

American Community Development Group, Inc. To Acquire Wialan Technology Inc. Internet Telecommunication and WI-FI Leader

TAMPA, Fla., June 16, 2013 -- American Community Development Group, Inc. (OTC Pink Sheets: ACYD) is announcing that it has successfully negotiated the terms of the acquisition/merger agreement with Wialan Technology Inc. (Wialan) of Sunrise, Florida.

Wialan is a next generation telecommunication provider with a fast-track record of growth. Their proprietary and patented internet platform boasts features that are superior to all of their large name competitors. They have established a multi-year track record of successful installations in airports, municipalities, apartment buildings, parks, marinas and other locations that require a superior communication footprint. Among the unique features available in their WIFI platform include the capability of real time live color video streaming and a compact public address system, which can be programmed to alert responsible parties or even law enforcement, thereby enabling early warning public announcements and notification. This impact can be imagined had these enhanced WIFI systems been installed in the Newtown Connecticut school system or at the site of the Boston Marathon and other public areas. The Company anticipates the demand for its specialized services will continue to climb sharply.

Mr. Timothy Peabody, the CEO of Wialan, expects that they will dramatically increase growth, expansion and development prospects as a public company, especially in view of the number of client inquiries and proposal requests that they are now receiving from within the United States and Internationally. He also said "Because we have been operating for more than 5 years and have projects in other countries, especially South America, we embrace the appeal of a public company that could qualify for an upgraded listing in the U.S. and other International exchanges."

John Folger, President and CEO of American Community Development Group, Inc. commented, "This transition of corporate direction puts ACYD on a solid growth path with assets and revenue." He added "Wialan already has an established track record of success. We are gratified that our months of discussions resulted in such a positive outcome for all of our shareholders."

The terms of the transaction provide for the issuance of additional authorized restricted common stock to the shareholders of Wialan and the appointment of a new board of directors and management team. Wialan will receive the majority position of the increased authorization after the final completion of due diligence.

This acquisition/merger will be discussed during the special shareholders meeting to be held by conference call on Thursday, June 20, 2013 at 5 PM EST. The call in numbers will be provided in a separate announcement.

Safe Harbor for Forward-Looking Statements: Except for historical information contained herein, the statements in this press release are forward-looking statements that are made pursuant to the safe harbor provisions of the Private Securities Reform Act of 1995. Forward-looking statements involve known and unknown risks and uncertainties, which may cause the company's actual results in future periods to differ materially from forecasted results. These risks and uncertainties include, among other things, product price volatility, product demand, market competition, risk inherent in the company's domestic and international operations, imprecision in estimating product reserves and the company's ability to replace and expand its holdings.
