1. ORGANIZATION AND NATURE OF OPERATIONS:

Big Cat Energy Corporation ("Big Cat" or the "Company"), a Nevada corporation, owns the exclusive right to a patented technology known as Aquifer Recharge Injection Device (ARID) which allows Coal Bed Methane (CBM) operators to re-inject water produced from productive coal seams. The Company is in the development stage in accordance with FASB Accounting Standards Codification ("ASC") 915, *Development Stage Entities*. The Company has been in the development stage since inception and has yet to generate any significant revenue-producing operations. Activities since its inception have primarily involved its organization, development of the Company and more recently, its ARID initiative.

2. LIQUIDITY:

Going Concern – As of April 30, 2012 the Company had working capital of $(477,431) and stockholders'(deficit) of $(349,162). We have realized minimal revenues and have incurred significant losses from operations and used significant cash flow to fund operations for the fiscal years presented. Historically, Big Cat has relied upon outside investor funds to maintain its operations and develop its business. Big Cat's plan for continuation anticipates continued funding from investors and realization of substantial leases of the ARID tool. Funding, if received, would be used for operations, for working capital, as well as business expansion during the upcoming fiscal year. The Company can provide no assurance that additional investor funds will be available on terms acceptable to the Company. These conditions raise substantial doubt about Big Cat's ability to continue operations as a going concern

Big Cat's ability to continue as a going concern is dependent upon raising capital through debt or equity financing and ultimately by increasing revenue and achieving profitable operations. The Company can offer no assurance of success in our efforts to raise additional proceeds or achieve profitable operations. The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities in the normal course of business.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Cash and Cash Equivalents – Cash and cash equivalents include cash on hand, amounts held in banks and highly liquid investments purchased with an original maturity of three months or less.

Advertising-The Company expenses advertising costs as they are incurred.

Warranty accrual – ASC 450 requires companies to accrue for warranty exposure based on reasonable estimates of the amount incurred. Based on historical data, the Company has accrued no costs for warranty resolution as of April 30, 2011 and 2010.

Intangible Assets – The Company capitalized the costs to patent the ARID process and ARID trademark. These costs are being amortized over the life, twenty (20) years, of the patents on a straight line basis. The intangibles serve as collateral for the accrued deferred salaries. The Company expects to record amortization expense for subsequent period as follows

FY 2012	$6,530
FY 2013	$6,530
FY 2014	$6,530
FY 2015	$6,530
FY 2016	$6,530
Thereafter	$78,803

Concentrations of Credit Risk – The Company's cash equivalents, accounts receivable and marketable securities are exposed to concentrations of credit risk. The Company manages and controls this risk by investing the cash equivalents with major financial institutions. The accounts receivable are from a related party and are considered to be fully collectable. The marketable securities are common shares are from the same related party and are subject to market risk.

Furniture and Equipment – Furniture and equipment is stated at cost. Depreciation is provided on furniture, fixtures and equipment using the straight-line method over an estimated service life of three to seven years.

The cost of normal maintenance and repairs is charged to operating expenses as incurred. Material expenditures which increase the life of an asset are capitalized and depreciated over the estimated remaining useful life of the asset.

Concentration of Customer Base-The Company had no leasing customers and two leasing customers during the years ended April 30, 2012 and 2011. The Company had a single purchaser of ARID tools during the year ended April 30, 2012 and that customer was a related party.

Income Taxes – Income taxes are accounted for by recognizing deferred income tax assets and liabilities for the expected future income tax consequences, based on enacted tax laws, of temporary differences between the financial reporting and tax basis of assets, liabilities and carryforwards. Deferred tax assets are recognized for the expected future effects of all deductible temporary differences, loss carryforwards and tax credit carryforwards. Deferred tax assets are then reduced, if deemed necessary, by a valuation allowance for the amount of any tax benefit which, more likely than not, are not expected to be realized.

We adopted ASC 740, *Income Taxes* as of April 1, 2008. This topic provides detailed guidance for the financial statement recognition, measurement and disclosure of uncertain tax positions recognized in the financial statements. Tax positions must meet a "more-likely-than-not" recognition threshold at the effective date to be recognized upon the adoption of ASC 740 and in subsequent periods. We recognize interest and penalties related to uncertain tax positions in income tax expense.

Investments – Securities classified as "available for sale" are carried in the financial statements at fair value. Realized gains and losses are included in earnings. Unrealized holding gains and losses are reported in other comprehensive income.

Fair Value of Financial Instruments – The Company's financial instruments consist of cash and cash equivalents, accounts receivable, prepaid expenses, marketable securities and accounts payable. The fair market value of these financial instruments approximates or is equal to the book value due to the short term nature of these balances.

Fair Value Measurements - are determined by the Company's adoption of ASC 820 *Fair Market Measurement and Disclosures* as of May 1, 2008, including the application of the statement to non-recurring, non-financial assets and liabilities. The adoption of ASC 820 did not have a material impact on the Company's fair value measurements. ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in the principal (or most advantageous market) for the asset or liability in an orderly transaction between market participants at the measurement date.

Stock-Based Compensation – The Company accounts for stock-based compensation arrangements in accordance with ASC 718, *Compensation-Stock Compensation*, which permits entities to recognize as expense over the vesting period, the fair value of all stock-based awards on the date of grant. The Company recorded expense for stock-based compensation for the year ended April 30, 2011 of $605,206 compared to$0 expense for the year ended April 30, 2012

Research and Development Expenditures – Costs related to the research, design, and development of products are charged to research and development expenses as incurred. The Company incurred $0 of research and development costs for the years ended April 30, 2012 and 2011.

Net Loss Per Share – Basic net loss per share is computed using the weighted average number of common shares outstanding during the period. Contingently issuable shares are included in the computation of basic net income (loss) per share when the related conditions are satisfied. Diluted net income per share is computed using the weighted average number of common shares and potentially dilutive securities outstanding during the period. Potentially dilutive securities consist of contingently issuable shares, the incremental common shares issuable upon conversion of preferred stock or convertible debt (using the "if converted" method) and shares issuable upon the exercise of stock options and warrants (using the "treasury stock" method). Potentially dilutive securities are excluded from the computation if their effect is anti-dilutive.

As of April 30, 2012 and 2011 the Company had options issued to purchase 4,135,000 shares and warrants issued to purchase 19,173,033 shares that would be potentially dilutive. The options and warrants outstanding were excluded from the calculation of diluted earnings per share as their effect would have been anti-dilutive.

Revenue Recognition-When the Company sells its ARID tools, revenue is recognized upon delivery of the tools to the customer. When the Company leases its ARID tools, revenue is recognized equally over the term of lease. When the lease is executed the company records deferred revenue as an Other Current Liability for those amounts paid for lease commitments for the next 12 months and a Long Term Obligation for those amounts in excess of 12 months. At April 30, 2012 the Company recorded $0 as Other Current Liabilities for deferred revenue compared to $6,875 at April 30, 2011, The Company has recorded $0 for Long Term Obligations in both years.

Reclassifications – Certain reclassifications have been made to prior years' amounts to conform to the classifications used in the current year. Such reclassifications had no effect on the Company's net loss in any of the periods presented.

Recent Pronouncements

We have reviewed all recently issued, but not yet effective, accounting pronouncements and do not believe the future adoption of any such pronouncements may be expected to cause a material impact on our financial condition or the results of our operations.

4. FAIR VALUE MEASUREMENTS:

ASC 820 establishes a fair value hierarchy which prioritizes the inputs used in measuring fair value into three broad levels as follows:

Level 1- Quoted prices in active markets for identical assets or liabilities.
Level 2- Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly.
Level 3- Unobservable inputs based on the Company's assumptions,

ASC 820 requires the use of observable market data if such data is available without undue cost and effect.

	Fair Value Measurements at Reporting Date Using			
Description	April 30, 2012	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Securities available for sale	$0	$0	$0	$0
Total	$0	$0	$0	$0

5. MARKETABLE SECURITIES

The Company did not have any securities available for sale at April 30, 2012.:

6. RELATED PARTY TRANSACTIONS

For year ended April, 30 2012 and 2011, the officers of the Company provided management services to its affiliated company, Sterling Oil & Gas Company. The Company did not charge Sterling for these services.

The Company retained Wharton Consulting during the 2010 fiscal year to provide marketing service to the Company. Thomas E, Wharton, a Director for the Company, is the managing partner of Wharton Consulting.

For the year ended April 30, 2011, the Company's CFO provided professional services to High Plains Gas, Inc. ("High Plains"), valued at $15,111, which has been recorded as a reduction to personnel costs. The Company also sold eight ARID tools to High Plains for a total of $80,000 during the year ended April 30, 2011. The Company has recorded accounts receivable from High Plains of $12,578 as of April 30, 2011. High Plains presently owns beneficially approximately 38.8% of the Company's restricted common stock and High Plains' President and COO is a member of Big Cat's Board of Directors.

During the year ended April 30, 2011, the Company borrowed $11,000 from Raymond Murphy, an officer and Director of the Company. The funds were used for operating expenses and were reimbursed to Mr. Murphy prior to April 30, 2011.

During the year ended April 30, 2011, Sterling Oil & Gas Company, an affiliate of Big Cat, paid $8,294 of operating expenses on behalf of Big Cat. These payments have been recorded as an accrued liability of the Company.

7. SHAREHOLDERS' EQUITY:

Private Offerings –

During the year ended April 30, 2011, the Company issued 363,334 shares of restricted common stock to non-officer employees in lieu of payment of $32,700 in salary. As a second transaction, the Company completed a private placement of 20,000,000 restricted shares of Big Cat common stock at $0.03 per share and warrants to purchase an additional 10,000,000 restricted shares of Big Cat common stock exercisable at $0.15 per share. The warrants have a five year term from date of issue. The Company received proceeds of $717,426 in the private placement consisting of $200,000 cash and High Plains Gas Inc. restricted common stock valued at $517,426. As a third transaction, the Company issued 3,746,069 shares of restricted common stock at $0.10 per share and warrants to purchase an additional 1,873,033 shares exercisable at $0.15 to officers, employees and a vendor in lieu of payment of salary and vendor obligations. The warrants have a five year term from date of issue. The Company recognized a non-cash expense of $11,667 for the difference between the fair value of the stock issued and the vendor liabilities relieved of $5,000. The Company recognized non-cash salary expense of $357,940 for the fair value of the stock issued.

In July 2009 the Company completed a private placement of 10,000,000 units for $500,000 ($.05 per unit), each unit consisting of one restricted share of its common stock and one warrant to purchase one half restricted share of its common stock. Warrants are exercisable for $.075 and must be exercised on or before July 28, 2012. These warrants expired on July 28,2012 unexercised.

The above private offerings were made in reliance on an exemption from registration in the United States under Section 4(2) and/or Regulation D of the United States Securities Act of 1933, as amended.

In accordance with ASC 815, *Derivatives and Hedging,* and the terms of the warrants and the transaction documents, the warrants were determined to represent an equity transaction and therefore the fair value of the warrants are contained within the equity section and not separately recorded apart from the common shares issued as part of the private placement.

8. STOCK OPTION PLAN:

The Company has adopted the 2007 Nonqualified Stock Option Plan (the "Plan"), as amended. The Company has reserved 5,000,000 shares of common stock for the plan. During Fiscal 2009 the Board of Directors granted options to purchase 1,665,000 shares to directors, officers and key employees and consultants of the Company, effective December 31, 2008. The exercise price of the options was $0.12, the closing price of Company shares on December 31, 2008. The options granted on December 31, 2008 become exercisable on December 31, 2009 and expire on December 31, 2014. During Fiscal 2010 the Board of Directors granted options to purchase 410,000 shares to outside directors and key employees of the Company, effective January 4, 2010. The exercise price of the options was $0.15, the closing price of Company shares on January 4, 2010. The options granted on December 31, 2008 became exercisable on January 4, 2011 and expire on January 4, 2015. Also during Fiscal 2010, Charles Peck and George Hampton, resigned as Directors of the Company and forfeited their stock options to purchase 600,000 shares each. During Fiscal 2011, the Board of Directors granted options to purchase 200,000 shares to Mark Hettinger, Director. The options were immediately exercisable at $.15 per share and expire January 12, 2016. Director David Brennan resigned effective January 4, 2011, however pursuant to revisions to the 2007 Plan; he retained the options previously granted to him.

The Company uses the Black-Scholes option-pricing model to estimate the fair value of the options at the grant and vesting date. The fair values of options granted and vested were calculated using the following weighted-average assumptions:

	Year ended April 30, 2011	Year ended April 30, 2010
Expected dividend yield	–	–
Expected price volatility	178%	152%
Risk free interest rate	1.99%	2.65%
Expected term of options (in years)	5 years	5 years

A summary of option activity under the Plan and changes during the years then ended is presented below:

The weighted average grant date intrinsic value of options granted during the years ended April 30, 2012 and 2011 was $0.15 and $0.15 per share respectively. The weighted average remaining contractual term is 1.49 years for all options outstanding.

As of April 30, 2012, and 2011 the options are fully vested. Due to the limitations on exercising the options, and the fact that they would expire if the employee resigns or is terminated for cause, the Company has treated the options as if they vest over a two-year period. There have been no options exercised under the terms of the Plan.

9. INCOME TAXES:

Deferred tax assets (liabilities) are comprised of the following:

	April 30 2011	2011
Deferred tax assets:		
Stock-based compensation	$ 0	$ 0
Deferred revenue and salaries	0	0
Benefit of net operating loss	253,000	1,727,000
Net operating loss and credit carryforwards		
Total deferred tax assets	4,155,000	3,902,000
Valuation allowance	(4,155,000)	(3,902,000)
	$ –	$ –

A reconciliation of our effective tax rate to the federal statutory tax rate of 35% is as follows:

	April 30 2012	2011
Expected benefit at federal statutory rate	(35%)	(35%)
State taxes net of federal benefit	--	--
Permanent differences	.04%	.12%
Change in rate	--	--
Other-true up rate	--	--
Change in valuation allowance	34.96%	34.88%
	–	–

The Federal net operating loss (NOL) carryforward of approximately $5,654,000 as of April 30, 2012 expires on various dates through 2032. Internal Revenue Code Section 382 places a limitation on the amount of taxable income which can be offset by NOL carryforwards after a change in control (generally greater than 50% change in ownership) of a loss corporation. Generally, after a change in control, a loss corporation cannot deduct NOL carryforwards in excess of the Section 382 limitation. Due to these "change in ownership" provisions, utilization of NOL carryforwards may be subject to an annual limitation regarding their utilization against taxable income in future periods. We have not performed a Section 382 analysis. However, if performed, Section 382 may be found to limit potential future utilization of our NOL carryforwards.

We have established a full valuation allowance against the deferred tax assets because, based on the weight of available evidence including our continued operating losses, it is more likely than not that all of the deferred tax assets will not be realized. Because of the full valuation allowance, no income tax expense or benefit is reflected on the statement of operations.

We have identified no significant uncertain tax positions as of April 30, 2011 or 2010. The cumulative effect of adopting ASC 740 has not resulted in a liability on the balance sheet. The total amount of unrecognized tax benefits as of the date of adoption was zero. No interest and penalties related to uncertain tax positions were accrued as of April 30, 2012 or 2011.

The Company files income tax returns in the U.S. federal jurisdiction and various state jurisdictions and is no longer subject to examinations by tax authorities for tax years before 2007.

10. Subsequent Events:

Management has evaluated all activity of the Company and concluded no subsequent events have occurred that would require disclosure.
