1. NATURE OF OPERATIONS

Newmarket Gold Inc. *(formerly Raystar Capital Ltd.)* (*an Exploration Stage Company*) ("Newmarket" or the "Company") was incorporated by a Certificate of Incorporation issued pursuant to the provisions of the *Business Corporations Act* (British Columbia) on May 27, 1998. The address of the Company is Suite 3244 – 1055 Dunsmuir Street, Vancouver, British Columbia, V7X 1L3. The Company's common shares are currently listed on the TSX Venture Exchange (TSX-V: NGN) in Canada.

In October 2013, the Company completed the purchase of a 100% interest in the Point Leamington Au-Zn-Ag-Cu-Pb massive sulphide deposit located in north-central Newfoundland, Canada from Calibre Mining Corp. (TSX-V: CXB) pursuant to the terms of a Purchase and Sale Agreement dated June 20, 2013. The details of the purchase of Point Leamington Project are discussed in Note 5. The purchase of this project formed the basis for the Company's reactivation from the NEX Board of the TSX Venture Exchange to Tier 2 on the TSX Venture Exchange.

2. BASIS OF PRESENTATION AND STATEMENT OF COMPLIANCE

These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standards 34, *Interim Financial Reporting* ("IAS 34") as issued by the International Accounting Standards Board ("IASB"). Accordingly, certain disclosures included in annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRSs") as issued by the IASB have been condensed or omitted. These unaudited condensed interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements for the period ended December 31, 2013.

The accounting policies applied in the preparation of these unaudited condensed interim consolidated financial statements are consistent with those applied and disclosed in the Company's audited consolidated financial statements for the period ended December 31, 2013, except as noted below. These condensed interim consolidated financial statements were approved by the Board of Directors on August 14, 2014.

3. SIGNIFICANT ACCOUNTING POLICIES

New standards, amendments and interpretations adopted by the Company for the first time on January 1, 2014

Certain new standards, interpretations, amendments and improvements to existing standards were issued by the IASB. The following new standards applicable to the Company were adopted in these condensed interim consolidated financial statements effective January 1, 2014:

a) International Accounting Standards 36, *Impairment of Assets* ("IAS 36") was amended in May 2013 to make small changes to the disclosures required by IAS 36 when an impairment loss is recognized or reversed. The amendments require the disclosure of the recoverable amount of an asset or cash generating unit ("CGU") at the time an impairment loss has been recognized or reversed and detailed disclosure of how the associated fair value less costs of disposal has been determined. The amendments are effective for accounting periods beginning on or after January 1, 2014. The Company has concluded there was no significant impact of adopting this standard.

b) International Financial Reporting Interpretations Committee 21, *Levies* ("IFRIC 21") is an interpretation on the accounting for levies. IFRIC 21 will affect entities that are subject to levies that are not income taxes within the scope of International Accounting Standards 12, *Income Taxes*. IFRIC is effective for annual periods beginning on or after January 1, 2014. The Company has concluded there was no significant impact of adopting this standard.

3. SIGNIFICANT ACCOUNTING POLICIES - *continued*

Standards, amendments and interpretations not yet effective

Certain pronouncements were issued by the IASB or the IFRS Interpretations Committee and are mandatory for future periods only and as such have not been applied to these condensed interim consolidated financial statements. The Company has no plans for early adoption of the following pronouncement.

a) IFRS 9, *Financial Instruments* ("IFRS 9") was issued by the IASB on November 12, 2009 and will replace IAS 39: *Financial Instruments: Recognition and Measurement* ("IAS 39"). IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. IFRS 9 is effective for annual periods beginning on or after January 1, 2018 (tentative). The Company is currently evaluating the impact of IFRS 9 on its financial statements, if any.

4. CAPITAL MANAGEMENT

The Company's objectives when managing capital are:

- To maintain and safeguard its accumulated capital in order to provide an adequate return to shareholders by maintaining a sufficient level of funds, to support continued evaluation and maintenance at the Company's existing properties, and to acquire, explore, and develop other precious and base metal interests.
- To invest cash on hand in highly liquid and highly rated financial instruments with high credit quality issuers, thereby minimizing the risk of loss of principal.
- To obtain the necessary financing to complete exploration and development of its properties as required.

In the management of capital, the Company includes shareholders' equity and cash in the definition of capital. The Company is not exposed to any externally imposed capital requirements.

The Company manages the capital structure and makes adjustments to it, based on the level of funds required to manage its operations in light of changes in economic conditions and the risk characteristics of its underlying assets, especially with respect to exploration results on properties in which the Company has an interest.

In order to facilitate the management of capital and development of its mineral properties, the Company prepares annual expenditure budgets, which are updated as necessary depending on various factors, including successful capital deployment and general industry conditions. In addition, the Company may issue new equity, incur additional debt, option its mineral properties for cash and/or expenditure commitments from optionees, enter into joint venture arrangements, or dispose of certain assets. The Company's investment policy is to hold cash in interest bearing accounts at a major Canadian banking institution to maximize liquidity. In order to maximize ongoing development efforts, the Company does not pay dividends.
