1 NATURE OF OPERATIONS

Village Farms International, Inc. ("VFF" the parent company and, together with its subsidiaries, the "Company") is incorporated under the *Canada Business Corporation Act*. VFF's principal operating subsidiaries at March 31, 2013 are Village Farms Canada Limited Partnership ("VFCLP"), Village Farms, L.P. ("VFLP") and Village Farms DR, SLR ("VFDR"). The address of the registered office of VFF is 4700 80th Street, Delta, British Columbia, Canada, V4K 3N3.

The Company is a publicly traded company, which is listed on the Toronto Stock Exchange under the symbol VFF.

The Company, through its subsidiaries VFCLP and VFLP, owns and operates sophisticated, highly intensive agricultural greenhouse facilities in British Columbia and Texas, where it produces, markets and sells premium-quality tomatoes, bell peppers, and cucumbers. The Company also markets and sells third party produce through its subsidiaries.

2 BASIS OF PRESENTATION

Statement of compliance

These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standards 34, *Interim Financial Reporting* ("IAS 34") as issued by the International Accounting Standards Board ("IASB"). They do not include all of the information required for full annual financial statement disclosures, and should be read in conjunction with the Company's Consolidated Financial Statements for the year ended December 31, 2012.

Basis of presentation

The condensed consolidated interim financial statements are prepared on a going concern basis. The accounting policies have been applied consistently in all material respects. These condensed consolidated interim financial statements have been prepared by applying the same accounting policies, assessments of estimates and judgments, and methods of computation as compared with the most recent annual consolidated financial statements.

Basis of Measurement

The consolidated financial statements have been prepared on the historical cost basis except for the following material items in the statement of financial position:

- derivative financial instruments are measured at fair value;
- available-for-sale financial assets are measured at fair value; and
- biological assets are measured at fair value less costs to sell.

Functional and Presentation Currency

These condensed consolidated interim financial statements are presented in United States dollars ("U.S. dollars"), which is the Company's functional currency. All financial information presented in U.S. dollars has been rounded to the nearest thousands.

3 CHANGES IN ACCOUNTING POLICIES

The Company has adopted the following new and revised standards, along with any consequential amendments, effective January 1, 2013. These changes were made in accordance with the applicable transitional provisions.

- The Company has assessed its consolidation conclusion on January 1, 2013 and determined that the adoption of IFRS 10, Consolidated Financial Statements, did not result in any changes in the consolidation status of any of its subsidiaries.
- The Company has adopted IFRS 13, Fair Value Measurement, on January 1, 2013 on a prospective basis. The adoption of IFRS 13 did not require any adjustments to the valuation techniques used by the Company to measure fair value and did not result in any measurement adjustments as at January 1, 2013.
- The Company has adopted the amendments to IAS 1, Presentation of Financial Statements. These amendments required the Company to group other comprehensive income items by those that may be recycled through net income and those that will not be recycled through net income. These changes did not result in adjustments to other comprehensive income.

- The Company adopted IFRS 11, Joint Arrangements, which redefines joint operations and joint ventures with a focus on the rights and obligations of an arrangement, rather than its legal form. The adoption of IFRS 11 has not resulted in any changes in the accounting for joint arrangements.
- The Company adopted the amended IAS 19R, Employee Benefits, which changes the recognition and measurement of defined benefit pension expense and termination benefits and enhances the disclosure of all employee benefits. The adoption of IAS 19R has not resulted in any changes in the accounting of employee benefits.

Accounting Standards Issued and Not Applied

In May 2011, the International Accounting Standards Board ("IASB") issued IFRS 9, Financial Instruments, which is effective for annual periods beginning on or after January 1, 2015, with early adoption permitted. IFRS 9 is not expected to have a material impact on amounts recorded in the Company's consolidated financial statements.

Further details of the new accounting Standards and potential impact on the Company can be found in the Company's Consolidated Financial Statements for the year ended December 31, 2012.

8 INTANGIBLE ASSETS

VFCLP has an energy supply agreement with the operator of a cogeneration facility to purchase thermal energy required for one of VFCLP's greenhouses. The contract expires on July 31, 2023. VFCLP also has a right of first refusal with respect to any excess methane gas conveyed to the cogeneration plant from an adjacent landfill. The estimated fair value of the contract (discounted value of future after tax benefit) was recorded as an intangible asset and is being amortized on a straight-line basis over the life of the contract.

Current portion	4,143	3,413
Non-current portion	53,857	54,897
	$58,000	$58,310

Credit Facilities:

On March 28, 2013, the Company entered into an agreement for new term loan financing with an existing Canadian creditor (the "Credit Facilities"). As part of the agreement, all prior debt for Term Loan 1 and Term Loan 2 was repaid upon issuance of the new term loan financing. The details of the Company's Credit Facilities are as follows:

- Revolving operating loan of up to CA$8,000 at 8% interest rate with a maturity date on June 30, 2013 (the "Operating Loan");
- Non-revolving variable rate term loan with a balance of $58,000 with a maturity date on April 1, 2018 ("FCC Loan").

The Operating Loan is subject to margin requirements stipulated by the bank; $3,028 was drawn on this facility at March 31, 2013 (December 31, 2012 – $nil) and is available to a maximum of CA$8,000. As at March 31, 2013, letters of credit totaling $1,145 are outstanding.

The FCC Loan was $58,000 as at March 31, 2013. The outstanding balance is repayable by way of monthly installments of principal and interest based on an amortization period of 14 years, with the balance and any accrued interest to be paid in full on April 1, 2018. Monthly principal payments are $345 beginning on June 1, 2013. As at March 31, 2013, borrowings under the FCC Loan agreement are subject to interest rate of 5.279%.

The Company's interest rate on the FCC Loan will be determined annually based on the Debt to EBITDA ratio and an applicable Interest Rate Spread above LIBOR based on a level in the Grid, as specified in the loan agreement.

The borrowings are subject to certain positive and negative covenants. As at March 31, 2013 and December 31, 2012, the Company was in compliance with all covenants on all of its Credit Facilities.

Accrued interest payable on the credit facilities and loans as at March 31, 2013 was $42 (December 31, 2012 - $40) and these amounts are included in accrued liabilities in the statement of financial position.

As security for the FCC Loan, the Company has provided promissory notes, a first mortgage on the greenhouse properties, and general security agreements over its assets. In addition, the Company has provided full recourse guarantees and has granted security therein. The carrying value of the assets and securities pledged as collateral as at March 31, 2013 was $137,872 (December 31, 2012 - $130,134).

The aggregate annual maturities of long-term debt as at March 31, 2013 are as follows:

Remaining 2013	$2,417
2014	4,143
2015	4,143
2016	4,143
2017	4,143
Thereafter	39,011
	$58,000

11 DERIVATIVES

On January 25, 2013, the Company's interest rate swap agreement expired. The Company recognized a gain of $106 for the three months ended March 31, 2013 (March 31, 2012 – $223), which represented the mark-to-market adjustment of the interest rate swap agreement. The Company could not designate the swap agreement as a hedge for accounting purposes.

12 COMMITMENTS

Obligations Under Capital Leases

The Company has a capital lease to purchase equipment. Future minimum lease payments are as follows:

2013	$22
2014	29
2015	29
2016	29
2017	7
Total minimum lease payments	116
Less amount representing interest	(12)
	104
Less current portion	(24)
Long-term portion	$80

The lease has an interest rate of 5.5%, with equipment having a carrying value of $139. The Company made payments of $5 during the three months ended March 31, 2013 (2012 - $nil).

Operating Leases

The Company has entered into certain operating lease commitments for land, office space and equipment through 2022. The future minimum lease payments are as follows:

	March 31, 2013
Remaining 2013	$1,225
2014	1,595

13 FINANCIAL INSTRUMENTS

The following table summarizes the carrying and fair value of the Company's financial instruments:

	March 31, 2013 (unaudited)	December 31, 2012 (audited)
Cash and cash equivalents	$2,712	$2,801
Trade receivables	8,707	7,377
Other receivables	5,134	1,844
Other financial liabilities	75,609	71,536
Derivatives	-	106

The following table classifies financial assets and liabilities that are recognized on the balance sheet at fair value in a hierarchy that is based on significance of the inputs used in making the measurements. The levels in the hierarchy are:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 - Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices)
- Level 3 - Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

Management of financial risks

The Company, through its financial assets and liabilities, is exposed to various risks. The following analysis provides a measurement of some of these risks as at March 31, 2013. The Company uses derivative financial instruments only for risk management purposes, not for generating trading profit.

i) Credit risk

Credit risk is the risk that the Company will incur a loss due to the failure by its customers or other parties to meet their contractual obligations. Financial instruments that potentially subject the Company to significant concentrations of credit risk consist primarily of cash and cash equivalents, trade receivables and other receivables.

The Company limits its exposure to credit risk by placing its cash and cash equivalents with high credit quality financial institutions.

The Company's trade receivables had two customers that represent more than 10% of the balance of trade receivables as at March 31, 2013 (represented 12.4% and 12.3%, respectively). The Company believes that its trade receivables risk is limited due to the high credit quality of its customers and the protection afforded to the Company by the *Perishable Agricultural Commodities Act* (the "PACA") for its sales in the United States, which represent approximately 90% of the Company's sales. The PACA protection gives a claim filed under the PACA first lien on all PACA assets (which include cash and trade receivables). The PACA fosters trading practices in the marketing of fresh and frozen fruits and vegetables in interstate and foreign commerce. It prohibits unfair and fraudulent practices and provides a means of enforcing contracts. Historical write-offs have represented less than 1% of sales. The maximum amount of credit risk exposure is limited to the carrying amount of the balances on the financial statements.

Given the current economic environment, trade receivables for each customer were evaluated for collectability and an allowance for doubtful accounts has been estimated. A general provision is also taken based on the Company's historic exposure to bad debts based on revenue. At March 31, 2013, the allowance for doubtful accounts balance was $254 (December 31, 2012 - $254). In addition, the Company recorded a bad debt expense of $nil during the three months ended March 31, 2013 (March 31, 2012 – $nil).

At March 31, 2013, 92.0% (December 31, 2012 – 82.4%) of trade receivables were outstanding less than 30 days, 7.0% (December 31, 2012 – 16.2%) were outstanding for between 30 and 90 days and the remaining 1.0% (December 31, 2012 – 1.4%) were outstanding for more than 90 days. Trade receivables are considered past due based on the contract terms agreed to with a customer. As noted above, aged receivables that are past due are not considered impaired unless customer specific information indicates otherwise.

ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Company is exposed to interest rate risk on its long-term debt, for which the interest rates charged fluctuate based on the 90-day LIBOR rate.

iii) Foreign exchange risk

At March 31, 2013, the Canadian/U.S. foreign exchange rate was CA$1.00 = US$0.9823 (December 31, 2012 – CA$1.00 = $1.0031). Assuming that all other variables remain constant, an increase of $0.10 in the Canadian dollar would have the following impact on the ending balances of certain statement of financial position items at March 31, 2013 and December 31, 2012 with the net foreign exchange gain or loss directly impacting net income for the period.

	March 31, 2013	December 31, 2012
Financial assets		
Cash and cash equivalents	$ -	$ 57
Trade receivables	118	124
Financial liabilities		
Trade payables and accrued liabilities	(207)	(89)
Operating Loan	(125)	-
Net foreign exchange gain (loss)	($ 214)	$ 92

iv) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its obligations as they fall due. The following are the contractual maturities of financial liabilities as at March 31, 2013:

Financial liabilities	**Total**	**Less than 1 year**	**2-3 years**	**4-5 years**	**More than 5 years**
Long-term debt	$58,000	$4,143	$8,286	$45,571	-
Operating Loan	3,028	3,028	-	-	-
Trade payables	10,404	10,404	-	-	-
Accrued liabilities and income taxes payable	3,529	3,529	-	-	-
Other Liabilities	544	-	544	-	-
Total	$75,505	$21,104	$8,830	$45,571	$-

It is the Company's intention to meet these obligations through the collection of current accounts receivable and cash from sales. If the current resources and cash generated from operations are insufficient to satisfy its obligations, the Company may seek to issue additional equity or to arrange debt or other financing. In addition, the Company has available an operating loan of up to CA$8,000 less outstanding balance of $3,028 as at March 31, 2013.

v) Fair values

The carrying amount of short-term financial instruments, less provisions for impairment if applicable, is consistent with the fair value of such instruments. The Company's term debt bears a variable interest rate and therefore its carrying value approximates its fair value. The fair value of derivatives is equal to their carrying value and is determined based on published interest rates and contractual terms of the interest rate swap agreement.

14 RELATED PARTY TRANSACTIONS AND BALANCES

Included in other assets as at March 31, 2013 is a $345 (December 31, 2012 - $352) promissory note from an employee of the Company in connection with a relocation at the request of the Company. The note is secured by real property. It is a partially non-interest bearing note to be paid from the proceeds of the sale of the real property that secures the note. The $345 balance represents the unpaid amount the Company advanced on this employee's behalf in connection with the relocation.

20 CONTINGENCIES

In the normal course of business, the Company may receive notices of potential legal proceedings or be named as a defendant in legal proceedings. Management is of the opinion that the outcome of these uncertainties will not have a material adverse effect on the Company's financial position.

21 SHARE CAPITAL AND EQUITY

The following is a summary of share capital:

	The VFF Common Shares	
	# of Shares	Amount
Share capital–January 1, 2012	19,433,394	$24,850
Issued in financing	-	-
Issued on exercise of employee stock options	-	-
Share capital–March 31, 2013 and December 31, 2012	19,433,394	$24,850

	The VFF Special Shares	
	# of Shares	Amount
Share capital– January 1, 2012, December 31, 2012, and March 31, 2013	19,273,951	$-

VFF is authorized to issue an unlimited number of common shares, special shares and preferred shares, issuable in series. These shares have no par value.

(i) Special shares:

The special shares were issued to VF U.S. Holdings Inc. ("U.S. Holdings") for the benefit of the holders of the PPSs of U.S. Holdings. The PPSs were issued in connection with the business combination between U.S. Holdings and Hot House Growers Income Trust. The special shares entitle the holder to exercise voting and other rights as a shareholder of VFF as though the holder held the number of shares that would be owned by the holders of the PPSs assuming the exercise in full of the PPS Exchange Rights; provided that in no event shall the votes attached to the special shares exceed 45% of the votes otherwise attached to the common shares and the special shares of VFF then outstanding. The combination of the PPSs and special shares are the economic equivalent of common shares. For financial reporting purposes, the special shares have been treated as common shares and are included in the Company's share capital and in the calculation of earnings per share.

(ii) Common shares:

The common shares entitle the holders thereof to one vote per share at all shareholder meetings of VFF (subject to certain exceptions). The holders of the common shares are entitled to receive any dividend declared by VFF on the common shares.

Subject to the rights, privileges, restrictions and conditions attached to any other class of shares of VFF, the holders of the common shares are entitled to receive, pro rata, the remaining property or assets of VFF upon its dissolution, liquidation or winding-up.

(iii) Preferred shares:

The preferred shares may be issued in one or more series, with such rights and conditions as may be determined by resolution of the directors of VFF who shall determine the designation, rights, privileges, conditions and restrictions to be attached to the preferred shares of such series. There are no voting rights attached to the preferred shares except as prescribed by law. In the event of the liquidation, dissolution or winding-up of VFF, or any other distribution of assets of VFF among its shareholders for the purpose of winding-up its affairs, the holders of the preferred shares of each series are entitled to receive, among other things, with priority over the common shares and any other shares ranking junior to the preferred shares of VFF, an amount equal to any cumulative dividends, whether or not declared, or declared thereon but unpaid and no more. The preferred shares for each series are also entitled to such other preferences over the common shares and any other shares ranking junior to the preferred shares as may be determined as to their respective series authorized to be issued. The preferred shares of each series shall be on a parity basis with the preferred shares of every other series with respect to payment of dividends and return of capital. There are no preferred shares currently issued and outstanding.

22 EARNINGS PER SHARE

Basic earnings per share is calculated by dividing the net income attributable to owners of the Company by the weighted average number of common shares in issue during the year excluding common shares purchased by the Company and held as treasury shares.

	Three months ended March 31,	
	2013	2012
	(unaudited)	(unaudited)
Net income (loss) attributable to owners of the Company	$2,608	($692)
Weighted average number of common shares and special shares outstanding	38,707	38,707
Basic earnings (loss) per share	$0.07	($0.02)

Diluted earnings per share is calculated by adjusting the weighted average number of common shares outstanding to assume conversion of all dilutive potential common shares. The Company's share options are potentially dilutive to common shares. A calculation is done to determine the number of shares that could have been acquired at fair value (determined as the average market share price of the Company's shares for the period) based on the monetary value of the subscription rights attached to outstanding share options. The number of shares calculated above is compared with the number of shares that would have been issued assuming the exercise of the share options. If dilutive effect is less than zero, then issuance is anti-dilutive and is excluded from dilutive earnings per share calculation.

23 CAPITAL DISCLOSURES

The Company's objectives when managing capital are to safeguard its assets and maintain a competitive cost structure, continue as a going concern and provide returns to its shareholders. In addition, the Company works with all relevant stakeholders to ensure the safety of its operations and employees and remain in compliance with all environmental regulations.

The Company's main objectives when managing capital are:

- to structure repayment obligations in line with the expected lives of the Company's principal revenue generating assets;
- to ensure the Company has access to capital to fund contractual obligations as they become due and to ensure adequate cash levels to withstand the impact of unfavorable economic conditions;
- to maintain the Company's credit ratings to facilitate access to capital markets at competitive interest rates; and
- to access capital markets to fund its growth initiatives.

The Company's capital comprises net debt and equity:

	March 31, 2013	December 31, 2012
	(unaudited)	(audited)
Total bank debt	$61,028	$58,310
Less cash and cash equivalents	(2,712)	(2,801)
Net debt	58,316	55,509
Total equity	53,107	50,451
	$111,423	$105,960

It is the Company's intention to meet these obligations through the collection of current accounts receivable and cash. The Company has an available operating loan up to CA$8,000 (as at March 31, 2013, $3,028 was outstanding on the operating loan, and $1,145 was outstanding on a letter of credit). As at March 31, 2013, the operating loan borrowing base was $5,231 based on a percentage of the Company's outstanding accounts receivable. If the current resources and cash generated from operations are insufficient to satisfy its obligations, the Company may seek to issue additional equity or to arrange debt or other financing.

24 SHARE-BASED COMPENSATION PLAN

The Company has a share-based compensation plan. The maximum number of common shares that can be issued upon the exercise of options granted is equal to 10% of the aggregate number of common shares issued and outstanding from time to time. The term during which an option may be exercised is 10 years from the date of the grant. Options vest at a rate of 33% per year, beginning one year following the grant date of the options. Share-based compensation expense for the three months ended March 31, 2013 of $48 (March 31, 2012 - $59) and was recorded in selling, general and administrative expenses and the corresponding amount credited to contributed surplus.

The following table presents the assumptions used to establish the fair value assigned to the options issued using the Black-Scholes valuation model:

	2013	2012	2011
Expected volatility	46.4%	54.5%	66.1%
Dividend	$nil	$nil	$nil
Risk-free interest rate	2.04%	2.14%	2.53%
Expected life	6.5 years	6.5 years	6.5 years
Fair value	$0.410	$0.694	$0.7848

Expected volatility was based on three years of historical data.

The following table summarizes stock options granted during the period. There were no forfeitures of stock options for the three months ended March 31, 2013.
