

Corso & Company  
SEC Attorneys, Accountants & Consultants

October 23, 2013

To the Board of Directors and Shareholders  
Southern ITS International Inc.  
9510 W. Sahara Ave Suite 120  
Las Vegas, NV 89117

We have reviewed the accompanying balance sheet of Southern ITS International Inc. as of September 30, 2013, and the related statements of operations, retained earnings, and cash flows for the nine months ended September 30, 2013. A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

Our responsibility is to conduct the reviews in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. Those standards require us to perform procedures to obtain limited assurance that there are no material modifications that should be made to the financial statements. We believe that the results of our procedures provide a reasonable basis for our report.

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

**SOUTHERN ITS INTERNATIONAL, INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2013 AND DECEMBER 31, 2012**  
**(Unaudited)**

**NOTE 1 – NATURE AND DESCRIPTION OF BUSINESS**

Southern ITS International, Inc. (formerly Alco Advanced Technologies, Inc.) (“the Company”) was incorporated in the State of Nevada on September 27, 1984. On March 21, 2012, the Company changed its name from Alco Advanced Technologies, Inc. to Southern ITS International, Inc.

The Company executed a share exchange with Southern ITS Corporation (“SIC”) (“the Subsidiary”) in which the result was SIC becoming a wholly-owned subsidiary of the Company. Refer to Note 9 for more information.

The Company's operations consist of providing turnkey integration of electronic security systems for various types of industries, such as transportation, gaming and other secure operations in both government and private sectors. The integration includes surveillance, access control, network infrastructure, data communications and fire and burglar alarm systems. Today, security technologies are evolving rapidly and require remote access through various networks, firewalls and internet security. Surveillance systems and access control are all network-dependent and work best for the end user when they are completely integrated. The Company's mission is to provide a complete integration of the various electronic security systems with the computer networks that they are dependent upon and ensuring that the systems will remain secure from potential cyber attack.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

*Basis of presentation*

The Company's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in The United States of America and the rules and regulations of the Securities and Exchange Commission for interim financial information. Accordingly, they do not include all the information necessary for a comprehensive presentation of financial position and results of operations.

It is management's opinion, however, that all material adjustments (consisting of normal and recurring adjustments) have been made which are necessary for a fair financial statements presentation. The results for the interim period are not necessarily indicative of the results to be expected for the year.

*Restatement of Financial Statements*

Certain amounts in the prior period financial statements have been adjusted to conform to the current period presentation, see Note 7 and Note 14.

*Basis of Consolidation*

The accompanying consolidated financial statements include all of the accounts of the Company and SIC as of September 30, 2013 and December 31, 2012 for the periods then ended. All intercompany balances and transactions have been eliminated.

*Use of estimates*

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

Such estimates and assumptions impact, among others, the valuation allowance for deferred tax assets, due to continuing and expected future losses, and share-based payments.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from estimates.

#### Cash and cash equivalents

The Company considers all highly liquid instruments purchased with a maturity of three months or less to be cash equivalents.

The Company minimizes its credit risk associated with cash by periodically evaluating the credit quality of its primary financial institution. The balance at times may exceed federally insured limits.

#### Allowance for Doubtful Accounts

The Company evaluates the collectability of its accounts receivable based on a combination of factors. In circumstances where it is aware of a specific customer's ability to meet its financial obligations, it records a specific reserve to reduce the amounts recorded to what it believes will be collected. For all other customers, it recognizes reserves for bad debts based on historical experience. The company had an allowance for doubtful account balance of \$6,897 and \$15,000 at September 30, 2013 and December 31, 2012. At September 30, 2013 net accounts receivables were \$170,050 and at December 31, 2012, the net accounts receivable balance was \$35,550. Though accounts receivable increased significantly in 2013, the Company did not increase the allowance for doubtful accounts balance due to the high probability of receiving payment pursuant to the Rocky Gap construction contract (See Note 5).

#### Fair Value of Financial Instruments

The Company follows paragraph 825-10-50-10 of the FASB Accounting Standards Codification for disclosures about fair value of its financial instruments and paragraph 820-10-35-37 of the FASB Accounting Standards Codification ("Paragraph 820-10-35-37") to measure the fair value of its financial instruments. Paragraph 820-10-35-37 establishes a framework for measuring fair value in accounting principles generally accepted in the United States of America (U.S. GAAP), and expands disclosures about fair value measurements. To increase consistency and comparability in fair value measurements and related disclosures, Paragraph 820-10-35-37 establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three (3) broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three (3) levels of fair value hierarchy defined by Paragraph 820-10-35-37 are described below:

Level 1 Quoted market prices available in active markets for identical assets or liabilities as of the reporting date.

Level 2 Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date.

Level 3 Pricing inputs that are generally observable inputs and not corroborated by market data.

The carrying amount of the Company's financial assets and liabilities, such as cash, prepaid expenses and accrued expenses approximate their fair value because of the short maturity of those instruments. The Company's notes payable approximate the fair value of such instruments based upon management's best estimate of interest rates that would be available to the Company for similar financial arrangements at September 30, 2013.

The Company does not have any assets or liabilities measured at fair value on a recurring or a non-recurring basis, consequently, the Company did not have any fair value adjustments for assets and liabilities measured at fair value at September 30, 2013; no gains or losses are reported in the consolidated statements of operations that are attributable to the change in unrealized gains or losses relating to those assets and liabilities still held at the reporting date ended September 30, 2013.

#### Property and Equipment

Property and equipment is stated at cost, less accumulated depreciation on a straight line basis over the estimated useful lives of 5 to 7 years. Maintenance and repairs are charged to operations when incurred. Betterment and renewals are capitalized when deemed material. When property and equipment are sold or otherwise disposed of, the

asset account and related accumulated depreciation account are relieved, and any gain or loss is included in operations.

### Intangible Assets

Valuation of intangible assets include significant estimates and assumptions such as estimating future cash flows from product sales, developing appropriate discount rates, estimating probability rates for the successful completion of projects, continuation of customer relationships and renewal of customer contracts, and approximating the useful lives of the intangible assets acquired.

### Long Lived Assets

The Company reviews the recover-ability of the carrying value of identified intangibles and other long-lived assets, including fixed assets, whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recover-ability of these assets is determined based upon the forecasted undiscounted future net cash flows expected to result from the use of such asset and its eventual disposition. The Company's estimate of future cash flows is based upon, among other things, certain assumptions about expected future operating performance, growth rates and other factors. The actual cash flows realized from these assets may vary significantly from its estimates due to increased competition, changes in technology, fluctuations in demand, consolidation of its customers and reductions in average selling prices. If the carrying value of an asset is determined not to be recoverable from future operating cash flows, the asset is deemed impaired and an impairment loss is recognized to the extent the carrying value exceeds the estimated fair market value of the asset. For the year ended December 31, 2012 the Company recorded a \$20,893,550 charge to impairment from the share exchange (see note 7 for details).

### Revenue recognition

The Company follows paragraph 605-10-S99-1 of the FASB Accounting Standards Codification for revenue recognition. The Company will recognize revenue when it is realized or realizable and earned. The Company considers revenue realized or realizable and earned when all of the following criteria are met: (i) persuasive evidence of an arrangement exists, (ii) the product has been shipped or the services have been rendered to the customer, (iii) the sales price is fixed or determinable, and (iv) collectability is reasonably assured. There are no price incentives and the product can only be returned if defective. As the Company does not believe defective merchandise is likely an allowance has not been recognized. Revenue is recognized on a gross basis with corresponding costs of goods as a reduction to revenue in cost of sales. The Company's subsidiary earned the majority of the Company's revenues in 2012 from installing network surveillance systems. The Company applies the percentage-of-completion revenue recognition principles of accounting when recording revenues for ongoing projects.

### Risks and uncertainties

The Company operates in an industry that is subject to rapid change. The Company's operations are subject to significant risk and uncertainties including financial and operational risks including the potential risk of business failure. Also, see Note 2 regarding going concern matters.

### Segment information

During 2013, the Company only operated in one segment; therefore, segment information has not been presented.

### Share based payments

Generally, all forms of share-based payments, including stock option grants, restricted stock grants and stock appreciation rights, are measured at their fair value on the awards' grant date, and based on the estimated number of awards that are ultimately expected to vest. Share-based payment awards issued to non-employees for services rendered are recorded at either the fair value of the services rendered or the fair value of the share-based payment, whichever is more readily determinable. The expense resulting from share-based payments are recorded as a component of general and administrative expense.

### Earnings per share

In accordance with accounting guidance now codified as FASB ASC Topic 260, "Earnings per Share," Basic earnings per share ("EPS") is computed by dividing net loss available to common stockholders by the weighted average number of common shares outstanding during the period, excluding the effects of any potentially dilutive securities. Diluted EPS gives effect to all dilutive potential of shares of common stock outstanding during the period including stock options or warrants, using the treasury stock method (by using the average stock price for the period

to determine the number of shares assumed to be purchased from the exercise of stock options or warrants), and convertible debt or convertible preferred stock, using the if-converted method. Diluted EPS excludes all dilutive potential of shares of common stock if their effect is anti-dilutive. At September 30, 2013, there were 452,169,000 potential dilutive shares outstanding which all relate to the convertible notes payable outstanding being converted into common shares.

### Income Taxes

The Company accounts for income taxes in accordance with accounting guidance now codified as FASB ASC Topic 740, “*Income Taxes*,” which requires that the Company recognize deferred tax liabilities and assets based on the differences between the financial statement carrying amounts and the tax bases of assets and liabilities, using enacted tax rates in effect in the years the differences are expected to reverse. Deferred income tax benefit (expense) results from the change in net deferred tax assets or deferred tax liabilities. A valuation allowance is recorded when it is more likely than not that some or all deferred tax assets will not be realized.

Accounting guidance now codified as FASB ASC Topic 740-20, “*Income Taxes – Intra-period Tax Allocation*,” clarifies the accounting for uncertainties in income taxes recognized in accordance with FASB ASC Topic 740-20 by prescribing guidance for the recognition, de-recognition and measurement in financial statements of income tax positions taken in previously filed tax returns or tax positions expected to be taken in tax returns, including a decision whether to file or not to file in a Particular jurisdiction. FASB ASC Topic 740-20 requires that any liability created for unrecognized tax benefits is disclosed. The application of FASB ASC Topic 740-20 may also affect the tax bases of assets and liabilities and therefore may change or create deferred tax liabilities or assets.

### Subsequent events

The Company follows the guidance in Section 855-10-50 of the FASB Accounting Standards Codification for the disclosure of subsequent events. The Company will evaluate subsequent events through the date when the financial statements were issued. Pursuant to ASU 2010-09 of the FASB Accounting Standards Codification, the Company as an SEC filer considers its financial statements issued when they are widely distributed to users, such as through filing them on EDGAR.

### Recent accounting pronouncements

On September 15, 2011—The Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2011-08, *Intangibles—Goodwill and Other (Topic 350): Testing Goodwill for Impairment*. The Update simplifies how an entity tests goodwill for impairment. The amendments contained in the Update are intended to address concerns expressed by private companies about the cost and complexity of the goodwill impairment test. The amendments allow both public and nonpublic entities an option to first assess qualitative factors to determine whether it is necessary to perform the two-step quantitative goodwill impairment test. Under that option, an entity no longer would be required to calculate the fair value of a reporting unit unless the entity determines, based on that qualitative assessment, that it is more likely than not that its fair value is less than its carrying amount. The guidance also includes examples of the types of events and circumstances to consider in conducting the qualitative assessment.

The amendments will be effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. Early adoption is permitted.

On December 26, 2011, the FASB issued ASU 2010-06, Fair Value Measurements and Disclosures (Topic 820) – *Improving Disclosures about Fair Value Measurements*. This ASU affects all entities that are required to make disclosures about recurring and nonrecurring fair value measurements under FASB ASC Topic 820, originally issued as FASB Statement No. 157, Fair Value Measurements. The ASU requires certain new disclosures and clarifies two existing disclosure requirements. The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years.

On December 26, 2011, the FASB issued ASU 2011-04, Fair Value Measurement (Topic 820) – *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. This ASU supersedes most of the guidance in Topic 820, although many of the changes are clarifications of existing guidance or wording changes to align with IFRS 13. In addition, certain amendments in ASU 2011-04 change a particular principle or requirement for measuring fair value or disclosing information about fair value measurements. The

amendments in ASU 2011-04 are effective for public entities for interim and annual periods beginning after December 15, 2011.

In April 2010, the FASB issued ASU No. 2010-17, "Revenue Recognition – Milestone Method (Topic 605): Milestone Method of Revenue Recognition" (codified within ASC 605 - Revenue Recognition). ASU 2010-17 provides guidance on defining a milestone and determining when it may be appropriate to apply the milestone method of revenue recognition for research or development transactions. ASU 2010-17 is effective for interim and annual periods beginning after June 15, 2010. The adoption of ASU 2010-17 is not expected to have any material impact on our financial position, results of operations or cash flows.

In February 2010, the FASB issued Accounting Standards Update 2010-09 (ASU 2010-09), Subsequent Events (Topic 855), amending guidance on subsequent events to alleviate potential conflicts between FASB guidance and SEC requirements. Under this amended guidance, SEC filers are no longer required to disclose the date through which subsequent events have been evaluated in originally issued and revised financial statements. This guidance was effective immediately and we adopted these new requirements for the period ended December 31, 2010. The adoption of this guidance did not have a material impact on our financial statements.

### NOTE 3 - GOING CONCERN

The Company's financial statements are prepared using generally accepted accounting principles applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. As reflected in the accompanying financial statements, the Company has an accumulated deficit of \$6,172,744 from inception (September 27, 1984) to September 30, 2013. Its ability to continue as a going concern is dependent upon the ability of the Company to generate profitable operations in the future and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management intends to address the going concern issue by funding future operations through the sale of equity capital and by director loans, if needed.

The Company is in the development stage and anticipates that it will be able to have profitable operations in the near future. The Company believes its current available cash, along with anticipated revenues, will be sufficient to meet its cash needs for the near future. There can be no assurance that future financing will be available in amounts or terms acceptable to the Company, if at all.

These conditions raise substantial doubt about the Company's ability to continue as a going concern. The ability of the Company to continue its operations is dependent on Management's plans, which include the raising of capital through debt and/or equity markets with some additional funding from other traditional financing sources, including term notes, until such time that funds provided by operations are sufficient to fund working capital requirements.

The Company may need to incur additional liabilities with certain related parties to sustain the Company's existence.

These financial statements do not include any adjustments relating to the recovery of the recorded assets or the classification of the liabilities that might be necessary should the Company be unable to continue as a going concern.

In response to these problems, management has taken the following actions:

- seeking additional debt and/or equity financing,
- continue with development and implementation of the business plan,
- assess business markets and related opportunities so that more significant revenues can be generated, and
- allocation of sufficient resources to continue with sales representation and marketing efforts.

### NOTE 4 – ACCOUNTS RECEIVABLE

The Company had the following accounts receivable balances as of September 30, 2013 and December 31, 2012

	<b>September 30, 2013</b>	<b>December 31, 2012</b>
Accounts Receivable	\$ 176,947	\$ 50,550
Less: Allowance for Doubtful Accounts	(6,897)	(15,000)

Total

\$	170,050	\$	35,550
----	---------	----	--------

The Company wrote off \$8,103 of allowance for doubtful accounts in the nine months ended September 30, 2013. The Company recorded bad debt expense of \$15,000 for the year ended December 31, 2012, respectively.

**NOTE 5 – FIXED ASSETS**

At September 30, 2013 and December 31, 2012 the Company has the following fixed assets:

	<b>September 30, 2013</b>	<b>December 31, 2012</b>
Furniture and Equipment	\$ 5,808	\$ 5,808
Less Accumulated Depreciation	(1,323)	(701)
Fixed Assets, net	<u>\$ 4,485</u>	<u>\$ 5,107</u>

Depreciation expense for the nine months ended September 30, 2013 was \$622. Depreciation expense for the year ended December 31, 2012 was \$571.

**NOTE 6 – NOTES PAYABLE**

The company has unsecured notes payable and convertible notes payable to related parties and non related parties at September 30, 2013 and December 31, 2012 under the following general terms:

	<b>September 30, 2013</b>	<b>December 31, 2012</b>
1. Convertible notes payable to related parties bearing interest at 10%, payable on demand. <u>Note is in default.</u>	\$ 297,169	\$ 295,712
2. Convertible notes payable to non-related parties bearing 10% payable in two years. <u>Note is in default.</u>	155,000	155,000
3. Notes payable to related parties bearing interest at 10% payable upon demand. <u>Note is in default.</u>	105,752	105,752
4. Notes payable to non-related parties bearing interest at 10% payable on demand. <u>Note is in default.</u>	150,000	150,000
Total	<u>707,921</u>	<u>706,464</u>
Less current portion	(673,072)	(673,072)
Due after one year	<u>\$ 34,849</u>	<u>\$ 33,392</u>

The Company had an accrued interest balance on the notes payable in the amount of \$308,024 and 255,454 as of September 30, 2013 and December 31, 2012.

The convertible note holders may convert at any time to common shares at a fixed price of \$.001 per share. The Company did not reflect bifurcation in the financials as the terms of all the convertible notes issued expired as of December 31, 2012.

Possible events constituting default are as follows

- Failure to pay upon demand
- If we make an assignment for the benefit of creditors
- Bankruptcy or Insolvency
- Any merger, liquidation, dissolution or winding up of business unless any successor expressly assumes the obligation
- Effectuate a reverse split of common stock prior to the consent of the note holders

The Company has \$155,000 of convertible notes payable to three non-related parties which are in default. The Company has \$150,000 in notes payable to non-related parties which are in default. The Company has \$105,752 of notes payable to related parties which are in default. Of the \$297,169 outstanding in convertible notes payable to related parties, \$216,200 is in default. In the event of default, the note holder at any time can declare the entire principle and accrued interest immediately due and payable.

## **NOTE 7 – STOCK SPLITS**

On March 21, 2012 the Company filed an amendment to its articles of incorporation. The amendment called for a 1-for-300 reverse stock split of all the issued and outstanding shares of “Old Common Stock”, such that each three hundred (300) shares of “Old Common Stock”, \$0.001 par value, shall be recombined into one (1) share of “New Common Stock”, \$0.001 par value. Each fractional share shall be rounded up to the nearest whole share. In lieu of fractional shares, each share so converted shall be rounded up to the next highest number of full shares of “New Common Stock”; provided that no Stockholder of record as of the effective date of the reverse stock split shall have fewer than One Hundred (100) shares of “New Common Stock”.

On December 21, 2012 the Company filed an amendment to its articles of incorporation. The amendment called for a 2-for-1 forward stock split of all issued and outstanding shares of common stock. Prior to the stock split there were 174,108,691 shares outstanding. As a result of the stock split there were 348,217,382 shares issued and outstanding.

### *Adjusted Financial Statements*

The financial statements have been adjusted to record the reverse stock split for all periods presented.

## **NOTE 8 – SHARE EXCHANGE AGREEMENT**

On April 17, 2012, the Company issued 200,000,000 post-split shares of common stock to the sole equity owner of Southern ITS Corporation (SIC) for 100% of the issued and outstanding shares of capital stock in SIC. This executed share exchange agreement resulted in SIC becoming a wholly-owned subsidiary of the Company.

### *Addendum to Share Exchange Agreement*

On April 30, 2013, the Company entered into an addendum with SIC to amend its previously executed share exchange agreement. The addendum includes a mutually agreed upon revaluation of the consideration paid to acquire SIC whereby the new valuation will be 20,000,000 post-split shares. The Company was returned the initial 200,000,000 shares from SIC which they then canceled. The Company then issued a new certificate for 20,000,000 to the president of SIC in September of 2013. The Company has restated its prior year comparative financial information to account for this revaluation.

### *Goodwill*

On April 17, 2012, SIC had assets of \$126,450, liabilities of \$0, and retained earnings of \$168,376. The share exchange agreement resulted in the Company recording goodwill of \$1,973,550. This was calculated from taking the closing stock price on the date of the share exchange agreement, \$0.105 on April 17, 2013, times the amended consideration paid of 20,000,000 post-split shares, minus assets received of \$126,450. The Company later impaired the goodwill asset which is described in Note 9.

## **NOTE 9 – IMPAIRMENT OF GOODWILL**

The Company’s stock exchange with SIC resulted in the recording a goodwill in the amount of \$1,973,550. At December 31, 2012 the Company’s test of goodwill resulted in the write off of \$1,973,550 which was recorded in the statements of operations.

## **NOTE 10 – RELATED PARTY**

### *Convertible Notes Payable- Related Parties*

The convertible notes payable are with two companies that share an officer of the Company. The notes bear interest of 10%. The convertible notes payable to related parties balance at September 30, 2013 is \$297,169. Of that balance, \$216,200 is in default. The note holder may convert to common shares at a fixed price of \$.001 per share.

### *Stock issued to Officers*

In September of 2013, the Company issued 20,000,000 common shares and 5,000,000 preferred shares to Sylvain Desrosiers who is a Director of the Company.

### *Addendum to Share Exchange Agreement*

On April 30, 2013, the Company entered into an addendum with SIC to amend its previously executed share exchange agreement. The addendum includes a mutually agreed upon revaluation of the consideration paid to acquire SIC whereby the new valuation will be 20,000,000 post-split shares. The Company was returned the initial 200,000,000 shares from Jason Bell whom is the President of the Company and previous sole shareholder of SIC. The 200,000,000 shares were then canceled and Mr. Bell was issued a new certificate for 20,000,000 common shares.

#### **NOTE 11 - STOCKHOLDERS' EQUITY**

The Company is authorized to issue Ten Million Preferred (10,000,000) shares with par value of \$0.001, and Five Hundred Million (500,000,000) shares of common stock at a par value of \$0.001. The Company designated 10,000,000 Series A Preferred Stock which have preferred voting rights equal to 500 votes for each 1 preferred share.

On March 26, 2012 the Company enacted a 1-for-300 reverse stock. The Company has adjusted all periods presented for the effects of the reverse stock split.

On December 21, 2012 the Company enacted a 2-for-1 forward stock split. The Company has adjusted all periods presented for the effects of the stock split.

For the year ended December 31, 2012, the Company issued 200,000,000 (post forward stock split) shares in a share exchange agreement (see note 9), 146,000,000 (post forward stock split) shares for the conversion of \$73,000 in convertible debt, and 48,476 (post forward stock split) shares for services. The 48,476 shares for services resulted in a stock for services expense of \$2,883 which was calculated using the fair market value of \$0.0595 at date of issuance.

In September of 2013, the Company issued 5,000,000 preferred shares and 20,000,000 common shares to a director of the Company for services completed prior to September 30, 2013. The Company valued the preferred shares at par \$0.001, which resulted in an expense of \$5,000. The Company valued the 20,000,000 common shares at the closing stock price on the date of issuance, September 3, 2013 at \$0.0022, which resulted in an expense of \$44,000. The Company also issued 20,000,000 common shares to Jason Bell, the President of Company, pursuant to the addendum to the Share Exchange Agreement described in Note 8. For accounting purposes, the Company accounted for the 20,000,000 shares as if they were issued for consideration for 100% equity of SIC pursuant to the Share Exchange Agreement. The Company restated its financials to show the 20,000,000 shares as common stock issuable in the prior year financial information.

At September 30, 2013, the Company had 188,217,382 common shares outstanding and had 5,000,000 preferred shares outstanding.

#### **NOTE 12- CONTINGENCIES**

From time to time, the Company may become involved in various lawsuits and legal proceedings, which arise in the ordinary course of business. However, litigation is subject to inherent uncertainties, and an adverse result in these or other matters may arise from time to time that may harm its business. Alco has no pending or threatened legal proceedings or administrative actions either by or against the issuer that could have a material effect on the issuer's business, financial condition, or operations and any current, past or pending trading suspensions by a securities regulator.

#### **NOTE 13 – SUBSEQUENT EVENTS**

Management has evaluated subsequent events pursuant to the requirements of ASC Topic 855 and has determined that no material subsequent events exist.

#### **NOTE 14 – RESTATEMENT OF FINANCIAL STATEMENTS**

The Company has restated its consolidated balance sheet as of December 31, 2012, its consolidated statement of operations for the nine months ended September 30, 2012, its consolidated statement of cash flows for the nine months ended September 30, 2012, and its consolidated statements of stockholders' equity to account for an addendum to the share exchange agreement with Southern ITS Corporation ("SIC").

On April 30, 2013, the Company entered into an addendum with SIC to amend its previously executed share exchange agreement on April 17, 2012. The addendum includes a mutually agreed upon revaluation of the consideration paid to acquire SIC whereby the new valuation will be 20,000,000 post-split shares, rather than 200,000,000 post-split shares. The Company was returned the initial 200,000,000 shares from Jason Bell whom is

the President of the Company and previous sole shareholder of SIC. The 200,000,000 shares were then canceled and Mr. Bell was issued a new certificate for 20,000,000 common shares.

The Company recorded the new valuation of 20,000,000 post-split shares as if it had occurred at the time of the original share exchange agreement on April 17, 2012. This resulted in a change in the valuation of goodwill, impairment loss, and equity which is shown in the prior period financial information presented in this current report.

The following are previously recorded and restated balances as of the year ended December 31, 2012 and for the nine months ended September 30, 2012.
