6) Describe the Issuer's Business, Products and Services

A. We conduct our operations in Mobile Broadcasting Corp., our wholly owned subsidiary. We are developing software and a communications platform we have trade named WHiRLD™, a live streaming broadcasting app to let people stay in touch with their world through their mobile phone. More than a social media app, our patented telecommunications platform supports 4G and LTE networks so that people can broadcast moments and news with friends, family, colleagues, and fans through the video camera of their mobile phones in lightning speed. This means that portable live streaming of high-quality video will soon be a reality. People can instantly broadcast happenings to their friends, family, or colleagues or receive their video broadcasts— through mobile phones. A video-on-demand feature allows recording for later viewing - whether it's breaking news or pay-per-view celebrity broadcasts or video updates from family and friends. Our subsidiary has scheduled several release dates for WHiRLD. The scheduled release date is now September, 2015. Our subsidiary licenses the WHiRLD technology from Briken, LLC, a limited liability company owned by Mr. Bland and the holder of our Series A-1 Preferred Stock. The license is in default. In the event, Briken determines that the best course of action is to cause the license to be transferred to another company, our management is committed to a requirement that we receive not less than the same percentage of shares of common stock in the other company (approximately five percent) as would be reflective of the equity of our existing common stockholders assuming Briken were to convert its Series A-1 Preferred Stock.

B. We were incorporated in Nevada in 1994.
