In the event Lessee is unable to fulfill the required Work Commitment Expenditure within the above required work time frames, then the difference between the actual expenditures made and the required Work Commitment Expenditure may be paid to Owner in US dollars as the fulfillment of Lessee's obligation under this Section within 30 days of the delinquent date or this Agreement shall be immediately terminated, null and void and Lessee shall have no rights, titles or interests to this Agreement or the Property.

1. **Definitions.** The terms defined in the instrument to which this Exhibit is attached and made a part of shall have the same meanings in this Exhibit. The following definitions shall apply to this Exhibit.

1.1 **"Gold and Silver Production"** means the quantity of refined gold and/or silver outturned to Lessee's account by an independent third party refinery for gold and/or silver produced from the Property during a calendar month on either a provisional or final settlement basis.

1.2 **"Gross Value"** shall be determined on a calendar month basis and have the following meanings with respect to the following Metals:

1.2.1 Gold and Silver

- a) If Lessee sells unprocessed gold and/or silver ores or gold and/or silver concentrates or gold and/or silver dore produced from Metals, then Gross Value shall be the value of the gold and/or silver contained in the gold and/or silver concentrates, dore and ore determined by utilizing (1) the mine weights and assays for such gold and /or silver concentrates, dore, and ore; (2) a reasonable recovery rate for the refined gold and/or silver recoverable from such gold and/or silver concentrates, dore and ore (which shall be adjusted annually to reflect the actual recovery rate of refined metal from such gold and/or silver concentrates, dore and ore); and (3) the Monthly Average Gold and Silver Price for the month in which the gold and/or silver concentrates, dore, and ore were sold.
- b) If Lessee produces refined gold and/or silver (meeting the specifications of the London Bullion Market Association, and if the London Bullion Market Association no longer prescribes specifications, the specifications of such other association generally accepted and recognized in the mining industry) from Metals, and if Section 1.2.1 (a) above is not applicable, then for purposes of determining Gross Value, the refined gold and/or silver shall be deemed to have been sold at the Monthly Average Gold and/or Silver Price for the month in which it was refined. The Gross Value shall be determined by multiplying Gold and/or Silver Production during the month by the Monthly Average Gold and/or Silver Price.

1.2.1 All Other Metals

- a) If Lessee sells any concentrates, dore or ore of Metals other than gold or silver, then Gross Value shall be the value of such Metals determined by utilizing: (1) the mine weights and assays for such Metals; (2) a reasonable recovery rate for the Metals (which shall be adjusted annually to reflect the actual recovery rate of recovered or refined metal or product from such Metals); and (3) the monthly average price for the Metals or product of the Metals for the month in which the concentrates, dore or ore was sold. The

MJA

monthly average price shall be determined by reference to the market for such Metals or product which is recognized in the mining industry as authoritative and reflective of the market for such Metals or product.

- b) If Lessee produces refined or processed metals from Metals other than refined gold or refined silver, and if Section 1.2.3 (a) above is not applicable, then Gross Value shall be equal to the amount of the proceeds received by Lessee during the month from the sale of such refined or processed metals. Lessee shall have the right to sell such refined or processed metals to an affiliated party, provided that such sales shall be considered, solely for purposes of determining Gross Value, to have been sold at process and on terms no less favorable than those that would be obtained from an unaffiliated third party in similar quantities and under similar circumstances.

1.1 **"Metals"** means gold, silver, platinum, copper, lead and zinc.

1.2 **"Minerals"** means all other metals, minerals, elements, aggregate, rock, stone and stone materials, mineral compounds and geothermal resources.

1.3 **"In Cash"** means Net Smelter Return Royalty paid in full and delivered in US dollars to Owner.

1.4 **"In-Kind"** means Net Smelter Return Royalty paid in full and delivered in physical, refined bullion to Owner.

1.5 **"Monthly Average Gold Price"** means the average London Bullion Market Association Afternoon Gold Fix, calculated by dividing the sum of all such prices reported for the month by the number of days for which such prices were reported during that month. If the London Bullion Market Association Afternoon Gold Fix ceases to be published, all such references shall be replaced with references to prices of gold for immediate sale in another established market selected by the Parties, as such prices are published in Metals Week magazine and if Metals Week magazine no longer publishes such prices, the prices of such other association or entity generally accepted and recognized in the mining industry.

1.6 **"Monthly Average Silver Price"** means the average New York Silver Price as published daily by Handy & Harmon, calculated by dividing the sum of all such prices reported for the month by the number of days for which such prices were reported during the month. If the Handy & Harmon quotations cease to be published, all such references shall be replaced with references to prices of silver for immediate sale in another established market selected by the Parties as published in Metals Week magazine, and if Metals Week magazine no longer publishes such prices, the prices of such other association or entity generally accepted and recognized in the mining industry.

1.7 **"Net Smelter Returns"** means the Gross Value of all Metals less costs, charges and expenses paid or incurred by Lessee with respect to the refining and smelting of such Metals, without limitation:

1.7.1 Charges for smelting and refining (including sampling, assaying and penalty charges); and

1.7.2 Actual costs of transportation (including freight, insurance, security, transaction taxes, handling, port, demurrage, delay and forwarding expenses incurred by reason of or in the course of such transportation) of product from the Property to the smelter refinery, but in no event shall charges or costs of transportation of Metals from any mine on the Property to autoclave, concentrator, crusher, mill or plant which is not a smelter or refinery.

2. **Payment Procedures.** Payment of Net Smelter Returns Royalty may be made in Cash or In-Kind at the election of the Owner as follows:

1.1 **Accrual of Obligation.** Lessee's obligation to pay the Net Smelter Returns Royalty shall accrue upon the sale of unrefined Metals, dore, concentrates or ores products or, if refined metals are produced, upon the outturn of refined metals meeting the requirements of the specified published price to Lessee's account.

1.2 Futures or Forward Sales. Except as provided in Sections 1.2.1(a), 1.2.2(a) and 1.2.3 above (with respect to sales of unprocessed gold and silver and sales of Metals other than gold and silver), Gross Value shall be determined irrespective of any actual arrangements for the sale or other disposition of Metals by Lessee, specifically including but not limited to forward sales, futures trading or commodities options trading, and any other price hedging, price protection, and speculative arrangements that may involve the possible delivery of gold, silver or other metals.

2.3 Sampling and Commingling. All Metals for which a Net Smelter Returns Royalty is payable shall be measured, sampled and analyzed in accordance with the commingling plan approved in accordance with the Agreement to which this Exhibit is attached.

2.4 Monthly Calculations and Payments. Net Smelter Returns Royalties shall be determined on a calendar month basis. Net Smelter Returns Royalties shall be paid on or before the last business day of the calendar month immediately following the last day of the calendar month in which same accrued, but in any event Owner shall be paid no less frequently than when Lessee is paid. Metals and Minerals will be deemed to have been sold or otherwise disposed of at the time refined production from the Property is delivered, made available, or credited to Lessee by a mint or refiner. The price used for calculating the Net Smelter Royalty on Metals and Minerals shall be determined in accordance with Standard Practices and in accordance with this Agreement and Exhibit B.

1.2.1 Payment of Royalty in Cash. Unless the Owner elects to receive Net Smelter Return Royalties In-Kind, it shall be deemed to have elected to receive all Net Smelter Returns Royalties In Cash and all Net Smelter Returns Royalty payments shall be made by check payable to Owner and delivered to the address listed in this Agreement, or to such other address as Owner may direct in writing or by direct bank deposit to Owner account as Owner shall designate in writing.

1.2.2 Payment of Royalty In-Kind. Owner may elect to receive its Net Smelter Returns Royalties, either in whole or in part, In-Kind. The elections may be exercised once per year on a calendar year basis during the life of production from the Property. Notice of election to receive the following year's Net Smelter Returns Royalty for In-Kind payment shall be made in writing by Owner and delivered to Lessee on or before December 31 of each year. As of the Effective Date of this Agreement, Owner elects to receive its Net Smelter Returns Royalty on gold In-Kind. Net Smelter Returns Royalties on Metals other than gold and silver shall be payable In Cash.

If Owner elects to receive its Net Smelter Returns Royalty In-Kind, Owner shall open a bullion storage account at each refinery or mint designated by Lessee as a possible recipient of refined bullion in which Owner owns an interest. Owner shall be solely responsible for all costs and liabilities associated with maintenance of such account or accounts, and Lessee shall not be required to bear any additional expense with respect to such In-Kind payments.

2.5 Net Smelter Returns Royalties In-Kind Payment. Net Smelter Returns Royalties will be paid by the deposit of refined bullion into Owner's account. On or before the 25th day of each calendar month following a calendar month during which production and sale or other disposition occurred, Lessee shall deliver written instructions to the mint or refinery, with a copy to Owner, directing the mint or refinery to deliver refined bullion due to Owner in respect of the Net Smelter Returns Royalty, by crediting to Owner's account the number of ounces of refined bullion for which Net Smelter Returns Royalty is due; provided, however, that the words "other disposition" as used in this Agreement shall not include processing, milling, beneficiation. The number of ounces of refined bullion to be credited will be based upon Owner's share of the previous month's production and sale or other disposition as calculated pursuant to the commingling provisions.

(a) Net Smelter Returns Royalties payable In-Kind on silver or platinum group metals shall be converted to the gold equivalent of such silver or platinum group metals by using the average monthly spot prices for silver and platinum group metals.

(b) Title to refined bullion delivered to Owner under this Agreement shall pass to Owner at the time such bullion is credited to Owner at the mint or refinery. Owner agrees to hold harmless Lessee from any liability imposed as a result of the election of Owner to receive Net Smelter Returns Royalties In-Kind and from any losses incurred as a result of Owner trading and hedging activities. Owner assumes all responsibility for any shortages which occur as a result of Owner anticipation of credits to its account in advance of an actual deposit or credit to its account by a refiner or mint.

(c) When Net Smelter Returns Royalties are paid In-Kind, they will not reflect the costs deductible in calculating Net Smelter Returns under this Agreement. Within thirty (30) days of the receipt of a statement showing charges incurred by Lessee for transportation, smelting or other deductible costs, Owner shall remit to Lessee full payment for such charges. If Owner does not pay such charges when due, Lessee shall have the right, at its election, provided Owner does not dispute such charges, to deduct the gold equivalent of such charges from the ounces of gold bullion to be credited to Owner in the following month.

2.6 Statements. At the time of payment of the Net Smelter Royalty, Lessee shall provide with such payment a statement showing in reasonable detail the quantities and grades of refined gold, silver or other metals or dore, concentrates or ores produced and sold or deemed sold by Lessee in the preceding calendar month; the Monthly Average Gold Price and Monthly Average Silver Price, as applicable; costs and other deductions, and other pertinent information in reasonable detail to explain the calculation of the Net Smelter Returns Royalty payment with respect to such calendar month.

2.7 Inventories and Stockpiles. Lessee shall include in all monthly statements a description of the quantity and quality of any gold or silver dore that has been retained as inventory for more than ninety (90) days. Owner shall have thirty (30) calendar days after receipt of the statement to either: (a) elect that the dore be deemed sold, with Gross Value to be determined as provided in Sections 1.2.1(b) with respect to gold, and 1.2.2(b) with respect to silver, as of such thirtieth (30th) day utilizing the mine weights and assays for such dore and utilizing a reasonable recovery rate for refined metal and reasonable deemed charges for all deductions specified in Section 1.9 above, or (b) elect to wait until such time as Royalties otherwise would become payable pursuant to sections 1.2.1(b) and 1.2.2(b). The failure of Owner to respond within such time shall be deemed to be an election to use the methods described in Sections 1.2.1(b) and 1.2.2(b). No Net Smelter Returns Royalty shall be due with respect to stockpiles of ores or concentrates unless and until such ores or concentrates are actually sold.

1.1 Final Settlement. All Net Smelter Returns Royalty payments shall be considered final and in full satisfaction of Lessee's obligations with respect thereto, unless Owner gives Lessee written notice describing a specific objection to the calculation thereof within one year after receipt by Owner of the monthly statement provided for in Section 2.5. If Owner objects to a particular monthly statement it shall have the right, for a period of thirty (30) days after Lessee's receipt of such objection, upon reasonable notice and at a reasonable time, to have Lessee's accounts and records relating to the calculation of the Net Smelter Returns Royalty payment with respect to the calendar month in question audited by an independent certified public accountant. If such audit determines that there has been a deficiency or an excess in the payment made to Owner, such deficiency or excess shall be resolved by adjusting the next monthly Net Smelter Returns Royalty payment due Owner. Owner shall pay all costs of such audit unless a deficiency of five percent (5%) or more of the Net Smelter Returns Royalty due for the calendar month in question is determined to exist. Lessee shall pay the costs of such audit if a deficiency of five percent (5%) or more of the amount due for the calendar month in question is determined to exist. All books and records used by Lessee to calculate the Net Smelter Returns Royalties due hereunder shall be kept in accordance with generally accepted accounting principles.

2.9 Transfer or Encumbrance of Net Smelter Return Royalty. Subject to Section 22 of the Agreement to which this Exhibit B is attached, Owner may transfer or encumber all or any part of its right, title and interest in and to the NSR.

3. Royalty for Other Minerals

MJA

3.1 In the case of other Minerals, the beneficiated products thereof ("**Minerals**"), the Royalty for other Minerals shall be determined by multiplying (a) the gross amount of the particular other Mineral contained in the Monthly Production delivered to the Lessee during the preceding calendar month by (b) the average of the New York Commodities Exchange final daily spot prices reported for the preceding calendar month of the appropriate other Mineral, and subtracting from the product of Subsections 1(a) and 1(b) only the following if actually incurred: (i) charges imposed by the Lessee for smelting, refining or processing other Minerals contained in such production, but excluding any and all charges and costs related to Lessee's mills or other processing plants constructed for the purpose of milling or processing other Minerals, in whole or in part; (ii) penalty substance, assaying, and sampling charges imposed by the Lessee for smelting, refining, or processing other Minerals contained in such production, but excluding any and all charges and costs of or related to Lessee's mills or other processing plants constructed for the purpose of milling or processing other Minerals, in whole or in part; and (iii) charges and costs, if any, for transportation and insurance of other Minerals and the beneficiated products thereof from Lessee's final mill or other final processing plant to places where such other Minerals are smelted, refined and/or sold or otherwise disposed of. If for any reason the New York Commodities Exchange does not report spot pricing for a particular other Mineral, then the Parties shall mutually agree upon an appropriate pricing entity or mechanism that accurately reflects the market value of any such other Mineral.

3.2 In the event smelting, refining, or processing of other Minerals are carried out in custom toll facilities owned or controlled, in whole or in part, by Lessee, which facilities were not constructed solely for the purpose of milling or processing other Minerals from the Property, then charges, costs and penalties for such smelting, refining or processing shall mean the amount Lessee would have incurred if such smelting, refining or processing were carried out at facilities not owned or controlled by Lessee then offering comparable services for comparable products on prevailing terms, but in no event greater than actual costs incurred by Lessee with respect to such smelting and refining. In the event Lessee receives insurance proceeds for loss of production of other Minerals, Lessee shall pay to Owner the Royalty percentage of any such insurance proceeds which are received by Lessee for such loss of production.

4. Audit. Upon reasonable notice and at a reasonable time, the Owner shall have the right to audit and examine the Lessee's accounts and records relating to the calculation of the Net Smelter Returns royalty payments. If such audit determines that there has been a deficiency or an excess in the payment made to Owner, such deficiency or excess shall be resolved by adjusting the next monthly royalty payment due Owner. Owner shall pay all costs of such audit unless a deficiency of three percent (3%) or more of the royalty payment due for the calendar month in question is determined to exist. All books and records used by Lessee to calculate the royalty payments shall be kept in accordance with generally accepted accounting principles applicable to the mining industry.
