Notes to financial statements
For the three months ended June 30, 2015
Unaudited

NOTE 1: ORGANIZATION AND OPERATIONS:

SourcingLink.net, Inc., (the "Company"), located in San Diego, CA was incorporated in 1993. Although the Company has been engaged in several different businesses, experienced management and consultants have been retained to focus on the new business model, which is the business of sourcing, acquiring, trading and dealing in investment quality gem stones and rare earth minerals. In addition, the Company is a provider of rare antiquities and high quality original one of a kind designed jewelry adorned with precious gemstones and made of fine metals. Rare Earth Minerals (REM's) mined through post mining production contracts will be available to the industry and investors uncut/unpolished on a wholesale level and through finished jewelry.
On March 3, 2012 the Company retained new management, disposed of the automotive business and undertook the development of the current business model and plan. On August 9, 2013 the Company, in furtherance of its business plan, entered into an agreement to acquire certain mineral rights, on a property in Quebec, Canada, known as the Eldor Property.

NOTE 2: SUMMARIES OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Presentation

The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cost of Sales

Cost of sales is the direct cost associated with the earning of revenue and predominantly includes the cost of acquiring artifacts and/or the manufacturing of inventory, including design and production costs.

Cash and Cash Equivalents

For purposes of the statements of cash flows, cash equivalents include all highly liquid debt instruments with original maturities of three months or less which are not securing any corporate obligations. The Company maintains its cash in bank deposit accounts, which, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts.

Accounts Receivable

Accounts receivable are stated at the amount management expects to collect from outstanding balances. An allowance for doubtful accounts is provided for those accounts receivable considered to be uncollectable based on historical experience and management's evaluation of outstanding accounts receivable at the end of the period. Bad debts are written off against the allowance when identified. The Company determined that no allowance was required as at June 30 and March 31, 2015.

Prepaid Expenses

Prepaid expenses consist primarily of short-term prepaid expenditures that will amortize within one year.

Inventory

As at June 30 and March 31, 2015 the company had acquired inventory, valued at $167,395 and $167,395, respectively, utilizing the lower of cost or market basis. All items are reviewed periodically and impaired, if appropriate.

Property and Equipment

As at June 30, 2015 the Company owned equipment, furniture and a web site all valued at original cost. All three categories are being depreciated on a three year straight line basis.

Impairment of Long-Lived Assets

The Company will evaluate the recoverability of its long-lived assets as they are acquired and if circumstances indicate impairment is required it will be recorded based on the results of the analysis. This analysis is performed by comparing the respective carrying values of the assets to the current and expected future cash flows, on an undiscounted basis, to be generated from such assets.

Revenue Recognition

The Company will derive revenue from the sale of its products and services. Revenue will be recognized when it is realized and earned.

.The Company will meet all of the following four criteria in order to recognize revenue:

- Persuasive evidence of an arrangement exists
- Delivery has occurred
- The sales price is fixed or determinable
- Collection is reasonably assured

Payments received in advance of satisfaction of the relevant criteria for revenue recognition are recorded as advances from customers.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is provided for deferred tax assets if it is more likely than not these items will either expire before the Company is able to realize their benefits, or that future deductibility is uncertain.

Stock-Based Compensation

The Company records stock-based compensation at fair value as of the date of grant and recognizes the corresponding expense over the requisite service period, utilizing the Black-Scholes option-pricing model. The volatility component of the calculation is based on the historic volatility of the Company's stock or the expected future volatility. The expected life assumption is primarily based on historical exercise patterns and employee

post-vesting termination behavior. The risk-free interest rate for the expected term of the option is based on the U.S. Treasury yield curve in effect at the time of grant.

Fair Value of Financial Instruments

Fair value, establishes a three-level valuation hierarchy for disclosures of fair value measurement and enhances disclosure requirements for fair value measures. The carrying amounts reported in the balance sheets for current receivables and payables, including short term loans, qualify as financial instruments and are a reasonable estimate of fair value because of the short period of time between the origination of such instruments and their expected realization and, if applicable, the stated rate of interest is equivalent to rates currently available. The three levels are defined as follows:

Level 1: input to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2: inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the assets or liability, either directly or indirectly, for substantially the full term of the financial instruments.

Level 3: inputs to the valuation methodology are unobservable and significant to the fair value.

The Company did not identify any assets or liabilities that are required to be presented on the balance sheet at fair value.

Earnings per Common Share

Basic earnings per share are calculated dividing income available to common stockholders by the weighted average number of common shares outstanding. Diluted earnings per share are based on the assumption that all dilutive convertible shares and stock options and warrants were converted or exercised. Dilution is computed by applying the treasury stock method. Under this method, warrants and options are assumed to be exercised at the beginning of the period (or at the time of issuance, if later), and as if funds obtained thereby were used to purchase common stock at the average market price during the period.

Advertising Costs

The Company expenses the cost of advertising as incurred or, as appropriate, the first time the advertising takes place. Advertising costs, for the three months ended June 30, 2015 and June 30, 2014 were not significant.

New Accounting Pronouncements

Company's adoption of new accounting policies has had no impact on its financial statements.

ASU Nos. 2011-05 and 2011-12

On June 16, 2011, the FASB issued ASU No. 2011-05, "Comprehensive Income (Topic 220): Presentation of Comprehensive Income." This ASU eliminates the current option to report other comprehensive income and its components in the statement of changes in equity. An entity can elect to present items of net income and other comprehensive income in one continuous statement or in two separate, but consecutive, statements.

ASU No. 2011-05 also requires reclassifications of items out of accumulated other comprehensive income to net income to be measured and presented by income statement line item in both the statement where net income is presented and the statement where other comprehensive income is presented. However, on December 23, 2011, the FASB issued ASU No. 2011-12, "Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05" to defer this new requirement. For us, both ASU No. 2011-05 and

ASU No. 2011-12 were effective January 1, 2012. Since these ASUs pertain to presentation and disclosure requirements only, the adoption of these ASUs is not expected to have a material impact on the Company's financial statements.

ASU No. 2011-11

On December 16, 2011, the FASB issued ASU No. 2011-11, "Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities." This ASU requires disclosures to provide information to help reconcile differences in the offsetting requirements under U.S. GAAP and IFRS. The disclosure requirements of this ASU mandate that entities disclose both gross and net information about financial instruments and transactions eligible for offset in the statement of financial position as well as instruments and transactions subject to an enforceable master netting arrangement or similar agreement. ASU No. 2011-11 also requires disclosure of collateral received and posted in connection with master netting arrangements or similar arrangements. The scope of this ASU includes derivative contracts, repurchase agreements, and securities borrowing and lending arrangements. Entities are required to apply the amendments of ASU No. 2011-11 for annual reporting periods beginning on or after January 1, 2013, and interim periods within those annual periods. All disclosures provided by those amendments are required to be provided retrospectively for all comparative periods presented. The Company is currently reviewing the effect of ASU No. 2011-11.

NOTE 3: GOING CONCERN:

The accompanying financial statements have been prepared on a going concern basis which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. As shown in the financial statements, during the three months ended June 30, 2015 the Company had a loss of $229,155 and an accumulated deficit of $51,532,262. If the Company is unable to generate profits and is unable to continue to obtain financing for its working capital requirements, it may have to curtail its business sharply or cease business altogether.

The financial statements do not include any adjustment relating to the recoverability and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

The Company is taking certain steps to provide the necessary capital to continue its operations. These steps include, but are not limited to: 1) focus on sales to minimize the need for capital at this stage; 2) converting part of the outstanding accounts and loans payable to equity; 3) raising equity financing; 4) continuous focus on reductions in cost where possible.

NOTE 4: NOTES PAYABLE:

The non interest bearing convertible note payable of $132,900 consists of unsecured advances made, in 2009, to the Company by a third party. The note was callable in October 2010. Although a portion of the original note has been converted the note holder has not demanded the balance. In addition, the Company President has provided, to the Company, goods and cash with a value of $205,900 in return for a 5% long term note convertible payable, bearing a maturity date of June 2014.

NOTE 5: SHAREHOLDERS' EQUITY:

On April 3, 2014, the Company issued 21,000,000 shares of its restricted common stock, valued at $0.001 per share, to a lender as a reduction, of $2,100, in the note payable to that lender.

On June 6, 2014, the Company issued 29,000,000 shares of its restricted common stock, valued at $0.001 per share, to a lender as a reduction, of $2,900, in the note payable to that lender.

On August 15, 2014, the Company issued 2,000,000 shares of its restricted common stock, at a cost of $0.0085 per share, to a consultant and 1,000,000 shares to each of two directors, for services provided, at a cost of $0.0085 per share.

On August 27, 2014, the Company issued 15,000,000 shares of its restricted common stock, at a cost of $0.024 per share, to a note holder to reduce the note by $1,500.

On October 23, 2014, the Company issued 200,000 and 1,000,000 shares of its restricted common stock to a consultant for web site development and a corporate officer for services rendered, both at a cost of $0.0178 per share

On December 15, 2014, the Company issued 15,000,000 shares of its restricted common stock at a cost of $0.0102 per share as repayment of a loan payable, in the amount of $1,500.

On December 22, 2014, the Company issued 15,000,000 shares of its restricted common stock at a cost of $0.0078 per share as repayment of a loan payable, in the amount of $1,500.

On March 31, 2015, the Company issued 15,000,000 shares of its restricted common stock at a cost of $0.0026, per share, as repayment of a loan payable, in the amount of $1500.

On April 6, April 27 and June 25, 2015 the Company issued 20,000,000, 25,000,000 and 16,000,000 shares of its restricted common stock at t cost of $0.0041, $0.003 and $0.0042 per share respectively as repayment or reduction of notes payable.

NOTE 6: SUBSEQUENT EVENTS:

The Company has evaluated subsequent events through the date the financial statements were issued and has not identified any reportable events.

6) Describe the Issuer's Business, Products and Services

A. The Company's new business model is focused on the business of sourcing, acquiring, trading and dealing in investment quality gem stones and rare earth minerals. In addition, the Company is a provider of rare antiquities and high quality original one of a kind designed jewelry adorned with precious gemstones and made of fine metals. Rare Earth Minerals (REM's) mined through post mining production contracts will be available to the industry and investors uncut/unpolished on a wholesale level and through finished jewelry.

B. The Company was incorporated in the State of Delaware on March 26, 1993.

C. The issuer's primary and secondary SIC Codes are 5094 and 3911.

D. The issuer's fiscal year end date is March 31.

E. The issuer's principal products are those described above. Marketing is accomplished through various forms of social media, internet advertising and word of mouth.

7) Describe the Issuer's Facilities

The issuer's business address is: 12526 High Bluff Drive, Ste. 300, San Diego, CA 92130. It shares retail store front space in Encinitas CA.

8) **Officers, Directors, and Control Persons**

A Anne Carioti, is a control person, owing 230,840,000 restricted common shares or 48.4%, and is a Director, CEO and Secretary/Treasurer, experienced in appraising gemstones and minerals as a Graduate Gemologist from the Gemological Institute of America (20+ years), sourcing gemstones and minerals, jewelry designing and retail jewelry store management.

Mani Pirouzbakht, Director, COO holds a Masters in Mining Engineering-Exploration, Geo-chemist, accredited Jewelry Professional, Metal and Jewelry Arts and a Graduate Gemologist form the Gemological Institute of America.

Tina Chan, Director, holds a degree in Applied Jewelry Arts with the Gemological Institute of America and a Bachelors degree in Fine Arts from the School of the Art Institute of Chicago.

B None of the foregoing persons has, in the last five years, been the subject of:

A conviction in a criminal proceeding or named as a defendant in a pending criminal proceeding;
