RISING INDIA, INC.
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2014

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

A. ORGANIZATION AND OPERATIONS

Rising India, Inc. (the "Company") is the successor entity to the business of Rising, India, Inc. a corporation formed in Nebraska in 2007. The Nebraska Corporation was the financing entity for various animation production projects.

Prior to March 6, 2009 the Company was a Delaware corporation named NuEnergy, Inc. engaged in the business of providing energy generation products. In March 2009 the Company changed its name to Rising, India, Inc.

On March 6, 2009, the Company acquired all of the assets of Rising India, Inc. of Nebraska in exchange for 10,000,000 restricted shares of common stock. Concurrently with the Acquisition, the management of the Nebraska Corporation took control of the Board of Directors of the Company and the assets of the Company related to the energy business were spun-off to entity controlled by the previous management of the Company.

B. BASIS OF ACCOUNTING

The Company utilizes the accrual method of accounting, whereby revenue is recognized when earned and expenses when incurred. The unaudited financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information. As such, the financial statements do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and these adjustments are of a normal recurring nature. The results of operations for the twelve months ended December 31, 2009 and December 31, 2010 are not necessarily indicative of the results for the full fiscal year ending December 31, 2008.

C. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

D. CASH AND CASH EQUIVALENTS Cash and cash equivalents include cash on hand; cash in banks and any highly liquid investments with maturity of three months or less at the time of purchase. The Company maintains cash and cash equivalent balances at several financial institutions, which are insured by the Federal Deposit Insurance Corporation up to $250,000.

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (continued)

E. COMPUTATION OF EARNINGS PER SHARE
Net income per share is computed by dividing the net income by the weighted average number of common shares outstanding during the period.

F. INCOME TAXES
In February 1992, the Financial Accounting Standards Board issued Statement on Financial Accounting Standards 109 of "Accounting for Income Taxes." Under Statement 109, deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases.

G. REVENUE RECOGNITION
Revenue for license fees is recognized upon the execution and closing of the contract for the amount of the contract. Contract fees are generally due based upon various progress milestones. Revenue from contract payments are estimated and accrued as earned. Any adjustments between actual contract payments and estimates are made to current operations in the period they are determined.

H. FAIR VALUE OF FINANCIAL INSTRUMENTS
Statement of Financial Accounting Standards No. 107, "Disclosures about Fair Value of Financial Instruments", requires disclosures of information about the fair value of certain financial instruments for which it is practicable to estimate the value. For purpose of this disclosure, the fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation. The carrying amounts reported in the balance sheet for cash, accounts receivable, inventory, accounts payable and accrued expenses, and loans payable approximate their fair market value based on the short-term maturity of these instruments.

NOTE 2 –NOTES AND OTHER LOANS PAYABLE
