6) Describe the Issuer's Business, Products and Services

A. A description of the issuer's business operations:

Through our operating subsidiary BBC we provide capital to our canna-business clientele, purchase and lease real property to those canna-businesses, and provide consulting services and technology to develop, enhance,

or expand existing and newly formed canna-businesses. We also intend to create a nationally branded vertically integrated chain of cannabis retail stores under the "Pineapple Express" name as soon as federal laws allow, which will be supported by anticipated Company-owned cultivation and processing facilities, and will feature products from anticipated Company-owned manufacturers. We expect that within five years the chain will consist of 100 Company-owned and 200 licensee-owned cannabis retail stores. As long as cannabis remains federally illegal our operations will be limited to investing in existing and new canna-businesses, leasing real property to canna-businesses, consulting, product licensing, leasing and selling industry specific technology, and providing ancillary support services.

Companies in the cannabis industry face unique challenges. To mitigate risk, we operate both as an operating business and as a business that invests in other entities. It is our intention that this strategy will enable us to quickly develop recurring and easily replicable revenue sources and avoid large upfront investments in infrastructure, escalating payroll costs associated with expansion, and the years of initial losses often typical of start-up companies. We believe that our competitive advantages include our business model, our exclusive proprietary technology, our employees' and consultants' years of experience in the business and our key industry contacts in an industry that is foreign to most. It is our expectation that these factors will set us apart from most of our competitors.

Industry Specific Technology

Our patent-pending "Top-Shelf" display safe system converts four critical components of the current dispensary model and combines them into one technologically advanced and aesthetically pleasing unit. Our display safe system allows for a dispensary operator to safely display product, secure all product in an armored safe, weigh all product in real-time, and then dispense the product using an integrated Point-of-Sale, or POS, system that also works in concert with all other popular POS systems currently in use in dispensaries. We anticipate a retail price of $25,000 per unit with a 60% gross profit margin and expect to commence sales in the first quarter of 2016. We expect to produce and sell five units per quarter in 2016 with consistent but modest growth thereafter.

Initial Strategy Execution

We have developed a pipeline of opportunities and have executed definitive agreements or are negotiating terms sheets for the following transactions:

1. *Real Property Lease and Potential Subsequent Sublease to Canna-Business Tenant in Washington*. We leased a 47,350 square foot warehouse in Washington state effective September 1, 2015. We plan to remodel these premises so they are suitable for cannabis cultivation, turning the premises into a turn-key facility, and to re-lease the turn-key facility to an experienced farming operation. We expect to find a suitable sublessee by the end of 2015. There is no guarantee that we will be able to sublease the premises on terms favorable to us or at all, and we may need to cancel the master lease in the event that we are not successful in locating a satisfactory subtenant, which is agreeable by the landlord. The landlord has agreed to waive rent for the first five months of the lease period to allow us to find a suitable subtenant.

2. *Consummated Real Property Purchase Agreement and Subsequent Sublease to Canna-Business Tenant in California.* On September 1, 2015, the Company's wholly owned indirect subsidiary Pineapple Express One, LLC executed a purchase agreement for three acres of real property, including 23,250 square feet of warehouse space, in Desert Hot Springs, California pursuant to a rent-to-own agreement. Immediately following entry into the purchase agreement, the Company subleased the property to an experienced canna-business tenant who will be operating a licensed cannabis cultivation facility on the premises. The Company is currently remodeling the premises to make the space suitable for the sublessee. The sublease has a term of ten years which may be extended for an additional five years at the option of the parties. The Company is scheduled to receive monthly rent of $49,000 per month in year one, $98,000 per month in year two, and $122,500 in years three through ten, although actual rent received may vary. The Company will pay the seller of the property an aggregate of $3,500,000 to purchase the property, of which

$100,000 was paid on September 1, 2015, $1,000,000 will be paid in July 2016, $4,000 will be paid monthly from September 2015 through January 2016, and $50,000 will be paid monthly from January 2016 until such time as the seller moves into new facilities, contemplated between the parties to be July 2017, when the Company shall be obligated to complete the purchase and pay the remaining balance in full.

3. *Proposed Acquisition of Unnamed Clothing Brand and Website*. This potential acquisition includes a valuable URL address, a branded clothing line, a clothing distribution facility, and the rights to sell clothing, namely T-shirts, hats, beanies, pants, shorts, baseball jerseys, jackets, sweatshirts, polo shirts, and sweat pants displaying a popular industry specific trademarked name and logo. At present this business generates between $10,000 and $15,000 of revenue per month through the distribution of its clothing line. We believe that we can quickly increase monthly revenue to $50,000 by hiring the business's founder to return to a full-time management role, adding more sellable product to the company inventory, re-designing the website, and heavily promoting the brand. We are in discussions to acquire the business for $400,000 paid in three monthly installments of $150,000, $150,000 and $100,000 and 3,250,000 shares of common stock with a sales lock-up restriction of two years and leak-out provisions thereafter. The website will remain branded and will prominently feature Pineapple Express as the sponsor. There is no guarantee that we will be able to acquire this business on these terms or at all.

4. *Proposed Investment in Dispensary in Illinois*. Matthew Feinstein, our Chief Executive Officer, President, Secretary, Chairman of the Board and Interim Chief Financial Officer is a founder of Nature's Treatment of Illinois, Inc. ("NTI"), a dispensary located in Milan, Illinois. NTI has been awarded one of the 60 dispensary licenses issued in Illinois. Construction has just started on the free standing dispensary operation and the dispensary is expected to open in early 2016. We are in discussions to acquire a 15.18% in NTI for a purchase price of $150,000. There is no guarantee that we will be able to invest in NTI on these terms or at all.

5. *Proposed Investment in dispensary and cultivation facility in Vallejo, California.* We have signed a non-binding term sheet and are in the process of executing a definitive agreement to invest, expand, and co-brand an existing licensed dispensary in Vallejo, California, which has been in operation since 2010. The term sheet proposes a $600,000 investment and management support of the dispensary in exchange for 18% of gross revenue generated from the dispensary paid as a royalty and payment of consulting fees on an ongoing basis. The term sheet also provides for a buy-out clause of three times earnings for the business at our option after three years and if recreational legislation is passed in California. There is no guarantee that we will be able to invest in the dispensary and cultivation facility on these terms or at all.

6. *Investment in Micro-chain of Medical Cannabis Dispensaries and Cultivation centers in Oregon.* We are currently in the early stages of negotiations to invest expansion capital and provide consulting and management assistance to a chain of five medical cannabis dispensaries and five cultivation centers in Oregon. Initial terms discussed involve converting the existing five dispensaries from medical to recreational facilities and to build five more retail outlets and one additional cultivation center by early 2016. The existing and prospective dispensaries will be co-branded with the Pineapple Express logo. Conversations are ongoing but there is no guarantee that we will be able to invest in this dispensary and cultivation chain on these initial terms or at all.
