CHROMEDX CORP.
MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING
JUNE 30, 2015

The accompanying condensed unaudited interim consolidated financial statements of ChroMedX Corp. (the "Company") were prepared by management in accordance with International Financial Reporting Standards. Management acknowledges responsibility for the preparation and presentation of the financial statements, including responsibility for significant accounting judgments and estimates and the choice of accounting principles and methods that are appropriate to the Company's circumstances.

Management has established systems of internal control over the financial reporting process, which are designed to provide reasonable assurance that relevant and reliable financial information is produced.

The Board of Directors is responsible for ensuring that management fulfills its financial reporting responsibilities and for reviewing and approving the financial statements together with other financial information. The Audit Committee, on behalf of the Board of Directors, meets with management to review the internal controls over the financial reporting process, the financial statements together with other financial information of the Company, and the auditor's report. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the financial statements for issuance to the shareholders. Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

Notice of no auditor review of interim financial statements:

Under National Instrument 51-102, Part 4, subsection 4.3(3) (a), if an auditor has not performed a review of the interim financial statements they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying condensed unaudited interim consolidated financial statements of the Company have been prepared by, and are the responsibility of, the Company's management.

1. NATURE OF OPERATIONS AND GOING CONCERN

ChroMedX Corp. ("the Company") (formerly Monarch Energy Limited, "Monarch") was incorporated in British Columbia and is engaged in the business of research, development and manufacturing of in vitro diagnostics and point-of-care technologies. The principal business address of the Company is 65 Queen Street West Suite 520, Toronto, Ontario, M5H 2M5.

The current market conditions and volatility increase the uncertainty of the Company's ability to continue as a going concern given the need to both manage expenditures and to raise additional funds. The Company is experiencing, and has experienced, negative operating cash flows and has a working capital deficiency of $(161,245) as at June 30, 2015. The Company will continue to search for new or alternate sources of financing but anticipates that the current market conditions may impact the ability to source such funds. These material uncertainties cast significant doubt on the Company's ability to continue as a going concern.

There can be no assurance that the Company will be able to continue to raise funds in which case the Company may be unable to meet its obligations. Should the Company be unable to realize on its assets and discharge its liabilities in the normal course of business, the net realizable value of its assets may be materially less than the amounts recorded on the condensed interim consolidated statement of financial position.

On June 30, 2014, the Company entered into a share exchange agreement with ChroMedX Ltd. ("ChroMedX") pursuant to which the Company has acquired from the ChroMedX shareholders all of the issued and outstanding shares of ChroMedX in exchange for an equal number of common shares in the capital of the Company (the "Acquisition"). ChroMedX will be the registered holder of certain patents and patents pending in the biomedical technology field. Upon completion of the Acquisition, ChroMedX became a wholly-owned subsidiary of the Company, and Monarch Energy Limited changed its name to ChroMedX Corp. The Acquisition was accounted for as a reverse acquisition.

2. BASIS OF PRESENTATION

Statement of Compliance

The condensed interim unaudited consolidated financial statements have been prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34"), as issued by the International Accounting Standards Board ("IASB") and therefore, do not contain all disclosures required by International Financial Report Standards ("IFRS") for annual financial statements.

The policies applied in these condensed interim unaudited consolidated financial statements are consistent with the policies disclosed in Notes 2 of the audited annual financial statements for the year ended September 31, 2014, prior to the year end change.

The condensed interim unaudited financial statements were authorized for issue by the Board of Directors on August 25, 2015.

Recently Issued Accounting Pronouncements not yet Adopted

The IASB issued the following standards, which are not yet effective and have not been applied in the preparation of these financial statements. The Company is in the process of determining the extent of the impact on its financial statements.

On May 6, 2014 the IASB issued Accounting for Acquisitions of Interests in Joint Operations (Amendments to IFRS 11). The amendments apply prospectively for annual periods beginning on or after January 1, 2016. Earlier application is permitted. The amendments require business combination accounting to be applied to acquisitions of interests in a joint operation that constitute a business. The impact of adoption of the amendment has not yet been determined.

On July 24, 2014 the IASB issued the complete IFRS 9. The mandatory effective date of IFRS 9 is for annual periods beginning on or after January 1, 2018 and must be applied retrospectively with some exemptions. Early

adoption is permitted. The restatement of prior periods is not required and is only permitted if information is available without the use of hindsight. The impact of adoption of the amendment has not yet been determined.

On May 12, 2014 the IASB issued amendments to IAS 16 Property, Plant and Equipment and IAS 38 Intangible Assets. The amendments made to IAS 16 explicitly state that revenue-based methods of depreciation cannot be used for property, plant and equipment. This is because such methods reflect factors other than the consumption of economic benefits embodied in the asset. The Company intends to adopt the amendments to IAS 16 in its financial statements for the annual period beginning on January, 2016. The impact of adoption of the amendment has not yet been determined.

The amendments in IAS 38 introduce a rebuttable presumption that the use of revenue-based amortization methods for intangible assets is inappropriate. This presumption could be overcome only when revenue and consumption of the economic benefits of the intangible asset are highly correlated or when the intangible asset is expressed as a measure of revenue. The Company intends to adopt the amendments to IAS 38 in its financial statements for the annual period beginning on January, 1 2016. The impact of adoption of the amendment has not yet been determined.

Principles of Consolidation

These condensed interim consolidated consolidated financial statements include the accounts of the Company and its wholly owned subsidiary, ChroMedX Ltd. All significant intercompany balances and transactions have been eliminated on consolidation.

3. PATENTS

The following is a summary of patents as at June 30, 2015:

Balance, December 31, 2013	$	-
Additions		1,515,300
Amortization		(75,765)
Balance, September 30, 2014	$	1,439,535

This asset relates to patents and a patent option which was granted by InvidX Corp ("InvidX") to the Company to acquire all rights, title and interest in and to the Patents, exercisable on or before 2 years following the date of the Option Agreement dated June 16 2014. In consideration of the option granted, the Company issued 15,000,000 common shares in the capital of the Company as of June 16 2014. The Company may exercise the option during the 2 year period for a purchase of $1,500,000, such purchase price to be satisfied either by a cash payment or through the issuance of common shares of the Company at a minimum price of 20% discount to the 10-day volume weight average trading price of the Company's common shares immediately preceding the exercise of the option.

On December 9, 2014, the Company exercised the option and in consideration, issued 5,474,452 common shares.

4. PROVISION FOR WELL ABANDONMENT COSTS

The Company holds reclamation bonds with the Alberta Energy Regulator as required by section 1.100(2) of the Oil and Gas Conservation Regulations and Directive 006: License Liability Rating Program and License Transfer Process. The reclamation bonds are held for the purposes of the future well abandonment, related to the business of the Company prior to the reverse takeover transaction.

A provision to close and abandon a gas well using a discount rate of 5%. Management expects to abandon the well within 10 years. The face value of the costs is $47,000.

5. CAPITAL STOCK

(a) Common shares

Authorized

The authorized capital stock of the Company consists of an unlimited number of common shares.

(b) Stock option plan and share-based compensation

The Company has a stock option plan under which it is authorized to grant options to directors, employees and consultants enabling them to acquire up to 10% of the issued and outstanding common shares of the Company. Under the plan, the exercise price of each option equals the market price, minimum price, or a discounted price of the Company's shares as calculated on the date of grant. The options can be granted for a maximum term of 5 years. Options vest 20% immediately upon granting and vest at 20% every three months.

The following table summarizes information concerning the Company's stock options outstanding as at June 30, 2015:

6. RELATED PARTY TRANSACTIONS

Related parties and related party transactions impacting the accompanying financial statements are summarized below and include transactions with the following individuals or entities:

As at June 30, 2015, amounts due to related parties consist of $64,845 to companies controlled by officers and directors of the Company. In addition, the Company paid $34,000 for the three months and $100,000 for the nine months ended management fees and $1,500 consulting fees to officers and directors.

Key management personnel:

Key management personnel include those persons having authority and responsibility for planning, directing and controlling the activities of the Company as a whole. The Company has determined that key management personnel consist of executive and non executive members of the Company's Board of Directors and corporate officers.

Remuneration attributed to key management personnel can be summarized as follows:

	June 30, 2015
Share-based compensation (note 5(b)).	$ 32,826
Short-term benefits*	$ 34,500

*includes base salaries pursuant to contractual employment, or consultancy arrangements. These have been recorded in consulting fees and management fees.

7. FINANCIAL RISK FACTORS

The Company manages its exposure to a number of different financial risks arising from its operations as well as its use of financial instruments including market risks (commodity prices, foreign currency exchange rate and interest rate), credit risk and liquidity risk through its risk management strategy. The objective of the strategy is to support the delivery of the Company's financial targets while protecting its future financial security and flexibility.

Financial risks are primarily managed and monitored through operating and financing activities and, if required, through the use of derivative financial instruments. The financial risks are evaluated regularly with due consideration to changes in the key economic indicators and up-to-date market information.

The Company's financial instruments consist of cash and cash equivalents, amounts receivable, due from related party, reclamation bonds, accounts payable and accrued liabilities, and amounts due to related parties. The fair value of the Company's receivables, due from related party, accounts payable and accrued liabilities, and amounts due to related parties approximate their carrying value, due to their short-term maturities or ability of prompt liquidation. The Company's cash and cash equivalents are recorded at fair value, under the fair value hierarchy, based on level one quoted prices in active markets for identical assets or liabilities. The Company's other financial instrument, being reclamation bonds, are measured at amortized cost.

The Company is exposed in varying degrees to a variety of financial instrument related risks.

Market Risk

Market risk is the risk or uncertainty arising from possible market price movements and their impact on the future performance of the business. These market risks are evaluated by monitoring changes in key economic indicators and market information on an on-going basis.

a) Interest Rate Risk

The Company has cash balances, and is not at a significant risk to fluctuating interest rates. The Company's current policy is to invest excess cash in investment-grade short-term deposit certificates issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks. As of June 30, 2015, the Company did not have any investments in investment-grade short-term deposit certificates.

b) Foreign currency risk

As at June 30, 2015, the Company's expenditures are predominantly in Canadian dollars, and any future equity raised is expected to be predominantly in Canadian dollars.

Liquidity Risk

Liquidity risk encompasses the risk that a company cannot meet its financial obligations in full. The Company's main sources of liquidity is derived from its common stock issuances. These funds are primarily used to finance working capital, operating expenses, capital expenditures, and acquisitions.

The Company manages its liquidity risk by regularly monitoring its cash flows from operating activities and holding adequate amounts of cash and cash equivalents.

As at June 30, 2015, the Company held cash of $474 to settle current liabilities of $403,645. The Company expects to fund these liabilities through the issuance of capital stock over the coming year.

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. Financial instruments that potentially subject the Company to credit risk consist of cash and cash equivalents. The Company has reduced its credit risk by investing its cash equivalents with a Canadian chartered bank.

8. CAPITAL MANAGEMENT

The Company defines capital management in the manner it manages its capital stock. As at June 30, 2015 the Company's capital stock was $5,140,619.

There were no changes in the Company's approach to capital management during the period ended June 30, 2015 and the Company is not subject to any externally imposed capital requirements.

The Company's objectives when managing capital are:

a) To safeguard the Company's financial capacity and liquidity for future earnings in order to continue to provide an appropriate return to shareholders and other stakeholders;

b) To maintain a flexible capital structure which optimizes the cost of capital at an acceptable risk; and

c) To enable the Company to maximize growth by meeting its capital expenditure budget, to expand its budget to accelerate projects, and to take advantage of acquisition opportunities.

The Company's capital structure includes components of shareholders' equity.

The Company regularly monitors and reviews the amount of capital in proportion to risk and future development and exploration opportunities. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new debt or equity or similar instruments, reduce debt levels from, or make adjustments to, its capital expenditure program.

9. LOAN PAYABLE

Loan payable is $36,300 (September 30, 2014 -$Nil) and this amount does not have any terms or conditions

10. BASIC AND DILUTED LOSS PER SHARE

Basic loss per share has been calculated by dividing the net loss per the financial statements by the weighted average number of shares outstanding during the year. The fully diluted loss per share would be calculated using a common share balance increased by the number of common shares that could be issued on the exercise of outstanding warrants and options of the Company. As the Company is in a loss position for the period ended June 30, 2015, this would be anti-dilutive.
