These financial statements have been prepared on the going concern basis under which an entity is considered to be able to realize its assets and satisfy its liabilities in the ordinary course of business. Operations to date have been primarily financed by equity transactions. The Company's future operations are dependent upon the identification

and successful completion of additional equity financing, the continued support of creditors and shareholders, and, ultimately the achievement of profitable operations. There can be no assurances that the Company will be successful. If it is not, the Company will be required to reduce operations or liquidate assets, if any. The financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.
