NOTE 1 – NATURE OF OPERATIONS AND ORGANIZATION

History of Organization

Here To Serve Holding Corp. f/k/a F3 Technologies, Inc. (the "Company" or "Here To Serve") was incorporated in the State of Delaware as New Ithaca Corporation on September 22, 1983. In 2006, under the direction of Mr. Frank Connor, the Company operating as F3 Technologies began trading on the OTC Market Exchange under the symbol FTCH. Over the next several years, the Company consulted in the software development industry.

In September of 2013, the Company's board resolved to make a change in management and Mr. Jeffrey Cosman was appointed CEO and Director of the Company.

Under Mr. Cosman's direction, the Company began operating as Here To Serve Holding Corp. and repositioned itself into two growth potential industries, waste management and software development. This was done by creating three separate Limited Liability Companies; Here To Serve Missouri Waste Division, LLC ("HTSMWD"), a Missouri Limited Liability Company, Here To Serve Technology Division, LLC ("HTST), a Georgia Limited Liability Company and Here To Serve Georgia Waste Division, LLC ("HTSGWD"), a Georgia Limited Liability Company.

Through acquisitions and restructuring, HTST repositioned the Company's presence in the software development industry

In 2014, HTSMWD purchased the assets of a large solid waste disposal company in the St. Louis, MO market. This acquisition was intended to create the platform company for future acquisitions in the solid waste disposal industry. HTSGWD was created to facilitate expansion in this industry throughout the Southeast.

The merger of the Company and Meridian Waste Services, LLC became effective May 15, 2014. The merger was accounted for by the Company using business combination accounting. Under this method, the purchase price paid by the acquirer is allocated to the assets acquired and liabilities assumed as of the acquisition date based on the fair value. By the application of "push-down" accounting, our assets, liabilities and equity were accordingly adjusted to fair value on May 15, 2014. Determining the fair value of certain assets and liabilities assumed is judgmental in nature and often involves the use of significant estimates and assumptions.

For further discussion of this merger, see Note 4 - ACQUISITION below.

Explanation of Membership Interest Purchase Agreement

On October 17, 2014, (the "Execution Date"), Meridian Waste Solutions, Inc. entered into that certain Membership Interest Purchase Agreement (the "Purchase Agreement") by and among Here to Serve Holding Corp., a Delaware corporation, as seller ("Here to Serve"), the Company, as parent, Brooklyn Cheesecake & Dessert Acquisition Corp., a wholly-owned subsidiary of the Company, as buyer (the "Acquisition Corp."), the Chief Executive Officer of

the Company (the "Company Executive"), the majority shareholder of the Company (the "Company Majority Shareholder") and certain shareholders of Seller (the "Seller Shareholders"), pursuant to which the Acquisition Corp shall acquire from Here to Serve all of Here to Serve's rights, title and interest in and to (i) 100% of the membership interests of Here to Serve – Missouri Waste Division, LLC d/b/a Meridian Waste, a Missouri limited liability company ("HTS Waste"); (ii) 100% of the membership interests of Here to Serve Technology, LLC, a Georgia limited liability company ("HTS Tech"); and (iii) 100% of the membership interests of Here to Serve – Georgia Waste Division, LLC, a Georgia limited liability company ("HTS Waste Georgia", and together with HTS Waste and HTS Tech, collectively, the "Membership Interests"). As consideration for the Membership Interests, (i) the Company shall issue to Here to Serve 9,054,134 shares of the Company's common stock, (the "Common Stock"); (ii) the Company shall issue to the holder of Class A Preferred Stock of Here to Serve ("Here to Serve's Class A Preferred Stock") 51 shares of the Company's to-be-designated Class A Preferred Stock (the "Class A Preferred Stock"), which Class A Preferred Stock shall have the rights and preferences as described in the Purchase Agreement. See Note 6 below; (iii) the Company shall issue to the holder of Class B Preferred Stock of Here to Serve (Here to Serve's Class B Preferred Stock") an aggregate of 71,210 shares of the Company's to-be-designated Class B Preferred Stock (the "Class B Preferred Stock"), (the Common Stock, the Class A Preferred Stock and the Class B Preferred Stock are referred to as the "Purchase Price Shares;"), and (iv) the Company shall assume certain assumed liabilities (the "Initial Consideration").

As further consideration, at the closing of the transaction contemplated under the Purchase Agreement, (i) in satisfaction of all accounts payable and shareholder loans, Here to Serve will pay to Company Majority Shareholder $70,000 and (ii) the Company purchased from the then Company Majority Shareholder 230,000 shares of the Company's common stock for a purchase price of $230,000. Pursuant to the Purchase Agreement, to the extent Purchase Price Shares are issued to individual shareholders of Here to Serve at or upon closing of the Purchase Agreement: (i) shares of common stock of Here to Serve held by the individuals will be cancelled (ii) 1,000,000 shares of Here to Serve's Class A Preferred Stock will be cancelled; and (iii) 71,120 shares of Here to Serve's Class B Preferred Stock will be cancelled (the "Additional Consideration").

On October 17, 2014, the directors and majority shareholders of the Company approved the Purchase Agreement and the transactions contemplated under the Purchase Agreement. The directors of Here to Serve and the Here to Serve Shareholders approved the Purchase Agreement and the transactions contemplated thereunder. This closing of the Purchase Agreement results in a change of control of the Company and the Company changed its business plan to that of HTSMWD.

NOTE 9 – FAIR VALUE MEASUREMENT

The Company has adopted new guidance under ASC Topic 820, effective January 1, 2009. New authoritative accounting guidance (ASC Topic 820-10-15) under ASC Topic 820, Fair Value Measurement and Disclosures, delayed the effective date of ASC Topic 820-10 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis, until 2009.

ASC Topic 820 establishes a fair value hierarchy, giving the highest priority to quoted prices in active markets and the lowest priority to unobservable data and requires disclosures for assets and liabilities measured at fair value based on their level in the hierarchy. Further new authoritative accounting guidance (ASU No. 2009-05) under ASC Topic 820, provides clarification that in circumstances in which a quoted price in an active market for the identical liabilities is not available, a reporting entity is required to measure fair value using one or more of the techniques provided for in this update.

The standard describes a fair value hierarchy based on three levels of input, of which the first two are considered observable and the last unobservable, that may be used to measure fair value, which are the following:

> Level 1 – Quoted prices in active markets for identical assets and liabilities.
> Level 2 – Input other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets of liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the asset or liabilities.
> Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Our assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

The following table sets forth the liabilities at September 30, 2014, which is recorded on the balance sheet at fair value on a recurring basis by level within the fair value hierarchy. As required, these are classified based on the lowest level of input that is significant to the fair value measurement:
