NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Organization

The Company was incorporated under the laws of Nevada in 2004 as Ford-Spoleti, Inc., and was originally engaged in acquiring, developing, operating and selling real estate in New York. On April 30, 2009, the Company acquired a wholly-owned subsidiary, Eagle Oil Holding Company, Inc. The Company then changed its name to Eagle Oil Holding Company, Inc. Revenue from sales of crude oil, natural gas and refined petroleum products are recorded when deliveries have occurred and legal ownership of the commodity transfers to the customers. Title transfers for crude oil, natural gas and bulk refined products generally occur at pipeline custody points or when a tanker lifting has occurred. Revenues from the production of oil and natural gas properties in which the Company shares an undivided interest with other producers are recognized based on the actual volumes sold by the Company during the period.

Revenue from the installation and operation of Pure Mobility high-speed wireless networks is recognized when it is billed to subscribers to the network and from customer deposits when the funds are depleted in the process of deploying a network.

C. Cash and Cash Equivalents

The Company considers all highly liquid investments with maturities of three months or less to be cash equivalents.

D. Basis of Presentation

These financial statements are presented in United States dollars and have been prepared in accordance with generally accepted accounting principles in the United States of America.

NOTE 2 - GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. ITEM 6. DESCRIBE THE ISSUER'S BUSINESS, PRODUCTS AND SERVICES.

A. DESCRIPTION OF ISSUER'S BUSINESS OPERATIONS.

The Company is a holding company with a current focus on two market segments the energy industry and the telecom industry. The Company concentrates its energy-related efforts in acquisition and development of resource assets within that industry that are either profitable or can be made profitable by application of the Company's management and/or resource expertise. In the telecom industry the Company concentrates its efforts on identifying sites around the world at which to install its high-speed wireless networks at the lowest cost but with highest net revenue return. The Company currently has a Value Added Distributor agreement with Sweratel AB, a Swedish company and primary component provider with a provision granting exclusivity in North America, the Caribbean and anywhere else in the world where Sweratel sees a business value.

B. DATE AND STATE OF INCORPORATION

The Company was incorporated in the State of Nevada in 2004.

C. PRIMARY AND SECONDARY SIC CODES

The Company's primary SIC code is 1311 (oil and gas).
The SIC code for its Pure Mobility International Inc. subsidiary is 481302 (online service providers)

D. THE COMPANY'S FISCAL YEAR END DATE

The Company's fiscal year ends on April 30.

E. PRINCIPAL PRODUCTS OR SERVICES AND THEIR MARKETS

In the energy industry, the Company focuses on exploration and development of natural resources, primarily oil, the markets for which are worldwide dealers and wholesale buyers. Oil is widely used throughout the United States. Recent, dramatic commodity price decreases and sluggish global demand means the outlook for such resources is weak. Extraction has increased in areas where production costs were formerly prohibitive. This creates some favorable opportunities for the company in both development and redevelopment of its lease and the future leases that it will acquire.

In the telecom industry, the Company focuses on identifying locations around the world either underserved or not served with IP-based access to the World Wide Web. In a recently published white paper, Technology Business Research, Inc. (TBR) states that, TBR believes Pure Mobility's business model exemplifies a business case with a high likelihood of success for a fast ROI. TBR believes the Wi-Fi First market is in a nascent stage with a number of players but no dominant model. Most of the activity is focused on direct acquisition or deployment of the technology by service providers themselves, with few players focusing on local service providers. And that, in addition to the unique focus, Pure Mobility can enable local providers to be competitive with

mobile data services in a very short time (i.e., weeks versus the usual months of radio-access network deployment and testing). TBR also states that, "most incumbents are waiting until 2020 to deploy services that offer speeds of 500Mbps to 1Gbps.

G. OFF-BALANCE SHEET ARRANGEMENTS

Prior to January 31, 2015, the Company, as per a Director's Agreement entered into with Connie Helwig, agreed to issue Convertible Series C Preferred shares. These shares shall act as a "poison pill" to protect the company against the attempt of former directors to regain control of the company as well as creditors attempting to liquidate assets based on their votes in the event that their debt is converted into shares.

The shares can vote on an as-converted basis; can convert into common shares based on a 1000:1 ratio; are limited to 52% of the voting power of all share capital issued and

outstanding. There are 10 million preferred shares authorized. None have been issued but they are owed to Ms. Helwig.

On September 30, 2014, Ms. Helwig sold 999,999 of her Convertible Series C Preferred Shares to an investor in order to raise funds to fight the lawsuit initiated by Brian Wilmot, a former officer and director of the Company. The investor demanded that the shares have the following amended rights to be filed with the State of Nevada:

1) Can vote on an as-converted basis,
2) Can convert into common shares based on a 1000:1 ratio that can never be adjusted.
3) Are not subject to dilution.
4) Not subject to any adverse effects as a result of any reverse splits.
5) In no event will the shares be used to out-vote Connie Helwig at any time that she serves as a director of the corporation.

These shares were issued in the first quarter of 2015 and the amended rights filed with the State of Nevada.

On March 15, 2015, as a condition of the Company's acquisition of Pure Mobility International Inc., these shares were redistributed and issued as follow: 7,225,000 shares to Pablo L. Nieto, Jr., 1,275,000 shares to Marc Desparois, 750,000 shares to Connie Helwig, 375,000 shares to Paul Khan, 375,000 shares to Genuine Publishing Ltd.

The company entered into employment agreements with Connie Helwig and two consultants for a two year, a two year term and one year term respectively in July of 2013. Unpaid balances require the company to issue a convertible note for the balance.

Effective July 1, 2015, the Company extended the employment agreements with Connie Helwig and one consultant for a 3 month period under the same terms and conditions as the original agreements.
