CYBK has decided to move into the tablet and POS hardware integration and facilitation area of business. The previous Kiosk models developed by CYBK are too big in cost and maintenance to be competitive in the marketplace. CYBK will still continue to develop unique niche kiosks specific to an industry or products.

The Dominican Lottery opportunity that was offered to CYBK was in collaboration with Max Celular phone company. CYBK has carefully evaluated this opportunity and has decided not to move forward on this venture in the proposed kiosk capacity. CYBK strongly supports the idea of phone payment services and Government lottery ticket sales being offered through our platform, however, standard kiosk integration and installation poses several ancillary issues. CYBK is also concerned about the longevity of the kiosk in the market place. CYBK is still evaluating the possibility of redesigning the requested services in a secure mobile application.

The 4,000 locations have started integration, training and launch. CYBK expects to release updates via facebook for this area of business.
