NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 — ORGANIZATION AND MANAGEMENT’S PLANS

Organization

EVOLUTION TECHNOLOGY RESOURCES, INC. (the “Company”) was originally incorporated on February 22, 1999 as Eco-Form International, Inc. in the State of Nevada. The Company filed an initial SB-2 Registration with the SEC on October 16, 2000. On March 2, 2006 the Company changed its name to Skinzwraps, Inc.

Evolution Technology Resources is a business development stage company that is focused on acquiring intellectual property and assets for the manufacturing of biomass processing equipment for the production of energy. The Company intends to acquire intellectual property and capability to produce technology for the biomass-to-energy sector.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated financial statements and related notes have been prepared by the principals of Evolution Technology Resources.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements as well as the reported amount of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Fiscal year end

The Company has December 31 as its fiscal year ending date.

Stock-Based Compensation

The Company accounts for stock-based compensation to employees and consultants in accordance with FASB ASC 718. Stock-based compensation to employees is measured at the grant date, based on the fair value of the award, and is recognized as expense over the requisite employee service period. The Company accounts for stock-based compensation to other than employees in accordance with FASB ASC 505-50. Equity instruments issued to other than employees are valued at the earlier of a commitment date or upon completion of the services, based on the fair value of the equity instruments and is recognized as expense over the service period.

Development Stage Company

The Company has elected to adopt Accounting Standards Update No. 2014-10, Development Stage Entities (Topic 915): Elimination of Certain Financial Reporting Requirements. The adoption of this ASU allows the Company to remove the inception to date information and all references to exploration stage.

Income taxes

The Company accounts for income taxes pursuant to the asset and liability method under SFAS No. 109, Accounting for Income Taxes, which requires deferred income tax assets and liabilities to be computed annually for temporary differences between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted laws and rates applicable to the periods in which the temporary differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amounts expected to be realized.

NOTE 3 — PROMISSORY NOTES

As of September 30, 2015 the Company has convertible promissory notes payable in the total amount of \$19,811.12. The note is a demand note with no interest.

NOTE 4 — RELATED PARTY ADVANCES

During the nine months period ended September 30, 2015 a related party advance the Company \$5,795 to pay expenses

NOTE 5 — PREFERRED STOCK

The Company has a super-voting Series A preferred stock that is convertible into common stock one year after issuance up to five years after issuance at the option of the holder, at a conversion price of the market price of the Company's common stock at the time of conversion. The holders of the series A preferred stock vote 20,000 votes for every share held. The face value of the series A preferred stock is \$1.00 per share.

The Company has authorized 600,000 Series B convertible preferred shares (par value \$0.001 per share) which is redeemable six months after issuance in cash at a face value of \$1.00 per share or if the proceeds from the Series B convertible preferred shares was used to purchase an asset, at the Company's option the asset can be used to redeem the shares. Alternatively, by mutual consent of the Company, and the holder, the Series B convertible preferred shares may be converted into common stock of the Company, one year after issuance at the conversion price of 50% of the five days closing bid price of the Company's common stock prior to conversion.

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

FORWARD LOOKING STATEMENTS

Statements made in this Form 10-Q that are not historical or current facts are forward-looking statements. These statements often can be identified by the use of terms such as "may," "will," "expect," "believe," "anticipate," "estimate," "approximate" or "continue," or the negative thereof. We wish to caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made. Any forward-looking statements represent management's best judgment as to what may occur in the future. However, forward-looking statements are subject to risks, uncertainties and important factors beyond our control that could cause actual results and events to differ materially from historical results of operations and events and those presently anticipated or projected. Among the factors that could cause actual results to differ materially from the forward-looking statements are the following: the Company's ability to obtain necessary capital, the Company's ability to meet anticipated development timelines, the Company's ability to protect its proprietary technology and knowhow, the Company's ability to successfully consummate future acquisitions and such other risk factors identified from time to time in the Company's reports filed with the Securities and Exchange Commission, including those filed with this Form 10-Q quarterly report. We disclaim any obligation subsequently to revise any forward-looking statements to reflect events or circumstances after the date of such statement or to reflect the occurrence of anticipated or unanticipated events.

Overview

The Company will attempt to locate and negotiate with a business entity for the combination of that target company with the Company. The combination will normally take the form of a merger, stock-for-stock exchange or stock-for-assets exchange. No assurances can be given that the Company will be successful in locating or negotiating with any target business.

Evolution Technology Resources is a business development stage company that is focused on acquiring intellectual property and assets for the manufacturing of biomass processing equipment for the production of energy. The Company intends to acquire intellectual property and capability to produce technology for the biomass-to-energy sector.

In implementing a structure for a particular business acquisition, the Company may become a party to a merger, consolidation, reorganization, joint venture, or licensing agreement with another corporation or entity.

It is anticipated that any securities issued in any such business combination would be issued in reliance upon exemption from registration under applicable federal and state securities laws. In some circumstances, however, as a negotiated element of its transaction, the Company may agree to register all or a part of such securities immediately after the transaction is consummated or at specified times thereafter. If such registration occurs, it will be undertaken by the surviving entity after the Company has entered into an agreement for a business combination or has consummated a business combination. The issuance of additional securities and their potential sale into any trading market which may develop in the Company's securities may depress the market value of the Company's securities in the future if such a market develops, of which there is no assurance.

The Company will participate in a business combination only after the negotiation and execution of appropriate agreements. Negotiations with a target company will likely focus on the percentage of the Company which the target company shareholders would acquire in exchange for their shareholdings. Although the terms of such agreements cannot be predicted, generally such agreements will require certain representations and warranties of the parties thereto, will specify certain events of default, will detail the terms of closing and the conditions which must be satisfied by the parties prior to and after such closing and will include miscellaneous other terms. Any merger or acquisition effected by the Company can be expected to have a significant dilutive effect on the percentage of shares held by the Company's shareholders at such time.

Results of Operations

The Company has not generated any revenue. Expenses for the three and nine months periods ended September 30, 2015 were \$14,571,000 and \$18,034,048 which was attributed primarily to stock base compensation of \$18,028,253.

Net loss for the three and nine months periods ended September 30, 2015 was \$14,571,000 and \$18,034,048, respectively.

Liquidity

The Company has no working capital as September 30, 2015. Funds used in operating activities during the nine months period ended September 30, 2015 was \$5,795 while funds provided from financing activities were \$5,795 as advances from related parties.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements.

Item 3: Quantitative and Qualitative Disclosures About Market Risk.

An investment in the Company is highly speculative in nature and involves an extremely high degree of risk.

Item 4: Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Under the supervision and the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation as of September 30, 2015 of the effectiveness of the design and operation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended. Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were not effective as of September 30, 2015. Such conclusion reflects the identification of material weakness as follows: (1) lack of accounting proficiency of our chief executive officer who is our sole officer and our principal accounting officer which has resulted in a reliance on part-time outside consultants to perform substantially all of our accounting functions, (2) a lack of adequate segregation of duties and necessary corporate accounting resources in our financial reporting process and accounting function, and (3) lack of control procedures that include multiple levels of review. Until we are able to remedy these material weaknesses, we have engaged third party consultants and accounting firm to assist with financial reporting.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting that occurred during the nine months ended September 30, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
