NOTE 1 - GENERAL ORGANIZATION AND BUSINESS

History of the Company

North American Cannabis Holdings, Inc. (f/k/a Algae International Group, Inc. f/k/a Savanna East Africa, Inc., f/k/a Nova Energy, Inc.) was incorporated in Nevada in 1995 and reincorporated in Wyoming in 2015, and is a publicly traded company presently listed on www.otcmarkets.com, symbol "USMJ".

The Company was historically focused primarily on the recovery of oil and gas reserves through acquisition and project development, specializing in mature and marginal field enhancement, developmental exploration drilling and low risk exploration opportunities in Texas and North Dakota regions. On January 25, 2010, Daymon Bodard, the then sole director and officer of the Company, effected a transfer of control of the Company.

After January 25, 2010, the Company's updated and expanded business plan was centered around a number of diverse opportunities in East Africa, initially centered in Kenya. The Company also continued its oil and gas exploration. On April 26, 2010, the Company purchased oil drilling equipment in Texas for purposes of engaging in such oil and gas exploration.

In connection with the Company's updated business plan, on June 11, 2010, the Company amended its certificate of incorporation to change its name from Nova Energy, Inc. to Savanna East Africa, Inc.

On December 10, 2010, the Company entered into a share exchange agreement with Savanna East Africa Limited ("SEA Kenya"). Pursuant to the exchange agreement, the Company issued 100,000 shares of Series A Preferred Stock in exchange for 70,000 ordinary shares of SEA Kenya, which 70,000 ordinary shares represents 70% of the outstanding capital stock of SEA Kenya. The accompanying consolidated financial statements include those of the 70%-owned subsidiary.

SEA Kenya is a Kenyan corporation engaged in the business of identifying, acquiring and developing early stage and start up business operations or acquiring various resources to support the development of early stage and start-up business opportunities. The Company acquired SEA Kenya with the intent to pursue business opportunities in Kenya.

On March 5, 2013, the Company entered into an agreement to acquire Algae International Group, Inc. in a reverse merger transaction. In accordance with the agreement the Company executed a 1 for 20,0000 reverse split. The Company also retired the Series 'A' Preferred Stock and issued Series 'D' Preferred Stock with the same provisions as the original Series 'A.' The Series 'D' was issued to the shareholders of Algae International Group. The transaction also included a change of the Company name from Savanna East Africa, Inc. to Algae International Group, Inc. The African subsidiary SEA Kenya and the Oil and Gas subsidiary, Nova Energy, remain intact subsequent to the execution of the acquisition agreement.

On October 10, 2013, Management resolved to exit the business of developing an operation to produce biodiesel from Algae. In conjunction with the exit, the subsidiary operation dedicated to the development of biodiesel from Algae was sold in exchange for a $285,000 note with a 10 year term, bearing 10% annual interest.

Current Business Operation

On January 20, 2014, Management launched a project to redirect the Company's business development efforts. Stemming from the collateral experience garnered from the Company's brief stint in the business of organic growing and cold pressing of oil from organic mass, management made the decision to leverage that experience within the more viable hemp and cannabis market. In conjunction with the launch of the new project, the Company entered into a number of business development agreements that cumulatively represent a material capital commitment. The Company engaged services to build a hemp and cannabis growing capacity, a hemp and cannabis testing facility and a hemp and cannabis related clothing business. Collectively, the agreements to initiate the aforementioned business development make up a year long, $600,000 capital project. The service providers have acknowledged the Company's current financial position and the inherent risk associated with the Company's ability to perform. In light of the risk, the potential project asset value has not been recorded on the balance sheet at this time. The expenses will be amortized over the life of the project. In January of 2015, the outstanding balance due was settled into a convertible note bearing 8% annual interest. In accordance with the agreements, the contracts were renewed for the 2015 calendar year.

On June 29, 2015 the Company acquired American Fitness Wholesalers Midwest, LLC d/b/a City Blends Rowlett. With this acquisition, the Company plans to introduce the AmeriCanna Café, a Cannabis infused Beverage Shop Chain. The Company acquired the business for total consideration of $550,000 in the form of three Purchase Promissory Notes. Accordingly, the Company incorporated the acquired financials and financial results of City Blends Rowlett for the 12 months ending June 30, 2015.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Management's Use of Estimates - These financial statements have been prepared in accordance with accounting principles generally accepted in the United States and, accordingly, require management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Equipment - The Company records its equipment at historical cost. The Company expenses maintenance and repairs as incurred. Upon disposition of equipment, the gross cost and accumulated depreciation are written off and the difference between the proceeds and the net book value is recorded as a gain or loss on sale of assets. The Company provides for a five-year useful life for depreciation of its equipment, and depreciation begins upon the Company's placing the fixed assets into service.

Net Loss Per Share - Earnings per share is calculated in accordance with the ASC 260-10, *"Earnings Per Share."* Basic earnings per share is based upon the weighted average number of common shares outstanding. Diluted earnings per share is based on the assumption that all dilutive convertible shares and stock options were converted or exercised. Dilution is computed by applying the treasury stock method. Under this method, options and warrants are assumed to be exercised at the beginning of the period (or at the time of issuance, if later), and as if funds obtained thereby were used to purchase common stock at the average market price during the period.

For the year ended June 30, 2015, potentially dilutive shares, respectively, were excluded from the shares used to calculate basic earnings per share.

NOTE 3 – GOING CONCERN

The Company has suffered recurring losses from operations and has a working capital deficit and stockholders' deficit, and in all likelihood will be required to make significant future expenditures in connection with continuing business development efforts along with general administrative expenses. These conditions raise substantial doubt about the Company's ability to continue as a going concern. The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company's activities have been primarily supported by loans from various parties. The Company has sustained losses in all previous reporting periods, with a net loss of ($202,757) for the year ended June 30, 2015. Management continues to seek funding from its shareholders and other qualified investors to pursue its business plan. The Company continues to seek funding for all of the projects and operational requirements for the continuing fiscal year.

NOTE 4 –LONG-TERM NOTE RECEIVABLE

On October 10, 2013, the Company's board of directors authorized the sale, transfer and conveyance of all its rights in the Company's Pacific Algae joint venture to AlgaePur, LLC in return for 10% note receivable in the amount of $285,000 that becomes due on October 10, 2023. The Company recognized a gain of $250,000 sale of these assets. The note receivable balance at June 30, 2015 includes accrued interest receivable of $49,083.

NOTE 5 –FURNITURE AND EQUIPMENT

Furniture and equipment consists of drilling equipment of $397,500 that has not been placed in service and $150,000 of furniture and equipment acquired with the American Fitness Wholesalers Midwest, LLC d/b/a City Blends Rowlett acquisition.
