Global Profit Technologies, Inc.
NOTES TO UNAUDITED FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

NOTE 1. GENERAL ORGANIZATION AND BUSINESS ISSUES

Global Profit Technologies, Inc. ("GLPT.PK") is an E-Commerce company within the Financial Products and Services Sector and Continuing Education and Training segment of the financial community. GLPT.PK, predominantly through Proprietary Software, unique trading methodologies and revolutionary software applications, with the initial product (4X-DAT™), will focus on the over-the-counter foreign currency markets and foreign currency trading in those markets.

It is anticipated that, as the current platform and its future iterations mature and critical mass is reached, the platform will ultimately be expanded to futures, commodities, equities and their respective derivatives' markets.

GLPT.PK's initial emphasis and primary focus is in developing, marketing and managing proprietary trading technologies with the initial emphasis on the FOREX Markets. The primary emphasis and focus is therefore to leverage Mr. Nemeth's technologies, sales and marketing network and competencies into a self-sustaining organically grown international e-commerce company.

The firm and its proprietary product (4X-DAT™) was founded and developed by Mr. Jozef Nemeth.

Mr. Nemeth and his advisors believe what Mr. Nemeth envisioned, developed and is now implementing will be the second and only trading software application of its kind in the world and possibly the most advanced personal trading aid to date. 4X-DAT™ brings to any trader an unparalleled solution designed to automate the trading activities in the FOREX markets. Until recently, the FOREX Market was reserved only for the wealthiest companies and currency traders, requiring millions of dollars in order to participate. Currency trading in the FOREX market is currently and has been historically one of the most lucrative capital propositions and possibly the most profitable business activity of some of the world's largest banks and financial institutions.

GLPT.PK, formerly Fantastic Fun, Inc. (FTFN.PK), was acquired through a private transaction where Global Profit Holdings, a Nevada corporation, domiciled in Scottsdale, AZ and solely owned and controlled by Joseph Nemeth acquired 24,025,113 shares of FTFN, or approximately 94% of the total shares outstanding on September 26, 2007.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reporting amounts of revenues and expenses during the reported period. Actual results will differ from those estimates.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fixed Assets

Software and the related Education and Training software are recorded at cost and will be amortized on a straight-line basis over their estimated lives. Ongoing modifications are charged to expense as incurred. Significant modifications and betterments are capitalized. Management has determined that the estimated life of the software is fifteen years and the estimated life on the Education and Training software is five years. As of March 31, 2014, amortization began with one-half of the quarter charged and a full quarter charged during the second and third quarters of 2014

Treasury Stock

On August 29, 2010, GLPT.PK agreed to purchase 288,000 GLPT shares of at $0.20 to $0.25 per share. GLPT.PK uses the cost method for recording these repurchase agreements. During the second quarter of 2014, 50,000 shares were issued.

Off-Balance Sheet Arrangements

There are no off-balance sheet arrangements.

NOTE 3. INCOME TAXES

No income tax benefit has been recorded in the accompanying financial statements since the recoverability of such assets is not reasonably assured at this time.

NOTE 4. COMMON CONTROL

Global Profit Holdings, Inc. and Global Profit Technologies, Inc. have common control interests by Joseph Nemeth.

NOTE 5. RELATED PARTY TRANSACTIONS

Trading fees earned from software testing completed by Mr. Nemeth with his personal money is not included in Revenue's trading fees. These fees are refunded back to Mr. Nemeth and included under Current Liabilities in Related Party Payable. For the nine months ended September 30, 2014 and September 30, 2013, these fees are $0 and $20,709, respectively. In addition, under a consulting agreement, Mr. Nemeth will provide all the services required to launch the 4X-DAT™software, including but not limited to software development, website development, user training modules inclusive of video production, market development and sales efforts. Beginning September 1, 2009 this five year agreement will pay Mr. Nemeth $360,000 per year. In addition, several employees loaned the GLPT.PK $45,000 for working capital. The Consolidated Balance Sheet as of September 30, 2014 includes $1,674,032 in remaining payments due to Mr. Nemeth under the consulting agreement and $36,752 due to several employees in Related Party Payable.

NOTE 6. REVENUE

4X-DAT™ was officially launched during the first quarter of 2014. Revenue was generated from users purchasing non-terminating user licenses with limited duration account monitoring. In addition, commissions are paid for referrals. Revenues are shown net of commissions.

NOTE 7. UNAUDITED FINANCIAL STATEMENTS

The financial statements presented are unaudited. The company believes that these financial statements present fairly, in all material respects, the financial position of GLPT.PK and the results of its operations and cash flows for the periods presented in accordance with U.S. generally accepted accounting principles ("U.S. GAAP").

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates. The results of operations for the three and nine months ended September 30, 2014 and September 30, 2013 are not necessarily indicative of the future results.

NOTE 8. SUBSEQUENT EVENTS

The company evaluated the events through November 16, 2014 the date this report was published. The company issued 9,121,248 shares on October 2, 2014 for various services provided on a non-compensatory basis.

Global Profit Technologies, Inc.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS
SEPTEMBER 30, 2014

General

Global Profit Technologies, Inc.'s (GLPT.PK) is an E-Commerce company within the Financial Products and Services Sector and Continuing Education and Training segment of the financial community. GLPT.PK, predominantly through Proprietary Software, unique trading methodologies and revolutionary software applications, with the initial product (4X-DAT™), will focus on the over-the-counter foreign currency markets and foreign currency trading in those markets.

Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") is intended to provide information to assist in better understanding and evaluating our financial condition and results of operations. We recommend that you read this MD&A in conjunction with our condensed consolidated financial statements and the notes to those statements

Results of Operations:

The following should be read in conjunction with the presented financial statements and accompanying notes.

Revenues:

Gross revenues increased 1,141% in the third quarter of 2014 over the third quarter of 2013, increasing from $14,846 to $184,210. This increase is the result of user license fees from the 4X-DAT™ software.

Gross revenues increased 3,434% over the first nine months of 2014 over the first nine months of 2013, increasing from $15,972 to $564,525. This increase is the result of user license fees from the 4X-DAT™ software.

Net revenues increased 377% in the third quarter of 2014 over the third quarter of 2013, increasing from $14,846 to $70,885. This increase was attributed to sale of user license fees.

Net revenues increased 1,184% in the nine months of 2014 over the nine months of 2013, increasing from $15,972 to $205,142. This increase was attributed to the sale of user license fees during the first nine months of 2014. 4X-DAT™ was officially launched during the first quarter of 2014.

Gross Profits:

Gross profits decreased in the third quarter of 2014 over the third quarter of 2013, decreasing from a profit of $14,846 to a loss of $297,295. This decrease was attributed to the commencement of software amortization during 2014.

Gross profits decreased in the first nine months of 2014 over the first nine months of 2013, decreasing from a profit of $15,972 to a loss of $709,484. This decrease was attributed to the commencement of software amortization during 2014.

Selling, General, and Administrative Expenses:

Selling, general, and administrative expenses decreased by 82% during the third quarter of 2014 as compared to the third quarter of 2013, decreasing from $181,800 to $32,540. This decrease resulted from the expiration of the consulting agreement with Mr. Nemeth.

Selling, general, and administrative expenses increased by 19% during the first nine months of 2014 as compared to the first nine months of 2013, increasing from $272,434 to $292,103. This increase resulted from legal, marketing and filing fees.

Net Income (Loss):

Net loss increased by 89% for the third quarter of 2014 as compared to the third quarter of 2013, increasing from a net loss of $166,954 to a net loss of $314,989. This increase in loss occurred primarily due to the commencement of software amortization as discussed above.

Net loss increased by 284% for the first nine months of 2014 as compared to the first nine months of 2013, increasing from a net loss of $256,462 to a net loss of $985,615. This increase in loss primarily occurred due to the commencement of software amortization as discussed above.

Liquidity and Capital Resources:

At September 30, 2014, cash amounted to approximately $55,265 as compared to $6,493 at September 30, 2013. Working capital deficit increased from a deficit at September 30, 2013 of $1,868,867 to a working capital deficit of $1,979,601 at September 30, 2014.

Cash Flows from Operating Activities

During the nine months ended September 30, 2014, net cash used by operations amounted to $28,631 as compared the $6,532 provided by operations during the nine ended September 30, 2013.

Cash Flows from Financing Activities

During the second quarter of 2014, the Company engaged the law firm of Sichenzia Ross Friedman Ference LLP (SRFF) to represent the Company in its plans for a $5,000,000 offering of securities to accredited investors and the preparation of investor documents involved with this planned private placement memorandum. Additionally, they will immediately begin representing the Company with respect to the Company's continuing Securities and Exchange Commission reporting requirements. Under this agreement, SRFF was awarded 50,000 shares of GLPT.PK. There was no financing activity during the nine months ended September 30, 2013.
