WATER TECHNOLOGIES INTERNATIONAL INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2015
(UNAUDITED)

NOTE－1 ORGANIZATION AND BUSINESS BACKGROUND

Water Technologies International Inc. (the "Company") was originally incorporated in the State of Delaware, on November 18, 1998, as Cypress International, Inc. On August 10, 2005, the Company was re-domesticated to the State of Florida by merger with "Latitude Industries, Inc.", a Florida corporation incorporated on August 2, 2005, and commenced the operation under the name of Latitude Industries Inc. On May 19, 2011, the Company changed its name to Water Technologies International Inc.

On May 5, 2011, the Company entered into a Plan of Exchange agreement (the "Plan of Exchange") between and among the Company, GR8 Water Inc. ("GR8"), a Florida Corporation, the shareholders of GR8 ("GR8 Shareholders") and Ms. Carolina Hernandez and Mr. Orlando Hernandez, the Majority Shareholders of the Company. Pursuant to the Plan of Exchange, the Company acquired 26,100,000 shares of GR8 Common Stock, representing 100% ownership in GR8, in exchange for a new issuance of 29,157,931 shares of Company's Common Stock to the GR8 shareholders. The parties intend that the transactions qualify and meet the Internal Revenue Code requirements for a tax-free reorganization, in which there is no corporate gain or loss recognized by the parties, with reference to Internal Revenue Code (IRC) sections 354 and 368.

The transaction resulted in a change in control of the Company. The Company and GR8 were hereby reorganized, such that the Company acquired 100% capital stock of GR8, and GR8 Water Inc., as well as its two 100%-owned subsidiaries, Aqua Pure International Inc. and Water Technologies International LLC, became wholly-owned subsidiaries of the Company.

The reorganization between the Company and GR8 has been accounted for as a reverse acquisition and recapitalization of the Company whereby GR8 is deemed to be the accounting acquirer (legal acquiree) and the Company to be the accounting acquiree (legal acquirer). The accompanying consolidated financial statements are in substance those of GR8 and its subsidiaries, with the assets and liabilities, and revenues and expenses, of the Company being included effective from the date of stock exchange transaction. The Company is deemed to be a continuation of the business of GR8. Accordingly, the accompanying consolidated financial statements include the following:

(1) The balance sheet consists of the net assets of the accounting acquirer at historical cost and the net assets of the accounting acquiree at historical cost;

(2) The financial position, results of operations, and cash flows of the accounting acquirer for all periods presented as if the recapitalization had occurred at the beginning of the earliest period presented and the operations of the accounting acquiree from the date of stock exchange transaction.

Water Technologies International Inc. and GR8, as well as GR8's two 100%-owned subsidiaries, Aqua Pure International Inc. and Water Technologies International LLC are hereinafter referred to as (the "Company").

NOTE－2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") under the accrual basis of accounting. All intercompany accounts and transactions have been eliminated.

NOTE－2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Use of Estimates

In preparing consolidated financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the dates of the consolidated financial statements, as well as the reported amounts of revenues and expenses during the reporting periods. These accounts and estimates include, but are not limited to, the valuation of trade receivables, inventories, income taxes and the estimation on useful lives of property, plant and equipment. Actual results could differ from these estimates.

Cash and Cash Equivalents

The Company considers all short term investments with a maturity of three months or less when purchased to be cash and equivalents for purposes of the statement of cash flows.

Accounts Receivable

Accounts receivable is reported on the balance sheet at gross amounts due to the Company. Management closely monitors outstanding accounts receivable and charges off to expense any balances that are determined to be uncollectible. The Company had no accounts receivable as of June 30, 2015 and December 31, 2014, respectively.

Inventory

The Company's inventory is comprised of machine components and finished goods. Inventories are valued at the lower of cost of market with cost determined on the first-in, first-out method.

Property and Equipment

Property and equipment is stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. Maintenance and repairs are expensed as incurred.

Intangibles Assets

The Company is in the process of applying for domestic patents and trademarks. Legal fees and other costs associated with obtaining these patents and trademarks will be amortized over the life of the patents and trademarks using the straight-line method after the patents and trademarks are approved by the authority.

Related Parties

Parties, which can be a corporation or individual, are considered to be related if the Company has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Companies are also considered to be related if they are subject to common control or common significant influence. A material related party transaction has been identified in Note 5 in the financial statements.

NOTE－2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Fair Value of Financial Instruments

The Company follows paragraph 825-10-50-10 of the FASB Accounting Standards Codification ("ASC") for disclosures about fair value of its financial instruments and paragraph 820-10-35-37 of the FASB ASC ("Paragraph 820-10-35-37") to measure the fair value of its financial instruments. Paragraph 820-10-35-37 establishes a framework for measuring fair value in U.S. GAAP, and expands disclosures about fair value measurements. To increase consistency and comparability in fair value measurements and related disclosures, Paragraph 820-10-35-37 establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three levels of fair value hierarchy defined by Paragraph 820-10-35-37 are described below:

Level 1	Quoted market prices available in active markets for identical assets or liabilities as of the reporting date.
Level 2	Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date.
Level 3	Pricing inputs that are generally observable inputs and not corroborated by market data.

The carrying amounts of the Company's financial assets and liabilities, such as cash and accounts payable approximate their fair values because of the short maturity of these instruments.

The Company does not have any assets or liabilities measured at fair value on a recurring or a non-recurring basis, consequently, the Company did not have any fair value adjustments for assets and liabilities measured at fair value at June 30, 2015 and December 31, 2014 nor gains or losses are reported in the statement of operations that are attributable to the change in unrealized gains or losses relating to those assets and liabilities still held at the reporting date for the three and six months ended June 30, 2015 and 2014, respectively.

Revenue Recognition and Cost of Sales

Revenue is recognized when products are completed and shipped. Cost of sales includes all direct production and manufacturing expenses.

Research and Development

Research and development expenses include third-party development and programming costs associated with product development expense incurred to the research findings or other knowledge into a plan or design for a new product or process or for a significant improvement to an existing product or process whether intended for sale or use. Such costs related to products development are included in research and development expense until the point that technological feasibility is reached.

Loss per Share

The Company calculates net loss per share in accordance with ASC 260, *"Earnings per Share"*. Basic net loss per share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period. No diluted loss per share is required to be represented.

NOTE－2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Income Taxes

Income taxes are determined in accordance with ASC 740, "*Income Taxes*". Deferred income tax assets and liabilities are determined based upon differences between the financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance to the extent management concludes it is more likely than not that the assets will not be realized. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the statements of operations in the period that includes the enactment date.

Subsequent Events

The Company evaluated for subsequent events through the issuance date of the Company's financial statements.

Recent Accounting Pronouncements

The Company has reviewed all recently issued, but not yet effective, accounting pronouncements up to ASU 2015-16, and does not believe the future adoption of any such pronouncements may be expected to cause a material impact on its consolidated financial condition or the consolidated results of its operations.

NOTE－3 INTANGIBLE ASSETS

On May 18, 2010, the Company filed a patent application for the Atmospheric Water Generator ("AWG") and filtration units with United States Patent and Trademark Office ("USPT office"), and filed another patent application with Patent Convention Treaty to obtain global protection on May 10, 2011. The applications for patent in China and South Africa were approved in 2013. Accordingly, the Company amortized the legal fees and other costs associated with obtaining these patents over the useful life of each patent and recognized the amortization expenses of total $395 and $785 during the three and six months ended June 30, 2015, respectively, which were included in selling, general and administrative expenses in the accompanying consolidated statements of operations. Legal fees and other costs associated with the pending patents were approximately $77,847 as of June 30, 2015, which will be amortized over the life of the patents using the straight-line method after the approval.

The related cost and amortization expenses of each patent are set forth in the table below.

	June 30, 2015
Patents - pending	77,847
Patent in China	8,458
Patent in South Africa	9,438
	93,913
Less: accumulated amortization	(3,253)
Patents, net	90,660

In November 2009, the Company filed a trademark application for the Atmospheric Water Generator ("AWG") and filtration units with United States Patent and Trademark Office. The application was pending as of June 30, 2015. Legal fees and other costs associated with obtaining the trademark were capitalized in amount of $10,000 as of June 30, 2015, which will be amortized over the life of the trademark using the straight-line method after the approval.

NOTE－4 NOTE PAYABLE

As of June 30, 2015, the Company had convertible notes in amount of total $55,000 payable to two loan holders. Pursuant to the convertible promissory notes, dated July 30, 2014, the loan holders, at their options, convert all or any portion of the accrued interest and unpaid principal balance of the Notes into fully paid and non-assessable shares of common stock of the Company or its successors, at the conversion ratio of One Cent ($0.01) per share, representing the fair value of the common stock of the Company on the grant date. Accordingly, there no beneficial conversion was recorded. The Company recorded interest expenses related to these convertible promissory notes in amount of $2,085 and $4,148 during the three and six months ended June 30, 2015, respectively.

NOTE－5 ACCRUED OFFICER COMPENSATION

Since inception, the Company agreed to compensate its Chief Executive Officer, William Scott Tudor, for his contribution and work as the Company's Chairman and Chief Executive Officer, pursuant to which, Mr. Tudor was entitled to receive $40,000 per quarter since 2015. Accordingly, the Company recognized a total of $40,000 and $80,000 in expenses during the three and six months ended June 30, 2015, respectively. The expenses recognized as officer compensation have been included in selling, general and administrative expenses in the accompanying consolidated statements of operations.

As of June 30, 2015, the balance of accrued officer compensation was $98,626.

NOTE－6 CAPITAL STRUCTURE

As of June 30, 2015, the Company was authorized to issue 750,000,000 shares of common stock, $.00001 par value, and 2,000,000 shares of preferred stock, $.00001 par value, of which 1) 750,000 shares were designated as Series A Convertible Preferred Stock, which shall be convertible, at the option of the holder thereof, at any time after the date of issuance into one hundred (100) shares of fully paid and non-assessable shares of Common Stock; 2) 500,000 shares were designated as Series B Convertible Preferred Stock, which shall be convertible, at the option of the holder thereof, at any time after the date of issuance into one hundred (100) shares of fully paid and non-assessable shares of Common Stock; 3) 300,000 shares were designated as Series C Convertible Preferred Stock, which shall be convertible, at the option of the holder thereof, at any time after the date of issuance into one thousand (1,000) shares of fully paid and non-assessable shares of Common Stock;

As of June 30, 2015, the Company had 720,000 shares of Series A Convertible Preferred Stock, 440,000 shares of Series B Convertible Preferred Stock and 290,000 share of Series C Convertible Preferred Stock issued and outstanding. As of June 30, 2015, the Company had 196,210,372 shares of common stock issued and outstanding.

During the six months ended June 30, 2015, the Company issued 10,000 shares of Series "C" Preferred Stock to a creditor of the Company to settle the amount of $20,000 advanced by the creditor during the period from July 1, 2014 through March 31, 2015.

During the six months ended June 30, 2015, one investor submitted a subscription agreement to the Company regarding the purchase of 15,000,000 shares of the Company's Common Stock by cash payment of $30,000. The transaction was independently negotiated between the Company and the investor. The Company evaluated the transaction based on the fact that the shares are restricted for one year. The proceeds from the subscription agreement mitigated the Company's cash pressure in short term.

NOTE – 7 STOCK BASED COMPENSATION

On March 27, 2014, the Company issued 50,000 shares of Series "A" Preferred Stock to the three directors of the Company for their services during the period from March 27, 2014 through March 27, 2015. The fair value of this stock issuance was $50,000 upon mutual agreement between the Company and the directors since there was no market for the Company's Series "A" Preferred Stock. Accordingly, the Company booked the stock based compensation pro rata within the relative service period. For the six months ended June 30, 2015, the Company recognized $11,781 to the consolidated statements of operations. There was no unrecognized compensation related to this agreement as of June 30, 2015.

On March 25, 2014, the Company entered into a consulting service agreement with a Consultant for marketing, management and financial strategies in exchange for 50,000 shares of Series "B" Preferred Stock of the Company. The fair value of this stock issuance was $50,000 upon mutual agreement between the Company and the Consultant since there was no market for the Company's Series "B" Preferred Stock. The agreement had a term of one year effective from March 25, 2014 ending March 24, 2015. Accordingly, the stock based compensation was booked pro rata within the relative service periods. For the six months ended June 30, 2015, the Company recognized $11,401 to the consolidated statements of operations. There was no unrecognized compensation related to this agreement as of June 30, 2015.

In October of 2014, the Company issued total 220,000 shares of Series "A" Preferred Stock to the three directors of the Company for their services during the period from October 1, 2014 through September 30, 2015. The fair value of this stock issuance was $44,000 upon mutual agreement between the Company and the directors since there was no market for the Company's Series "A" Preferred Stock. Accordingly, the Company booked the stock based compensation pro rata within the relative service period. For the six months ended June 30, 2015, the Company recognized $21,879 to the consolidated statements of operations. The unrecognized compensation was recorded as deferred compensation amounting to $11,121 as of June 30, 2015.

On July 30, 2014, the Company entered into an advisory service agreement with a Consultant for global expansion, capital markets strategies, marketing, media and event management and cash proceeds of $5,000 in exchange for total 10,000,000 shares of Common Stock of the Company, of which 4,000,000 shares were issued on August 12, 2014 and 1,200,000 shares were issued and held by the transfer agent of the Company until December 31, 2014. The balance will be issued evenly per quarter starting from January 1, 2015. The agreement had a term of two years effective from July 30, 2014 ending July 30, 2016. During the six months ended June 30, 2015, the Company issued the Consultant 1,600,000 shares of common stock of the Company pursuant to this agreement. The fair value of this stock issuance was determined by the fair value of the Company's Common Stock on the grant date, at a price of approximately $0.0044 per share. Accordingly, the Company recognized $7,040 to the consolidated statements of operations for the six months ended June 30, 2015.

The aforementioned transactions were independently negotiated between the Company and the Consultants. The Company evaluated the transactions based on the fact that the Company had nominal trading volume for its stock, and had negative shareholder equity at the time of issuance. The stock based compensation preserved the limited cash available currently in the Company.

NOTE－8 GOING CONCERN

These consolidated financial statements have been prepared assuming that Company will continue as a going concern, which contemplates the realization of assets and the discharge of liabilities in the normal course of business for the foreseeable future.

As of June 30, 2015, the Company had an accumulated deficit of $3,133,228. Management has taken certain action and continues to implement changes designed to improve the Company's financial results and operating cash flows. The actions involve certain cost-saving initiatives and growing strategies, including (a) engage in very limited activities without incurring any liabilities that must be satisfied in cash until a source of funding is secured; and (b) offer noncash consideration and seek for equity lines as a means of financing its operations. If the Company is unable to obtain revenue producing contracts or financing or if the revenue or financing it does obtain is insufficient to cover any operating losses it may incur, it may substantially curtail or terminate its operations or seek other business opportunities through strategic alliances, acquisitions or other arrangements that may dilute the interests of existing stockholders.

NOTE－9 SUBSEQUENT EVENTS

In accordance with ASC Topic 855-10, the Company has analyzed its operations subsequent to June 30, 2015 to the date these financial statements were issued, and has determined that it does not have any material subsequent events to disclose in these financial statements other than the followings:

On October 5, 2015, the Company entered into addenda of certain Convertible Promissory Notes (the "Notes") with Greentree Financial Group Inc. and BCM Lending, LLC (collectively referred as "Note Holders") in amount of $30,000 and $25,000, respectively, executed on or about July 30, 2014, pursuant to which the conversion rate will be 50% of the average of the lowest 3 closing prices on the primary trading market on which the Corporation's Common Stock is quoted for the ten (10) trading days immediately prior to but not including the Conversion Date and the maturity date will be extended to January 31, 2016.

I, William Scott Tudor certify that:

1. I have reviewed the Consolidated Financial Statements for the three and six months ended June 30, 2015 of Water Technologies International, Inc.

2. Based on my knowledge, the financial statements, and other financial information included or incorporated by reference hereto, fairly present in all material respects the financial condition, results of operations and cash flows of the issuer as of, and for, the periods presented hereto.

Date: October 20, 2015
