The list shall indicate:

Aurum Resource and Asset Management, Inc., formerly World Investments of Mexico, Inc. ("The Company") was incorporated in the State of Nevada on October 19, 1999 as International Sports Marketing Group, Inc. We changed our name to Cal Alta Auto Glass, Inc. in June 2005. On March 16, 2012 we entered into a Share Exchange Agreement with the shareholders of World Investments of Mexico, Inc. ("WIM"), a Nevada corporation. This agreement provided for the shareholders of WIM to receive 60 million common shares of the Company.

At the same time, the assets of Cal Alta Auto Glass were transfer to the prior management of the Company in exchange for the cancellation of 35,563,606 shares of the common stock of the Company. In addition, the Company issued 28,224,600 shares of its common stock in satisfaction of notes payable. At the closing of this agreement, the officers and directors of the Company resigned and were replaced by the officers and directors of WIM. As the shareholders of WIM are the majority shareholders of the Company after the exchange, the transaction is accounted for as a "reverse merger" and the financial statements of the Company are those of WIM. The Company is in the exploration stage with no revenues and limited operating history.

In January 2014 the Company issued 20,000,000 shares of its common stock to repay $200,000 of long term debt. In July of 2014 the Company affected a 1 for 100 reverse split of the common stock issued and outstanding. After the 1 for 100 reverse split there were 1,084,033 shares outstanding. On September 2, 2014 there were 50,000,000 shares issued to complete the current capital restructuring. During the fourth quarter on December 17, 2014 there were 9,000,091 shares issued at $0.001 to repay debt. During the first quarter of 2015 a total of 2,254,400 shares were issued at $0.001 to further reduce debt. At March 31, 2015 there are 62,338,524 common shares of the Company issued and outstanding.

Item 5. Financial Statements

The financial statements for the quarter ending March 31, 2015 are being filed with OTC Markets, Inc. contemporaneously herewith as a Quarterly Report for the period ended March 31, 2015.

Item 6. Describe the Issuer's Business, Products and Services.

A. Description of the Issuer's Business Operations:

ARMI is a mining exploration and development Company. ARMI's business strategy is to identify qualified mineral prospects that meet its corporate mandate of being a potential low cost producer of less than $600 per ounce. There are many small deposits, in the gold sector that do not meet the requirements of the large gold companies. ARMI has identified a niche market whereby small, low cost deposits can be mined profitably at less than $600 per ounce. ARMI is concentrating on gold deposits in the 500,000 to 1MM ounce range that can be:

1) Identified as a qualified project under the above criterion.
2) Explored and upgraded to compliant reserve engineering status.
3) Marketed for sale or co-venture retaining value to ARMI by way of overriding royalties and retained interest in production.

HISTORICAL

Aurum Resource and Asset Management, Inc., formerly World Investments of Mexico, Inc. ("The Company") was incorporated in the State of Nevada on October 19, 1999 as International Sports Marketing Group, Inc. We changed our name to Cal Alta Auto Glass, Inc. in June 2005. On March 16, 2012 we entered into a Share Exchange Agreement with the shareholders of World Investments of Mexico, Inc. ("WIM"), a Nevada corporation. This agreement provided for the shareholders of WIM to receive 60 million common shares of the Company. Effective July 17, 2014 our name was changed to Aurum Resource and Asset Management, Inc.

CURRENT DEVELOPMENTS

ARMI has acquired its first alluvial gold project, which perfectly meets the criterion to execute and implement its overall business strategy. The deposit is low cost, advantageously located to services and infrastructure, helping ensure the company can produce gold at less than $600 per ounce cost. ARMI has assembled a seasoned team of professional management and top-notched mineral consultants to ensure success. ARMI has relationships with alluvial gold producers and gold buyers. ARMI is on its way to fully executing the entire business model and strategy, maximizing value for shareholders.

CURRENT DEVELOPMENTS cont'd

The Company is preparing to commence an exploration program on its first project in the gold sector. This inaugural project is located in Southwest Arizona, within a prolific, historical mining district. Past production in the area has amounted to in excess of 600,000 ounces, within close proximity to the Company's claims and holdings.

Aurum has completed a surface site inspection that has confirmed the potential for the claims to host a significant resource of gold bearing, placer and alluvial gravel from surface to an unknown depth. It will be the focus of the Phase 1 exploration program to evaluate these deposits, by excavating trenches, drilling surface holes and extensive sampling of the gold bearing gravels. The Company believes the claims contain enough pay gravels to host a commercial viable gold production operation. Once the Phase 1 program has been completed, the Company intends to commission a third-party engineering report compliant with the various regulatory agencies that will calculate the contained ounces, grade and tons of gold bearing material.

Aurum will, when the first set of results have been received and evaluated by Company geologists and engineers, report to stake holders the findings. The Company is also pleased to inform the public of our new website www.armigold.com where we will post press releases and highlights of the Company.
