FORWARD-LOOKING STATEMENTS

This disclosure statement contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. In some cases you can identify forward-looking statements by terms such as "may", "intend", "will", "could", "would", "expects", "believe", "estimate", or the negative of these terms, and similar expressions intended to identify forward-looking statements.

These forward-looking statements reflect our current views with respect to future events and are based on assumptions and are subject to risks and uncertainties. Also, these forward-looking statements present our estimates and assumptions only as of the date of this disclosure statement. Except for our ongoing obligation to disclose material information as required by federal securities laws, we do not intend to update you concerning any future revisions to any forward-looking statements to reflect events or circumstances occurring after the date of this disclosure statement.

Actual results in the future could differ materially and adversely from those described in the forward-looking statements as a result of various important factors, including the substantial investment of capital required to produce and market films and television series, increased costs for producing and marketing feature films, budget overruns, limitations imposed by our credit facilities, unpredictability of the commercial success of our motion pictures and television programming, the cost of defending our intellectual property, difficulties in integrating acquired businesses, and technological changes and other trends affecting the entertainment industry.
