NOTE 1 – NATURE OF OPERATIONS

Golden Star Enterprises Ltd., (formerly Terralene Fuels Corporation) (The "Company") was incorporated on September 13, 1993 in the State of Delaware as Power Direct, Inc. On January 31, 2000 the Company changed its name to 2U Online.com Inc. to reflect management's decision to shift the Company's focus from oil and gas exploration and development to internet-based business development. On October 8, 2003, the Company changed its name to Golden Spirit Minerals Ltd. to reflect management's decision to shift the Company's focus from internet-based business development to mineral exploration. On October 19, 2004, the Company changed its name to Golden Spirit Mining Ltd. On July 18, 2005, the Company changed its name to Golden Spirit Gaming Ltd. to reflect management's decision to develop an online gaming business. The launch of the updated goldenspiritpoker.com website featuring real cash games, in addition to play money games, occurred in January 2006. By agreement dated July 18, 2005 as amended September 20, 2005 (the "Amended Agreement"), the Company agreed to acquire 100% of the issued and outstanding common shares of 4 Of A Kind Enterprises ("4KE") doing business as EverythingAboutPoker.com for consideration of 1,388,889 post-reverse split restricted shares of the Company's common stock which were placed in trust pending finalization of the agreement. Effective June 30, 2006, the Company completed a 1 for 18 reverse stock split (refer Note 7) and changed its name to Golden Spirit Enterprises Ltd. to reflect the Company's plan to expand its operations to include the marketing of other products and venues not related to gaming including an agreement with Eneco Industries to participate in a series of Municipal Solid Waste (garbage) fueled Recycling and Resource Recovery Plants. In addition, the Company signed an agreement with Global Terralene Inc. for the acquisition of all assets pertaining to Terralene Fuels.(refer to Note 4). On November 29, 2011, the Company changed its name to Terralene Fuels Corporation. On May 14, 2013, the Company filed a form 15-12G, securities registration termination with the U.S. Securities and Exchange Commission. The Company continues to report and trade on the "OTC Pinks" under the same symbol GSPT. Effective July 15, 2013, the Company completed a 1 for 40 reverse stock split and changed its name to Golden Star Enterprises Ltd. under the same symbol "GSPT". On April 4, 2014, the Company has signed a Licensing Agreement with Vapor Spirit International Corporation (Vapor Spirit), a Nevada company in the alcohol vaporization product industry. The Company is currently in the business of designing, manufacturing and marketing high quality alcohol vaporizers which are self-branded using custom unique glass and metal designs. On March 27, 2015, the Company has signed a Licensing Agreement with North American Drones Enterprise Inc.(NA Drones), a Nevada company in the drones industry. The Company is also in the business of marketing and distributing drones to a wide range of potential users in various industries and business sectors.

Going Concern

The consolidated financial statements have been prepared on the basis of a going concern which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has incurred losses since inception of $18,872,020 and at March 31, 2015 had a working capital deficiency of $212,522. The recoverability of the carrying value of assets and the ability of the Company to continue as a going concern is dependent on raising additional capital and ultimately on generating future profitable operations. One of the Company's current businesses is selling novelty products known as Vapor Spirits. Vapor Spirit is in the business of designing, manufacturing and marketing high quality alcohol vaporizers which are self-branded using custom unique glass and metal designs. Vapor Spirit will allow drinkers to vaporize alcohol creating a truly new and unique consumption experience whereby the drinker will inhale the spirits rather than drink it. The Vapor Spirit products highlight flavor profiles, while removing unwanted impurities and calories from the alcohol and virtually gives the drinker no hangover. In addition, the Company has entered into a licensing agreement to sell a branded line of Drone products with developed packaging, accessories and promotional materials for the purposes of its sale to a wide range of potential users in various industry and business sectors

There can be no assurance that the Company will be able to raise the necessary funds when needed to finance its ongoing costs. Given the Company's limited operating history, lack of sales, and its operating losses, there can be no assurance that it will be able to achieve or maintain profitability. The Company intends to fund the marketing of its business with both equity financing and joint venture opportunities, although there are no assurances these opportunities will be successful. Accordingly, these factors raise substantial doubt regarding the ability of the Company to continue as a going concern.

NOTE 2- BASIS OF PRESENTATION (con't.)

The financial statements include the accounts of the Company and its subsidiaries, a 100% interest in PD Oil & Gas, Inc., and a 100% interest in Cardstakes.com Enterprises Ltd.

The foregoing unaudited interim consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions. Accordingly, these financial statements do not include all of the disclosures required by generally accepted accounting principles for complete financial statements. These unaudited interim consolidated financial statements as at March 31, 2015 should be read in conjunction with the unaudited consolidated financial statements for the period ended December 31, 2014 referenced in the financial information filed with the OTC Markets. In the opinion of management, the unaudited interim consolidated financial statements furnished herein include all adjustments, all of which are of a normal recurring nature, necessary for a fair statement of the results for the interim period presented.

The preparation of financial statements in accordance with generally accepted accounting principles requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities known to exist as of the date the financial statements are published, and the reported amounts of revenues and expenses during the reporting period. Uncertainties with respect to such estimates and assumptions are inherent in the preparation of the Company's financial statements; accordingly, it is possible that the actual results could differ from these estimates and assumptions that could have a material effect on the reported amounts of the Company's financial position and results of operations.

Operating results for the three months ended March 31, 2015 are not necessarily indicative of the results that may be expected for the year ending December 31, 2015.

Use of Estimates and Assumptions

Preparation of the Company's financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates. The significant areas requiring management's estimates and assumptions relate to determining the fair value of stock-based compensation, fair value of shares issued for services and the acquisitions and useful lives of long-lived assets.

Foreign Currency Translation

The financial statements are presented in United States dollars. In accordance with Statement of Financial Accounting Standards ("SFAS") No. 52, "Foreign Currency Translation", foreign denominated monetary assets and liabilities are translated to their United States dollar equivalents using foreign exchange rates that prevailed at the balance sheet date. Non-monetary assets and liabilities are translated at exchange rates prevailing at the transaction date. Revenue and expenses are translated at average rates of exchange during the year. Related translation adjustments are reported as a separate component of stockholders' equity, whereas gains or losses resulting from foreign currency transactions are included in results of operations.

Available For Sale Securities – Related Party

The Company holds marketable equity securities which are available-for-sale and as such, their carrying value is adjusted to market at the end of each reporting period. Unrealized gains and losses on these investments are recorded as a component of accumulated other comprehensive income (loss) and are recorded as a component of net income (loss) when realized. However, if there is a permanent decline in the market value of available-for-sale securities, this permanent market value adjustment is taken into income in the period.

Concentration of Credit Risk

Cash in bank accounts are at risk to the extent that they exceed U.S. Federal Deposit Insurance Corporation and Canadian Deposit Insurance Corporation insured amounts. To minimize risk, the Company places its cash with high credit quality institutions. All cash is deposited in one prominent Canadian financial institution.

NOTE 2- BASIS OF PRESENTATION (con't.)

Fair Value of Financial Instruments

The estimated fair value amounts have been determined by the Company, using available market information and appropriate valuation methodologies. The fair value of financial instruments classified as current assets or liabilities, including cash, accounts receivable, inventory ,available for sale securities, accounts payable, and amounts due to related parties approximate their carrying value due to the short-term maturity of the instruments.

Intangible Assets

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 350, "Intangibles-Goodwill and Other" requires that goodwill and intangible assets with indefinite useful lives no longer be amortized, but instead tested for impairment at least annually in accordance with the provisions of ASC 350. This standard also requires that intangible assets with definite useful lives be amortized over their respective estimated useful lives to their estimated residual values, and reviewed for impairment The Company's intangible assets consist of the acquisition of patents and other proprietary information of Terralene Fuels, a patented fuel alternative formulation which began in 2010 and was completed in February 2012. The Company determined that the intangibles have indefinite useful lives and will be reviewed annually for impairment. (see Note 4).

The Company's other intangible assets include:

(a) A Licensing Agreement with Vapor Spirit International Corporation (Vapor Spirit), a Nevada company in the alcohol vaporization product industry. The Company has been granted the licensing right to manufacture and market the entire Vapor Spirit product line worldwide and in exchange, the Company issued 40,000,000 restricted common shares of the Company's common stock to Vapor Spirit and/or its nominees valued at $1,200,000. The Company determined that the intangibles have an estimated useful life of 25 years and will be reviewed annually for impairment. Amortization will be recorded over the estimated useful life of the assets using the straight-line method for financial statement purposes. The Company commenced amortization when the economic benefits of the assets began to be consumed in June, 2014. Other intangibles are carried at acquisition cost less accumulated amortization. Amortization is provided over the estimated useful lives of the assets on straight line basis per annum. (see Note 4 and 11).

(b) A Licensing Agreement with North American Drones Enterprise Inc. (NA Drones), a Nevada company in the drones industry. The Company has been granted the licensing right to manufacture and market the entire NA Drones product line in North America and in exchange, the Company will issue 38,000,000 restricted common shares of the Company's common stock to NA Drones and/or its nominees valued at $1,520,000 less a related party portion of $677,400 being eliminated from the transaction for a net value of $842,600. The Company was also entitled to any revenues generated from the sale of drone products by NA Drones for the month of March, 2015. The Company determined that the intangibles have an estimated useful life of 25 years and will be reviewed annually for impairment. Amortization will be recorded over the estimated useful life of the assets using the straight-line method for financial statement purposes. The Company commenced amortization when the economic benefits of the assets began to be consumed in March, 2015. Other intangibles are carried at acquisition cost less accumulated amortization. Amortization is provided over the estimated useful lives of the assets on straight line basis per annum. (see Note 4).

Income Taxes

The Company follows the liability method of accounting for income taxes. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax balances. Deferred tax assets and liabilities are measured using enacted or substantially enacted tax rates expected to apply to the taxable income in the years in which those differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the date of enactment or substantive enactment. A valuation allowance is provided for deferred tax assets if it is more likely than not that the Company will not realize the future benefit, or if the future deductibility is uncertain.

Loss per Common Share

Basic loss per share is computed by dividing net loss available to common shareholders by the weighted average number of outstanding common shares during the period. Diluted loss per share gives effect to all dilutive potential common shares outstanding during the period including stock options, using the treasury method. Dilutive loss per share excludes all potential common shares if their effect is anti-dilutive.

NOTE 2- BASIS OF PRESENTATION (con't.)

Inventory
Inventories consist of merchandise held for sale in the ordinary course of business, including cost of freight and other miscellaneous acquisition costs, and are stated at the lower of cost, or market determined on the first-in-first-out basis. The Company records a write-down for inventories, which have become obsolete or are in excess of anticipated demand or net realizable value. The Company performs a detailed review of inventory each period that considers multiple factors including demand forecasts, market conditions, product life cycle status, product development plans and current sales levels. If future demand or market conditions for the Company's products are less favourable than forecasted or if unforeseen changes negatively affect the utility of the Company's inventory, it may be required to record additional write-downs, which would negatively affect gross margins in the period when the write-downs are recorded. If actual market conditions are more favorable, the Company may have higher gross margins when products incorporating inventory that were previously written down are sold.

Revenue Recognition
Sales are recognized upon purchase by customers at our product facility. All sales at our product facility are final, allowing for no sales returns. As at March 31, 2015, $16,804 (2014- $Nil) is in accounts receivable from the sale of drones products, received in May, 2015.

Recent Accounting Pronouncements
On June 10, 2014, the Financial Accounting Standards Board ("FASB") issued update ASU 2014-10, Development Stage Entities (Topic 915). Amongst other things, the amendments in this update removed the definition of development stage entity from Topic 915, thereby removing the distinction between development stage entities and other reporting entities from US GAAP. In addition, the amendments eliminate the requirements for development stage entities to (1) present inception-to-date information on the statements of income, cash flows and shareholders' equity, (2) label the financial statements as those of a development stage entity; (3) disclose a description of the development stage activities in which the entity is engaged and (4) disclose in the first year in which the entity is no longer a development stage entity that in prior years it had been in the development stage. The amendments are effective for annual reporting periods beginning after December 31, 2014 and interim reporting periods beginning after December 15, 2015, however entities are permitted to early adopt for any annual or interim reporting period for which the financial statements have yet to be issued. The Company has elected to early adopt these amendments and accordingly have not labeled the financial statements as those of a development stage entity and have not presented inception-to-date information on the respective financial statements.

In August 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Updates (ASU) 2014-15 requiring an entity's management to evaluate whether there are conditions or events, considered in aggregate, that raise substantial doubt about entity's ability to continue as a going concern within one year after the date that the financial statements are issued (or within one year after the date that the financial statements are available to be issued when applicable). The amendments in this Update are effective for the annual period ending after December 15, 2016, and for annual periods and interim periods thereafter. Early application is permitted. The Company has not elected to early adopt this pronouncement.

Vapor Spirit is in the business of designing, manufacturing and marketing high quality alcohol vaporizers which are self-branded using custom unique glass and metal designs. Vapor Spirit will allow drinkers to vaporize alcohol creating a truly new and unique consumption experience whereby the drinker will inhale the spirits rather than drink it. The Vapor Spirit products highlight flavor profiles, while removing unwanted impurities and calories from the alcohol and virtually gives the drinker no hangover. The Company determined that the intangibles have an estimated useful life of 25 years and will be reviewed annually for impairment. Amortization will be recorded over the estimated useful life of the assets using the straight-line method for financial statement purposes. The Company commenced amortization when the economic benefits of the assets began to be consumed in June, 2014. Amortization will be recorded over the estimated useful life of the assets using the straight-line method for financial statement purposes.
