Notification of Late Filing

Name of Company: Yippy, Inc.

Type of Report: **Quarterly Report for the Period Ended November 30, 2014**

Filing Status: Late

Reason for Late Filing: Yippy, Inc. (the "Company") was not able to complete and timely file its Quarterly Report for the period ended November 30, 2014, because certain accounting and documentation work required for the completion of the review of the Company's financial statements could not, without unreasonable effort or expense, be prepared and provided to the Company's independent accountants early enough to allow for the completion of their review of the financial statements prior to the prescribed due date. Thus, the Company requires additional time to properly complete and file its Quarterly Report for the period ended November 30, 2014.

Anticipated filing date: January 21, 2015
