NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2014 and 2013

NOTE 1 – NATURE OF OPERATIONS

Golden Star Enterprises Ltd., (formerly Terralene Fuels Corporation) (The "Company") was incorporated on September 13, 1993 in the State of Delaware as Power Direct, Inc. On January 31, 2000 the Company changed its name to 2U Online.com Inc. to reflect management's decision to shift the Company's focus from oil and gas exploration and development to internet-based business development. On October 8, 2003, the Company changed its name to Golden Spirit Minerals Ltd. to reflect management's decision to shift the Company's focus from internet-based business development to mineral exploration. On October 19, 2004, the Company changed its name to Golden Spirit Mining Ltd. On July 18, 2005, the Company changed its name to Golden Spirit Gaming Ltd. to reflect management's decision to develop an online gaming business. The launch of the updated goldenspiritpoker.com website featuring real cash games, in addition to play money games, occurred in January 2006. By agreement dated July 18, 2005 as amended September 20, 2005 (the "Amended Agreement"), the Company agreed to acquire 100% of the issued and outstanding common shares of 4 Of A Kind Enterprises ("4KE") doing business as EverythingAboutPoker.com for consideration of 1,388,889 post-reverse split restricted shares of the Company's common stock which were placed in trust pending finalization of the agreement. Effective June 30, 2006, the Company completed a 1 for 18 reverse stock split (refer Note 7) and changed its name to Golden Spirit Enterprises Ltd. to reflect the Company's plan to expand its operations to include the marketing of other products and venues not related to gaming including an agreement with Eneco Industries to participate in a series of Municipal Solid Waste (garbage) fueled Recycling and Resource Recovery Plants. In addition, the Company signed an agreement with Global Terralene Inc. for the acquisition of all assets pertaining to Terralene Fuels.(refer to Note 4). On November 29, 2011, the Company changed its name to Terralene Fuels Corporation. On May 14, 2013, the Company filed a form 15-12G, securities registration termination with the U.S. Securities and Exchange Commission. The Company continues to report and trade on the "OTC Pinks" under the same symbol GSPT. Effective July 15, 2013, the Company completed a 1 for 40 reverse stock split and changed its name to Golden Star Enterprises Ltd. under the same symbol "GSPT". On April 4, 2014, the Company has signed a Licensing Agreement with Vapor Spirit International Corporation (Vapor Spirit), a Nevada company in the alcohol vaporization product industry. The Company is currently in the business of designing, manufacturing and marketing high quality alcohol vaporizers which are self-branded using custom unique glass and metal designs.

Going Concern

The consolidated financial statements have been prepared on the basis of a going concern which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has incurred losses since inception of $18,441,442 and at September 30, 2014 had a working capital deficiency of $193,222. The Company and its subsidiaries are at the stage of business where further significant losses are expected to be incurred in developing its business. The recoverability of the carrying value of assets and the ability of the Company to continue as a going concern is dependent on raising additional capital and ultimately on generating future profitable operations. The Company's current business is selling novelty products known as Vapor Spirits. Vapor Spirit is in the business of designing, manufacturing and marketing high quality alcohol vaporizers which are self-branded using custom unique glass and metal designs. Vapor Spirit will allow drinkers to vaporize alcohol creating a truly new and unique consumption experience whereby the drinker will inhale the spirits rather than drink it. The Vapor Spirit products highlight flavor profiles, while removing unwanted impurities and calories from the alcohol and virtually gives the drinker no hangover.

NOTE 2- BASIS OF PRESENTATION

There can be no assurance that the Company will be able to raise the necessary funds when needed to finance its ongoing costs. Given the Company's limited operating history in its current business of Vapor Spirits where sales to December 31, 2014 totaled $47,534, and its operating losses, there can be no assurance that it will be able to achieve or maintain profitability. The Company intends to fund the marketing of its business with both equity financing and joint venture opportunities, although there are no assurances these opportunities will be successful. Accordingly, these factors raise substantial doubt regarding the ability of the Company to continue as a going concern.

In May 2013, a majority of the shareholders entitled to vote on such matters approved a change of name from Terralene Fuels Corporation to "Golden Star Enterprises Ltd." and a one-for-forty (1:40) stock split of all of this Company's outstanding common stock, without any change in par value for the shares of common stock of the Company. The stock split did not include a change in the authorized capital of the Company.

On June 5, 2013, a Certificate of Amendment to its Articles of Incorporation was filed with the State of Delaware changing the name to Golden Star Enterprises Ltd., effective July 15, 2013. The Company's CUSIP Number changed from 88104B 10 5 to 38119W 10 7. On July 16, 2013, the Company began to trade as Golden Star Enterprises Ltd. under the same trading symbol being "GSPT". Pre-split the total shares outstanding was 139,198,691 and post-split the total shares outstanding was 3,479,967.

Principles of Consolidation

The financial statements include the accounts of the Company and its subsidiaries, a 100% interest in PD Oil & Gas, Inc. (inactive), and a 100% interest in Cardstakes.com Enterprises Ltd. (inactive).

Use of Estimates and Assumptions

Preparation of the Company's financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates. The significant areas requiring management's estimates and assumptions relate to determining the fair value of stock-based compensation, fair value of shares issued for services and the acquisitions and useful lives of long-lived assets.

Foreign Currency Translation

The financial statements are presented in United States dollars. In accordance with Statement of Financial Accounting Standards ("SFAS") No. 52, "Foreign Currency Translation", foreign denominated monetary assets and liabilities are translated to their United States dollar equivalents using foreign exchange rates that prevailed at the balance sheet date. Non-monetary assets and liabilities are translated at exchange rates prevailing at the transaction date. Revenue and expenses are translated at average rates of exchange during the year. Related translation adjustments are reported as a separate component of stockholders' equity, whereas gains or losses resulting from foreign currency transactions are included in results of operations.

NOTE 2- BASIS OF PRESENTATION (con't.)

Available For Sale Securities – Related Party

The Company holds marketable equity securities which are available-for-sale and as such, their carrying value is adjusted to market at the end of each reporting period. Unrealized gains and losses on these investments are recorded as a component of accumulated other comprehensive income (loss) and are recorded as a component of net income (loss) when realized. However, if there is a permanent decline in the market value of available-for-sale securities, this permanent market value adjustment is taken into income in the period.

Concentration of Credit Risk

Cash in bank accounts are at risk to the extent that they exceed U.S. Federal Deposit Insurance Corporation and Canadian Deposit Insurance Corporation insured amounts. To minimize risk, the Company places its cash with high credit quality institutions. All cash is deposited in one prominent Canadian financial institution.

Fair Value of Financial Instruments

The Company's financial instruments include cash, receivables, available-for-sale securities, accounts payable and accrued liabilities, amounts due to and due to related parties. Management believes the fair values of these financial instruments approximate their carrying values due to their short-term nature.

The Company adopted ASC Topic 820-10 for all financial assets and liabilities and non financial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). SFAS No. 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. ASC Topic 820-10 defines fair value as the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity. In addition, the fair value of liabilities should include consideration of non-performance risk including our own credit risk.

In addition to defining fair value, ASC Topic 820-10 expands the disclosure requirements around fair value and establishes a fair value hierarchy for valuation inputs. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market. Each fair value measurement is reported in one of the three levels which is determined by the lowest level input that is significant to the fair value measurement in its entirety. These levels are:

* Level 1 – inputs are based upon unadjusted quoted prices for identical instruments traded in active markets.
* Level 2 – inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
* Level 3 – inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques

In general, and where applicable, we use quoted prices in an active market for marketable securities that are traded on exchanges. These marketable securities are included in Level 1.The application of the three levels of the fair value hierarchy under Topic 820-10-35 to our assets and liabilities are described below:

NOTE 2- BASIS OF PRESENTATION (con't.)

	Fair Value Measurements			
	Level 1	Level 2	Level 3	Total Fair Value
Assets				
Cash	$ 1,428	$ -	$ -	$ 1,428
Accounts Receivable	90			90
Inventory	4,746			4,746
Available securities	2,896	-	-	2,896
Intangible Assets	-	-	1,372,119	1,372,119
Total	$ 9,160	$ -	$ 1,372,119	$ 1,381,279
Liabilities				
Current and long-term debt	$ 214,593	$ -	$ -	$ 214,593
Total	$ 214,593	$ -	$ -	$ 214,593

Intangible Assets

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 350, "Intangibles-Goodwill and Other" requires that goodwill and intangible assets with indefinite useful lives no longer be amortized, but instead tested for impairment at least annually in accordance with the provisions of ASC 350. This standard also requires that intangible assets with definite useful lives be amortized over their respective estimated useful lives to their estimated residual values, and reviewed for impairment The Company's intangible assets consist of the acquisition of patents and other proprietary information of Terralene Fuels, a patented fuel alternative formulation which began in 2010 and was completed in February 2012. The Company determined that the intangibles have indefinite useful lives and will be reviewed annually for impairment. (see Note 4).

The Company's other intangible assets include a Licensing Agreement with Vapor Spirit International Corporation (Vapor Spirit), a Nevada company in the alcohol vaporization product industry. The Company has been granted the licensing right to manufacture and market the entire Vapor Spirit product line worldwide and in exchange, the Company issued 40,000,000 restricted common shares of the Company's common stock to Vapor Spirit and/or its nominees valued at $1,200,000. The Company determined that the intangibles have an estimated useful life of 25 years and will be reviewed annually for impairment. Amortization will be recorded over the estimated useful life of the assets using the straight-line method for financial statement purposes. The Company commenced amortization when the economic benefits of the assets began to be consumed in June, 2014. Other intangibles are carried at acquisition cost less accumulated amortization. Amortization is provided over the estimated useful lives of the assets on straight line basis per annum. (see Note 4).

Income Taxes

The Company follows the liability method of accounting for income taxes. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax balances. Deferred tax assets and liabilities are measured using enacted or substantially enacted tax rates expected to apply to the taxable income in the years in which those differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the date of enactment or substantive enactment. A valuation allowance is provided for deferred tax assets if it is more likely than not that the Company will not realize the future benefit, or if the future deductibility is uncertain.

NOTE 2- BASIS OF PRESENTATION (con't.)

Loss per Common Share

Basic loss per share is computed by dividing net loss available to common shareholders by the weighted average number of outstanding common shares during the period. Diluted loss per share gives effect to all dilutive potential common shares outstanding during the period including stock options, using the treasury method. Dilutive loss per share excludes all potential common shares if their effect is anti-dilutive.

Inventory

Inventories consist of merchandise held for sale in the ordinary course of business, including cost of freight and other miscellaneous acquisition costs, and are stated at the lower of cost, or market determined on the first-in-first-out basis. The Company records a write-down for inventories, which have become obsolete or are in excess of anticipated demand or net realizable value. The Company performs a detailed review of inventory each period that considers multiple factors including demand forecasts, market conditions, product life cycle status, product development plans and current sales levels. If future demand or market conditions for the Company's products are less favorable than forecasted or if unforeseen changes negatively affect the utility of the Company's inventory, it may be required to record additional write-downs, which would negatively affect gross margins in the period when the write-downs are recorded. If actual market conditions are more favorable, the Company may have higher gross margins when products incorporating inventory that were previously written down are sold.

Revenue Recognition

Sales are recognized upon purchase by customers at our product facility. All sales at our product facility are final, allowing for no sales returns. As at December 31, 2014, $90 (2013- $Nil) is in accounts receivable from the sale of vapor spirit novelty products.

Recent Accounting Pronouncements

On June 10, 2014, the Financial Accounting Standards Board ("FASB") issued update ASU 2014-10, Development Stage Entities (Topic 915). Amongst other things, the amendments in this update removed the definition of development stage entity from Topic 915, thereby removing the distinction between development stage entities and other reporting entities from US GAAP. In addition, the amendments eliminate the requirements for development stage entities to (1) present inception-to-date information on the statements of income, cash flows and shareholders' equity, (2) label the financial statements as those of a development stage entity; (3) disclose a description of the development stage activities in which the entity is engaged and (4) disclose in the first year in which the entity is no longer a development stage entity that in prior years it had been in the development stage. The amendments are effective for annual reporting periods beginning after December 31, 2014 and interim reporting periods beginning after December 15, 2015, however entities are permitted to early adopt for any annual or interim reporting period for which the financial statements have yet to be issued. The Company has elected to early adopt these amendments and accordingly have not labeled the financial statements as those of a development stage entity and have not presented inception-to-date information on the respective financial statements.

In August 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Updates (ASU) 2014-15 requiring an entity's management to evaluate whether there are conditions or events, considered in aggregate, that raise substantial doubt about entity's ability to continue as a going concern within one year after the date that the financial statements are issued (or within one year after the date that the financial statements are available to be issued when applicable). The amendments in this Update are effective for the annual period ending after December 15, 2016, and for annual periods and interim periods thereafter. Early application is permitted.

NOTE 3 – AVAILABLE–FOR-SALE SECURITIES – RELATED PARTIES

Bravo Enterprises Ltd.

The Company owns common shares of Bravo Enterprises Ltd. ("Bravo"), a public company with directors and significant shareholders in common that does represent a position of significant influence over Bravo. During 2007 the Company recorded an unrealized loss in the carrying value of its available-for-sale securities totaling $3,775, which was recorded as other comprehensive income (loss). During the year ended December 31, 2008, the Company recorded an unrealized loss in the carrying value of its available-for-sale securities totaling $5,612 which was recorded as other comprehensive income (loss). During the year ended December 31, 2009, the Company sold 50,000 shares resulting in a realized loss of $(780) and recorded an unrealized loss in the carrying value of its available-for-sale securities totaling $5,138, which was recorded as other comprehensive income. During the year ended December 31, 2010, the Company received 700,300 restricted shares of Bravo valued to $7,003 pursuant to a debt settlement and sold Nil Bravo shares. The Company recorded an unrealized loss in the carrying value of its available-for-sale securities totaling $2,541, which was recorded as other comprehensive income (loss). As a result, the carrying value of the available for sale shares of Bravo is $4,504 as at December 31, 2010.

During the year ended December 31, 2011, the Company sold Nil Bravo shares and recorded an additional unrealized loss of $ (3,097). As a result, the carrying value of the available for sale shares of Bravo is $1,407 as at December 31, 2011. Effective December 31, 2011, the Company recorded a $1,689 write-down of its investment in Bravo due to an other-than-temporary decline in the value of the shares.

During the year ended December 31, 2012, the Company sold Nil Bravo shares and recorded an additional unrealized gain of $ 6,158. As a result, the carrying value of the available for sale shares of Bravo is $7,565 as at December 31, 2012.

During the year ended December 31, 2013, the Company sold Nil Bravo shares and recorded an additional unrealized loss of $ 528. As a result, the carrying value of the available for sale shares of Bravo is $7,037 as at December 31, 2013.

During the year ended December 31, 2014, the Company sold Nil Bravo shares and recorded an additional unrealized loss of $(6,996) to December 31, 2014. As a result, the carrying value of the available for sale shares of Bravo is $42 as at December 31, 2014.

Wee-Cig International Corporation

The Company owns common shares of Wee-Cig International Corporation ("Wee-Cig"), a public company with directors and significant shareholders in common, that does that does represent a position of significant influence over Bravo. During 2007 the Company recorded an unrealized gain in the carrying value of its available-for-sale securities totaling $590,993. During the year ended December 31, 2008, the Company acquired 23,200 shares valued at $19,532 sold 99,400 shares resulting in a realized gain of $28,645(net of commissions of $2,132) and recorded an unrealized gain in the carrying value of its available-for-sale securities totaling $275,121, which was recorded as other comprehensive income. During the year ended December 31, 2009, the Company sold 301,600 shares resulting in a realized gain of $180,398 and recorded an other-than-temporary loss in the carrying value of its available-for-sale securities totaling $34,001.

During the year ended December 31, 2010, the Company the Company received 1,451,360 restricted shares of Wee-Cig valued to $72,568 pursuant to a debt settlement and sold Nil Wee-Cig shares. The Company recorded an other-than-temporary loss in the carrying value of its available-for-sale securities totaling $47,069. As a result, the carrying value of the available for sale shares of Wee-Cig is $37,535 as at December 31, 2010.

NOTE 3 – AVAILABLE–FOR-SALE SECURITIES – RELATED PARTIES (con't)

During the year ended December 31, 2011, the Company sold Nil Wee-Cig shares and recorded an additional unrealized loss of $ (33,781). As a result, the carrying value of the available for sale shares of Wee-Cig is $3,754 as at December 31, 2011.Effective December 31, 2011, the Company recorded a $32,843 write-down of its investment in Wee-Cig due to an other-than-temporary decline in the value of the shares.
During the year ended December 31, 2012, the Company sold Nil Wee-Cig shares and recorded an additional unrealized loss of $ (1,877). As a result, the carrying value of the available for sale shares of Wee-Cig is $1,877 as at December 31, 2012.

During the year ended December 31, 2013, the Company sold Nil Wee-Cig shares and recorded an additional unrealized gain of $ 21,583. As a result, the carrying value of the available for sale shares of Wee-Cig is $23,460 as at December 31, 2013. In November of 2013, the Wee-Cig shares held were subject to a 1:9 reverse split.

NOTE 4 – INVESTMENTS IN INTANGIBLE ASSETS

Terralene Fuels
On August 24, 2010, the Company signed an agreement with Global Terralene Inc. for the acquisition of all assets pertaining to Terralene Fuels. Under the terms of the agreement, the Company will issue 7,000,000 restricted common shares to Global Terralene Inc. in two phases. On November 30, 2010, the Company approved and issued 5,000,000 restricted common shares valued at $125,000 to Global Terralene Inc. The Company will issued a further 2,000,000 restricted common shares valued at $50,000 in February 2012. Terralene Fuel is a patented fuel alternative formulation that is the equivalent of 87 octane regular gasoline and utilizes renewable energy sources in 45% of its composition. Terralene's unique fuel reduces greenhouse gas and other environmental damaging emissions and can be easily integrated into the existing fuel infrastructure. During the year ended December 31, 2013, the Company capitalized $Nil in patent work. During the year ended December 31, 2014, the Company capitalized a $Nil in patent work.

NOTE 4 – INVESTMENTS IN INTANGIBLE ASSETS (con't)

Total Investments in Terralene Fuels costs at December 31, 2014 and December 31, 2013 were $200,119 and include the following assets:

	December 31, 2014	December 31, 2013
Patents, trademarks, copyright	$ 130,119	$ 130,119
Formulas, reports, studies	25,000	25,000
Schematics, proprietary info	15,000	15,000
Website	5,000	5,000
Terralene brandname	5,000	5,000
	$ 200,119	$ 200,119

The purchase was completed in 2012 and no preliminary allocation has been completed. Amortization for intangible assets with definitive useful life purchased from Terralene Fuels, specifically the website, will be recorded over the estimated useful life of the website using the straight-line method for financial statement purposes when the product or service has been delivered or performed and invoiced by the Company and it begins to recognize revenues.

Vapor Spirits

On April 4, 2014, the Company has signed a Licensing Agreement with Vapor Spirit International Corporation (Vapor Spirit), a Nevada company in the alcohol vaporization product industry. The Company has been granted the licensing right to manufacture and market the entire Vapor Spirit product line worldwide and in exchange, the Company issued 40,000,000 restricted common shares of the Company's common stock to Vapor Spirit and/or its nominees valued at $1,200,000.

Vapor Spirit is in the business of designing, manufacturing and marketing high quality alcohol vaporizers which are self-branded using custom unique glass and metal designs. Vapor Spirit will allow drinkers to vaporize alcohol creating a truly new and unique consumption experience whereby the drinker will inhale the spirits rather than drink it. The Vapor Spirit products highlight flavor profiles, while removing unwanted impurities and calories from the alcohol and virtually gives the drinker no hangover. The Company determined that the intangibles have an estimated useful life of 25 years and will be reviewed annually for impairment. Amortization will be recorded over the estimated useful life of the assets using the straight-line method for financial statement purposes. The Company commenced amortization when the economic benefits of the assets began to be consumed in June, 2014. Amortization will be recorded over the estimated useful life of the assets using the straight-line method for financial statement purposes.

Description	**December 31, 2014**	**December 31, 2013**
25 year general license to design, manufacture and market the entire Vapor Spirit product line worldwide	$ 1,200,000	$ -
Less: accumulated amortization	(28,000)	-
Balance	$ 1,172,000	$ -
