The accompanying notes are an integral part of these condensed interim consolidated financial statements.

1. Nature and Continuance of Operations and Ability to Continue as a Going Concern

Viscount Mining Corp. (the "Company") was incorporated under the British Columbia Business Corporations Act on October 26, 2011 and was classified as a Capital Pool Company as defined in Policy 2.4 of the TSX Venture Exchange ("TSXV").

On July 23, 2013, the Company completed a share exchange (the "Share Exchange") with Viscount Mining Resources Ltd. (formerly Viscount Mining Ltd.) ("Viscount") and all of the shareholders of Viscount, whereby the Company acquired all of the issued and outstanding common shares of Viscount and former Viscount's shareholders received equal number of common shares of the Company.

Concurrent with the Share Exchange, the Company changed its name to Viscount Mining Corp. and completed a consolidation of its common shares on the basis of one post-consolidation share for every two pre-consolidation shares, as approved by TSXV. All common shares and per share amounts have been restated to give retroactive effect to the share consolidation. For accounting purposes, the Share Exchange has been treated as a reverse takeover ("RTO"), whereby Viscount is considered the acquirer and the Company is considered the acquiree. The consolidated financial statements are a continuation of the financial statements of Viscount and references of the Company will mean the combined entity subsequent to the Share Exchange on July 23, 2013 and to Viscount prior to July 23, 2013 (Notes 8 and 11).

The Company had cash and cash equivalents of $627,995 at February 28, 2015 (August 31, 2014 - $65,319) and working capital of $681,941 (August 31, 2014 - $36,271), but management cannot provide assurance that the Company will ultimately achieve profitable operations or become cash flow positive, or raise additional debt and/or equity capital. For the six months ended February 28, 2015, the Company had no source of operating revenues, incurred an operating loss of $623,491 (2014 - $566,639) and, as at that date, had an accumulated deficit of $3,306,961 (August 31, 2014 - $2,703,470). If the Company is unable to raise additional capital in the future, management expects that the Company will need to curtail operations, liquidate assets, seek additional capital on less favourable terms and/or pursue other remedial measures. Management is aware, in making its assessment, of material uncertainties related to events or conditions that may cast significant doubt upon the Company's ability to continue as a going concern.

These consolidated financial statements do not include any adjustments related to the recoverability and classification of assets or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

The Company is an exploration stage company and its principal business activity is natural resource exploration, focusing on resources located in the state of Nevada and Colorado in the USA. Mining and exploration involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The Company has no source of revenue, and has significant cash requirements to conduct its planned exploration, meet its administrative overhead and maintain its resource interests.

The recoverability of the Company's investment in and expenditures on resource properties is dependent on several factors, including the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the development of these properties, and future profitable production or proceeds from disposition of resource interests.

The Company's registered office is located at Suite 400 – 570 Granville Street, Vancouver, BC, V6C 3P1.

2. Significant Accounting Policies

Statement of Compliance

The condensed interim consolidated financial statements of the Company, including comparatives, have been prepared in accordance with and using accounting policies in full compliance with International Financial Reporting Standards ("IFRS") and International Accounting Standards ("IAS") issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"), effective for the Company's reporting for the six months ended February 28, 2015.

Basis of Preparation

The unaudited condensed interim consolidated financial statements were authorized for issue on April 18, 2015 by the directors of the Company.

Statement of Compliance and conversion to International Financial Reporting Standards

These condensed interim consolidated financial statements, including comparatives, have been prepared in accordance with International Financial Reporting Standard 34 "*Interim Financial Reporting*" ("IAS 34"). These condensed interim consolidated financial statements follow the same accounting policies and methods of computation as compared with the most recent annual financial statements, being for the year ended August 31, 2014, using accounting policies consistent with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and Interpretations of the IFRS Interpretations Committee ("IFRIC").

These condensed consolidated interim financial statements do not include all of the information required of a full annual financial report and should be read in conjunction with the annual consolidated financial statements of the Company for the year ended August 31, 2014.

Principles of Consolidation

The condensed interim consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, Viscount Mining Resources Ltd, Viscount Nevada Holdings Ltd and Viscount Colorado Holding Ltd. Control is achieved when the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the period are included in the condensed interim consolidated statement of loss and comprehensive loss from the effective date of acquisition or up to the effective date of disposal, as appropriate.

All inter-company transactions, balances, income and expenses are eliminated in full on consolidation.

Significant Accounting Judgments, Estimates and Assumptions

The preparation of the Company's condensed interim consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the condensed interim financial statements and reported amounts of income and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates.

Areas requiring a significant degree of estimation and judgment relate to the fair value measurements for financial instruments, the recoverability of the carrying value of the properties, the recognition and valuation of provisions for decommissioning liabilities, the recoverability and measurement of deferred tax assets and liabilities, and ability to continue as a going concern. Actual results may differ from those estimates and judgments.
