Colorado Community Broadcasting, Inc.
(A Development Stage Company)

COLORADO COMMUNITY BROADCASTING, INC.

**NOTES TO FINANCIAL STATEMENTS
FOR THE QUARTER ENDED OCTOBER 31, 1999 AND 1998**

Note 1 - Organization and Summary of Significant Accounting Policies:

Organization:

Colorado Community Broadcasting, Inc. (the "Company") was incorporated on March 16, 1998 in the state of Colorado. The Company is primarily engaged in raising capital funds from investors and contracting to purchase a low power television license and station.

The Company fiscal year end is April 30.

Basis of Presentation - Development Stage Company

The Company has not earned significant revenue from planned principal operations. Accordingly, the Company's activities have been accounted for as those of a "Development Stage Enterprise" as set forth in Financial Accounting Standards Board Statement No. 7 ("SFAS 7"). Among the disclosures required by SFAS 7 are that the Company's financial statements be identified as those of a development stage company, and that the statements of operations, stockholders' equity and cash flows disclose activity since the date of the Company's inception.

Basis of Accounting:

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles.

Cash and Cash Equivalents:

The Company considers all highly-liquid debt instruments, purchased with an original maturity of three months, to be cash equivalents.

Use of estimates:

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Net Loss Per Share:

Net loss per share has been computed by dividing net loss by the weighted average number of common shares and equivalents outstanding.

Stock Subscription:

The Company records a stock subscription once the Subscription Agreement is accepted.

COLORADO COMMUNITY BROADCASTING, INC.
NOTES TO FINANCIAL STATEMENTS
FOR THE QUARTER ENDED OCTOBER 31, 1999 AND 1998

Income Taxes:

The Company accounts for income taxes under SFAS No. 109, which requires the asset and liability approach to accounting for income taxes. Under this approach, deferred income taxes are determined based upon differences between the financial statement and tax bases of the Company's assets and liabilities and operating loss carryforwards using enacted tax rates in effect for the years in which the differences are expected to reverse. Deferred tax assets are recognized if it is more likely than not that the future tax benefit will be realized.

Fair Value of Financial Instruments

The carrying amount of cash, accounts payable, and accrued expenses are considered to be representative of their respective fair values because of the short-term nature of these financial instruments.

Note 2 - Capital Stock Transactions

The authorized capital stock of the Company is 100,000,000 shares of common stock at \$.0001 par value. The Company has issued 225,000 shares to sixteen individuals for \$25,000 cash and services performed as of April 30, 1999.

Note 3 - Income Taxes

There has been no provision for U.S. federal, state, or foreign income taxes for any period because the Company has incurred losses in all periods and for all jurisdictions.

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of deferred tax assets are as follows:

Deferred tax assets	
Net operating loss carryforwards	\$6,448
Valuation allowance for deferred tax assets	(6,448)

Net deferred tax assets	\$ -
	=====

Realization of deferred tax assets is dependent upon future earnings, if any, the timing and amount of which are uncertain. Accordingly, the net deferred tax assets have been fully offset by a valuation allowance.

Note 4 - Short-Term Borrowings

Officers of the Company have provided services and advanced cash to the Company for operations. These advances are unsecured, and bear no interest, and due on demand.

Item 2. Management's Discussion and Analysis or Plan of Operation.

Results of Operations for Quarter Ended October 31, 1999

The Company had no revenue or operations for the period. The Company incurred general and administrative expenses of \$3,105 in the period in 1999 and \$118 1998. The Company had loss on operations for the period in 1999 of (\$3,105) and in 1998 (\$118). There was a net loss for the period of (\$3,105) in 1999 and (\$118) in 1998.

Results of Operations for the Six Month Period Ended June 30, 2000

The Company had no revenue or operations for the six month period ended October 31, 1999. The Company incurred general and administrative expenses for the six month period ended October 31, 1999 of \$3,655 compared to (\$118) in 1998. The Company incurred operating loss for the six month period ended October 31, 1999 of (\$3,655) as compared to (\$118) in the period in 1998.

The trend of operating losses can be expected to continue until and unless the company acquires or merges with a profitable business.

(b) Liquidity and Capital Resources. At October 31, 1999, the Company had \$21,402 in cash or other assets with which to conduct operations. There can be no assurance that the Company will be able to complete its business plan and to exploit fully any business opportunity that management may be able to locate on behalf of the Company. The Company is unable to predict the period for which it can conduct operations. Accordingly, the Company will need to seek additional financing through loans, the sale and issuance of additional debt and/or equity securities, or other financing

arrangements. Management believes that the Company has inadequate working capital to pursue any operations at this time; however, loans to the Company from management may facilitate development of the business plan. For the foreseeable future, the Company through its management intend to pursue acquisitions as a means to develop the Company. The Company does not intend to pay dividends in the foreseeable future. As of the end of the reporting period, the Company had \$21,402 in cash or cash equivalents. There was no significant change in working capital during this quarter.

(c) Year 2000 issues "Year 2000 problems" result primarily from the inability of some computer software to properly store, recall or use data after December 31, 1999. The Company is engaged primarily in organizational and fund raising activities and accordingly, does not rely on information technology ("IT") systems. Accordingly the Company does not believe that it will be materially affected by Year 2000 problems. The Company relies on non-IT systems that may suffer from Year 2000 problems including telephone systems, facsimile and other office machines. Moreover, the Company relies on third-parties that may suffer from Year 2000 problems that could affect the Company's operations including banks and utilities. In light of the Company's minimal operations, the Company does not believe that such non-IT systems or third-party Year 2000 problems will affect the Company in a manner that is different or more substantial than such problems affect other similarly situated companies. Consequently, the Company does not currently intend to conduct a readiness assessment of Year 2000 problems or develop a detained contingency plan with respect to Year 2000 problems that may affect the Company or third-parties.

The foregoing is a "Year 2000 Readiness Disclosure" within the meaning of the Year 2000 Information and Readiness Disclosure Act of 1998.
