A. Description of Operations

Great Rock Development Corp. provides consulting and energy efficiency design strategies for corporations and government entities and associations..

Great Rock has expanded from its roots in Canada into new markets in St. Kitts and the Caribbean.

Sources of Revenue

The company has deployed two business branches for the purpose of securing maximum market inroads in the shortest possible time period in order to generate cash flow, increase share value and mitigate market risks:

Energy conservation through demand side conservation from commercial, municipal and residential buildings

The company has secured the rights to distribute Thermonomics products in Canada in a Dealers Agreement. Furthermore the company is negotiating a second agreement, through a joint venture, to deploy Thermonomics in Jamaica and the Caribbean islands.

For all of these activities, the company plans to make use of the business relationships developed by 932678 Ontario Inc (Encompass) and Forest BioProducts Inc to increase its revenues through the sales of products that increase energy efficiency.

Efficiency through automation and robotics

Great Rock Development continues to explore opportunities to acquire robotics and navigation company to further efforts into the autonomous mining sector and other niche markets.

Plan of Operations and Key Points of Focus for 2015 and Beyond

Great Rock has since expanded into new markets in the Caribbean with consulting and energy efficiency designs for the St. Kitts business association members. The company is hopeful this will lead new new contracts throughout the Caribbean.
