cannabis sales will rise more than five-fold over the next five years, from an estimated \$2.2-\$2.6 billion in 2014 to \$7.4-8.2 billion in 2018, according to an article recently published by Marijuana Business Daily.

Dental Cannatizer

The Company has signed a definitive agreement for the purchase of a cutting edge technology that the Company is rebranding as the “Dental Cannatizer”; a cutting edge dental cleansing tool which can provide superior results due to its revolutionary design and the integration of hemp oil infusing replacement cartridges.

This state-of-the-art device is unique in its design which utilizes increased water pressure to flush out harmful bacteria, plaque, and miniscule food particles which accumulate from millions of microscopic spaces located on the teeth and gum valleys where a toothbrush or floss can’t reach. Conveniently constructed for use in the shower, its design includes the dispensing of hemp oil, which is highly recognized for its numerous holistic attributes.

The Cannatizer thoroughly cleans teeth and gums by flushing fissures and pits in teeth (the most common place for cavities) to remove bacteria, residues, and other contaminants, leaving teeth absolutely sparkling; allowing re-mineralization to occur naturally and organically with the restorative and medicinal qualities that hemp oil provides.

The antiseptic and anti-inflammatory benefits of hemp oil are well known to contain unique properties that are very beneficial. With the marketing of this device, the Company is setting up a dual revenue source, revenues derived from the initial transaction, and the residual revenue to follow generated by the repeat sales of the replacement hemp infusion cartridges.

We are informed that such transactional documents may include a promissory note and a share exchange agreement with the shareholders of MIG. AVI GROUP, INC.
NOTES TO THE UNAUDITED FINANCIAL STATEMENTS
December 31, 2014

NOTE 1 – NATURE OF OPERATIONS AND BASIS OF PRESENTATION

AV1 Group, Inc. is a development stage investment and holdings company. The Company was originally organized as a Florida corporation on April 23, 1998. Since its inception, the Company is an investment and holdings group. Through its acquisition of Marijuana Incubator Group, Inc., a Wyoming corporation, on April 1, 2014, and the Company focused its investment and holdings to identify, secure, and monetize emerging growth companies in a number of sectors that include cannabis related technologies and ecommerce businesses. For more information visit: <http://www.av1group.com>.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

In the opinion of management, the accompanying balance sheets, statements of operations, stockholders' deficit and cash flows include all adjustments, consisting only of normal recurring items, for their fair presentation in conformity with accounting principles generally accepted in the United States. These financial statements are presented in United States dollars.

Property

The Company does not own or rent any property. Our principal executive offices are located in La Jolla, California.

Revenue and Cost Recognition

The Company has no current source of revenue; therefore the Company has not yet adopted any policy regarding the recognition of revenue or cost.

Cash and Cash Equivalents

The Company considers all highly liquid investments with maturity of three months or less to be cash equivalents.

Use of Estimates and Assumptions

Preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Income Taxes

The Company follows the liability method of accounting for income taxes. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax balances. Deferred tax assets and liabilities are measured using enacted or substantially enacted tax rates expected to apply to the taxable income in the years in which those differences are expected to be recovered or settled. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the date of enactment or substantive enactment.

Net Loss per Share

Basic loss per share includes no dilution and is computed by dividing loss available to common stockholders by the weighted average number of common shares outstanding for the period. Dilutive loss per share reflects the potential dilution of securities that could share in the losses of the Company. Because the Company does not have any potentially dilutive securities, the accompanying presentation is only of basic loss per share.

NOTE 3 – GOING CONCERN

The Company's financial statements are prepared in accordance with generally accepted accounting principles applicable to a going concern. This contemplates the realization of assets and the liquidation of liabilities in the normal course of business. Currently, the Company has an accumulated deficit of \$171,324. The Company does not have a source of revenue sufficient to cover its operation costs giving substantial doubt for it to continue as a going concern. The Company will be dependent upon the raising of additional capital through placement of our common stock in order to implement its business plan, or merge with an operating company. There can be no assurance that the Company will be successful in either situation in order to continue as a going concern. The Company is funding its initial operations by way of issuing Founder's shares.

NOTE 4 – CAPITAL STOCK

The Company's capitalization is 15,005,000,000 common shares with a par value of \$0.00001 per share, and 5,000,000 preferred shares with a par value of \$0.0001 per share.

As of December 31, 2014, the Company has not granted any stock options and has not recorded any stock-based compensation.

NOTE 5 – INCOME TAXES

We did not provide any current or deferred U.S. federal income tax provision or benefit for any of the periods presented because we have experienced operating losses since inception. Accounting for Uncertainty in Income Taxes when it is more likely than not that a tax asset cannot be realized through future income the Company must allow for this future tax benefit.

We provided a full valuation allowance on the net deferred tax asset, consisting of net operating loss carry forwards, because management has determined that it is more likely than not that we will not earn income sufficient to realize the deferred tax assets during the carry forward period.
