1. Nature of Operations and Continuance of Business

Hapykidz.com, Inc. (the “Company”) was incorporated in the state of Nevada on July 29, 2011. The Company is a development stage company, as defined by Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 915, *Development Stage Entities*.

Going Concern

These financial statements have been prepared on a going concern basis, which implies that the Company will continue to realize its assets and discharge its liabilities in the normal course of business. As of May 31, 2013, the Company has not recognized any revenue, has a working capital deficit of \$45,547, and has an accumulated deficit of \$144,456. The continuation of the Company as a going concern is dependent upon the continued financial support from its management, and its ability to identify future investment opportunities and obtain the necessary debt or equity financing, and generating profitable operations from the Company’s future operations. These factors raise substantial doubt regarding the Company’s ability to continue as a going concern. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

2. Summary of Significant Accounting Policies

a) Basis of Presentation

The financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States (“US GAAP”) and are expressed in U.S. dollars. The Company’s fiscal year end is August 31.

b) Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company regularly evaluates estimates and assumptions related to the deferred income tax asset valuation allowances. The Company bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the Company may differ materially and adversely from the Company’s estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected.

c) Basic and Diluted Net Loss per Share

The Company computes net loss per share in accordance with ASC 260, *Earnings per Share*. ASC 260 requires presentation of both basic and diluted earnings per share (“EPS”) on the face of the income statement. Basic EPS is computed by dividing net loss available to common shareholders (numerator) by the weighted average number of shares outstanding (denominator) during the period. Diluted EPS gives effect to all dilutive potential common shares outstanding during the period using the treasury stock method and convertible preferred stock using the if-converted method. In computing diluted EPS, the average stock price for the period is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS excludes all dilutive potential shares if their effect is anti dilutive. As of May 31, 2013 and August 31, 2012, the Company did not have any potentially dilutive shares.

2. Summary of Significant Accounting Policies (continued)

d) Recent Accounting Pronouncements

The Company has implemented all new accounting pronouncements that are in effect. These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

3. Related Party Transactions

On March 8, 2013, the former President and Director of the Company forgave \$58,909 owing for management fees, operating expenses paid on the Company's behalf, accrued interest, and notes payable. As of May 31, 2013, the Company owed \$nil (August 31, 2012 - \$41,000) of notes payable to the former President and Director of the Company. ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION OR PLAN OF OPERATION

Overview

We were formed to become an e-commerce marketplace connecting merchants to consumers by offering daily discounts on goods and services through its website. We were incorporated in the State of Nevada on July 28, 2011. We have no operations and are considered to be in the development stage.

Going forward, having discontinued our prior business, our plan is to acquire other assets or business operations that will maximize shareholder value. However, no specific assets or businesses have been definitively identified and there is no certainty that any such assets or business will be identified or any transactions will be consummated.

Operating Revenues

From our inception on July 29, 2011 to May 31, 2013, we did not record any sales revenue.

Operating Expenses and Net Loss

Operating expenses for the three months ended May 31, 2013 were \$43,278 compared to \$24,474 for the three months ended May 31, 2012. The increase in operating expenses were attributed to an increase of \$32,863 in professional fees relating to legal fees incurred for the Company's change in management and SEC filings during the current period. The increase was offset by a decrease of \$10,000 in consulting fees as the Company did not incur any consulting costs for the current period, \$3,000 in management fees as the new management of the Company did not take on any management agreement, and \$1,059 in general and administrative costs as the Company had limited cash flows for general expenditures.

Net loss for the three months ended May 31, 2013 was \$7,278 compared with \$25,343 for the three months ended May 31, 2012. In addition to operating expense, we recorded a gain on forgiveness of debt of \$36,000 relating to the settlement of accounts payable and accrued liabilities.

Operating expenses for the nine months ended May 31, 2013 were \$68,552 compared to \$69,586 for the nine months ended May 31, 2012. The decrease in operating expenses were attributed to a decrease of \$10,000 in consulting fees as we did not incur any consulting costs during the year, \$2,297 in general and administrative expenses as we had limited amounts of cash flow for general expenditures, and \$3,000 in management fees as we changed management during the year and the new management has not signed a management agreement. The decrease was offset by an increase of \$14,263 in professional fees related to additional legal expenses incurred with the change in management and other SEC filings.

Net loss for the nine months ended May 31, 2013 was \$34,509 compared with \$71,351 for the nine months ended May 31, 2012. In addition to operating expense, we also incurred \$1,957 of interest expense relating to interest accrued on notes payable of \$41,000 that is unsecured, bears interest at 10% per annum, and due on demand which was repaid and settled during the year. In addition, we recorded a gain on settlement of debt of \$36,000 relating to the settlement of outstanding accounts payable and accrued liabilities.

Liquidity and Capital Resources

As at May 31, 2013, we had a cash and total asset balance of \$nil and total liabilities of \$45,547. Liabilities are comprised of \$45,411 of accounts payable and accrued liabilities for general expenditures and professional fees, \$6 of bank indebtedness, and \$130 owing to related parties of the company.

As at August 31, 2012, we had a cash and total asset balance of \$29,816 and total liabilities of \$99,763. Liabilities are comprised of \$45,000 of notes payable owed to our former President and Director, of which \$41,000 is unsecured, bears interest at 10% per annum, and is due on demand, \$13,000 owing to our former President and Director for management fees which is unsecured, non-interest bearing, and due on demand.

As at May 31, 2013, we had a working capital deficit of \$45,547 compared with a working capital deficit of \$69,947 as at August 31, 2012. The decrease in working capital deficit was due to the fact that \$36,000 of accounts payable and accrued liabilities along with \$58,909 of related party debt were forgiven. Otherwise, we had limited amounts of cash flow which were used for operating activities and we have insufficient cash proceeds to settle outstanding obligations on a timely basis as they become due.

As of the date of this report, we had yet to generate any revenues from our business operations. We currently have no external sources of liquidity such as arrangements with credit institutions or off-balance sheet arrangements that will have or are reasonably likely to have a current or future effect on our financial condition or immediate access to capital.

Our sole director and officer has made no commitments written or oral, with respect to providing a source of liquidity in the form of cash advances, loans and/or financial guarantees.

In the nine month period ended May 31, 2013, a shareholder paid for \$130 of expenses. The amount is non-interest bearing and due on demand. However, going forward, this shareholder has made no commitments written or oral, with respect to providing a source of liquidity in the form of cash advances, loans and/or financial guarantees.

We will continue to rely on equity sales of our common shares in order to continue to fund our business operations. Issuances of additional shares will result in dilution to existing stockholders. There is no assurance that we will achieve any additional sales of the equity securities or arrange for debt or other financing to fund its operations and other activities.

Cashflow from Operating Activities

During the nine months ended May 31, 2013, we used cash of \$26,423 for operating activities as compared to \$34,346 for the nine months ended May 31, 2012, which were financed by proceeds received from financing activities. The cash for operating activities were used for payment of outstanding professional fees and general expenditures.

Cashflow from Investing Activities

During the nine months ended May 31, 2013 and May 31, 2012, we did not have any investing activities.

Cashflow from Financing Activities

During the nine months ended May 31, 2013, we used \$3,393 for repayment of outstanding notes payable to a related party compared with the receipt of \$31,000 in financing from the issuance of notes payable during the nine months ended May 31, 2012.

Going Concern

We have not attained profitable operations and are dependent upon obtaining financing to pursue any extensive acquisitions and activities. For these reasons, our auditors stated in their report on our audited financial statements that they have substantial doubt that we will be able to continue as a going concern without further financing.

Off-Balance Sheet Arrangements

We have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to stockholders.

Critical Accounting Policies

Our financial statements and accompanying notes have been prepared in accordance with United States generally accepted accounting principles applied on a consistent basis. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

We regularly evaluate the accounting policies and estimates that we use to prepare our financial statements. A complete summary of these policies is included in the notes to our financial statements. In general, management's estimates are based on historical experience, on information from third party professionals, and on various other assumptions that are believed to be reasonable under the facts and circumstances. Actual results could differ from those estimates made by management.

Recently Issued Accounting Pronouncements

We have implemented all new accounting pronouncements that are in effect. These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and we do not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are controls and procedures that are designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by our company in the reports that it files or submits under the Exchange Act is accumulated and communicated to our management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Our management carried out an evaluation under the supervision and with the participation of our Principal Executive Officer and Principal Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rules 13a-15(e) and 15d-15(e) under the Exchange Act.

Based upon that evaluation, our Principal Executive Officer and Principal Financial Officer have concluded that our disclosure controls and procedures were not effective as of May 31, 2013, due to the material weaknesses resulting from the Board of Directors not currently having any independent members and no director qualifies as an audit committee financial expert as defined in Item 407 (d)(5)(ii) of Regulation S-K, and controls were not designed and in place to ensure that all disclosures required were originally addressed in our financial statements.

Changes in Internal Control over Financial Reporting

Our management has also evaluated our internal control over financial reporting, and there have been no significant changes in our internal controls or in other factors that could significantly affect those controls subsequent to the date of our last evaluation.

The Company is not required by current SEC rules to include, and does not include, an auditor's attestation report. The Company's registered public accounting firm has not attested to Management's reports on the Company's internal control over financial reporting.
