The film is inspired by Taj's iconic uncle, Michael Jackson's number one selling album of all time, THRILLER.

On the production front, BSEG anticipates being able to begin its first Sino-U.S. co-production, *Snow White's Christmas,* with a budget of over $20 million USD.

The company is in the process of restructuring, and has formed a holding company, Big Screen Holdings, to manage the many divisions and separate entities of the Big Screen brand. Fairfax Entertainment Group ("FEG") is a US multimedia entertainment company, specializing in working with companies to expand their entertainment reach on a global level. FEG is experienced in corporate finance, mergers and acquisition, and public company development. In 2013, FEG became the biggest Class A Common Stock shareholder of Big Screen Entertainment Group ("BSEG"). Sharing the same goals of growing into a full-service global entertainment group, BSEG and Fairfax Entertainment have been working closely in exploring potential opportunities, especially with the Asian-US entertainment markets.

After an internal and external audit, the company has determined that it owed past due amounts from distributors on several films. While some of these accounts receivable have been collected over the last year, there remains a large portion to be collected. In addition, there have been several court judgments that the company has acquired against an individual and a company.

BSEG had two board meetings dated September 1st and September 24th to discuss and approve deals in progress. As soon as these deals have been materially confirmed, they will be announced.

SALES AND DISTRIBUTION DIVISION

As discussed in the foregoing, we have acquired various film projects from third parties which we are distributing through our own label domestically and through our new Big Screen Sales division internationally. We receive a distribution fee for our sales in the United States which includes DVD, Blu-Ray, PPV, VOD, Digital Distribution such as iTunes, Amazon.com, Xbox, Playstation, Wii, Netflix, hotels, airlines and numerous new platforms opening up to exhibit movies. We also distribute the films we have produced through Big Screen Distribution, and distribute music projects directly through Big Screen Music and through our relationship with The Orchard, DISH, Amazon as well as BSEG's direct vendors.

We have a five-year contract with DISH Network to release our projects for VOD and PPV. BSEG is gearing up to release 6 projects over the next 12 months with DISH. Our titles with DISH are increasing rapidly with the addition of new personnel in assisting BSEG with delivery and distribution. This will increase revenue over the next 12-24 months for the company.

In addition to a contract with DISH Network, we also have an extended contract with The Orchard, a leader in digital content that acts as an aggregator for numerous revenue generating platforms.

We operate in a competitive environment that is characterized by rapid technological change. We are competing with major domestic and international entertainment companies which have substantially greater resources than our own.

Our major competitors include well-funded public and private companies. Our competitors likely have greater market recognition and substantially greater financial, technical, marketing, distribution, purchasing, manufacturing, film production and personnel resources than we do. Many of our current and potential competitors are developing and currently producing films with substantially greater budgets, and have significantly longer operating histories, greater name recognition, access to capital, and customer and consumer bases. As a result, they may be able to respond more quickly to changing consumer and customer demands or to devote greater resources to the development, promotion and sales of entertainment products and services than we can.

There can be no assurance that we will be able to compete against current and future competitors. If we are unable to compete effectively, or if competition results in a deterioration of market conditions for our entertainment products or services, our business and results of operations would be adversely affected.

We acquire film titles, projects, and screenplays from various entertainment companies and individuals. We also develop, produce and distribute film titles and music projects internally through our own facilities. We are subject to then-prevailing market prices for the film titles acquired from third parties that we distribute, which are subject to fluctuation. We cannot ensure that the prices charged by the persons and entities from whom we acquire film titles, projects and screenplays will not increase because of changes in market conditions or other factors beyond our control.

We are not dependent on just a few major customers for our products and services. Rather, consumers of our film and music projects are numerous and reside both domestically and internationally.

We do not have any patents, trademarks, licenses, franchises, concessions or labor contracts. We do own, however, intellectual property rights under applicable state and federal laws in each of the films and musical projects which we internally produce or acquire.

We do not have any pending permits or government approvals. We are now and will be pursuing film production business opportunities in the states of Michigan and Louisiana which provides substantial rebates to film producers like us who make films in these various states. Film production is generally subject to oversight and regulation in accordance with national and local ordinances, zoning, environmental protection regulations, intellectual property, trademark and patent protections and regulations, labor and union laws, and other rules and regulations. If we fail to observe these shifting requirements on a national, state, or local level in producing or distributing our music and film products and services, we may incur claims or reputational damage.

BIG ENTERTAINMENT INTERNATIONAL

Big Screen Entertainment Group has created a new international distribution subsidiary called Big Entertainment International (BEI) that is still in developmental stages.
