*The Company's transfer agent is registered under the Exchange Act.

Restrictions on the transfer of any security:
None

Describe any trading suspension orders issued by the SEC in the past 12 months:
None

List any stock split, stock dividend, recapitalization, merger, acquisition, spin-off, or reorganization either currently anticipated or that occurred within the past 12 months:

Effective August 8, 2014, XFormity Technologies, Inc., a Colorado corporation, entered into a Share Exchange Agreement dated July 31, 2014 (the "Agreement").

The Agreement contemplated a reverse acquisition/merger in which the Company will issue an aggregate of 99,451,742 shares of Series A Convertible Preferred Stock to the stockholders of Goldstar Northamerican Mining, Inc. (hereinafter "Goldstar"), in exchange for 100% of the issued and outstanding common stock of Goldstar. After giving effect to (i) a one-for 300 reverse split which will be completed post-closing, (ii) the purchase by Goldstar of 548,258 shares of Preferred Stock from Sheldon Drobny in consideration of payment in the amount of $125,000 and (iii) the conversion of all outstanding Preferred

Stock into shares of common stock, the Shareholders of Goldstar will own 46,500,000 shares of common stock out of a total of 62,185,272 shares of common stock of the Company issued and outstanding at the time of the Agreement.

Consummation of the Agreement did result in a change in control of the Company.

On October 17, 2014, the Company completed a 300-for-1 reverse split of its issued and outstanding common and preferred stock. The Corporate Action was approved by the Financial Industry Regulatory Authority, Inc. ("FINRA") and took effect in the market on October 17, 2014.

ITEM 4. ISSUANCE HISTORY

Events by the Issuer Resulting in Changes in Total Outstanding Shares for the Past Two Fiscal Years:

To the best knowledge of the present management of the Company, the list identified below identifies all events, in chronological order, that resulted in changes in total shares outstanding by the Company (1) within the two-year period ending on the last day of the Company's most recent fiscal year and (2) since the last day of the Company's most recent fiscal year.

During the three-month period ending September 30, 2014, there were a total of 47,937 post-split shares of common stock issued by the Company. The following is a breakdown of those issuances:

On August 8, 2014, the Company issued 47,937 post split common shares in reliance upon Section 3(a)(10) under the Securities Act of 1933, as amended, as approved and declared said settlement to be fair to the recipients by a court of competent jurisdiction; i.e. the Circuit Court for the 19th Judicial Circuit, Lake County, Waukegan, Illinois on July 2, 2014; for settlement of one or more bona fide claims, as reported on Form 8-K filed with the SEC on August 14, 2014.

On July 30, 2014, the Company issued 99,451,742 shares of Series A Convertible Preferred Stock to the stockholders of GoldStar Northamerican Mining, Inc.

During the year ended June 30, 2014, the Company issued an aggregate of 2,214 shares of restricted common stock.

During the year ended June 30, 2013, the Company issued no shares of common stock that were not already reported in the Company's filings with the Securities and Exchange Commission, incorporated herein by reference.

ITEM 5. FINANCIAL STATEMENTS

GOLDSTAR NORTHAMERICAN MINING INC.
(Formerly Xformity Technologies, Inc.)
NOTES TO FINANCIAL STATEMENTS
Internally prepared by management
For the Quarter Ended September 30, 2014

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies applied in the presentation of the accompanying unaudited condensed consolidated financial statements follows:

General

The accompanying unaudited condensed consolidated financial statements of the Company, have been prepared in accordance with the rules and regulations (S-X) of the Securities and Exchange Commission (the "SEC"). Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included.

Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Revenue Recognition

The Company will recognize revenue in accordance with Accounting Standards Codification subtopic 605-10, Revenue Recognition ("ASC 605-10") which requires that four basic criteria must be met before revenue can be recognized: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred; (3) the selling price is fixed and determinable; and (4) collectability is reasonably assured. Determination of criteria (3) and (4) are based on management's judgments regarding the fixed nature of the selling prices of the products delivered and the collectability of those amounts. Provisions for discounts and rebates to customers, estimated returns and allowances, and other adjustments will be provided for in the same period the related sales will be recorded.

ASC 605-10 incorporates Accounting Standards Codification subtopic 605-25, Multiple-Element Arraignments ("ASC 605-25"). ASC 605-25 addresses accounting for arrangements that may involve the delivery or performance of multiple products, services and/or rights to use assets. There was no effect on implementing ASC 605-25 on the Company's financial position and results of operations, since the Company has not started generating revenue.

Cash

The Company considers cash to consist of cash on hand and temporary investments having an original maturity of 90 days or less that are readily convertible into cash.

Property and Equipment

Property and equipment are stated at cost. When retired or otherwise disposed, the related carrying value and accumulated depreciation are removed from the respective accounts and the net difference less any amount realized from disposition, is reflected in earnings. As of the date of this report, all acquired property and equipment has yet to be placed in service, therefore no depreciation was recorded for the period from date of inception through the date of this report.

Long-Lived Assets

The Company follows FASB ASC 360-10-15-3, "Impairment or Disposal of Long-lived Assets," which established a "primary asset" approach to determine the cash flow estimation period for a group of assets and liabilities that represents the unit of accounting for a long-lived asset to be held and used. Long-lived assets to be held and used are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The carrying amount of a long-lived asset is not recoverable if it exceeds the sum of the undiscounted cash flows expected to result from the use and eventual disposition of the asset. Long-lived assets to be disposed of are reported at the lower of carrying amount or fair value less cost to sell.

Income Taxes

The Company has adopted Accounting Standards Codification subtopic 740-10, Income Taxes ("ASC 740-10") which requires the recognition of deferred tax liabilities and assets for the expected future tax consequences of events that have been included in the financial statement or tax returns. Under this method, deferred tax liabilities and assets are determined based on the difference between financial statements and tax basis of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. Temporary differences between taxable income reported for financial reporting purposes and income tax purposes consist primarily of timing differences such as deferred officers' compensation and stock based compensation accounting.

Net Loss per Common Share, basic and diluted

The Company has adopted Accounting Standards Codification subtopic 260-10, Earnings Per Share ("ASC 260-10") specifying the computation, presentation and disclosure requirements of earnings per share information. Basic loss per share has been calculated based upon the weighted average number of common shares outstanding.

Stock based compensation

The Company follows Accounting Standards Codification subtopic 718-10, Compensation ("ASC 718-10") which requires that all share-based payments to both employees and non-employees be recognized in the income statement based on their fair values.

As of September 30, 2014, the Company did not have any issued or outstanding stock options.

Concentrations of Credit Risk

Financial instruments and related items, which potentially subject the Company to concentrations of credit risk, consist primarily of cash, cash equivalents and trade receivables. The Company places its cash and temporary cash investments with high credit quality institutions. At times, such investments may be in excess of the FDIC insurance limit.

Research and Development

The Company accounts for research and development costs in accordance with Accounting Standards Codification subtopic 730-10, Research and Development ("ASC 730-10"). Under ASC 730-10, all research and development costs must be charged to expense as incurred. Accordingly, internal research and development costs are expensed as incurred. Third-party research and development costs are expensed when the contracted work has been performed or as milestone results have been achieved as defined under the applicable agreement. Company-sponsored research and development costs related to both present and future products are expensed in the period incurred. The Company did not incur any research and development expenses from date of inception through the date of this report.

Reliance on Key Personnel and Consultants

The Company has 2 full-time employees and no part-time employees. Additionally, the Company has consultants performing various specialized services. The Company is heavily dependent on the continued active participation of

these current executive officers, employees and key consultants. The loss of any of the senior management or key consultants could significantly and negatively impact the business until adequate replacements can be identified and put in place.

Fair Value

Accounting Standards Codification subtopic 825-10, Financial Instruments ("ASC 825-10") requires disclosure of the fair value of certain financial instruments. The carrying amount reported in the consolidated balance sheet for accounts payable and accrued expenses, advances and notes payable approximates fair value because of the immediate or short-term maturity of these financial instruments.

Reclassification

Certain reclassifications have been made to prior periods' data to conform to the current period's presentation. These reclassifications had no effect on reported income or losses.

Recent Accounting Pronouncements

The Company continually assesses any new accounting pronouncements to determine their applicability to the Company. Where it is determined that a new accounting pronouncement affects the Company's financial reporting, the Company undertakes a study to determine the consequence of the change to its financial statements and assures that there are proper controls in place to ascertain that the Company's financials properly reflect the change.

NOTE 2 – GOING CONCERN MATTERS

The accompanying unaudited condensed consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. As shown in the accompanying unaudited condensed consolidated financial statements. In addition, the Company is in a development stage, has yet commercialized its planned business and has not generated any revenues since inception. These factors among others may indicate that the Company will be unable to continue as a going concern for a reasonable period of time.

The Company's existence is dependent upon management's ability to develop profitable operations and or upon obtaining additional financing to carry out its planned business. Management is devoting substantially all of its efforts to the commercialization of its planned product and processes, as well as raising additional debt or equity financing in order to accelerate the development and commercialization of additional products. There can be no assurance that the Company's commercialization or financing efforts will result in profitable operations or the resolution of the Company's liquidity problems.

There can be no assurance that any additional financings will be available to the Company on satisfactory terms and conditions, if at all. In the event the Company is unable to continue as a going concern, it may elect or required to seek protection from its creditors by filing a voluntary petition in bankruptcy or many be subject to an involuntary petition in bankruptcy. To date, management has not considered this alternative, nor does management view it as a likely occurrence.

The accompanying unaudited condensed consolidated statements do not include any adjustments relating to the recoverability of assets and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern.

NOTE 3 – NOTES PAYABLE – UNERELATED THIRD PARTY

As of September 30, 2014 there are no notes payable.

NOTE 4 – NOTES PAYABLE, RELATED PARTIES

As of September 30, 2014 there are no notes payable.

NOTE 5 – STOCKHOLDERS' EQUITY

Preferred Stock

The Company is authorized to issue 100,000,000 shares of preferred stock with a par value of $0.01 per share. As of September 30, 2014, the Company had 333,334 shares of preferred stock issued and outstanding. The Company has no issued and outstanding shares of preferred stock as of February 12, 2015. The Board of Directors may fix and determine the relative rights and preferences of the shares of any series established.

Common stock

The Company is authorized to issue 125,000,000 shares of $0.0001 par value common stock as of September 30, 2014. As of September 30, 2014 and February 12, 2015, respectively, there were 227,228 shares and 58,577,654 shares of the Company's common stock issued and outstanding.

NOTE 6 - STOCK OPTIONS

As of September 30, 2014, the Company has not granted any stock options.

NOTE 7 - RELATED PARTY TRANSACTIONS

As of September 30, 2014, there were no related party transactions.

NOTE 9 - PRINCIPAL NUMBERS

The numbers contained in this filing are exclusively the accounting numbers for GoldStar Northamerican Mining, Inc. and do not include the predecessor company, Xformity Technologies, Inc.

NOTE 10 – FORWARD LOOKING STATEMENTS

This Quarterly Report includes a number of forward-looking statements that reflect Management's current views with respect to future events and financial performance. You can identify these statements by forward-looking words such as "may," "will," "expect," "anticipate," "believe," "estimate" and "continue," or similar words. Those statements include statements regarding the intent, belief or current expectations of us and members of our management team as well as the assumptions on which such statements are based. Prospective investors are cautioned that any such forward-looking statements are not guarantees of future performance and involve risk and uncertainties, and that actual results may differ materially from those contemplated by such forward-looking statements.

Readers are urged to carefully review and consider the various disclosures made by us in this report and in our other reports filed with the Securities and Exchange Commission and OTC Markets. Important factors currently known to Management could cause actual results to differ materially from those in forward-looking statements. We undertake no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes in the future operating results over time. We believe that our assumptions are based upon reasonable data derived from and known about our business and operations. No assurances are made that actual results of operations or the results of our future activities will not differ materially from our assumptions. Factors that could cause differences include, but are not limited to, expected market demand for our products, fluctuations in pricing for materials, and competition.

END OF NOTES TO FINANCIALS

ITEM 6. ISSUER'S BUSINESS, PRODUCTS, AND SERVICES

Business Operations

GoldStar Northamerican Mining, Inc. is an emerging, junior gold mining company with operations on prime, gold-bearing properties in the historically prolific Plomosa Mining District of southwest Arizona. The operation is in the process of going into commercial production in the third quarter of 2014.

The Company is deploying a proprietary, field tested, revolutionary and eco-friendly "Fine Gold Extraction Machine" (F-GEM) that has achieved extraordinarily high rates of gold recovery (90+%) on fine-gold placer surface deposits. The basis for this system involves revolutionary magnet technology that uses Rare Earth magnets to affect precious metals. Historically, this methodology has not been achieved until now. The magnets are incorporated throughout the Recovery System and allow the capture of precious metals, including extremely fine particles that are mostly lost in other precious metals recovery technologies.

The Company is led by a world-class senior management team of proven, mining industry executives. Its project sites are easily accessible from the town of Quartzsite, Arizona ten miles away by Interstate 10, asphalt access roads, and gravel roads. The Company has signed agreements for the option to acquire mineral rights on an aggregate 27,540 acres. The property is controlled by just two owners of historically high grade alluvial placer deposits in the heart of the Plomosa Mining district.

Mining operations can be conducted 360+ days per year. The Company has a mining agreement with Placer Mining Corp. that includes the provision of water as necessary for gold-recovery processing and extraction.

Operationally, the Company is focused on its land in the Plomosa District where it has secured rights to process a 100,000 ton tailings Deposit and has negotiated the right to purchase mineral rights on two major land packages totaling approximately 21,000 acres with an imputed average grade of 2+ grams/ton. GoldStar will pursue additional project acquisitions, and land and mineral rights purchases, once its initial Plomosa Project begins production. GoldStar intends to work 360+ days per year to maximize gold production from its operations.

Date and State of Incorporation

The Issuer was incorporated in the State of Colorado as International Capital Funding, Inc. on June 10, 1991. The Company's amended its articles to effectuate a name change to GoldStar Northamerican Mining Inc. on September 30, 2014.

Primary and Secondary SIC Codes

Primary SIC Code: 1041

Issuers Fiscal Year End Date

The Issuer's fiscal year end is June 30.

Principal Products or Services, and Their Markets

Using low-cost, low-tech, cut & cover surface deposit mining, combined with its breakthrough high-tech gold recovery process, GoldStar is able to use its F-GEM to mine fine-gold placer deposits

ITEM 7. ISSUER'S FACILITIES

The Company has office and warehouse space at: 4600 E. Washington, Suite 30, Phoenix, AZ 85034. The Company leases the space for $4,166 a month. At this time, the Company feels this space adequately meets the needs of the Company.

ITEM 8. OFFICERS, DIRECTORS, AND CONTROL PERSONS

A. Officers, Directors, and Control Persons as of the date of this Report's publication (February 12, 2015)

Name	Title
Craig L. Parkinson	President and Chief Executive Officer
Joseph F. Bonocore III	Secretary, Treasurer, Chief Financial Officer (Interim)
Shelly Drobny	Director

B. Involvement in Certain Legal Proceedings

None of the officers, directors, promoters or control persons of the Issuer have been involved in the past five (5) years in any of the following:

(1) A conviction in a criminal proceeding or named as a defendant in a pending criminal proceeding (excluding traffic violations and minor offenses);
(2) The entry of an order, judgment, or decree, not subsequently reverse, suspended or vacated, by a court of competent jurisdiction that permanently or temporarily enjoined, barred, suspended or otherwise limited such person's involvement in any type of business, securities, commodities or bank activities;
(3) A finding or judgment by a court of competent jurisdiction (in a civil action), the Securities and Exchange Commission, the Commodity Futures Trading Commission, or a state securities regulator of a violation of federal or state securities or commodities law, which finding or judgment has not been reversed, suspended, or vacated; or
(4) The entry of an order by a self-regulatory organization that permanently or temporarily barred suspended or otherwise limited such person's involvement in any type of business or securities activities.

C. Beneficial Shareholders

The name, address and shareholdings of all persons beneficially owning more than ten percent of any class of the Company's equity securities or officers and directors of the Company are:

Name	Common Directly Owned[(1)]	Percent Ownership[(2)]
Craig L. Parkinson	1,500,000	3%

Joseph F. Bonocore, III	240,000	>1%
Shelly Drobny	300,000	>1%
Gold Miners Ventures, Inc.[3]	31,815,800	54%

(1) Share totals reflect all common shares directly owned as of the date of this report's publication with OTC markets.
(2) As of the date of this report's publication (February 12, 2015) there were 58,577,654 shares of common stock issued and outstanding.
(3) Gold Miners Ventures, Inc. is controlled by Norman Goldstein and James Jorasch, JTTEN.
