NOTES TO THE FINANCIAL STATEMENTS
THREE MONTHS ENDED SEPTEMBER 30, 2014 AND 2013
(unaudited)

NOTE 1 – SUMMARY OF ACCOUNTING POLICIES

A summary of the significant accounting policies applied in the preparation of the accompanying unaudited condensed consolidated financial statements follows.

Business and Basis of Presentation

Kalahari Greentech, Inc. (the "Company," "we," "our," "us"), was incorporated in the State of Nevada on April 5, 2005. On October 26, 2007, the Company merged with NextGen Bioscience, Inc., a company incorporated under the laws of the State of Nevada, changing its name to Kalahari Greentech, Inc ("Kalahari Greentech, Inc.- Subsidiary").

For accounting purposes, Kalahari Greentech, Inc. - Subsidiary was the surviving entity. The transaction was accounted for as a recapitalization of Kalahari Greentech, Inc. - Subsidiary pursuant to which Kalahari Greentech, Inc. - Subsidiary was treated as the surviving and continuing entity although the Company is the legal acquirer rather than a reverse acquisition. Accordingly, the Company's historical financial statements are those of Kalahari Greentech, Inc - Subsidiary immediately following the consummation of the reverse merger. Also, going forward the business operations of Kalahari Greentech, Inc. - Subsidiary will become the Company's principal business operations.

Interim Financial Statements

The unaudited condensed interim financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") for interim financial information and the instructions to Form 10-Q and Rule 8-03 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included.

Operating results for the three months ended December 31, 2014 are not necessarily indicative of results that may be expected for the year ending September 30, 2015. These condensed consolidated financial statements should be read in conjunction with the unaudited financial statements and notes thereto for the year ended September 30, 2014.

Going Concern

The accompanying unaudited condensed financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate continuation of the Company as a going concern. However, the Company has reported net losses of $21,321 and $49,187 for the three months ended December 31, 2014 and 2013, respectively, accumulated deficit of $9,662,416 and total current liabilities in excess of current assets of $638,268 as of December 31, 2014.

The Company no revenue from operations and will be dependent on funds raise to satisfy its ongoing capital requirements for at least the next 12 months. The Company will require additional financing in order to execute its operating plan and continue as a going concern. The Company cannot predict whether this additional financing will be in the form of equity or debt, or be in another form. The Company may not be able to obtain the necessary additional capital on a timely basis, on acceptable terms, or at all.

In any of these events, the Company may be unable to implement its current plans for expansion or respond to competitive pressures, any of these circumstances would have a material adverse effect on its business, prospects, financial condition and results of operations.

The unaudited condensed financial statements do not include any adjustments relating to the recoverability of assets and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern.

Revenue Recognition

The Company recognizes revenue on four basic criteria that must be met before revenue can be recognized: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred or services have been rendered; (3) the fee is fixed or determinable; and (4) collectability is reasonably assured. Determination of criteria (3) and (4) are based on management's judgments regarding the fixed nature of the fee charged for services rendered and products delivered and the collectability of those fees. Revenue is generally recognized upon shipment.

Costs of revenue

Cost of revenue includes raw materials, component parts, and shipping supplies. Shipping and handling costs are not a significant portion of the cost of revenue.

Use of Estimates

The preparation of consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

For purposes of the statements of cash flows, cash includes demand deposits, saving accounts and money market accounts. The Company considers all highly liquid debt instruments with maturities of three months or less when purchased to be cash equivalents.

Fair Value of Financial Instruments

Our short-term financial instruments, including cash, other assets and accounts payable and accrued expenses consist primarily of instruments without extended maturities, the fair value of which, based on management's estimates, reasonably approximate their book value. The fair value of our notes and advances payable is based on management estimates and reasonably approximates their book value based on their current maturity.

Impairment of long lived assets

The Company has adopted Accounting Standards Codification subtopic 360-10, Property, Plant and Equipment ("ASC 360-10"). ASC 360-10 requires that long-lived assets and certain identifiable intangibles held and used by the Company be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Events relating to recoverability may include significant unfavorable changes in business conditions, recurring losses, or a forecasted inability to achieve break-even operating results over an extended period.

The Company evaluates the recoverability of long-lived assets based upon forecasted undiscounted cash flows. Should impairment in value be indicated, the carrying value of intangible assets will be adjusted, based on estimates of future discounted cash flows resulting from the use and ultimate disposition of the asset. ASC 360-10 also requires assets to be disposed of is reported at the lower of the carrying amount or the fair value less costs to sell.

Net loss per Common Share

The Company computes net loss per share under Accounting Standards Codification subtopic 260-10, Earnings Per Share ("ASC 260-10"). Basic net loss per common share is computed by dividing net loss by the weighted average number of shares of common stock. Diluted net loss per share is computed using the weighted average number of common and common stock equivalent shares outstanding during the period. There is no effect on diluted loss per share since the common stock equivalents are anti-dilutive for the three and nine months ended June 30, 2014 and 2013. Dilutive common stock equivalents consist of shares issuable upon conversion of convertible notes. Fully diluted shares for the three months ended December 31, 2014 and 2013 were 359,702,200 and 363,314,428, respectively.

Income taxes

Income tax provisions or benefits for interim periods are computed based on the Company's estimated annual effective tax rate. Based on the Company's historical losses and its expectation of continuation of losses for the foreseeable future, the Company has determined that it is more likely than not that deferred tax assets will not be realized and, accordingly, has provided a full valuation allowance. As the Company anticipates or anticipated that its net deferred tax assets at September 30, 2014 and 2013 would be fully offset by a valuation allowance, there is no federal or state income tax benefit for the periods ended December 31, 2014 and 2013 related to losses incurred during such periods.

Research and Development

The Company accounts for research and development costs in accordance with the Accounting Standards Codification subtopic 730-10, Research and Development ("ASC 730-10"). Under ASC 730-10, all research and development costs must be charged to expense as incurred. Accordingly, internal research and development costs are expensed as incurred. Third-party research and developments costs are expensed when the contracted work has been performed or as milestone results have been achieved. Company-sponsored research and development costs related to both present and future products are expensed in the period incurred. For the three months ended December 31, 2014 and 2013, the Company's expenditures on research and product development were immaterial.

Share-Based Compensation

The Company follows the fair value recognition provisions of Accounting Standards Codification subtopic 718-10, Compensation ("ASC 718-10") using the modified-prospective transition method. Share-based compensation issued to employees is measured at the grant date, based on the fair value of the award, and is recognized as an expense over the requisite service period.

The Company measures the fair value of the share-based compensation issued to non-employees using the stock price observed in the arms-length private placement transaction nearest the measurement date (for stock transactions) or the fair value of the award (for non-stock transactions), which were considered to be more reliably determinable measures of fair value than the value of the services being rendered. The measurement date is the earlier of (1) the date at which commitment for performance by the counterparty to earn the equity instruments is reached, or (2) the date at which the counterparty's performance is complete.

Recent Accounting Pronouncements

There are various updates recently issued, most of which represented technical corrections to the accounting literature or application to specific industries and are not expected to a have a material impact on the Company's financial position, results of operations or cash flows.

NOTE 3 - NOTES PAYABLE

Notes payable consists of unsecured amounts due to a corporation from which the Company purchased marketable technology. The loans were due on demand without interest.

NOTE 4 – CONVERTIBLE NOTES PAYABLE

On March 19, 2013 the Company entered into a promissory note with a non-related party for $8,500 in cash. The note is unsecured, interest bearing at 10% per annum, and matured on September 19, 2013. From note inception through December 31, 2014 the Company accrued and expensed $2,390 in interest on this note. The note is also convertible at the option of the Company at a fixed price of $0.0001 per share. Accordingly, a beneficial conversion feature of $8,500 has been recorded on this note of which $8,500 was amortized and expensed as interest expense during the year ended September 30, 2013. Upon default of this note, the interest rate increased to 18% on all unpaid principal and interest outstanding at the date of default. The note currently is in default.

On March 26, 2013 the Company entered into a promissory note with a non-related party for $10,000 in cash. The note is unsecured, interest bearing at 10% per annum, and matured on September 19, 2013. From note inception through December 31, 2014 the Company accrued and expensed $2,793 in interest on this note. The note is also convertible at the option of the Company at a fixed price of $0.001 per share. Accordingly, a beneficial conversion feature of $10,000 has been recorded on this note of which $10,000 was amortized and expensed as interest expense during the year ended September 30, 2013. Upon default of this note, the interest rate increased to 18% on all unpaid principal and interest outstanding at the date of default. The note currently is in default.

On April 3, 2013 the Company entered into a promissory note with a non-related party for $15,000 in cash. The note is unsecured, interest bearing at 10% per annum, and matured on October 3, 2013. From note inception through December 31, 2014 the Company accrued and expensed $4,111 in interest on this note. The note is also convertible at the option of the Company at a fixed price of $0.001 per share. Accordingly, a beneficial conversion feature of $15,000 has been recorded on this note of which $-0- and $246 was amortized and expensed as interest expense during the three months ended December 31, 2014 and 2013, respectively. Upon default of this note, the interest rate increased to 18% on all unpaid principal and interest outstanding at the date of default. The note currently is in default.

On May 10, 2013 the Company entered into a promissory note with a non-related party for $25,000 in cash. The note is unsecured, interest bearing at 10% per annum, and matures on November 10, 2013. From note inception through December 31, 2014 the Company accrued and expensed $6,389 in interest on this note. The note is also convertible at the option of the Company at a fixed price of $0.001 per share. Accordingly, a beneficial conversion feature of $25,000 has been recorded on this note of which $-0- and $5,570 was amortized and expensed as interest expense during the three months ended December 31, 2014 and 2013, respectively. Upon default of this note, the interest rate increased to 18% on all unpaid principal and interest outstanding at the date of default. The note currently is in default.

On August 20, 2013 the Company entered into a promissory note with a non-related party for $5,100 in cash. The note is unsecured, interest bearing at 10% per annum, and matures on February 20, 2014. From note inception through December 31, 2014 the Company accrued and expensed $1,047 in interest on this note. The note is also convertible at the option of the Company at a fixed price of $0.001 per share. Accordingly, a beneficial conversion feature of $3,060 has been recorded on this note of which $-0- and $1,530 was amortized and expensed as interest expense during the three months ended December 31, 2014 and 2013, respectively. Upon default of this note, the interest rate increased to 18% on all unpaid principal and interest outstanding at the date of default. The note currently is in default.

On October 4, 2013 the Company entered into a promissory note with a non-related party for $2,000 in cash. The note is unsecured, interest bearing at 10% per annum, and matures on April 4, 2014. From note inception through December 31, 2014, the Company accrued and expensed $367 in interest on this note. The note is also convertible at the option of the Company at a fixed price of $0.0001 per share. Accordingly, a beneficial conversion feature of $2,000 has been recorded on this note of which $-0- and $967 was amortized and expensed as interest expense during the three months ended December 31, 2014 and 2013, respectively. Upon default of this note, the interest rate increased to 18% on all unpaid principal and interest outstanding at the date of default. The note currently is in default.

NOTE 5 – EQUITY

The Company has authorized 2,000,000,000 shares of common stock with a par value of $0.001 and 5,000,000 shares of $0.001 par value preferred stock.

Preferred stock

None of the authorized shares of preferred stock have been issued as of the date of this report.
