Integrated Cannabis Solutions, Inc.
Notes To Financial Statements
(Unaudited)
September 30, 2014

Note 1 Organization

Integrated Cannabis Solutions, Inc., (the "Company"), was incorporated in the State of Texas in 1995. The Company changed the state of incorporation from Texas to Nevada in 2003. The Company became Great Lakes Acquisition, Inc. when it reverse merged with Posh International, Inc. in May 2003. The Company became Integrated Parking Solutions, Inc. when it reverse merged with Great Lakes Acquisition, Inc. in March 2006. In April of 2014, the Company changed its business plan and corporation direction and changed its name to Integrated Cannabis Solutions, Inc.

The Company's primary focus is to provide consulting and compliance services to the cannabis industry. Also, the Company will provide corporate resources to its wholly-owned subsidiary, Skywalker Accelerator LLC (Skywalker), to help launch startups in the cannabis industry. Many cannabis entrepreneurs don't have the education, experience or network to execute on their business plan. Skywalker steps in to provide the supportive business team and capital so the cannabis entrepreneurs can focus on excelling in their marijuana and hemp products and services. Skywalker will charge management fees and actively pursue mergers/acquisitions and spin-off opportunities.

Note 2 Going Concern

The Company operates in an industry that is subject to rapid change. The Company's operations will be subject to significant risk and uncertainties including financial, operational, technological, regulatory and other risks, including the potential risk of business failure.

The ability of the Company to continue as a going concern is dependent on the successful execution of Management's plans, which include increasing the success of Skywalker's startups as well as sales of compliance services, further implementation of its business plan and continuing to raise funds through debt or equity financings. The Company will likely need to rely upon debt or equity financing in order to ensure the continuing existence of the business.

The accompanying unaudited financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. These financial statements do not include any adjustments relating to the recovery of the recorded assets or the classification of the liabilities that might be necessary should the Company be unable to continue as a going concern.

Note 3 Basis of Presentation and Summary of Significant Accounting Policies

The accompanying unaudited financial statements have been prepared in accordance with U.S. GAAP. The summary of significant accounting policies presented below is designed to assist in understanding our financial statements. Such financial statements and accompanying notes are the representation of our management, who are responsible for their integrity and objectivity. Certain prior year amounts have been reclassified to conform to the current year presentation.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash Equivalents

We consider all highly liquid investments purchased with an original maturity of less than three months at date of purchase to be cash equivalents.

Property and Equipment

Property and equipment are recorded at cost and depreciated using the straight-line method over the estimated useful lives of the assets. Leasehold improvements are amortized over the life of the lease. Maintenance and repairs are charged to expense when incurred and the cost of additions, replacements, and improvements is capitalized.

Earning Per Share (EPS)

Basic earnings (loss) per share are computed by dividing net income (loss) by weighted average number of shares of common stock outstanding during each period. Diluted earnings (loss) per share are computed by dividing net income (loss) by the weighted average number of shares of common stock, common stock equivalents and potentially dilutive securities outstanding during the period.

Note 4 Contingencies

From time to time, the Company may become involved in various lawsuits and legal proceedings, which arise in the ordinary course of business. However, litigation is subject to inherent uncertainties, and an adverse result in these or other matters may arise from time to time that may harm its business. The Company has no pending or threatened legal proceedings or administrative actions either by or against the Company that could have a material effect on the Company's business, financial condition, or operations.

Note 5 Restatement

The previous periods incorrectly reported 5,000,000 of the authorized preferred shares as issued and outstanding. In the restated column included in these financial statements, the correct amount of zero issued and authorized preferred shares has been used for the current and previous period.
