Basis of Presentation

Development Stage Company

The Company has not earned significant revenues from planned operations. Accordingly, the Company's activities have been accounted for as those of a "Development Stage Company", as set forth in Statement of Financial Accounting Standards No. 7 ("SFAS"). Among the disclosures required by SFAS No. 7 are that the Company's financial statements of operations, stockholders' equity and cash flows disclose activity since the date of the Company's inception.

Presentation of Interim Information

In the opinion of the management of the Company, the accompanying unaudited financial statements include all normal adjustments considered necessary to present fairly the financial position and operating results of the Company for the periods presented. The financial statements and notes are presented as permitted by Form 10-Q, and do not contain certain information included in the Company's Annual Report on Form 10-KSB for the fiscal year ended April 30, 2008. It is management's opinion that when the interim financial statements are read in conjunction with the April 30, 2008. Annual Report on Form 10-KSB, the disclosures are adequate to make the information presented not misleading. Interim results are not necessarily indicative of results for a full year or any future period.

Going Concern

In the Company's Annual Report on Form 10-KSB for the fiscal year ended April 30, 2008, the Report of the Independent Registered Public Accounting Firm includes an explanatory paragraph that describes substantial doubt about the Company's ability to continue as a going concern.

The Company's interim financial statements for the three months ended July 31, 2008 have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. The Company reported a net loss of $36,671 for the three months ended July 31, 2008, and an accumulated deficit of $2,917,013 as of July 31, 2008. The Company also has a working capital deficiency of $575,804 and the Company has not recognized any revenues from its business operations.

The future success of the Company is likely dependent on its ability to attain additional capital to develop its proposed products and ultimately, upon its ability to attain future profitable operations. There can be no assurance that the Company will be successful in obtaining such financing, or that it will attain positive cash flow from operations.

Summary of Accounting Policies:

Use Of Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash And Cash Equivalents

The Company considers all liquid investments with a maturity of three months or less from the date of purchase that are readily convertible into cash to be cash equivalents. The Company maintains its cash in bank deposit accounts that may exceed federally insured limits. The company has not experienced any losses in such accounts. At July 31, 2008, the Company had $542 in cash or cash equivalents.

Inventory

Inventories are stated at the lower of cost (first-in, first-out) or market and consist of finished goods and raw materials.

Property & Equipment

Capital assets are stated at cost. Equipment consisting of laser stripping equipment is carried at cost. Depreciation of equipment is provided using the straight-line method over the estimated useful lives (5-7 years) of the assets. Expenditures for maintenance and repairs are charged to expense as incurred.

Long-Lived Assets

Effective January 1, 2002, the Company adopted Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144"), which addresses financial accounting and reporting for the impairment or disposal of long-lived assets and supersedes SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of," and the accounting and reporting provisions of APB Opinion No. 30, "Reporting the Results of Operations for a Disposal of a Segment of a Business." The Company periodically evaluates the carrying value of long-lived assets to be held and used in accordance with SFAS 144. SFAS 144 requires impairment losses to be recorded on long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amounts. In that event, a loss is recognized based on the amount by which the carrying amount exceeds the fair market value of the long-lived assets. Loss on long-lived assets to be disposed of is determined in a similar manner, except that fair market values are reduced.

Revenue Recognition

Revenue Recognition is recognized when earned. The Company's revenue recognition policies are in compliance with Staff accounting bulletin (SAB) 104. Sales revenue is recognized at the date of shipment to customers when a formal arrangement exists, the price is fixed or determinable, the delivery is completed, no other significant obligations of the Company exist and collectability is reasonably assured. Payments received before all of the relevant criteria for revenue recognition are satisfied are recorded as unearned revenue.

Fair Value Of Financial Instruments

Statement of financial accounting standard No. 107, Disclosures about fair value of financial instruments, requires that the Company disclose estimated fair values of financial instruments. The carrying amounts reported in the statements of financial position for current assets and current liabilities qualifying, as financial instruments are a reasonable estimate of fair value.

Foreign Currency Translation And Hedging

The Company is exposed to foreign currency fluctuations due to international trade. The management does not intend to enter into forward exchange contracts or any derivative financial investments for trading purposes. The management does not currently hedge foreign currency exposure.

Foreign Currency Translation And Hedging

The Company is exposed to foreign currency fluctuations due to international trade. The management does not intend to enter into forward exchange contracts or any derivative financial investments for trading purposes. The management does not currently hedge foreign currency exposure.

Basic And Diluted Net Loss Per Share

Net loss per share is calculated in accordance with the Statement of financial accounting standards No. 128 (SFAS No. 128), "Earnings per share". SFAS No. 128 superseded Accounting Principles Board Opinion No. 15 (APB 15). Net loss per share for all periods presented has been restated to reflect the adoption of SFAS No. 128. Basic net loss per share is based upon the weighted average number of common shares outstanding. Diluted net loss per share is based on the assumption that all dilutive convertible shares and stock options were converted or exercised. Dilution is computed by applying the treasury stock method. Under this method, options and warrants are assumed to be exercised at the beginning of the period (or at the time of issuance, if later), and as if funds obtained thereby were used to purchase common stock at the average market price during the period.

Recently Issued Accounting Pronouncements:

In December 2007, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 141 (Revised 2007), Business Combinations, or SFAS No. 141R. SFAS No. 141R will change the accounting for business combinations. Under SFAS No. 141R, an acquiring entity will be required to recognize all the assets acquired and liabilities assumed in a transaction at the acquisition-date fair value with limited exceptions. SFAS No. 141R will change the accounting treatment and disclosure for certain specific items in a business combination. SFAS No. 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. Accordingly, any business combinations we engage in will be recorded and disclosed following existing GAAP until January 1, 2009. We expect SFAS No. 141R will have an impact on accounting for business combinations once adopted but the effect is dependent upon acquisitions at that time. We are still assessing the impact of this pronouncement.

In December 2007, the FASB issued SFAS No. 160, "Noncontrolling Interests in Consolidated Financial Statements--An Amendment of ARB No. 51, or SFAS No. 160". SFAS No. 160 establishes new accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS No. 160 is effective for fiscal years beginning on or after December 15, 2008. We believe that SFAS 160 should not have a material impact on our financial position or results of operations.

In March 2008, the FASB issued Statement No. 161, "Disclosures about Derivative Instruments and Hedging Activities--an amendment of FASB Statement No. 133" (SFAS 161). The Statement requires companies to provide enhanced disclosures regarding derivative instruments and hedging activities. It requires companies to better convey the purpose of derivative use in terms of the risks that such company is intending to manage. Disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under SFAS No. 133 and its related interpretations, and (c) how derivative instruments and related hedged items affect a company's financial position, financial performance, and cash flows are required. This Statement retains the same scope as SFAS No. 133 and is effective for fiscal years and interim periods beginning after November 15, 2008. The Company does not expect the adoption of SFAS 161 to have a material effect on its results of operations and financial condition.

In April 2008, the FASB issued FASB Staff Position (FSP) FAS 142-3, "Determination of the Useful Life of Intangible Assets." This FSP amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under FASB Statement No. 142, "Goodwill and Other Intangible Assets." The intent of this FSP is to improve the consistency between the useful life of a recognized intangible asset under Statement 142 and the period of expected cash flows used to measure the fair value of the asset under FASB Statement No. 141 (Revised 2007), "Business Combinations," and other U.S. generally accepted accounting principles (GAAP). This FSP is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. Early adoption is prohibited. The Company does not expect the adoption of FAS 142-3 to have a material effect on its results of operations and financial condition.

In May 2008, the FASB issued SFAS No. 162, "The Hierarchy of Generally Accepted Accounting Principles" (SFAS 162). SFAS 162 identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles (the GAAP hierarchy). SFAS 162 will become effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board amendments to AU Section 411, "The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles." The Company does not expect the adoption of SFAS 162 to have a material effect on its results of operations and financial condition. In May 2008, the FASB issued FASB Staff Position (FSP) No. APB 14-1 "Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement)" (FSP APB 14-1). FSP APB 14-1 requires the issuer of certain convertible debt instruments that may be settled in cash (or other assets) on conversion to separately account for the liability (debt) and equity (conversion option) components of the instrument in a manner that reflects the issuer's non-convertible debt borrowing rate. FSP APB 14-1 is effective for fiscal years beginning after December 15, 2008 on a retroactive basis and will be adopted by the Company in the first quarter of fiscal 2009. The Company does not expect the adoption of FSP APB 14-1 to have a material effect on its results of operations and financial condition.

ITEM 4. CONTROLS AND PROCEDURES

Disclosures Controls and Procedures

We have adopted and maintain disclosure controls and procedures (as such term is defined in Rules 13a 15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) that are designed to ensure that information required to be disclosed in our reports under the Exchange Act, is recorded, processed, summarized and reported within the time periods required under the SEC's rules and forms and that the information is gathered and communicated to our management, including our Chief Executive Officer (Principal Executive Officer) and Chief Financial Officer (Principal Financial Officer), as appropriate, to allow for timely decisions regarding required disclosure.

As required by SEC Rule 15d-15(b), our Chief Executive Officer carried out an evaluation under the supervision and with the participation of our management, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Exchange Act Rule 15d-14 as of the end of the period covered by this report. Based on the foregoing evaluation, our Chief Executive Officer has concluded that our disclosure controls and procedures are effective in timely alerting them to material information required to be included in our periodic SEC filings and to ensure that information required to be disclosed in our periodic SEC filings is accumulated and communicated to our management, including our Chief Executive Officer, to allow timely decisions regarding required disclosure as a result of the deficiency in our internal control over financial reporting discussed below.

ITEM 4T. CONTROLS AND PROCEDURES

Management's Quarterly Report on Internal Control over Financial Reporting.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting for the company in accordance with as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Our management conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Our internal control over financial reporting includes those policies and procedures that:

(i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets;

(ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and

(iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on our financial statements.

Management's assessment of the effectiveness of the small business issuer's internal control over financial reporting is as of the quarter ended June 30, 2008. We believe that internal control over financial reporting is effective. We have not identified any, current material weaknesses considering the nature and extent of our current operations and any risks or errors in financial reporting under current operations.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

This quarterly report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this annual report.
