Merger with On4Communications, Inc

On March 12, 2009, we entered into a merger agreement with On4 Communications, Inc., a private Arizona company incorporated on June 5, 2006 ("On4"). We subsequently amended this agreement on April 7, 2009, and on May 1, 2009 we completed the merger with On4, with us as the surviving entity. Upon the completion of the merger, we had three wholly-owned subsidiaries: (i) Charity Tunes Inc., a Delaware company incorporated on June 27, 2005 for the purpose of operating a website for the distribution of music online; (ii) Sound Revolution Recordings Inc., a British Columbia, Canada company incorporated on June 20, 2001 for the purpose of carrying on music marketing services in British Columbia; and (iii) PetsMobility Inc., a Delaware company incorporated on March 23, 2006 for the purpose of operating the website www.petsmo.com and related business.

On April 29, 2010, we sold our interest in PetsMobility, excluding certain specific assets, to On4 Communications Inc., a private Canadian company and our shareholder ("On4 Canada") pursuant to an asset purchase agreement in exchange for On4 Canada returning 2,000,000 shares of our common stock to our treasury for cancellation. On October 29, 2010 we amended the asset purchase agreement to clarify certain terms of the purchase and sale.

On March 16, 2011, we sold our interest in Charity Tunes and Sound Revolution to Empire Success, LLC, a private Nevada limited liability company, in exchange for $15,000 and 6,300 shares of Empire's common stock. As a result, we currently have no subsidiaries.

On November 3, 2011, we entered into a binding letter of intent ("LOI") to acquire 100% of the issued and outstanding shares of NetCents Systems Ltd. ("NetCents"), a private Alberta corporation engaged in the development and implementation of a unique and secure electronic payment system for online merchants and consumers. The LOI provided for a period of due diligence which was intended to lead to a formal agreement whereby the Company would acquire 100% of the issued and outstanding capital of NetCents. Clayton Moore, an officer and director of our Company until March 5, 2015, and Ryan Madson, an officer of our Company until January 2, 2015, were shareholders of NetCents and Mr. Moore is the president and director of Net Cents.

On November 4, 2011, Clayton Moore was appointed as a director, president and chief executive officer of our Company, Steven Allmen was appointed a director, Ryan Madson was appointed chief operating officer, Tom Locke was appointed as a director, chief financial officer, secretary and treasurer, and John Kaczmarowski was appointed chief technical officer. Effective July 23, 2012, Tom Locke resigned as chief financial officer, secretary, treasurer and as a director of our Company. His resignation was not the result of any disagreements

with our Company regarding its operations, policies, practices or otherwise. On December 15, 2011, we entered into a share exchange agreement with NetCents and the selling shareholders of NetCents ("Share Exchange Agreement"). Pursuant to the terms of the Share Exchange Agreement, our Company and NetCents agreed to engage in a share exchange which, if completed, would result in NetCents becoming a wholly owned subsidiary of our Company. However, this transaction never in fact closed and on November 12, 2014 the Company announced that the proposed merger agreement between On4 Communications, Inc. and NetCents Systems Ltd. had been officially rescinded.

By March 5, 2015 there was a total change in management with the resignations of Mr. Steve Allmen, Mr. Ryan Madson and Mr. Clayton Moore, and the appointment of on March 5, 2015, of Mr. Timothy J. Owens as the Company's President, Chief Executive Officer, Chief Financial Officer, Treasurer, and Director of the Company and the appointment on March 16, 2015 of Mr. Steve Dallas as the Company's Secretary and Director. With this management change, the Company also changed its business model (see **Section 6 Issuer's Business, Products & Services / Management Discussion & Analysis).**

On June 4, 2015 the Company filed with the State of Delaware to increase its authorized capital to 5,030,000,000 shares, comprised of 5,000,000,000 common shares of $ 0.0001 par value each and 30,000,000 preferred stock of no par value.

3. Going Concern

These financial statements have been prepared on a going concern basis, which implies that the Company will continue to realize its assets and discharge its liabilities in the normal course of business. The Company has not generated significant revenues since inception and may not generate significant revenue or earnings in the immediate or foreseeable future. As at July 31, 2015 the Company has incurred an accumulated deficit of $16,239,455 since inception. The continuation of the Company as a going concern is dependent upon the continued financial support from its shareholders, the ability of the Company to obtain necessary equity and debt financing to continue operations, and the attainment of profitable operations. These factors raise substantial doubt regarding the Company's ability to continue as a going concern. These financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

The Company will need an injection of working capital to continue or to be successful in any future business activities. Therefore, continuation of the Company as a going concern is dependent upon obtaining the additional working capital necessary to accomplish its objectives. Management continued to seek debt or equity financing, or a combination of both, to raise the necessary working capital.

Description of Business

Through March 20, 2015 the Company's intended business model was to attempt to manufacture two-way communication and location devices with applications that included tracking people, pets, assets, and inventory, among others. The Company has not however been successful in generating any significant revenues from this business model.

Including management fees of $ 344,800 relating to the pre-March, 2015 former management, the Company incurred a net operating loss of $ 505,732 for the 12 months ended October 31, 2014 compared with a net operating loss of $ 165,886 for the 12 months ended October 31, 2013 (which only included management fee expense of $ 19,638). However, the Company's overall net loss for the 12 months ended October 31,2014 declined to $ 802,298 from $ 911,163 for the 12 months ended October 31, 2013 mainly because of a reduction in the discount expense on convertible notes to $ 38,099 for the 12 months ended October 31,2014 compared with $ 263,786 for the 12 months ended October 31,2013, and because of the beneficial change in fair value of derivative liabilities to a net positive change of $ 4,242 for the 12 months ended October 31,2014 compared with a net negative change of $ 293,493 for the 12 months ended October 31,2013

On March 20, 2015 new management (Timothy J Owens and Steve Dallas) took charge of the Company with the objective of abandoning its prior unsuccessful business model and implementing, acquiring or merging with a new, more successful, type of business. This new management brings with it a unique web enabled software platform designed to provide a "one stop shop" for fundraising groups to maximize their efforts in creating successful programs to raise as much money as needed to support their activities. Our web based system provides several educational tools, program outlines, unique products and the ability to develop reoccurring income from several sources. We have spent 3 years designing, developing and testing various configurations of products, together with identifying the diverse needs of the national fund raising industry. In working with church groups, pee-wee football, high school football, baseball, track, swim teams, music, scholastic groups and other organized achievement and sports groups we have identified the abilities, focus and needs of each group and have created programs and tools to achieve profitable and targeted success in each area

We have integrated our expertise in Web based systems, medical products and national program rollout into what we believe will be the first comprehensive system focused on the growing needs of this industry. Our research has focused on replacing traditional fundraising products such as candy, popcorn and other perishable items with non-food/durable products such as small medical kits for the home and car. The manufacture and distribution of fundraising products has grown to be a multibillion dollar industry that has been mainly driven by "mom and pop" groups. We believe that we are entering a time that matches a growing need for innovation in products and systems that will enable fundraising groups the ability to market of innovative and attractive products to a diverse demographic by creating goodwill in the marketing of our products that provide real value to the non-profits' benefactors.

Our web enabled system is planned to provide for continuous updates; a group challenge center for national contests; and product discounts for both fundraising groups and non-profit organizations. We plan to aggregate individual organizations together with other similar groups to create group buying clubs with added revenue benefits. We plan to start this new business model with the *QwickMed* product line, which includes various fund raising kits designed for ages 8 to 16. The kits are designed to retail from $ 10 to $ 20 each, and come in *Minor Emergency* (bug byte & sting, minor cut, blister and other first aid treatment configurations), mini *Auto Kits* and *Emergency Kits* for Earthquake and other types of natural disasters containing up to 72 hours of survival supplies.

The above provides an outline of our planned new business model to allow our shareholders to understand the general nature and direction of the business integrated into On4 Communications Inc. by new management.
