The prospectus, and each supplement, contains forward-looking statements. These forward-looking statements may involve our plans and objectives for future operations, including future growth and availability of funds. These forward-looking statements are based on current expectations, which are subject to numerous risks and uncertainties. Assumptions relating to these statements involve judgments with respect to, among other things, the continuation of our offering of units, future economic, competitive and market conditions and future business decisions, together with local, national and international events (including, without limitation, acts of terrorism or war, and their direct and indirect effects on travel and the economy). All of these matters are difficult or impossible to predict accurately and many of them are beyond our control. Although we believe the assumptions relating to the forward-looking statements, and the statements themselves, are reasonable, any of the assumptions could be inaccurate and, therefore, there can be no assurance that these forward-looking statements will prove to be accurate. In light of the significant uncertainties inherent in these forward-looking statements, the inclusion of this information should not be regarded as a representation by us or any other person that our objectives and plans, which we consider to be reasonable, will be achieved.
