Dear Shareholders,

Greene Concepts' has postured itself for explosive growth through our launch of the INKWAY USA division and in the most recent quarter put into action the steps for expansion of our retail division and the new found marketing efforts to distribute the INKtelligence brand.

RESULTS OF OPERATIONS FOR THE PERIOD ENDED APRIL 30, 2013

Revenue, Cost of Goods Sold, and Gross Profit

Our revenue, cost of goods sold, and gross profit for the period ended April 30, 2013 and 2012 were as follows:

	<u>April 30, 2013</u>	<u>April 30, 2012</u>
Revenue	\$ 382,239	\$ 110,617
Cost of Goods Sold	67,805	6,156
Gross Profit	314,434	104,461

Our revenue of \$382,239 for the period ended April 30, 2013 has grown exponentially over the same period in 2012. This is due to increased marketing efforts and expanding the target groups of our subsidiary divisions. We expect our revenues to increase as we sell more products and continue with our sales plan to make our product available to a wider audience through infomercials, direct selling on television, our new direct marketing division, as well as continued catalogs orders. In addition to our revenues expanding compared to previous period, our cost of goods sold was \$67,805 for the period ended April 30, 2013, compared to \$6,156 for the period ended April 30, 2012. While this represents an increase from the amount from the period ended April 30, 2013, it was due to increased sales and additional inventory needs. In the period ended April 30, 2013, our cost of goods sold represented 17.66% of total revenue compared to the period ended April 30, 2012, in which the cost of goods sold represented 5.56% of our total revenue.

Normally, we expect our cost of goods sold to increase as our revenues increase and we wish to continue to decrease the same ratio as we become more efficient with the greater number of products we sell. As a result of our increase in revenues and change in cost of goods sold between the period ended April 30, 2013 and April 30, 2012, our gross profit increased by gross profit increased from \$104,461 to \$314,434 for the period ended April 30, 2013, representing a total increase of 201.01% over the period ended April 30, 2012.

Expenses and Net Profit (Loss)

Our expenses and net profit (loss) for the period ended April 30, 2013 and 2012 were as follows:

	<u>April 30, 2013</u>	<u>April 30, 2012</u>
Total Expense	\$ 344,012	\$ 197,302
Net Profit (Loss)	(29,578)	(92,641)

Our total expenses of \$344,012 for the period ended April 30, 2013 are outlined below and were more than our total expenses of \$197,302 for the same period one year ago. The significant increase in our total expenses primarily related to increased commissions for period ended April 30, 2013 paid a total of \$57,652 compared to period ended April 30, 2012 of \$1,172, Marketing & Promotion for period ended April 30, 2013 paid a total of \$14,642 compared to period ended April 30, 2012 of \$1,983, Computer and Internet for period ended April 30, 2013 paid a total of \$32,153 compared to period ended April 30, 2012 of \$3,881, and Bank Charges for period ended April 30, 2013, totaling \$17,918 compared to period ended April 30, 2012 total of \$2,431.

The increased commission expense in 2013 relates to the expansion of our sales and marketing programs and is paid based on successful transactions; we anticipate this number to increase through our continued growth, the increase in outside services primarily related to our need to hire subcontractors due to expansion of the business into other sectors, the increase in computer and internet costs relates to expanding sales force, internet marketing, and development of our innovative direct marketing platform for sales affiliate management, and the increase in bank charges for the period ended April 30, 2013 compared to 2012 relates to transactional fees, including merchant services, we anticipate an increase in this number as we continue to expand sales and marketing programs as the majority of payments are taken via credit and debit card transactions to which a percentage based merchant services fee applies, as we grow and begin selling more units our expenses will also increase, but hopefully we will be able to pay down or off our long term debt at some point, which will reduce our total expenses.

Our Primary Expenses Consisted of the Following:

	<u>April 30, 2013</u>	<u>April 30, 2012</u>
Commissions	\$ 57,652	\$ 1,172
Amortization	50,347	50,347
Computer & Internet	32,153	3,881
Rent	30,979	25,685
Outside Services	27,347	14,633
Bank Charges	17,918	2,431

Liquidity and Capital Resources

Our cash, total current assets, total assets, total current liabilities and total liabilities as of April 30, 2013 and 2012 were as follows:

	<u>April 30, 2013</u>	<u>April 30, 2012</u>
