HAVANA FURNISHINGS INC.
(A DEVELOPMENT STAGE COMPANY)
NOTES TO FINANCIAL STATEMENTS
(Unaudited)

NOTE 1. BASIS OF PRESENTATION

The accompanying unaudited interim financial statements of Havana Furnishings Inc. (“Havana Furnishings” or the “Company”), have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commissions, and should be read in conjunction with the audited financial statements and notes thereto contained in Havana Furnishings’ Registration Statement filed with the SEC on Form S-1. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosures required in Havana Furnishings’ fiscal 2012 financial statements have been omitted.

NOTE 2. GOING CONCERN

These financial statements have been prepared on a going concern basis, which implies Havana Furnishings will continue to meet its obligations and continue its operations for the next fiscal year. Realization value may be substantially different from carrying values as shown and these financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should Havana Furnishings be unable to continue as a going concern. As of January 31, 2013, Havana Furnishings has not generated revenues and has accumulated losses of \$69,958 since inception. The continuation of Havana Furnishings as a going concern is dependent upon the continued financial support from its shareholders, the ability of Havana Furnishings to obtain necessary equity financing to continue operations, and the attainment of profitable operations. These factors raise substantial doubt regarding the Havana Furnishings’ ability to continue as a going concern.

NOTE 3. RELATED PARTY PAYABLE

As of January 31, 2013, the President has advanced funds of \$22,015 to the Company. The amount is unsecured, non-interest bearing, and due on demand.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

This section of the prospectus includes a number of forward-looking statements that reflect our current views with respect to future events and financial performance. Forward-looking statements are often identified by words like: "believe," "expect," "estimate," "anticipate," "intend," "project," and similar expressions, or words which, by their nature, refer to future events. You should not place undue certainty on these forward-looking statements, which apply only as of the date of this prospectus. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from historical results or our predictions.

We are a start-up development stage corporation and have not started operations or generated or realized any revenues from our business operations. There is no historical financial information about us upon which to base an evaluation of our performance. We cannot guarantee we will be successful in our business operations. Our business is subject to risks inherent in the establishment of a new business enterprise, including limited capital resources and possible cost overruns due to price and cost increases in services and products.

Our auditors have issued a going concern opinion. We have not generated any revenues and no revenues are anticipated until we complete the development of our website, source out purveyors of products to sell and secure clients to buy our products. Accordingly, there is substantial doubt that we can continue as an on-going business for the next twelve months unless we obtain additional capital to pay our bills. Our only other source for cash at this time is investments by others in our company. We must raise cash to implement our project and begin our operations.

Although we raised \$33,000 from our prior offering, we cannot guarantee that once we begin operations we will stay in business after twelve months. If we are unable to secure enough suppliers of products at suitably low pricing or enough customers willing to buy the products at higher than the price we have negotiated with our suppliers, we may quickly use up the proceeds from our offering and will need to obtain additional funding through the sale of equity or issuance of debt, in order for us to maintain our operations. At the present time, we have not made any arrangements to raise additional cash. If we need additional cash and cannot raise it we will either have to suspend operations until we do raise the cash, or cease operations entirely.

Plan of Operation

We intend to accomplish the foregoing by the following milestones:

1. We are currently in the process of locating a website designer to fully develop and launch our website. The negotiation of additional alliances with service providers and the development of the website will be ongoing during the life of our operations. As we locate customers and as our customer database expands, we will have to be continually upgrading the website. This promotion will be ongoing through the life of our operations.
2. As soon as our website is fully operational, we intend to promote our products to restaurants and bars in Panama City only initially. We will aggressively court contacts provided by our president, Haisam Hamie. We believe that it will cost a minimum of \$2,000 for our marketing campaign. Marketing is an ongoing matter that will continue during the life of our operations.
3. Within 120-180 days from the initial launch of our marketing program, we believe that we will begin generating income from the sale of our products.

The above mentioned milestones and timelines will be dependent upon the availability of our sole officer and director. Haisam Hamie is entirely responsible for our day-to-day operations. Establishing an office will take time as Mr. Hamie will need to locate an appropriate facility; additionally, he will have to make arrangements for telephone and other communication lines to be established, and offices supplies will need to be procured. Once the office is fully operational, Mr. Hamie can then turn his attention to retaining a web developer.

We anticipate that we will generate revenues as soon as we are able to offer products for sale on our website. This will happen once we negotiate agreements with one or two suppliers of products and start advertising products on our website.

If we cannot generate sufficient revenues to continue operations, we will suspend or cease operations. If we cease operations, we do not have any plans to do anything else.

Results of operations

For the Six Month Period Ended January 31, 2013 and January 31, 2012

Revenues

From our inception on July 15, 2011 through January 31, 2013, we did not earn any revenues and incurred a net loss of \$69,958.

Expenses

During the six months ended January 31, 2013 we incurred total operating expenses of \$33,949 which included \$9,920 in consulting fees, \$8,967 in legal and accounting fees, \$2,062 in other general and administrative fees and \$13,000 in investor relations expenses. Comparatively, during the same period in 2012, we incurred total expenses of \$10,943 which included \$6,875 in consulting fees, \$1,870 in legal and accounting fees and \$2,198 in other general and administrative fees. The significant increase was mainly due to hiring additional professionals to provide us with investment relations support and consulting services.

For the period from our inception on July 15, 2011 through January 31, 2013, we have incurred total operating expenses of \$69,958 which included \$31,748 in consulting fees, \$21,857 in legal and accounting fees, \$3,353 in other general and administrative fees, and \$13,000 for investor relation expenses.

Liquidity and capital resources

As of January 31, 2013, our total assets were \$2,757 consisting entirely of cash and our total liabilities were \$24,715 comprised of related party payables and accounts payable.

We believe that we will need an additional \$35,000 per year after our initial 12 month period to maintain minimal operations. While this amount will be enough to support basic operations and compliance with regulatory agencies, it will not be enough to promote growth. If we are not able to generate revenue and operating profitably during that time, we will need to obtain additional funding through the sale of equity or issuance of debt in order for us to maintain our operations long term. At the present time, we have not made any arrangements to raise additional cash, other than through this offering. If we need additional cash and cannot raise it we will either have to suspend operations until we do raise the cash, or cease operations entirely.

On July 15, 2011 we issued 4,000,000 shares of common stock to our sole officer and director for \$15,000 pursuant to the exemption from registration contained in Section 4(2) of the Securities Act of 1933. This was accounted for as a sale of common stock.

In August 2012, we received the proceeds of \$33,000 from the sale of 2,200,000 shares of common stock during the year ended July 31, 2012 in the offering pursuant to the Company's registration statement on Form S-1 that went effective on May 24, 2012.

Critical Accounting Policies, Estimates and Assumptions

Management's discussion and analysis of financial condition and results of operations is based on the accounting policies used and disclosed in the 2012 financial statements and accompanying notes that were prepared in accordance with accounting principles generally accepted in the United States of America and included as part of the Company's annual report on Form 10-K for the year ended July 31, 2012 (the "2012 Form 10-K"). The preparation of those audited financial statements required management to make estimates and assumptions that affected the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the annual financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual amounts or results could differ from those estimates.

The significant accounting policies of the Company are described in Note 2 to the annual financial statements contained in the 2012 Form 10-K. Information concerning the Company's implementation and the impact of recent accounting standards issued by the Financial Accounting Standards Board is included in the notes to the audited financial statements contained in the 2012 Form 10-K. The Company did not adopt any accounting policy in the first quarter of 2013 that had a material impact on its audited financial statements.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements.

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.
