It is management's opinion that when the interim financial statements are read in conjunction with the April 30, 2014 Annual Report on Form 10-K, the disclosures are adequate to make the information presented not misleading. MEDINA INTERNATIONAL HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Management believes that the above actions will allow the Company to continue its operations through the next fiscal year.

The future success of the Company is likely dependent on its ability to attain additional capital to develop its proposed products and ultimately, upon its ability to attain future profitable operations. NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation and Consolidation

The accompanying consolidated financial statements of Medina International Holdings, Inc. and its subsidiaries were prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP") and include the assets, liabilities, revenues, and expenses of our two wholly owned subsidiaries, Harbor Guard Boats, Inc., and Medina Marine, Inc. All intercompany balances and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of our consolidated financial statements in conformity with GAAP requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting periods. Significant estimates and assumptions are used for, but are not limited to;

- 1) Revenue recognition;
- 2) Allowance for doubtful accounts;
- 3) Inventory costs;
- 4) Asset impairments;
- 5) Depreciable lives of assets;
- 6) Income tax reserves and valuation allowances;
- 7) Fair value of stock options;

- 8) Allocation of direct and indirect cost of sales;
- 9) Contingent liabilities; and
- 10) Warranty liabilities.

Future events and their effects cannot be predicted with certainty; accordingly, our accounting estimates require exercise of judgment. We base our estimates on historical experience, available market information, appropriate valuation methodologies, and on various other assumptions that we believe to be reasonable. We evaluate and update our assumptions and estimates on an ongoing basis and may employ outside experts to assist in our evaluation, when necessary. Actual results could differ materially from these estimates.

Revenue Recognition

Revenue Recognition is recognized when earned. The Company's revenue recognition policies are in compliance with Staff Accounting Bulletin (SAB) 104. ASC 650 "Revenue Recognition." Sales revenue is recognized at the date of shipment to customers when a formal arrangement exists, the price is fixed or determinable, the delivery is completed, no other significant obligations of the Company exist and collectability is reasonably assured. Payments received before all of the relevant criteria for revenue recognition are satisfied, are recorded as unearned revenue.

Cash and Cash Equivalents

The Company considers all liquid investments with a maturity of three months or less from the date of purchase that are readily convertible into cash to be cash equivalents. The Company maintains its cash in bank deposit accounts that may exceed federally insured limits. The Company has not experienced any losses in such accounts.

Accounts receivable

The Company reviews accounts receivable periodically for collectability and establishes an allowance for doubtful accounts and records bad debt expense when deemed necessary.

Inventory

We carry our inventories at the lower of its cost or market value. Cost is determined using first-in, first-out ("FIFO") method. Market is determined based on net realizable value. We also provide due consideration to obsolescence, excess quantities, and other factors in evaluating net realizable value.

Fixed Assets

Capital assets are stated at cost. Fixed assets consist of tools (molds), office equipment, fire extinguishers and manufacturing tools and are stated at cost. Depreciation of fixed assets is provided using the straight-line method over the estimated useful lives (3-7 years) of the assets. Expenditures for maintenance and repairs are charged to expense as incurred.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE NINE MONTHS ENDED JANUARY 31, 2015

Long Lived Assets

The Company adopted codification ASC 350 "Accounting for the Impairment or Disposal of Long-Lived Assets", The Company periodically evaluates the carrying value of long-lived assets to be held and used in accordance with ASC 350. ASC 350 requires impairment losses to be recorded on long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amounts. In that event, a loss is recognized based on the amount by which the carrying amount exceeds the fair market value of the long-lived assets. Loss on long-lived assets to be disposed of is determined in a similar manner, except that fair market values are reduced.

Comprehensive Loss

Accounting principles generally require that recognized revenue, expenses, gains and losses be included in net income. Certain statements, however, require entities to report specific changes in assets and liabilities, such as unrealized gains and losses on available-for-sale securities, as a separate component of the equity section of the balance sheet. Such items, along with net income, are components of comprehensive income.

Issuance of Shares for Service

The Company accounts for employee and non-employee stock awards, whereby equity instruments issued to employees for services are recorded based on the fair value of the instrument issued and those issued to non-employees are recorded based on the fair value of the consideration received or the fair value of the equity instrument, whichever is more reliably measurable.

Fair Value Of Financial Instruments

Disclosures about fair value of financial instruments, requires that the Company disclose estimated fair values of financial instruments. The carrying amounts reported in the statements of financial position for current assets and current liabilities qualifying, as financial instruments are a reasonable estimate of fair value.

Foreign Currency Translation And Hedging

The Company is exposed to foreign currency fluctuations due to international trade. The management does not intend to enter into forward exchange contracts or any derivative financial investments for trading purposes. The management does not currently hedge foreign currency exposure.

Basic and Diluted Net Loss per Share

Basic net loss per share is based upon the weighted average number of common shares outstanding. Diluted net loss per share is based on the assumption that all dilutive convertible shares and stock options were converted or exercised.

Dilution is computed by applying the treasury stock method. Under this method, options and warrants are assumed to be exercised at the beginning of the period (or at the time of issuance, if later), and as if funds obtained thereby were used to purchase common stock at the average market price during the period.

Products and services, geographic areas and major customers

The Company earns revenue from the sale of commercial and recreational boats. The Company's products were sold domestically and internationally. The Company does not separate sales activities into different operating segments.
