SMART VENTURES, INC.

NOTES TO FINANCIAL STATEMENTS
Unaudited

NOTE 1 – BASIS OF PRESENTATION

The consolidated financial statements of Smart Ventures, Inc. (the Company) for the period ended Dec 31, 2014 are not audited. The financial statements are prepared in accordance with generally accepted accounting principles in the United States of America.

In the opinion of management, the accompanying financial statements contain all adjustments, consisting only of normal recurring accruals, necessary for a fair presentation of the Company's financial position as of Dec 31, 2014 and the results of its operations and cash flows for the period ended Dec 31, 2014.

NOTE 2 – NATURE OF SIGNIFICANT ACCOUNTING POLICIES

CASH AND CASH EQUIVALENTS

The Company considers all highly liquid debt instruments purchased with maturity of three months or less to be cash equivalents.

REVENUE RECOGNITION

The Company considers revenue to be recognized at the time the service is performed.

USE OF ESTIMATES

The preparation of the Company's financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company's short-term financial instruments consist of cash and cash equivalents and accounts payable. The carrying amounts of these financial instruments approximate fair value because of

their short-term maturities. Financial instruments that potentially subject the Company to a concentration of credit risk consist principally of cash. During the year the Company did not maintain cash deposits at financial institution in excess of the $250,000 limit covered by the Federal Deposit Insurance Corporation. The Company does not hold or issue financial instruments for trading purposes nor does it hold or issue interest rate or leveraged derivative financial instruments.

EARNINGS PER SHARE

Basic Earnings per Share ("EPS") is computed by dividing net income available to common stockholders by the weighted average number of common stock shares outstanding during the year. Diluted EPS is computed by dividing net income available to common stockholders by the weighted-average number of common stock shares outstanding during the year plus potential dilutive instruments such as stock options and warrant. The effect of stock options on diluted EPS is determined through the application of the treasury stock method, whereby proceeds received by the Company based on assumed exercises are hypothetically used to repurchase the Company's common stock at the average market price during the period. Loss per share is unchanged on a diluted basis since the assumed exercise of common stock equivalents would have an anti-dilutive effect.

INCOME TAXES

The Company uses the asset and liability method of accounting for income taxes, which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax basis of certain assets and liabilities. Deferred income tax assets and liabilities are computed annually for the difference between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future, based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. Income tax expense is the tax payable or refundable for the period, plus or minus the change during the period in deferred tax assets and liabilities.

Deferred income taxes may arise from temporary differences resulting from income and expense items reported for financial accounting and tax purposes in different periods. Deferred taxes are classified as current or non-current, depending on the classification of the assets and liabilities to which they relate. Deferred taxes arising from temporary differences that are not related to an asset or liability are classified as current or non-current depending on the periods in which the

temporary differences are expected to reverse. The Company had no significant deferred tax items arise during any of the periods presented.

CONCENTRATION OF CREDIT RISK

The Company does not have any concentration of related financial credit risk.

RECENT ACCOUNTING PRONOUNCEMENTS

The Company does not expect the adoption of any recent accounting pronouncements to have a material impact on its financial statements.

NOTE 1– GOING CONCERN

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As shown in the accompanying financial statements, the Company has consolidated operating revenues of $762,520 for the YTD period ending Dec 31, 2014.

Item 1A. Risk Factors

The primary risk associated with our ongoing operations is that we drill deep water oil and gas wells which could lead to catastrophic events triggering significant liabilities. The Company does maintain sufficient insurance coverage as required to mitigate such risk. The Sanday Corporation maintains an excellent safety history regarding its drilling operations and has been an operating company since 2000. The volatility in the oil market has hurt the company's earnings in the fourth quarter and may continue to impede drilling services revenue. The company is engaged in the Engineering, Procurement, and Construction (EPC) business in DR Congo which has significant war torn risk and engaged in mining in that region which has significant safety risk. We own a subsidiary company engaged in investing in Cannabis related businesses which could subject us to future legal actions depending upon State and Federal Regulatory bodies.

Item 2.

MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

This section of the financials includes a number of forward-looking statements that reflect our current views with respect to future events and financial performance. Forward-looking statements

are often identified by words like: believe, expect, estimate, anticipate, intend, project and similar expressions, or words which, by their nature, refer to future events. You should not place undue certainty on these forward-looking statements, which apply only as of the date of this prospectus. These forward-looking states are subject to certain risks and uncertainties that could cause actual results to differ materially from historical results or out predictions.

PLAN OF OPERATION

We have an extensive growth plan to emerge as one of the largest holding companies providing high quality engineering services to oil majors, EPC, specialty chemicals and legalized cannabis investment activity. Our goal is to create significant earnings and profits as a turn- key engineering firm and from a diversified portfolio of cannabis investments. Cannabis Funding Group, LP is owned 99% by Smart Ventures, Inc. and 1% by the General Partner, and Cannabis Funding Group, Inc. a Colorado corporation owned 100% by Smart Ventures, Inc. The General Partner will receive a 2% management fee and 20% performance fee.

We have entered into the specialty chemicals market as a supplier of chemical products used in the oil and gas industry, paper and food industry through launch of a chemical exchange B2B platform for commercial buyers to submit purchase orders to purchase more than 100 chemical products offered by our supplier in China and the US.

Liquidity and Capital

The Company has operating income to sustain its current business operations and expects to grow revenues with additional services being offered to its clients. The Company has launched several capital raise initiatives through private placement offerings for growth and strategic acquisitions. We are also considering various structures of debt to expand business operations which may include lines of credit, unsecured or senior secured debt, convertible debt, corporate bonds and preferred Convertible Class A shares which is a form of debt. The Company subsidiary Cannabis Funding Group, Inc. is also seeking a $10 Million capital raise for investments in Cannabis Related businesses.

Resources Assets and Liabilities

At Dec 31, 2014 we had assets of $10,215,290 in furniture, goodwill, computers, software and equity investments in stocks of other entities. We also have 80 acres of oil and gas mineral lease in Florida. Liabilities totaled $70,000 advanced from a shareholder loan. We believe our assets and existing revenues are sufficient to maintain continuous operations.

On or about November 03, 2014 Smart Ventures, Inc. entered into a Share Exchange acquisition of all the common shares of International Equity Partners Oil & Gas, Inc. as a wholly owned subsidiary. As part of the acquisition International Equity Partners Oil & Gas brought significant resources in the EPC concession contracts with significant mineral rights in mining gold in DR Congo, 30% royalty revenues. The acquisition also resulted in the JV ownership of gold mining assets in Colorado with 50% royalty revenues to be generated from operations. The company is currently trying to raise debt financing for the mining assets operations to be secured by the 260 acres patented mining claims. The acquisition also resulted in the specialty chemicals division and we expect to report earnings from these divisions in the next quarter.

Off-Balance Sheet Arrangements

We are not currently a party to, or otherwise involved with, any off-balance sheet arrangements that have or are reasonably likely to have a current or future material effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

Not applicable.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures and determined that our disclosure controls and procedures were effective as of the end of the period covered by this Quarterly Report on 10-Q. The evaluation considered the procedures designed to ensure that the information required to be disclosed by us in reports filed or submitted under the OTC Markets Rules is recorded, processed, summarized and reported within the

time periods specified in the OTC Markets rules and forms and communicated to our management as appropriate to allow timely decisions regarding required disclosure.

(b) Changes in Internal Control over Financial Reporting

During the period covered by this Quarterly Report on Form 10-Q, there was no change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

(c) Inherent Limitations of Disclosure Controls and Internal Controls over Financial Reporting

Because of its inherent limitations, internal controls over financial reporting may not prevent or detect misstatements. Projections of any evaluation or effectiveness to future periods are subject to risks that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Part II

OTHER INFORMATION

Item 1. Legal Proceedings

None

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None.

Item 3. Defaults Upon Senior Securities

Not Applicable.

Item 4. Subsequent Events

On or about March 15, 2015 Smart Ventures, Inc. and its wholly owned subsidiary Cannabis Funding Group acquired 9.99% equity stake in GCHI Green Company Holdings, Inc. (“The Green Fund”) through an asset purchase agreement.

On or about March 15, 2015 Smart Ventures, Inc. and its wholly owned subsidiary Cannabis Funding Group acquired 9.99% equity stake in GCHI Green Company Holdings, Inc. (“The Green Fund”). SMVR issued 40,000,000 restricted common shares and a $250,000 convertible promissory note. Cannabis Funding Group, LP issued 1,000 Limited Partnership units to GCHI Green Company Holdings, Inc. (“The Green Fund”) in exchange for $1,000,000 equity in GCHI Green Company

Holdings, Inc. Cannabis Funding Group, LP issued 65 Limited Partnership units in exchange for $65,000 cash invested for foundation expenses paid.
