Percent of Class ⁽¹⁾
<i>Executive Officers and Directors</i>			
Common	Masateru Higashida	14,233,633	50.297
Total of All Executive Officers and Directors		14,233,633	50.297
<i>Shareholders Holding 5% or Greater</i>			
Common	Masateru Higashida	14,233,633	50.297
Common	Travis Gorney	1,520,000	5.371
Common	Arata Matsushima	1,520,000	5.371
Total of All Shareholders With 5% or Greater		17,273,633	61.039

(1) As used in this table, "beneficial ownership" means the sole or shared power to vote, or to direct the voting of, a security, or the sole or shared investment power with respect to a security (i.e., the power to dispose of, or to direct the disposition of, a security). In addition, for purposes of this table, a person is deemed, as of any date, to have "beneficial ownership" of any security that such person has the right to acquire within 60 days after such date.

The persons named above have full voting and investment power with respect to the shares indicated. Under the rules of the Securities and Exchange Commission, a person (or group of persons) is deemed to be a "beneficial owner" of a security if he or she, directly or indirectly, has or shares the power to vote or to direct the voting of such security, or the power to dispose of or to direct the disposition of such security. Accordingly, more than one person may be deemed to be a beneficial owner of the same security. A person is also deemed to be a beneficial owner of any security, which that person has the right to acquire within 60 days, such as options or warrants to purchase our common stock.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, DIRECTOR INDEPENDENCE.

Director Independence

We are not currently a "listed company" under SEC rules and are therefore not required to have a Board comprised of a majority of independent directors or separate committees comprised of independent directors. We do not consider our sole director as "independent" as the term "independent" is defined by the rules of the NASDAQ Stock Market.

Review, Approval Or Ratification Of Transactions With Related Persons

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES.

The following is a summary of the fees billed to us by MaloneBailey LLP for professional services rendered for the fiscal years ended September 30, 2015 and 2014:

	2015	2014
<u>FEE CATEGORY</u>		
Audit Fees (Malone &Bailey)	\$36,500	\$27,200
Tax Fee	-	-
Audit-Related Fees	-	2,400
<u>TOTAL FEES</u>	<u>\$36,500</u>	<u>\$29,600</u>

Audit Fees consist of fees billed for professional services rendered for the audit of our company's financial statements and review of our interim financial statements included in quarterly reports and services that are normally provided by our auditors in connection with statutory and regulatory filings or engagements.

Audit Related Fees consist of fees billed for assurance and related services that are reasonably related to the performance of the audit or review of our financial statements and are not reported under "Audit Fees".

Tax Fees consist of fees billed for professional services for tax compliance, tax advice and tax planning.

Report of Independent Registered Public Accounting Firm

To the Board of Directors
NuZee, Inc.
San Diego, CA 92127

We have audited the accompanying balance sheets of NuZee, Inc. (the “Company”) as of September 30, 2015 and 2014 and the related statements of operations, stockholders’ equity (deficit) and cash flows for each of the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of their internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, based on our audits, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of September 30, 2015 and 2014, and the results of their operations and their cash flows for each of the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company has suffered recurring losses from operations, which raises substantial doubt about its ability to continue as a going concern. Management’s plans regarding those matters are described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

The accompanying notes are an integral part of these audited financial statements

**Nu Z ee Inc,
Notes to Financial Statements
September 30, 2015**

1. Organization

NuZee, Inc. (the “Company”, “we”, “our”) was incorporated on November 9, 2011 in Nevada. The Company is a start-up organization which markets and distributes consumer products primarily in the beverage segment. Additionally, while the Company primarily intends to purchase its proprietary products and resell, the Company may also engage in contract manufacturing where the Company purchases raw materials and retains a contract converter to process the raw materials into finished products for resale.

2. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The summary of significant accounting policies presented below is designed to assist in understanding the Company’s financial statements. Such financial statements and accompanying notes are the representations of the Company’s management, who are responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America (“GAAP”) in all material respects, and have been consistently applied in preparing the accompanying financial statements.

Going Concern and Capital Resources

Since its inception, the Company has devoted substantially all of its efforts to business planning, research and development, recruiting management and technical staff, acquiring operating assets and raising capital. The Company has generated limited revenues from its principal operations, and there is no assurance of future revenues. During the fiscal year ended September 30, 2015, the Company began researching and investigating the viability of a new product platform for functional beverages.

As of September 30, 2015 the Company had cash (operating capital) of \$107,678 and had \$600,000 short term convertible notes. The Company has not attained profitable operations since inception. However, the Company started to make a deal with big wholesaler starting next year. The Company expects to spend between \$1 million-\$2 million in expenses over the next 12 months. Current cash balance as of September 30, 2015 is not sufficient to fund operations for the next twelve months. Therefore, the Company intends to engage in additional financing through the sale of equity securities.

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, which contemplates continuation of the Company as a going concern. The Company has had recurring losses, an accumulated deficit, is dependent on the shareholder to provide additional funding for operating expenses and has no recurring revenues. These items raise substantial doubts about the Company’s ability to continue as a going concern.

Use of Estimates

In preparing these financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amount of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Fair Value of Financial Instruments

The Company’s financial instruments include cash, accounts payable accrued liabilities and short-term debt. The estimated fair value of these instruments approximates its carrying amount due to the short maturity of these instruments.

Cash and Cash Equivalents

The Company considers all highly-liquid investments with original maturities of three months or less when purchased to be cash equivalents. The Company had no cash equivalents as of September 30, 2015 and 2014, respectively.

Accounts Receivable

Trade accounts receivable are periodically evaluated for collectability based on past credit history with customers and their current financial condition. Bad debts expense or write offs of receivables are determined on the basis of loss experience, known and inherent risks in the receivable portfolio and current economic conditions. There have been no write-offs during the various periods being reported on.

Major Customers

In the year ended September 30, 2015, revenue was from two major customers.

	Sales Amounts	Percentage of Total Revenue
Customer A	\$42,900	37 %
Customer B	\$50,466	44%

Revenue Recognition

The Company recognizes revenue only when all of the following criteria have been met:

- Persuasive evidence of an arrangement exists;
- Delivery has occurred or services have been rendered;
- The fee for the arrangement is fixed or determinable; and
- Collectability is reasonably assured.

Persuasive Evidence of an Arrangement—The Company documents all terms of an arrangement in a written contract signed by the customer prior to recognizing revenue.

Delivery Has Occurred or Services Have Been Performed—The Company performs all services or delivers all products prior to recognizing revenue. Monthly services are considered to be performed ratably over the term of the arrangement. Professional consulting services are considered to be performed when the services are complete. Equipment is considered delivered upon delivery to a customer's designated location.

The Fee for the Arrangement Is Fixed or Determinable—Prior to recognizing revenue, a customer's fee is either fixed or determinable under the terms of the written contract. The customer's fee is negotiated at the outset of the arrangement and is not subject to refund or adjustment during the initial term of the arrangement.

Collectability Is Reasonably Assured—The Company determines that collectability is reasonably assured prior to recognizing revenue. Collectability is assessed on a customer by customer basis based on criteria outlined by management. New customers are subject to a credit review process, which evaluates the customer's financial position and ultimately its ability to pay. The Company does not enter into arrangements unless collectability is reasonably assured at the outset. Existing customers are subject to ongoing credit evaluations based on payment history and other factors. If it is determined during the arrangement that collectability is not reasonably assured, revenue is recognized on a cash basis.

Cost Recognition

Cost of products sold is primarily comprised of direct materials consumed in the manufacturing of primary coffee blender products. Cost of products sold also includes the cost to distribute products to customers, inbound freight costs and other shipping and handling activity.

Selling, General and Administrative Expense

Selling, general and administrative expense (SG&A) is primarily comprised of marketing expenses, research and development costs, administrative and other indirect overhead costs, depreciation expense and other miscellaneous operating items. Due to researching and investigating the viability of a new product platform for functional beverages, the Company incurred large marketing expenses, research and development costs and related legal and professional expenses in the 2014 fiscal year. Personnel expenses, occupying a majority portion of SG&A, were \$363,788 and \$2,933,476 for the years ended September 30, 2015 and 2014, respectively.

Cash Flow Presentation

The Statement of Cash Flows is prepared using the indirect method, which reconciles net loss to cash flow from operating activities. The reconciliation adjustments include the removal of timing differences between the occurrence of operating receipts and payments and their recognition in net loss. The adjustments also remove cash flows arising from investing and financing activities, which are presented separately from operating activities.

Inventory

Inventory, consisting principally of products held for sale is stated at the lower of cost or market or net realizable value, using the weighted average cost method. The Company reviews inventory levels at least quarterly and records a valuation allowance when appropriate. At September 30, 2015 and 2014 the Company concluded the carrying value of the inventory of \$ 201,764 and \$50,881 respectively, the amount reflected on the balance sheet is net of this adjustment.

	September 30, 2015	September 30, 2014
Raw Material	\$ 69,836	\$26,909
Finished goods	131,928	23,972
Total	\$201,764	\$50,981

Related Party Transactions

During February 2015, the Company issued a secured convertible promissory note in the sum of \$600,000 to Masateru Higashida, the Company's major shareholder. Interest calculated at the annual rate of zero percent (0%) for the period until April 2016. If the outstanding principle and all accrued and unpaid interest on the debt hereof (the "Debt") is not repaid by the Company in full by the Repayment Date, the Debt or any portion thereof may be converted at the option of the Holder, upon written notice to the Company at any time after the Repayment Date, into that number of shares of the Company's Common Stock equal to the Debt or that portion thereof that the Holder elects to convert, divided by price per share of \$0.51. This note shall be cancelled on the date of conversion of the entirety of the Debt.

Property, Plant and Equipment

Equipment is stated at cost, net of depreciation. The Company depreciates equipment on a straight line basis. Office equipment is depreciated over a 3 year life, furniture over a 7 year life, and other assets over a 7 year life. Depreciation expense for the years ended September 30, 2015 and 2014 was \$22,147 and \$3,249 respectively. Repair and maintenance costs are expensed as incurred.

Samples

The Company distributes samples of its products as a component of its marketing program. Costs for samples are expensed at the time the samples are shipped.

Long-Lived Assets

In accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 360, Property, Plant and Equipment, the Company tests long-lived assets or asset groups for recoverability when events or changes in circumstances indicated that their carrying amount may not be recoverable. Circumstances which could trigger a review include, but are not limited to: significant decreases in the market price of the asset; significant adverse changes in the business climate or legal factors; accumulation of costs significantly in excess of the amount originally expected for the acquisition or construction of the asset; current period cash flow or operating losses combined with a history of losses or a forecast of continuing losses associated with the use of the asset; and a current expectation that the asset will more likely than not be sold or disposed significantly before the end of its estimated useful life.

Recoverability is assessed based on the carrying amount of the asset and its fair value which is generally determined based on the sum of the undiscounted cash flows expected to result from the use and the eventual disposal of the asset, as well as specific appraisal in certain instances. A loss of disposition of asset is recognized when the carrying amount is not recoverable and exceeds fair value. A loss of disposition of assets were recognized for the years ended September 30, 2015 and 2014 of \$54,676 and \$0, respectively.

Income Taxes

In accordance with ASC 740 - Income Taxes, the provision for income taxes is computed using the asset and liability method. Under the asset and liability method, deferred income tax assets and liabilities are determined based on the differences between the financial reporting and tax bases of assets and liabilities and are measured using the currently enacted tax rates and laws. A valuation allowance is provided for the amount of deferred tax assets that, based on available evidence, are not expected to be realized.

The Company also follows the guidance related to accounting for income tax uncertainties. In accounting for uncertainty in income taxes, the Company recognizes the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more likely than not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement with the relevant tax authority. No liability for unrecognized tax benefits was recorded as of September 30, 2015 and 2014.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of cash and cash equivalents. The Company places its cash with high quality banking institutions. From time to time, the Company may or may not maintain cash balances at certain institutions in excess of the Federal Deposit Insurance Corporation limit.

Related parties

A party is considered to be related to the Company if the party directly or indirectly or through one or more intermediaries, controls, is controlled by, or is under common control with the Company. Related parties also include principal owners of the Company, its management, members of the immediate families of principal owners of the Company and its management and other parties with which the Company may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests. A party which can significantly influence the management or operating policies of the transacting parties or if it has an ownership interest in one of the transacting parties and can significantly influence the other to an extent that one or more of the transacting parties might be prevented from fully pursuing its own separate interests is also a related party.

Stock-based Compensation

This Subtopic addresses the accounting and reporting for both the issuer (that is, the purchaser or grantor) and recipient (that is, the goods or service provider or grantee) for a subset of share-based payment transactions. Topic 718 also addresses a subset of these transactions. The applicable accounting and reporting requirements for a specific transaction substantially depend on whether the grantee meets the definition of an employee (see the definition for determining which guidance to apply to a particular transaction). The accounting and reporting required may differ significantly depending on whether that definition of employee is met for the grantee. With certain exceptions, this Subtopic provides guidance when the grantee does not meet that definition of an employee. The company does not specific police for stock-based compensation.

3. COMMON STOCK

During the year ended 2014, the Company cancelled 8,966,100 shares of common stock.

During the year ended 2014, the Company sold 1,608,029 shares at \$0.60 per share, for an aggregate purchase price of \$964,817.

During the year ended 2014, the Company repurchased 2,736,000 shares at an average cost of \$0.03838 per share.

During the year ended 2015, the Company resold 720,000 shares of treasury stock at \$0.30 per share, for an aggregate purchase price of \$216,000.

During the year ended 2015, the Company cancelled 1,540,000 shares of common stock.

During the year ended 2015, the Company sold 1,035,232 shares of common stock at \$0.70 per share, for an aggregate purchase price of \$737,861

During the year ended 2015, the company issued 10,000 shares of common stock at \$0.60 per share, for compensation and an aggregate price of \$6,000.

4. STOCK OPTIONS

During October 2013 the Company granted 3,471,665 options to employees and directors . The right to exercise these options shall vest and become 25% exercisable on the first anniversary of when granted, with the exception that 100% of options issued to one employee vested immediately. The remaining options shall vest and become exercisable ratably over the next 36 months, with the exception that options issued to 2 employees shall vest and become exercisable over 18 months and option issued to one employee shall vest and become exercisable as of the effective date of the Option Agreement. The exercise price is \$0.48 per share and will expire ten years from the grant date, unless terminated earlier as provided by the Option Agreements.

During February 2015, the Company committed to issue 45,000 options to employee and 100,000 options to consultants for services the next time the board approves for issuance. During September 2015, the Company committed to issue 22,500 options to an employee as compensation for services the next time the board approves for issuance. The board has not yet approved the issuances.

The fair value of each option award was estimated on the date of grant using the Black-Scholes option valuation model using the assumptions noted as follows: expected volatility was based on historical trading in the company's stock. The expected term of options granted was determined using the simplified method under SAB 107 and represents the mid-point between the vesting term and the contractual term. . The risk-free rate is calculated using the U.S. Treasury yield curve, and is based on the expected term of the option. The Company has estimated there will be no forfeitures.

The Black-Scholes option pricing model was used with the following weighted average assumptions for options granted during the twelve months ended September 30, 2015 and \$1,503,762 for the year ended September 30, 2014.

Risk-free interest rate 1% - 2%

Expected option life 2 – 3 years

Expected volatility 300%

Expected dividend yield 0.0%

The company recognized stock option expenses of \$18,969 for the year ended September 30, 2015 and \$1,503,762 for the year ended September 30, 2014.

The following table summarizes common stock options issued and outstanding:

	Stock Options	Exercise price	Intrinsic Value
Outstanding at September 30, 2013	-	\$	-
Granted	3,471,665		
Exercised	-		
Forfeited	-		
Expired	-		
<hr/>			
Outstanding at September 30, 2014	3,471,665	\$0.60	\$ -
Granted	-		
Exercised	-		
Forfeited	(638,332)		
Expired	-		
<hr/>			
Outstanding at September 30, 2015	2,833,333	\$0.60	\$ -
Exercisable at September 30, 2015	2,833,333	\$0.60	\$ -

5. STOCK WARRANTS

During April 2014, the Company granted 100,000 warrants to advisors for services. The right to exercise these warrants shall vest in equal eight quarterly installments over the twenty-four (24) months following the date their vesting begins, subject to their continued engagement as a service provider through each such date. The exercise price equal to the current fair market value per share on the date of grant and will expire ten years from the grant date, unless terminated earlier as provided by the Warrant Agreements.

The Black-Scholes warrant pricing model was used with the following weighted average assumptions for options granted during the twelve month ended September 30, 2014

Risk-free interest rate 2.53%

Expected life 0 years

Expected volatility 0%

Expected dividend yield 0.0%

The company recognized warrant expenses of \$20,527 for the year ended September 30, 2015 and \$33,268 of warrant expenses for year ended September 30, 2014.

During the year ended September 30, 2015, the Company cancelled all warrants. Thus, there are no exercisable warrants outstanding at year ended September 30, 2015. Unamortized warrant expense as of September 30, 2015 for all warrants outstanding is \$0.

The following table summarizes common stock warrants issued and outstanding:

	Stock Warrants	Exercise price
Outstanding at September 30, 2013		
Granted	100,000	\$0.60
Exercised	-	
Forfeited	-	
Expired	-	
Outstanding at September 30, 2014	100,000	\$0.60
Granted	-	
Exercised	-	
Forfeited	100,000	\$0.60
Expired	-	
Outstanding at September 30, 2015		

6. INCOME TAX

As of September 30, 2015 and, 2014, there were no differences between financial reporting and tax bases of assets and liabilities. The Company will have tax losses available to be applied against future years' income as result of the losses incurred. However, due to the losses incurred in the period and expected future operating results, management determined that it is more likely than not that the deferred tax asset resulting from the tax losses available for carry forward will not be realized through the reduction of future income tax payments. Accordingly a 100% valuation allowance has been recorded for deferred income tax assets. Net operating loss carry forward is \$5,982,119 and \$4,518,766 as of September 30, 2015 and 2014 and will begin expiring in 2032.

Deferred tax assets consisted of the following as of September 30, 2015 and 2014:

	2015	2014
Net Operating Losses	2,095,842	1,581,568
Valuation Allowance	(2,095,842)	(1,581,568)

7. SUBSEQUENT EVENTS

During October 2015 to December 2015, the Company sold 280,011 shares at an average cost of \$0.732 per share, for an aggregate purchase price of \$204,990.

**CERTIFICATION PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Masateru Higashida, certify that:

1. I have reviewed this report on Form 10-K of NuZee, Inc.;
 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
 4. I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under my supervision, to ensure that material information relating to the registrant is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report my conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting;
 4. I have disclosed, based on my most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
-

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
