2013 Annual Report

COMMENCEMENT BANK

A local bank. A world of possibilities.

We are here to stay

We are invested in this community, and we're more than just your bank on the corner; we're your financial partners, your neighbors, and your friends.

Dear Shareholder,

2013 marked yet another very profitable year for Commencement Bank. Your Bank has had record growth with assets reaching $171 million, total loans at $128 million, and total deposits at $147 million. We have successfully managed through the majority of problem assets we had over the past couple of years as a result of the downturn in the economy and are pleased to report we now have less than 1% of assets that are classified as non-performing. This is very low compared to our peers and throughout the industry.

In the most recent stock valuation professionally conducted by L.C. Financial Advisors, LLC on December 31, 2013 our share price was $10.65 which was a $1.65 increase from December 31, 2012. I continue to be pleased with the progressive and stable growth reflected in our stock. For more discussion regarding the financial performance of your Bank, please join us for the 2013 annual meeting. The meeting will again be held at the Hotel Murano in Tacoma, Washington on April 22, 2014 at 2 p.m.

Not only has the Bank seen growth and improvement in performance, we continue to see improvement in our local economy. This past year was our first full year in our new building and we feel this move has solidified our commitment to our community. Not only has our rate of growth allowed us to add highly skilled and qualified staff members, it has opened greater opportunity for personal and corporate volunteerism. In 2013, we had our first all employee community event at the Emergency Food Network's farm where many of us spent a beautiful Saturday tending to crops that will feed those in need. We have also collaborated with our strategic business partners to provide lunch and learns to bank customers and non-customers alike. Additionally, we had our first Customer Appreciation BBQ in July. We are proud to help local businesses and support the community we live in.

We are excited about 2014 and are anxious to share our many positive initiatives as we roll each out. I would like to extend to you our sincere thanks for the support that you have provided us. We look forward to continuing to serve you and our community.

Sincerely,

H. R. Russell
President/Chief Executive Officer

Responsible banking to support growth

At Commencement Bank, you are working directly with the people who make the decisions. We use our expertise to increase your financial strength, and we are committed to continually evaluating our products and services to ensure they meet your needs. You'll benefit from highly competitive products, services, and technology, but our real specialty is strong relationships. We care about your success, because we want to be more than just your bank; we want to be your partner.

Senior Management
Hal Russell — President/Chief Executive Officer. Jennifer Nino — EVP/Chief Financial Officer
Mary Ann Haglund — EVP/Chief Operations Officer. John Manolides — EVP/Chief Credit Officer

Lending and Cash Management

Top Row- Jazarae Augustin - Loan Support Specialist. Rebecca Williamson - Executive Assistant. Grayson Mills - AVP/Commercial Loan Officer. Pat Lewis - SVP/Commercial Loan Officer. Jami Block - VP/Cash Management Officer. Shelly Campos - Credit Analyst.
Bottom Row- Molly Croft - AVP/Cash Management Officer. Tim Boyle - VP/Commercial Loan Officer. Joy Johnson - SVP/Commercial Loan Officer. Terri Scott - SVP/Private Banking Manager. Crista McHugh - Loan Support Specialist

Operations

Top Row- Kay Parrish - Administrative Resource Officer. Dawn Zabala - AVP/Loan Operations. Galen Annest - Marketing Coordinater. Jerald Kennedy - VP/Information Technology Officer.
Bottom Row- Tricia Ott - AVP/Operations Officer. Heather Fancher - Accounting/Operations Support Specialist. Toni Anderton - Cash Management Officer.

Branch

Christina Kyle - Personal Banker. Juliet Coulter - Assistant Branch Manager. Marv Sandberg - VP/Branch Manager. Kim Vidovic - Personal Banking Officer

Our people, our community

As a local bank, our success is dependent upon the success of our community. We take pride in participating in community events, and all Commencement Bank employees are encouraged to volunteer with local organizations. Through these efforts, we have supported 65 different organizations in the past year through either direct donations or volunteerism.

We represent organizations that focus on improving quality of life including Go Red for Women, which works to fight heart disease.

We support our friends and neighbors by participating in events like the Epilepsy Walk.

We promote positive practices, such as Walk to Work day.

We sponsor events that support local nonprofits such as Tacoma Lutheran Retirement Foundation.

Because we live here

When we designed our building space, we realized that our boardroom area would frequently be vacant. Upon moving in, we volunteered this space to local nonprofits for their meetings. In 2013, we expanded the use of this space by creating a classroom for learning. We believe education is a key component to success, which prompted sponsoring free quarterly lunch and learns for local businesses.

We turn our boardroom, into a classroom.

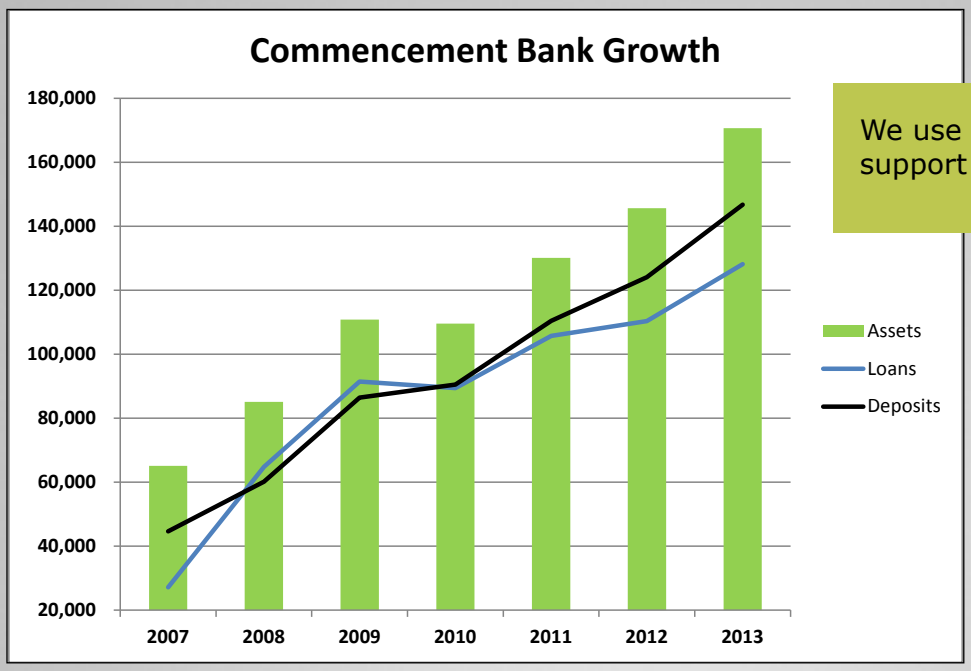

We make a difference here

Our Bank has grown significantly over the past seven years. We have almost doubled our staff since we opened our doors. We are proud of our financial accomplishments but also recognize that this allows us to give back to our community in a bigger way. In the summer of 2013, we had our first all staff community project. We volunteered to weed and till the fields at Mother Earth Farm, which provides fresh produce to the Emergency Food Network (EFN). EFN then distributes this fresh produce to local food banks.

We use our financial growth to support organic growth.

Independent Auditors' Report

Board of Directors
Commencement Bank
Tacoma, Washington

Report on the Financial Statements

We have audited the accompanying financial statements of Commencement Bank, which are comprised of the balance sheets as of December 31, 2013 and 2012, and the related statements of comprehensive income, shareholders' equity and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Commencement Bank as of December 31, 2013 and 2012, and the results of its operations and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Commencement Bank
December 31, 2013 and 2012

Note 1 - Nature of Operations and Summary of Significant Accounting Policies

Nature of Operations

Commencement Bank (the Bank), opened December 11, 2006, and operates one branch in Tacoma, Washington. The Bank provides loan and deposit services to customers, who are predominately small and midsized businesses and individuals in western Washington.

Financial Statement Presentation

Preparation of financial statements in conformity with accounting principles generally accepted in the United States of America and practices within the banking industry requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities, as of the date of the balance sheet, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for credit losses and the valuation of deferred tax assets. All dollar amounts are stated in thousands.

Subsequent Events

Management evaluates events occurring subsequent to the balance sheet date, through the date the financial statements are eligible to be issued, to determine whether the events require recognition or disclosure in the financial statements. If a subsequent event evidences conditions existing at the balance sheet date, the effects are recognized in the financial statements (recognized subsequent event). If a subsequent event evidences conditions arising after the balance sheet date, the effects are not recognized in the financial statements but rather disclosed in the notes to the financial statements (non-recognized subsequent events). The effects of subsequent events are only recognized if material, or disclosed if the financial statements would otherwise be misleading.

With respect to the December 31, 2013 financial statements, Management has considered subsequent events though March 17, 2014, which is the date the financial statements were available to be issued.

Securities Available for Sale

Securities available for sale consist of debt securities that the Bank intends to hold for an indefinite period but not necessarily to maturity. Such securities may be sold to implement the Bank's asset and liability management strategies and in response to changes in interest rates and similar factors. Securities available for sale are reported at fair value. Unrealized gains and losses, net of the related deferred tax effect, are reported as a net amount in a separate component of shareholders' equity entitled "accumulated other comprehensive income." Realized gains and losses on securities available for sale, determined using the specific-identification method, are included in earnings. Amortization of premiums and accretion of discounts are recognized in interest income over the period to maturity. For mortgage-backed securities, actual maturity may differ from contractual maturity due to principal payments and amortization of premiums and accretion of discounts may vary due to prepayment speed assumptions.

Note 1 - Nature of Operations and Summary of Significant Accounting Policies (continued)

Securities Available for Sale (continued)

Management evaluates securities for other-than-temporary impairment ("OTTI") on at least a quarterly basis, and more frequently when economic or market conditions warrant such an evaluation. For securities in an unrealized loss position, management considers the extent and duration of the unrealized loss, and the financial condition and near-term prospects of the issuer. Management also assesses whether it intends to sell, or it is more likely than not that it will be required to sell, a security in an unrealized loss position before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the entire difference between amortized cost and fair value is recognized as an impairment charge to earnings. For debt securities that do not meet the aforementioned criteria, the amount of impairment is split into two components as follows: 1) OTTI related to credit loss, which is recognized as an impairment charge to earnings, and 2) OTTI related to other factors, which is recognized in other comprehensive income. The credit loss is defined as the difference between the present value of the cash flows expected to be collected and the amortized cost basis. For equity securities, the entire amount of impairment is recognized through earnings.

Federal Home Loan Bank of Seattle Stock

The Bank, as a member of the Federal Home Loan Bank of Seattle (FHLB), is required to maintain an investment in capital stock of the FHLB in an amount equal to the greater of 1 percent of its outstanding home loans or 4.5 percent of advances from the FHLB. The recorded amount of the FHLB stock equals its fair value because the shares can be redeemed only by the FHLB at the $100 per share par value**.** The Company views its investment in the FHLB stock as a long-term investment. Accordingly, when evaluating for impairment, the value is determined based on the ultimate recovery of the par value rather than recognizing temporary declines in value. The determination of whether a decline affects the ultimate recovery is influenced by criteria such as: 1) the significance of the decline in net assets of the FHLB as compared to the capital stock amount and length of time a decline has persisted; 2) impact of legislative and regulatory changes on the FHLB and 3) the liquidity position of the FHLB.

Federal Reserve Bank of San Francisco Stock

The Bank, as a member of the Federal Reserve Bank of San Francisco (FRB), is required to subscribe to Federal Reserve Stock in an amount equivalent to 6 percent of its capital and surplus. Although the par value of the stock is $100 per share, banks pay only $50 per share at the time of purchase, with the understanding that the other half of the subscription amount is subject to call at any time. The recorded amount of the FRB stock equals its fair value because the shares can be redeemed only by the FRB at the par value**.**

Loans Receivable

Loans receivable that management has the intent and ability to hold for the foreseeable future or until maturity or payoff are reported at their outstanding principal balances and adjusted for any charge-offs, the allowance for credit losses, any deferred fees or costs on originated loans, and unamortized premiums or discounts on purchased loans. Loan fees and certain direct loan origination costs are deferred, and the net fee or cost is recognized as an adjustment to interest income.

Because some loans may not be repaid in full, an allowance for credit losses is recorded. An allowance for credit losses is a valuation allowance for probable incurred credit losses. The allowance for credit losses is increased by a provision for credit losses charged to expense and decreased by charge-offs (net of recoveries). The allowance is based on ongoing, quarterly assessments of the probable and estimable losses inherent in the loan portfolio. The Bank's methodology for assessing the appropriateness of the allowance consists of several key elements, which include the formula allowance and specific allowances.

Note 1 - Nature of Operations and Summary of Significant Accounting Policies (continued)

Loans Receivable (continued)

Troubled debt restructurings are loans for which concessions in terms have been made as a result of the borrower experiencing financial difficulty. Generally, concessions granted to customers include lower interest rates and modification of the payment stream to lower or defer payments. Interest on troubled debt restructurings is accrued under the new terms if the loans are performing and full collection of principal and interest is expected. However, interest accruals are discontinued on troubled debt restructurings that meet the Bank's nonaccrual criteria.

Interest income on loans is accrued over the term of the loans based upon the principal outstanding. The accrual of interest on loans is discontinued when, in management's opinion, the borrower may be unable to meet payments as they become due. Past due status is based on contractual terms of loans. When interest accrual is discontinued, all unpaid accrued interest is reversed. Interest income is subsequently recognized only to the extent that cash payments are received until, in management's judgment, the borrower has the ability to make contractual interest and principal payments, in which case the loan is returned to accrual status.

Generally, loans are charged off in whole or in part on a loan-by-loan basis after they become significantly past due and based upon management's review of the collectability of all or a portion of the loan unless the loan is in the process of restructuring. Charge off amounts are determined based upon the carrying amount of loans and the amount estimated to be collectible as determined by analyses of expected future cash flows and liquidation of loan collateral.

Allowance for Credit Losses

The allowance for credit losses is a valuation allowance for probable incurred credit losses and is established as losses are estimated to have occurred through a provision for loan losses charged to earnings. Loan losses are charged against the allowance when management believes the uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance. The allowance for credit losses is evaluated on a regular basis by management and is based upon management's periodic review of the collectibility of the loans in light of historical experience, the nature and volume of the loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral and prevailing economic conditions. This evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available.

The allowance consists of specific, general and unallocated components. The specific component relates to loans that are classified as doubtful, substandard or special mention. For such loans that are also classified as impaired, an allowance is established when the discounted cash flows (or collateral value or observable market price) of the impaired loan is lower than the carrying value of that loan. Impaired loans are all specifically identified loans for which it is probable that the Bank will not collect all amounts due according to the contractual terms of the loan agreement. The general component covers non-classified loans and is based on historical loss experience adjusted for qualitative factors. An unallocated component is maintained to cover uncertainties that could affect management's estimate of probable losses. The unallocated component of the allowance reflects the margin of imprecision inherent in the underlying assumptions used in the methodologies for estimating specific and general losses in the portfolio.

Note 1 - Nature of Operations and Summary of Significant Accounting Policies (continued)

Allowance for Credit Losses (continued)

The formula portion of the general credit loss allowance is established by applying a loss percentage factor to the different loan types. The allowances are provided based on management's continuing evaluation of the pertinent factors underlying the quality of the loan portfolio, including changes in the size and composition of the loan portfolio, actual loan loss experience, current economic conditions, geographic concentrations, seasoning of the loan portfolio, specific industry conditions, and the duration of the current business cycle. The recovery of the carrying value of loans is susceptible to future market conditions beyond the Bank's control, which may result in losses or recoveries differing from those provided. Specific allowances are established for loans evaluated for impairment in accordance with guidance which requires an allowance to be established as a component of the allowance for credit losses when it is probable all amounts due will not be collected pursuant to the contractual terms of the loan and the recorded investment in the loan exceeds its fair value. Fair value is measured using either the present value of expected future cash flows discounted at the loan's effective interest rate, the observable market price of the loan, or the fair value of the collateral, if the loan is collateral dependent. All loans subject to evaluation and considered impaired are included in nonperforming assets. Smaller balances are excluded from this analysis.

A loan is considered impaired when, based on current information and events, it is probable that the Bank will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement. Factors considered by management in determining impairment include payment status, collateral value, and the probability of collecting scheduled principal and interest payments when due. Loans that experience insignificant payment delays and payment shortfalls generally are not classified as impaired. Management determines that significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including the length of the delay, the reasons for the delay, the borrower's prior payment record, and the amount of the shortfall in relation to the principal and interest owed. Impairment is measured on a loan by loan basis for loans by either the present value of expected future cash flows discounted at the loan's effective interest rate, the loan's obtainable market price, or the fair value of the collateral if the loan is collateral dependent.

Large groups of smaller balance homogenous loans are collectively evaluated for impairment. Accordingly, the Bank does not separately identify individual consumer and residential loans for impairment disclosures.

The general component relates to non-impaired loans, and is based on historical loss experience adjusted for the effects of qualitative factors that are likely to cause estimated credit losses as of the evaluation date to differ from the portfolio's historical loss experience. Qualitative factors include the following: Economic conditions; industry conditions; changes in lending policies and procedures; trends in the volume and terms of loans; the experience, ability and depth of lending staff; levels and trends in delinquencies; levels and trends in charge-off and recovery activity; levels and trends of loan quality as determined by an internal loan grading system; portfolio concentrations.

On a quarterly basis, management estimates the allowance balance required using the criteria identified above in relation to the relevant risks for each of the Bank's major loan segments. For construction, land and land development loans, major risk factors include demand levels for residential and commercial development, and real estate prices. For mortgage loans secured by residential real estate, major risk factors include unemployment levels and real estate prices. For mortgage loans secured by commercial real estate, major risk factors include demand levels for products and services, rental rates and real estate prices. For commercial and industrial loans, major risk factors include demand for products and services, and operating cash flows. For consumer and other loans, the major risk factor is unemployment levels.

Commencement Bank
December 31, 2013 and 2012

Note 1 - Nature of Operations and Summary of Significant Accounting Policies (continued)

Allowance for Credit Losses (continued)

The quality of the Bank's loan portfolio is assessed as a function of the levels of past due loans and impaired loans, and internal credit quality ratings which are updated quarterly by management. The ratings on the Bank's internal credit scale are broadly grouped into the categories "non-classified" and "classified." Non-classified loans are those loans with minimal identified credit risk, as well as loans with potential credit weaknesses which deserve management's attention but for which full collection of contractual principal and interest is not significantly at risk. Classified loans are those loans that have well-defined weakness that put full collection of contractual principal and interest at risk, and classified loans for which it is probable that the Bank will not collect all contractual principal or interest are also considered impaired. The credit quality ratings are an important part of the Bank's overall credit risk management process and are considered in the determination of the allowance for credit losses.

Determination of the allowance is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available. In addition, various regulatory agencies, as an integral part of their examination process, periodically review the Bank's allowance. Such agencies may require the Bank to recognize additional losses based on their judgments about information available to them at the time of their examination.

Premises and Equipment

Premises and equipment are stated at cost, less accumulated depreciation, which is computed on the straight-line method over the estimated useful lives of the assets. Leasehold improvements are amortized over the term of the lease or the estimated useful life of the improvement, whichever is less. Asset lives range from three to ten years. Gains or losses on dispositions are reflected in earnings.

The assets are reviewed for impairment when events indicate their carrying value may not be recoverable. If management determines impairment exists, the asset is reduced with an offsetting charge to expense.

Deferred Rent and Lease Incentives

Rental payments under operating leases for the Bank are charged to expense on the straight-line basis, after consideration of rent holidays, step-rent provisions and escalation clauses.

Income Taxes

Deferred tax assets and liabilities result from differences between the financial statement carrying amounts and the tax bases of assets and liabilities, and are reflected at currently enacted income tax rates applicable to the period in which the deferred tax assets or liabilities are expected to be realized or settled. The deferred tax provision represents the difference between the net deferred tax asset and liability at the beginning and end of the year. Deferred tax assets are reduced by a valuation allowance, when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. As changes in tax laws or rates are enacted, deferred tax assets and liabilities are adjusted through the provision for income taxes.

Note 1 - Nature of Operations and Summary of Significant Accounting Policies (continued)

Income Taxes (continued)

A tax position is recognized as a benefit only if it is "more likely than not" that the tax position would be sustained in a tax examination, with the presumption that a tax examination will occur. The amount recognized is the largest amount of tax benefit that is greater than 50% likely to be realized on examination. For tax positions not meeting the "more likely than not" test, no tax benefit is recorded.

The Bank is no longer subject to examination by taxing authorities for years before 2010.

Cash Equivalents and Cash Flows

The Bank considers all amounts included in the balance sheet caption "Cash and due from banks," interest-bearing deposits in other financial institutions and federal funds sold to be cash equivalents. Cash flows from loans, deposits and short-term borrowings are reported net. At times, cash balances on deposit in other financial institutions exceed FDIC insurance limits; however, the Bank has not experienced any losses due to these concentrations.

Advertising

The Bank expenses advertising costs as incurred.

Stock-Based Compensation

The Bank has a stock-based compensation option plan and stock warrants, which are described more fully in Note 11. The Bank accounts for the stock option plan under the recognition and measurement principles as defined by guidance, which requires the cash flows related to the tax benefits resulting from tax deductions in excess of compensation cost recognized for those options (excess tax benefits) to be classified as financing cash flows. The Bank did not have any excess tax benefits resulting from disqualifying dispositions of shares acquired upon exercise of incentive stock options for the years ended December 31, 2013 and 2012. For the years ended December 31, 2013 and 2012, the Bank recognized stock-based compensation expense of $18 and $18, respectively.

At December 31, 2013, stock-based compensation expense related to unvested stock options granted aggregated approximately $69 and is expected to be recognized as follows:

2014	$20
2015	19
2016	15
2017	10
2018	5
Total	**$69**

Comprehensive Income

Components of comprehensive income are net income and all other non-owner changes in equity. Other comprehensive income consists of unrealized holding gains and losses on available for sale securities.

Note 1 - Nature of Operations and Summary of Significant Accounting Policies (continued)

Comprehensive Income (continued)

In 2012, the Bank adopted new accounting guidance that requires comprehensive income to be disclosed in a single, continuous statement of comprehensive income, or in two separate but consecutive statements of income and comprehensive income. Prior to adopting the new guidance, the Bank disclosed comprehensive income in the statement of shareholders' equity.

Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants, excluding transaction costs. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability. An orderly transaction is a transaction that assumes exposure to the market for a period prior to the measurement date to allow for marketing activities that are usual and customary for transactions involving such assets and liabilities; it is not a forced transaction. Market participants are buyers and sellers that are (i) independent, (ii) knowledgeable, (iii) able to transact and (iv) willing to transact.

When measuring fair value, entities should maximize the use of observable inputs and minimize the use of unobservable inputs. The following describes the three levels of inputs that may be used to measure fair value:

- *Level 1 Inputs* - Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

- *Level 2 Inputs*— Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

- *Level 3 Inputs* - Valuations for assets and liabilities that are derived from other valuation methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer, or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities.

Commencement Bank
December 31, 2013 and 2012

Note 2 - Securities

Debt securities have been classified according to management's intent. The amortized cost of the Bank's securities and their approximate fair value are as follows:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
December 31, 2013				
Mortgage-backed securities	$2,651	$16	$- -	$2,667
US Treasury	996	- -	(22)	974
US Agency	986	- -	(5)	981
Total	**$4,633**	**$16**	**($27)**	**$4,622**
December 31, 2012				
Mortgage-backed securities	$5,615	$56	($14)	$5,657

The amortized cost and estimated fair value of debt securities by contractual maturity at December 31, 2013 are shown below. Expected maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations, with or without call or prepayment penalties.

	Amortized Cost	Fair Value
Due less than one year	$ - -	$ - -
Due after one year through five years	1,982	1,955
Due after five years through ten years	- -	- -
Due after ten years	- -	- -
Mortgage-backed securities	2,651	2,667
Total	**$4,633**	**$4,622**

The following tables present the gross unrealized losses and fair value of securities available for sale aggregated by the length of time the individual securities have been in a continuous unrealized loss position at December 31, 2013 and 2012:

	Less than 12 months		12 months or more	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
December 31, 2013				
US Treasury	$ 974	$ (22)	$ - -	$ (- -)
US Agency	981	(5)	- -	(- -)
December 31, 2012				
Mortgage-backed securities	$1,754	$ (5)	$916	$ (9)

Note 2 – Securities (continued)

The investment securities shown in the previous tables have fair values less than amortized cost and therefore contain unrealized losses. Management evaluates securities for other-than-temporary impairment at least on a quarterly basis, and more frequently when economic or market concerns warrant such evaluation. There are two and four investment securities with unrealized losses at December 31, 2013 and 2012, respectively. The Bank anticipates full recovery of amortized cost with respect to these securities at maturity or earlier in the event of a more favorable market interest rate environment.

There were no gross gains or losses realized on sales of securities in 2013 or 2012.

The fair value of pledged securities totaled $2,667 and $4,128 at December 31, 2013 and 2012, respectively.

Note 3 – Loans and Allowance for Credit Losses

Loans at December 31 consist of the following:

	2013	2012
Commercial	$46,889	$38,534
Real estate:		
Residential 1-4 family	10,078	10,551
Multi-Family	9,448	9,344
Commercial	59,713	45,269
Construction	1,355	6,146
Consumer	865	638
	128,348	**110,482**
Less net deferred loan origination fees	224	169
Loans, net of deferred fees	**$128,124**	**$110,313**

Transactions in the allowance for credit losses for the year ended December 31, 2013 are as follows:

	Year ended December 31, 2013			
	Real Estate	Commercial	Consumer	Total
Balance at beginning of period	$ 1,393	$ 655	$ 16	$ 2,064
Provision for loan losses	66	(197)	146	15
Charge-offs	(280)	(57)	(101)	(438)
Recoveries	-	91	-	91
Balance at end of period	**$ 1,179**	**$ 492**	**$ 61**	**$ 1,732**

Note 3 – Loans and Allowance for Credit Losses (continued)

Transactions in the allowance for credit losses for the year ended December 31, 2012 are as follows:

	Year ended December 31, 2012			
	Real Estate	Commercial	Consumer	Total
Balance at beginning of period	$ 1,422	$ 1,093	$ 9	$ 2,524
Provision for loan losses	439	(1,246)	7	(800)
Charge-offs	(468)	(58)	-	(526)
Recoveries	-	866	-	866
Balance at end of period	**$ 1,393**	**$ 655**	**$ 16**	**$ 2,064**

Components of the allowance for credit losses, and the related carrying amount of loans for which the allowance is determined, are as follows:

	December 31, 2013			
	Real Estate	Commercial	Consumer	Total
Allocation of Allowance to:				
Impaired loans – evaluated individually	$ -	$ -	$ -	$ -
Impaired loans – evaluated collectively	-	-	-	-
Total impaired loans	-	-	-	-
Unimpaired loams – evaluated collectively	1,179	492	61	1,732
	$ 1,179	**$ 492**	**$ 61**	**$ 1,732**

	December 31, 2013			
	Real Estate	Commercial	Consumer	Total
Recorded Investment In:				
Impaired loans – evaluated individually	$ 218	$ 80	$ -	$ 298
Impaired loans – evaluated collectively	-	-	-	-
Total impaired loans	218	80	-	298
Unimpaired loans – evaluated collectively	80,376	46,809	865	128,050
	$ 80,594	**$ 46,889**	**$ 865**	**$128,348**

Note 3 – Loans and Allowance for Credit Losses (continued)

	December 31, 2012			
	Real Estate	Commercial	Consumer	Total
Allocation of Allowance to:				
Impaired loans – evaluated individually	$ -	$ -	$ -	$ -
Impaired loans – evaluated collectively	-	-	-	-
Total impaired loans	-	-	-	-
Unimpaired loams – evaluated collectively	1,393	655	16	2,064

The Bank had no troubled debt restructurings outstanding as of December 31, 2013 and 2012.

Certain related parties of the Bank, principally directors and their associates were loan customers of the Bank in the ordinary course of business during the year ended December 31, 2013 and 2012. Loans outstanding at December 31, 2013 and 2012, to key officers and directors totaled $6,071 and $5,203, respectively. During the years ended December 31, 2013 and 2012, loan advances totaled $8,728 and $4,599 and principal payments totaled $7,860 and $4,226, respectively.

Commencement Bank
December 31, 2013 and 2012

Note 4 - Premises and Equipment

Components of premises and equipment at December 31 are as follows:

	2013	2012
Leasehold improvements	$ 687	$ 687
Furniture and equipment	592	637
	$1,279	**1,324**
Less accumulated depreciation and amortization	479	382
Premises and equipment, net	**$ 800**	**$ 942**

Note 5 - Deposits

The composition of deposits at December 31 is as follows:

	2013	2012
Demand deposits, non-interest-bearing	$ 20,660	$ 12,138
NOW and money market accounts	78,863	64,762
Savings deposits	903	528
Time certificates, $100,000 or more	33,510	36,452
Other time certificates	12,788	10,160
Total deposits	**$146,724**	**$124,040**

Scheduled maturities of time certificates of deposit for future years ending December 31 are as follows:

2014	$23,845
2015	9,755
2016	7,858
2017	1,659
2018	3,181
Total	**$46,298**

Certain related parties of the Bank, principally directors and their affiliates were deposit customers of the Bank in the ordinary course of business during year ended December 31, 2013, and 2012. Deposits from these customers at December 31, 2013 and 2012 totaled $4,620 and $3,110, respectively.

Note 6 – FHLB Borrowings

The Bank has long-term borrowings with the FHLB of Seattle with total credit on the lines equal to 20% of the Bank's total assets or $22,909, which is available dependent upon sufficient collateral and FHLB stock ownership. The Bank has borrowings of $3,200 and $2,000 as of December 31, 2013 and 2012, respectively. As of December 31, 2013 the maturity date related to these borrowings was April 2018 and they bear an interest rate of 0.88%. The Bank also has letters of credit outstanding for $3,000 and $0, which are used to pledge for public deposits as of December 31, 2013 and 2012, respectively.

Note 6 – FHLB Borrowings (continued)

The Bank has a blanket pledge of $69,785 in loans as collateral for these borrowings at December 31, 2013. In addition the Bank has pledged $22,669 of loans as collateral for borrowings with the Federal Reserve Bank. Available borrowings through this facility are approximately $14,586.

The Bank has agreements with commercial banks for lines of credit totaling $9,500 at December 2013 and $12,500 at December 2012, none of which was used at both December 31, 2013 and 2012.

Note 7 - Employee Benefits

The Bank has a 401(k) profit sharing plan covering substantially all employees. Contributions to the 401(k) profit sharing plan consist of matching contributions, which match 100% of the employees' contributions up to 3% and then match 50% of the following 2%. The Bank may also make profit sharing contributions which are at the discretion of its board of directors. There were $58 in contributions by the Bank to this plan for the year ended December 31, 2013 and $54 in contributions for the year ended December 31, 2012.

Note 8 - Income Taxes

Allocation of income taxes between current and deferred portions is as follows:

	2013	2012
Income Taxes		
Current benefit	$ (9)	$(110)
Deferred benefit	(593)	(60)
Total income taxes	**$(602)**	**$(170)**

The Bank has not provided for income taxes prior to 2012 as a result of the net losses incurred in 2006 through 2011.

Tax effects of temporary differences that give rise to significant portions of deferred tax assets and liabilities at December 31 are as follows:

	2013	2012
Deferred Tax Assets		
Allowance for credit losses	$ 285	$ 289
Stock option expense	25	25
Charitable contributions	42	24
Organizational costs	135	152
Capital loss	21	21
Operating loss carryforward	441	781
Writedowns on other real estate owned	17	- -
Unrealized loss on available for sale securities	3	- -
Total deferred tax assets	**969**	**1,292**
Deferred Tax Liabilities		
Cash basis accounting	67	100
Accumulated depreciation	21	50
Deferred income	85	61
Unrealized gain on available for sale securities	- -	14
Total deferred tax liabilities	**173**	**225**
Net deferred tax assets before valuation allowance	**796**	**1,067**
Valuation Allowance	**(21)**	**(897)**
Net deferred tax assets	**$ 775**	**$ 170**

Note 8 - Income Taxes (continued)

At December 31, 2013, the Bank has a net operating loss carryforward, totaling $1,308, which expires in 2027 through 2031 and may be applied against future taxable income. Realization of deferred tax assets associated with the net operating loss carryforward is dependent upon generating sufficient taxable income prior to their expiration. A valuation allowance to reflect management's estimate of the temporary deductible differences that may expire prior to their utilization has been recorded at December 31, 2013 and 2012.

Note 9 - Commitments and Contingencies

The Bank is party to financial instruments with off-balance-sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit. These instruments involve, to varying degrees, elements of credit risk in excess of the amount recognized on the accompanying balance sheet.

The Bank's exposure to credit loss in the event of nonperformance by the other party to the financial instruments for commitments to extend credit is represented by the contractual amount of those instruments. The Bank uses the same credit policies in making commitments and conditional obligations as it does for on-balance-sheet instruments. A summary of the Bank's commitments at December 31 is as follows:

	2013	2012
Commitments to extend credit	$30,752	$24,043

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Bank evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Bank upon extension of credit, is based on management's credit evaluation of the party. Collateral held varies, but may include accounts receivable, inventory, property and equipment, residential real estate and income-producing commercial properties.

At December 31, 2013, the Bank had an allowance for credit losses on unfunded commitments of $35 carried as a component of other liabilities.

Because of the nature of its activities, the Bank is subject to various pending and threatened legal actions which may arise in the ordinary course of business. In the opinion of management, liabilities arising from these claims, if any, will not have a material effect on the financial position of the Bank. Management has not been informed of any such claims at December 31, 2013.

The Bank has entered into an employment contract with its President, Chief Financial Officer, Chief Credit Officer and Chief Operations Officer which provide for contingent payments subject to future events.

In November, 2011, the Bank executed a lease for a new facility that it occupies beginning in March, 2012. The term of the lease is for 10 years, beginning March 1, 2012, with two options to extend the lease term for five years each. Rental expense of leased premises was $236 and $237 for the years ended December 31, 2013 and 2012, which is included in occupancy expense.

Commencement Bank
December 31, 2013 and 2012

Note 9 - Commitments and Contingencies (continued)

Minimum net rental commitments under noncancellable leases having an original or remaining term of one year or more for future years ending December 31 are as follows:

2014	$262
2015	273
2016	279
2017	286
2018	294
Thereafter	978
Total net rental commitments required	**$2,372**

Note 10 - Significant Concentrations of Credit Risk

Most of the Bank's business activity is with customers located in the state of Washington. Loans are generally limited, by federal and state banking regulations, to 20 percent of the Bank's shareholders' equity, excluding accumulated other comprehensive income plus allowance for loan and lease losses.

Note 11 - Stock Compensation Plans

Stock Warrants

In 2006, the Bank granted organizing shareholders 148,500 warrants to purchase the Bank's common stock, at $10 per share. Warrants are vested upon grant, have a ten-year contractual life and expire in 2016. No warrants have been exercised to date. The estimated remaining life is 2.92 years.

Employee Stock Options

Under the Bank's employee stock option plan, the Bank may grant both incentive and nonqualified options for up to 450,000 shares of its common stock to certain key employees, 90,000 of which may be granted as restricted stock. The exercise price of each option equals the fair market value of the Bank's stock on the date of grant, and an option's maximum term is eight years. Options vest ratably over five years. The Bank has 233,750 options available, of which 90,000 may be granted as restricted stock.

The fair value of each option grant is estimated on the date of grant, based on the Black-Scholes option pricing model and using the following weighted-average assumptions at December 31:

	2013	2012
Dividend yield	0.00%	0.00%
Expected life	5.5 years	5.5 years
Risk-free interest rate	1.37%	0.80%
Expected volatility	55.57%	54.32%

Commencement Bank
December 31, 2013 and 2012

Note 11 - Stock Compensation Plans (continued)

Employee Stock Options (continued)

There are no current plans to declare cash dividends in the near term; therefore, management assumed no dividend yield. The Bank elected to apply the simplified method prescribed by guidance to calculate the expected life of the options. The Bank utilized a five-year, risk-free yield rate for the interest rate utilized. The Bank used historical data to determine expected volatility. The weighted-average fair value of options granted during 2013 and 2012 was $4.78 and $3.46, respectively.

The Black-Scholes model used by the Bank to calculate option values and other currently accepted option valuation models was developed to estimate the fair value of freely tradable, fully transferable options without vesting restrictions, which significantly differ from the Bank's stock option awards. These models require highly subjective assumptions, including future stock price volatility and expected time to exercise, which greatly affect the calculated values.

A summary of the status of the Bank's stock option plans and stock warrants as of December 31, 2013, along with activities during the year are presented below:

	Shares	Weighted Exercise Price	Weighted-Average Grant Date Fair Value	Aggregate Intrinsic Value	Weighted-Average Contractual Life (Years)
Outstanding at beginning of year	360,950	$9.89	$6.30	$--	3.09
Options granted	10,000	9.47	4.78		
Options forfeited	(10,700)	7.46	2.82		
Outstanding at end of year	**360,250**	**$ 9.98**	**$6.37**	**$--**	**2.14**
Vested or expected to vest at end of year	**358,435**	**$ 9.98**	**$6.39**	**$--**	**2.12**
Exercisable at end of year	**340,650**	**$10.02**	**$6.50**	**$--**	**1.89**

Note 11 - Stock Compensation Plans (continued)

Employee Stock Options (continued)

A summary of the status of the Bank's stock option plans and stock warrants as of December 31, 2012, along with activities during the year are presented below:

	Shares	Weighted Exercise Price	Weighted-Average Grant Date Fair Value	Aggregate Intrinsic Value	Weighted-Average Contractual Life (Years)
Outstanding at beginning of year	351,250	$9.97	$6.37	$--	3.97
Options granted	11,000	7.10	3.46		
Options forfeited	(1,300)	8.62	2.86		
Outstanding at end of year	**360,950**	**$ 9.89**	**$6.30**	**$--**	**3.09**
Vested or expected to vest at end of year	**357,132**	**$ 9.91**	**$6.34**	**$--**	**3.06**
Exercisable at end of year	**338,850**	**$10.03**	**$6.51**	**$--**	**2.87**

No warrants were exercised during the years ended December 31, 2013 and 2012.

Note 12 - Regulatory Matters

The Bank is subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory -- and possibly additional discretionary -- actions by regulators that, if undertaken, could have a direct material effect on the Bank's financial statements. Under capital adequacy guidelines of the regulatory framework for prompt corrective action, the Bank must meet specific capital adequacy guidelines that involve quantitative measures of the Bank's assets, liabilities and certain off-balance-sheet items, as calculated under regulatory accounting practices. The Bank's capital classification is also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Bank to maintain minimum amounts and ratios (set forth in the table below) of Tier 1 capital (as defined in the regulations) to total average assets (as defined), and minimum ratios of Tier 1 and total capital (as defined) to risk-weighted assets (as defined).

As of December 31, 2013, the most recent notification from the Bank's regulator categorized the Bank as well-capitalized under the regulatory framework for prompt corrective action. To be categorized as well-capitalized, the Bank must maintain minimum total risk-based, Tier 1 risk-based and Tier 1 leverage ratios, as set forth in the table. There are no conditions or events since that notification that management believes have changed the Bank's category.

Note 12 - Regulatory Matters (continued)

The Bank's actual capital amounts and ratios are also presented in the table.

	Actual Amount	Ratio	Capital Adequacy Purposes Amount	Ratio	To be Well-Capitalized Under Prompt Corrective Action Provisions Amount	Ratio
December 31, 2013						
Tier 1 capital (to average assets)	$20,251	13.50%	$6,000	4.00%	$7,500	5.00%
Tier 1 capital (to risk-weighted assets)	20,251	15.96	5,074	4.00	7,611	6.00
Total capital (to risk-weighted assets)	21,839	17.22	10,148	8.00	12,685	10.00
December 31, 2012						
Tier 1 capital (to average assets)	$19,091	13.34%	$5,723	4.00%	$7,154	5.00%
Tier 1 capital (to risk-weighted assets)	19,091	16.52	4,623	4.00	6,935	6.00
Total capital (to risk-weighted assets)	20,544	17.78	9,246	8.00	11,558	10.00

Note 13 – Fair Value of Financial Instruments

The following is a description of the Bank's valuation methodologies for financial assets and liabilities recorded at fair value:

Securities Available for Sale – The fair values of securities available for sale are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1) or matrix pricing, which is a mathematical technique used widely in the industry to value debt securities without relying exclusively on quoted prices for specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2).

Collateral-Dependent Impaired Loans – The Bank does not record loans at fair value on a recurring basis. However, from time to time, fair value adjustments are recorded on these loans to reflect (1) partial write-downs that are based on the current appraised or market-quoted value of the underlying collateral or (2) the full charge-off of the loan carrying value. In some cases, the properties for which market quotes or appraised values have been obtained are located in areas where comparable sales data is limited, outdated, or unavailable. Fair value estimates for collateral-dependent impaired loans are obtained from real estate brokers or other third-party consultants (Level 3).

Note 13 – Fair Value of Financial Instruments (continued)

Other Real Estate Owned – The Bank does not record other real estate owned at fair value on a recurring basis. However, from time to time, fair value adjustments are recorded on these properties to reflect the current appraised value (less an estimate of cost to sell). In some cases, the properties for which appraised values have been obtained are located in areas where comparable sales data is limited, outdated, or unavailable. Fair value estimates for real estate held for sale are obtained from independent appraisers (Level 3).

The following table provides the hierarchy and fair value for each major category of assets and liabilities measured at fair value:

	December 31, 2013			
	Fair Value Measurements Using			
	Level 1	Level 2	Level 3	Total
Assets and liabilities measured at fair value on a recurring basis				
Assets:				
Securities available for sale	$ -	$4,622	$ -	$4,622
Assets measured at fair value on a non-recurring basis				
Collateral dependent impaired loans	-	-	298	298
Other real estate owned	-	-	700	700

	December 31, 2012			
	Fair Value Measurements Using			
	Level 1	Level 2	Level 3	Total
Assets and liabilities measured at fair value on a recurring basis				
Assets and liabilities measured at fair value on a recurring basis				
Assets:				
Securities available for sale	$ -	$5,657	$ -	$5,657
Assets measured at fair value on a non-recurring basis				
Collateral dependent impaired loans	-	-	3,362	3,362
Other real estate owned	-	-	3,904	3,904

As of December 31, 2013 and 2012, there were collateral dependent impaired loans totaling $298 and $3,362, respectively, with valuation allowances of $0 and $0, respectively, which are measured for impairment using the fair value of the collateral. At December 31, 2013, other real estate owned with a book value of $749 is carried at its fair value of $700. The valuation allowance of $49 has been recorded through earnings. At December 31, 2012, other real estate owned consisted of property with a cost value and fair value $3,904, respectively.

During 2013 and 2012, there were no changes or amounts in Level 3 assets or liabilities measured at fair value on a recurring basis.

Note 13 – Fair Value of Financial Instruments (continued)

The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

Cash and due from banks, interest-bearing deposits in banks, and federal funds sold

The carrying amount approximates fair value because of the short maturity of these investments.

Securities available for sale, Federal Home Loan Bank and Federal Reserve Bank stock

The fair values of marketable securities are based on quoted market prices or dealer quotes. If a quoted market price is not available, fair value is estimated using quoted market prices for similar securities. Federal Home Loan Bank and Federal Reserve Bank stock fair value is based on current redemption values.

Loans receivable

Fair values are estimated for portfolios of loans with similar financial characteristics. Loans are segregated by type such as real estate, commercial, consumer, credit card, and other. Each loan category is further segmented into fixed and adjustable rate interest terms. The fair values for fixed-rate loans are estimated by discounting the future cash flows using the current rates at which similar loans would be made to borrowers with similar credit ratings and for the same remaining maturities. For variable rate loans that reprice frequently and have no significant change in credit risk, fair values are based on carrying values.

Fair values for loans held for sale are based on estimated market prices. Fair values for impaired loans are estimated using discounted cash flow analyses or underlying collateral values, where applicable.

Cash surrender value of life insurance

The carrying amount of life insurance approximates its fair value.

Deposits

The fair value of demand deposits, savings accounts, and NOW and money market deposits is the amount payable on demand at the reporting date. The fair value of fixed-maturity time deposits is estimated using the rates currently offered for deposits of similar remaining maturities.

Federal Home Loan Bank advances and other borrowings

The fair values of the Bank's long-term debt are estimated using discounted cash flow analyses based on the Corporation's current incremental borrowing rates for similar types of borrowing arrangements.

Accrued interest

The carrying amounts of accrued interest approximate their fair values.

Note 13 – Fair Value of Financial Instruments (continued)

Off-balance-sheet instruments

Fair values of off-balance sheet lending commitments are based on fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the counterparties' credit standing. The fair value the fees at December 31, 2013 and 2012, were insignificant. See Note 9 for the notional amount of the commitments to extend credit.

The estimated fair values of the Bank's financial instruments as of December 31 are as follows:

	2013		2012	
	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value
Financial Assets:				
Cash and due from banks	$ 4,458	$ 4,458	$ 4,364	$ 4,364
Interest-bearing deposits	27,328	27,328	16,906	16,906
Federal funds sold	10	10	-	-
Securities available for sale	4,622	4,622	5,657	5,657
Federal Home Loan Bank stock	296	296	306	306
Federal Reserve Bank stock	602	602	538	538
Loans receivable	126,392	127,577	108,249	109,514
Cash surrender value of life insurance	4,076	4,076	4,004	4,004
Accrued interest receivable	348	348	383	383
Financial Liabilities:				
Deposits	$146,724	$146,932	$124,040	$124,248
FHLB Borrowings	3,200	3,118	2,000	2,006
Accrued interest payable	29	29	59	59

Mission Statement
and Core Values.

Commencement Bank is committed to providing premier service with a focus on traditional banking for businesses and individual clients. We assist with the financial success of our clients by providing innovative products, utilizing state of the art technology, and drawing on the extensive experience and expertise of our employees.

Core Values

Integrity | Respect | Dedication | Teamwork

COMMENCEMENT BANK

A local bank. A world of possibilities.
